#### REPORTS OF CITY OFFICERS AND BOARDS

TO: Mayor Graves and  
Member of the City Council

FROM: James W. Kzeski,  
Building Commissioner

DATE: 12/31/75

SUBJECT: John Bean Building—  
1305 S. Cedar St.

Enclosed are my comments concerning a  
recent inspection of the above facilities,

made jointly with several other City Departments. The report also contains information that was obtained from Mr. Carrigan, Building Manager; Mr. Sellek, Past Building Engineer; and Mr. Dan Carr of Consumer's Power Co. Essentially, the comments in this report are those that I made at the Committee of the Whole meeting of December 29, 1975.

The 50 year old structure is a three story building containing approximately 480,000 square feet. The first floor being 400 ft. x 600 ft. and the second and third stories being 200 ft. x 600 ft. respectively. In addition to 33,000 ± square feet of air conditioned office space, the building contains a computer room, vaults and storage areas, conference room, cafeteria, refrigerated storage, loading docks, and large open shop areas. Comments concerning the structural and mechanical systems of this building include the following:

#### A. SITE:

Contains approximately 10.2 acres, with approximately 250 parking spaces on the south and west sides of the structure.

#### B. STRUCTURE:

1. **Roof**—In 1941, several million dollars were spent on this structure and the original roof was completely removed and new 3 inch tongue and groove wood deck with a 20 year bonded type built-up roof was installed. In approximately 1965, a new roof was placed over the existing roof at a cost of approximately \$50,000. Leaks in the present roof appear to be caused by steel window sash which are part of the roof system. Because of weather conditions, a visual inspection of the roof was not made.
2. **Exterior Walls** — Solid masonry construction with steel casement windows are in reasonably good condition. Some structural cracks were observed, however, the masonry and masonry joints are in good condition.
3. **Floors** — Mostly concrete with some areas being wood block floors. Some deterioration of wood surfaces was observed. Steel plate runs exist which were used for lift trucks. The office area is tiled and appears to be in good condition. Access between floors is by ramps, stairways, and an elevator located in the rear of the office area.
4. **Superstructure** — Exposed steel columns which are on 18 and 20 feet centers with steel beam roof and floor systems. There were no obvious structural problems observed during the inspection.

#### C. MECHANICAL SYSTEMS:

1. **Air Conditioning** — Exists in the office area and the computer room.
2. **Ventilation** — There are changes of air in the office areas and there is

miscellaneous air handling equipment in the shop areas which was used for manufacturing purposes.

3. **Heating** — The building is heated by steam, with adequate power available for manufacturing and heating. There are two steam, 500 H.P. Wicks high pressure steel tub boilers which are both gas and oil fired. According to the best information available, there is 16,000 gallons of No. 6 oil presently stored on this site. However during the past 2½ years they have relied completely on gas operation because it was more economical and easier to maintain the heating system. The entire system has been shut down for approximately two months. Prior to that time, the heating cost was approximately \$5,000.00 per month (per Mr. Carrigan). Mr. Carr from Consumer's Power indicated that the allocation for the building was 100,000 MCF (thousand cubic feet) of gas per year. Actual consumption in 1972 was 100,000 MCF. In 1973, 82,000 MCF was used. Gas used during January and September of 1973 was 12,000 MCF in January, which was used for heating and manufacturing, and 3,600 MCF in September which was primarily used for manufacturing. Today's cost for gas is approximately \$2.00 per MCF. I would point out that a steam heating system which is not used deteriorates rapidly and before firing will require maintenance. Steam lines and traps also deteriorate and scale when not in use and will require maintenance when start-up takes place. The longer the system remains down, the more maintenance and repair will be required when start-up takes places.
4. **Sprinkler Systems** — There is a wet sprinkler system throughout the building which has been drained. The system is connected to the REO Building, west of Cedar St., as a result of an agreement between owners of the two properties. Mr. Labioda from the Fire Marshal's office indicated that the two systems could be separated and a separate fire water service installed. As mentioned above, the sprinkler system is drained and therefore is subject to rapid deterioration as a result of this condition.
5. **Electrical** — A preliminary review of the electrical system indicates that there is adequate power in the building for most purposes, with a distribution system which appears to be in fair condition. Fluorescent lighting exists throughout the building, however, fixtures will require cleaning and repairs to achieve rated output. There are several transformers with a great deal of switching equipment which has not been inspected in detail.
6. **Water System** — There is a 6 inch domestic water system within the building, with a 6 inch, 350 foot well

which was used for industrial applications within the building, to include cooling for the air conditioning units within the office area. The condition of this system has not been determined.

#### D. GENERAL OBSERVATIONS:

1. The building is classified under the Building Code as a Type 4N building, which means there are restrictions concerning its use. Under the Code, it may remain a manufacturing plant, however, should the use of the building change from manufacturing or the storage of non-combustible materials, modifications may be required to meet building code standards. Changes in occupancy for all or part of the building will involve changes within the building to meet building code requirements. When considering changes in occupancy, special consideration should be given to "exiting" and "Barrier Free Design" requirements of the code. Both of these items may result in extensive alterations.
2. A complete analysis of the mechanical and electrical systems must be made to determine the exact condition of existing equipment. I would point out that there will be substantial cost involved in sub-metering the present electrical system when considering more than one occupant for this building. When considering changes in occupancy, there may also be alterations required to meet heating and ventilation requirements of the building code.

Mr. Sellek and I have discussed the building only briefly over the telephone and we will be meeting January 5, 1976 to go through the building. Presently, we do not have floor plans of the building. Mr. Sellek indicated that he may be able to obtain a set of drawings for our use.

Should there be other questions concerning this matter, please advise.

Referred to Committee of the Whole and Committee on Buildings and Properties.

December 30, 1975

Honorable Mayor and

Members of the City Council

Lansing, MI

Gentlemen:

The building department has received a written request from Mr. Dougal McPeak, who resides at 1866 Hamilton Rd., Okemos, MI, and who is the legal owner of the flood damaged, one family residential dwelling located at:

701 S. Francis, further described as: Lot 61, Brown's Subdivision of a part of Snyders Add., Outlots A & B.

To demolish and remove the structure, fill and grade the excavation, by the City of Lansing, and all costs to be applied on the property tax roll.

Therefore, it is requested that the City Council authorize the Building Commissioner to proceed with demolition of this structure, and the purchasing agent obtain quotations for demolition of same.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Referred to Committee on Buildings and Properties.

December 31, 1975

Honorable Mayor and City Council

City Hall

Lansing, Michigan

Gentlemen:

We have reviewed the request of Mr. Steven L. Jones for permission to extend a fence further into the street right-of-way at 6112 Marywood, and we would recommend denial of this request.

We feel that such an obstruction could interfere with street maintenance operations, and under certain conditions could be a hazard. It should be noted that a previous request for a five (5) foot extension into the right-of-way was approved.

Respectfully submitted,

ROBERT R. BACKUS,  
Director of Public Service,

JAMES W. KZESKI,  
Building Commissioner.

Referred to Committee on Public Service and Highways.

#### REPORT OF COMMITTEE

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the request of Mr. Steven L. Jones for permission to extend a fence further into the street right-of-way at 6112 Marywood, reports as follows:

We concur with the recommendation of the Director of Public Service and the Building Commissioner that the request be denied.

Signed:

WILLIAM A. BRENKE,  
JACK D. GUNTHER,  
JAMES D. BLAIR,

Committee on Public Service  
and Highways.

By Councilman Brenke—

That the report of the Committee be  
adopted.

Adopted by the following vote:

Unanimously.

December 31, 1975

Honorable Mayor Gerald W. Graves and

Members of Lansing City Council

Tenth Floor, City Hall

Lansing, Michigan 48933

Dear Mayor and Council Members:

At their December 11, 1975 regular Human Resources Advisory Board meeting, the Board members recommended that \$1,480.00 of the current year's Community Development dollars be allocated to Sol de Aztlan for the repair of their radio equipment. I have received a memorandum from Mr. Sharp which indicates his endorsement as long as I provide assurances that no Human Resources dollars exist. (See attached memorandum.)

In my response which is attached, I indicate that currently no such funds do exist. In addition, no such activity or project was identified in the Community Development application. It is therefore necessary to determine what procedures are necessary should the Council decide to endorse the recommendations of the Executive Assistant for Community Development, Human Resources Director and the Human Resources Advisory Board.

Sincerely,

(Mrs.) JACQUELINE WARR,  
Director,  
Human Resources Department.

Referred to Community Development.

Subject: B-75-460 Paper Products

Gentlemen:

Attached is the tabulation of three bids for the purchase of miscellaneous paper

products such as paper towels, toilet tissue, wipers and insulated cups, which were opened at 3:00 P.M., E.S.T., on Tuesday, December 16, 1975.

We recommend acceptance of the bid submitted by The Dudley Paper Division of Copco Papers, Inc. It was the only bid that was complete to our requirements and agreed to a firm price.

Respectfully submitted,

VAUGHAN L. MCKINCH,  
Purchasing Director.

Referred to Committee on Finance.

#### REPORT OF COMMITTEE

The Committee on FINANCE, to whom was referred the recommendation of the Purchasing Director that the bid submitted by The Dudley Paper Division of Copco Papers, Inc., for the purchase of miscellaneous paper products, be accepted, reports as follows:

The Committee concurs in the recommendation.

Mayor Pro-Tem and

City Council Members

10th Floor

Lansing City Hall

Lansing, MI 48933

Dear Mayor Pro-Tem and

City Council Members:

It is the time of year again for appointments to the Tri-County Aging Consortium Board. The City of Lansing has four positions on the Board including the Mayor's representative. Currently Councilman Belen, Councilman Blair, and Councilman Ferguson are representing City Council. Mr. Bob Black is the Mayor's representative.

The Aging Consortium Board members have appreciated the participation of the City of Lansing and are looking forward to continuing to work together with the

City of Lansing representatives. Please notify the Board prior to the next Consortium meeting, January 15, 1976, of reappointments and/or new appointments to the Consortium Board.

Thank you.

Sincerely,

MILFORD MOORE,  
Chairman,  
Tri-County Aging Consortium  
Board.

Referred to Committee of the Whole and Mayor.

Members of City Council

FROM: Richard J. Baker and  
Robert J. Hull, Councilmen

DATE: 1-5-76

SUBJECT: Open Meetings Ordinance

The attached ordinance is submitted to City Council for adoption. We feel that in order to help restore the electorates' belief in their government officials, it is necessary to not only appear to operate in the open, but to give concrete assurances that in fact we want to and do operate in public — "that the public's business is conducted in public."

It is with this valve in mind that today we introduce this ordinance to assure the residents of Lansing that in fact the City of Lansing does operate in the sunshine.

We urge prompt consideration of this proposed ordinance. We would ask that public hearings be scheduled by the Ordinance and Contracts Committee at its earliest convenience.

We stand ready to provide background material and expert testimony at those hearings.

Thank you for your consideration.

#### INTRODUCTION OF ORDINANCE(S)

The following ordinance(s) of the City of Lansing, Michigan, providing that the Code of Ordinances be amended by:

Adding an Article to be numbered XIII and by adding sections numbered 2-105 through 2-112, inclusive, to Chapter 2, to require that the meetings of public bodies be open, to provide penalties, to void actions taken by a public body while in violation of this act; and to provide exemptions was introduced by Councilmen Baker and Hull, read a first and second time by its title(s) and referred to the Committee on Ordinance and Contracts.

By Councilman Gunther—

Resolved by the City Council of the City of Lansing:

That the rule prescribed in Sec. 5.5 (g) of the Charter relative to considering business not on the agenda, be waived.

Carried.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That Councilman Terry J. McKane be elected as Mayor Pro Tem.

Adopted by the following vote:

Unanimously.

Councilman Adado thanked his campaign manager and workers and all the voters that worked for him. He then introduced his wife and members of his family.

Councilman Terry McKane thanked the voters of the Third Ward for re-electing him and introduced his wife, father and other relatives and persons who worked on his campaign.

Councilman McKane thanked his colleagues for electing him Mayor Pro-Tem.

Councilman Baker thanked the voters of Lansing and all the persons who worked so

hard on his campaign and introduced them. He introduced his wife, as he said, "Without her I could not have been elected," and also introduced his mother, father, and grandmother.

Councilman Hull thanked the persons that made his election possible and introduced his wife, children, mother, and aunt.

Councilman McKane introduced Representative David Hollister who was in the audience.

Robert Hollingsworth, 427 Seymour St., spoke.

Martha Johnson, 424 River Street, spoke and presented Miss Belen and Mayor Graves with a copy of the Promotion and Application of Water Fluoridation.

She also presented each councilman the 1969 law on petition wording and also the City Attorney.

Council adjourned at 8:20 P.M.

THEO FULTON,  
City Clerk.

January 12, 1976

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

The United States of America was born in 1776. It was conceived 169 years earlier by traders and others, who started trading posts along the St. Lawrence River, and by explorers who probed the coastlines. Over the years, people came — the oppressed, the poor, the religious, the adventurous and others. The need to sacrifice, and a burning desire on the part of many for freedom — liberties — from old oppressive ways, became the strong foundation upon which our Nation of today was built.

The Year 1776 began with military operations of the Revolutionary War against England only in the ninth month. And, all was not going well in the fight against oppression. However, effective publications,

including Thomas Paine's *Common Sense*, converted thousands of colonists to the cause at hand. Sacrifice after sacrifice was to come. In what is now called Independence Hall in Philadelphia, the best men from each of the colonies met as the Continental Congress to determine a future — these were not men of small minds, wild-eyed or rabble-rousers, or bent on self benefit. These were men who could have enjoyed the ease of just living, secure in their prosperity. For example, nine were plantation owners or wealthy farmers, another was a merchant and ship fleet owner, and twenty-four were jurists, or lawyers. These were men of means, well educated and with nothing to personally gain wealth-wise, but everything to lose. These were men of stature, intelligence, ability and with hopes for freedom.

In preparation of a Nation's future, a committee sat down on June 11, to outline a declaration of independence, which would damn a foreign rule, on one hand, and form a partnership of all kinds of people, living and unborn, for years unknown, on the other. One Thomas Jefferson completed a draft of the document in seventeen days — on July 4, 1776, the Continental Congress adopted the now famous Declaration of Independence.

Today, many Americans are aware, to some extent, of the Declaration of Independence — and, that some one, or other, signed that historical document. Well, that document stated, in part, and I quote:

"We, therefore, the Representatives of the United States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these United Colonies are, and of Right ought to be FREE AND INDEPENDENT STATES; That they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do."

The last line of that document reads as follows, and I quote:

"For the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our Sacred Honor."

Under the threat of death by hanging, from the then King George III, for being traitors, fifty-six men signed. The fifty-six names were kept secret for six months for each knew the full meaning of the last sentence and, in time, they did, in strange and sacrificing manners, fulfill that pledge — Richard Stockton was captured, his health broken, and was dead at 51 years of age; Thomas Heyward, Jr., was cap-

tured; John Hart was driven from his home, his family of thirteen scattered, his properties confiscated and he died shortly after the War; the hardships of the War, also, killed Philip Livingston; John Hancock lost great wealth by burning; Lewis Morris, too, saw his land destroyed; Francis Lewis saw his properties destroyed, and his wife dead a few months after her imprisonment; and so on. In all, five were captured by the British, and died, twelve lost their holdings, two lost sons in the War, while another had sons captured. Thomas Lynch, Jr., was lost at sea, while Thomas McKean served in Congress without pay, his family in poverty and in hiding.

Thus was born a freedom, a freedom which lasts to this very day, and which expanded from a few colonies, and the Revolutionary War, to the Nation we are today.

Our own State of Michigan was admitted to the Union as the 26th state on January 26, 1837. Its admission one year earlier as a free-soil state, to balance the admission of Arkansas, was delayed as a result of a surveyor's error, which resulted in a dispute over the southern boundary. The first State Constitution named Detroit as the temporary capital, but specified that in 10 years the Michigan Legislature would choose a permanent location. The Year 1847 was one, therefore, for decision making, but the decision was anything but routine.

The Detroit interests battle to retain the capital designation, but out-staters disagreed and regional jealousies soon came to the forefront, and location after location was proposed. Sectional rivalries kept every existing community of the time from being accepted, including Ann Arbor, Dexter, Corunna, Albion, Marshall, Lyons and even DeWitt. Finally a motion was made to amend House Bill No. 18 to read "The Capital of Michigan shall be in the township of Lansing in Ingham County" — in jest, even snickering Detroiters voted to support the proposal that would establish the permanent seat of State Government in the "wilderness" along the Grand River. Action by the Senate followed out of frustration caused by an inability to get a majority of votes for any other location, and on March 6, 1847, the then Governor signed the Bill into law. Michigan had its new capital. The next Legislature named the new town "Lansing," the name of the township in which the capital was located. And, our City began.

Most Legislators who arrived here at the "permanent seat of government" in 1848, had never before viewed the area. Luke Hazen, in his communication of January 26, addressed to his wife in Hillsdale County, included his description of Lansing, in map form (see attached). He refers to "about 800 souls," living here at the time, and that the area bounded by Washington Avenue, River Street (part of it is now Michigan Avenue), and Main Street "is laid out into village lots 4 rods by 12. Some streets are chopped out; all is covered with timber. Some 8 or 10 shanties in it. Gradual Assent from River to Capitol." Representative Hazen advised in his com-

munication of March 20 that mail delivery from Hillsdale County to the Capital City took 4 days, the same time period as his journey back to his home district. Postage was 5 cents at the time.

During the next eleven years, "the city in the forest" saw an influx of farmers, merchants, professions and state employees. Local government was administered by a township board until 1859, when the Michigan Legislature granted Lansing a City Charter, which led to the election of a Mayor and a six member Common Council. The Charter charged the Common Council with "... preserving the public peace, prohibiting gaming (gambling), preventing horse racing ... and preserving the salubrity of the Grand River." The first meeting of the august body was held on May 12, 1859.

Our City, as originally laid out, was comprised of slightly over 4,000 acres of land, and when officially incorporated in 1859, had a population of 3,085, according to the 1860 census. Over the years, zeal, forethought, common sense and sacrifice on the part of many have brought us to where we are now at — a growing, thriving metropolitan community of more than 36 square miles in area, with an estimated population of 132,000. A recently completed National Urban Survey disclosed that Lansing, and the surrounding area, ranked seventh among medium-sized regions in the quality of life for its residents, easily outstripping others in Michigan, and all but six in the United States.

Educationally, Lansing possesses a fine school system, an outstanding Community College with an enrollment in excess of 16,000 students, and Michigan State University is adjacent to the east corporate limits. While most other cities in Michigan expend from one to three percent of their total budgets for parks and recreation, Lansing provides in excess of 10%, in a continuing effort to meet the ever increasing leisure time needs of individuals; as a result, thousands of persons of all ages participate in organized sports and other events, and all can benefit from such popular public park facilities as the Arboretum Nature Center, the outstanding Zoo at Potter Park, the breathtaking Rose Gardens at Francis Park the nationally rated Groesbeck Golf Course, the newly opened Gier Park Recreational Center, and the host of other points of interest, which have helped Lansing become a good place in which to live. And, this year will see the dedication of the new 1.1 mile Riverfront Park, complete with shrubs and trees, a Salt-Shed Amphitheater for concerts and other performing arts, a depressed playfield, picnic and game area, a riverfront entry pavilion, viewing and fishing decks and a riverwalk. Too, this year should see the dedication of the new Ice Skating-Tennis Complex at S. Washington Avenue Park.

Some weeks ago, I signed a request for special Federal funds to complete what will be a \$1.1 million improvement program throughout the City, including a bicycle path, the removal of tree-stumps, plus equipment, tree planting, park improve-

ment, including the south part of Lansing, and positions of employment. The matter should now be before you. I recommend your attention to it in the interest of a better community.

Today, numerous governmental units such as New York City are on the verge of bankruptcy. Buffalo, Newark, Detroit and a host of others, are not meeting the test of time. Unlike those, the City of Lansing can through diligent efforts remain financially sound. Our taxpayers now benefit from one of the lowest property tax rates in Michigan and Lansing is one of only 38 cities throughout the United States with a Triple A Credit Rating. Lansing's municipally owned Board of Water and Light is now the only one of its kind to, also, possess a Triple A rating. Its utility rates rank with the lowest in the Midwest. For homeowners, businesses and industries, these financial standings result in tremendously large financial savings annually.

Authorities in the electric power field calculate that 30 percent of the Nation's electric bill is directly attributable to new State and Federal Mandated Air and Water Quality Standards. To meet these standards, the Lansing Board of Water and Light will embark on a \$17.7 million improvement program in May. Of the total amount, \$4,766,302 will be financed from Cash Flow, \$12,000,000 will be financed through 15-Year City Utilities System Revenue Bonds, Series 1976, while one million dollars will be financed by a Short Term Note. This will be the final phase to complete a program which started in 1973, regarding anti-pollution control and environmental protection, and will have resulted in a total expenditure of \$24.5 million. It can be said that emissions will be more than 99 percent pure, and that the recycled water will be cleaner when it goes back into the river than when taken in. ... Lansing now not only has excess electric power to meet the needs of the future, and an excellent water system, but it is once again taking the lead in a relatively new field.

The Lansing Police Department, today, actually exceeds the personnel number Nationally recommended, and approximately one-half of the complement, or 172 officers, have college time — some are doing post-graduate work. Numerous innovations, in the past several years within this highly trained department, have resulted in crime decreases second to none in the Nation for cities of 100,000 population, or more.

In the year of 1973, the City of Lansing ranked third in the Nation in crime reduction when compared to 1972, a year that saw crime cut by 10%. We were down —15% while the National average was up 5%. The only cities listed in the Federal Bureau of Investigation Uniform Crime Report (cities with 100,000 or more population) that had a greater decrease were Fall River, Massachusetts, with a —25%, and Pasadena, California, with —21%.

During the same time period, other Michigan cities of comparable size were as follows: Dearborn —8%, Flint +2%, Livonia +7%, and Warren +7%.

The same comparison made for 1973-74, showed the National average up 17%. The City of Lansing was up 10%, Fall River, Massachusetts, up 33%, and Pasadena, California, was up 8%. The same Michigan cities were: Dearborn +25%, Flint +21%, Livonia +27%, and Warren +34%.

When the first nine months of 1975, were compared to the same period in 1974, the National average was up 11%. Lansing was down -3%, while Fall River, Massachusetts, was up 17% and Pasadena, California, was also up 17%. The same Michigan cities were: Dearborn +5%, Flint +11%, Livonia -12%, and Warren -2%.

Of the three cities that showed the greatest decreases in 1973, (Fall River, Massachusetts; Pasadena, California, and Lansing, Michigan) Lansing is the only one with a decrease in 1975, while the National average continues to increase. The percentage of change for the 5 year period of 1971-75 shows a decrease of 18 percent!!

Until 1872, fire protection in Lansing was on a volunteer basis, with equipment basically consisting of horse carts, manually operated pumpers and "bucket brigades" referred to as "Torrent Company No. 1." In this year, a municipal fire department was organized, and new, more powerful equipment was purchased. Today, the Lansing Fire Department is the recipient of some of the finest equipment and training in Michigan. In the past several years, more new fire-fighting equipment has been purchased than at any other time in its 104 year history. In 1975, alone, the department placed into service two new 1,250 gallon per minute Pumping Engines and two new squad fire-fighting units, in addition to a new 100 foot, rear-mounted aerial Ladder Truck, and a new truck with emergency lighting for the North Fire District.

Emergency ambulances are now one of the City's outstanding services. In addition to modern ambulances, a new "Trauma Unit" containing the latest in equipment is being readied for major emergencies. Manning emergency ambulances are six firemen, all whom were graduated in 1975, from the School for Advanced Emergency Medical Technicians. Six additional firemen are currently enrolled in the A.E.M.T. course and should be graduated early this year. This training, together with the modern equipment and the Hospital Emergency Ambulance Radio Network, recently instituted, will give us the capability to place a second unit of paramedics into operation and to increase the chances for survival of those in need of fast medical attention.

The greatest deterrent to fire and its hazards is the department's Fire Prevention Bureau. The Bureau recently received the award of being first in the State of Michigan, and sixth in the Nation, from the National Fire Protection Association as a result of their activities. The net, beneficial affect is that Lansing has a per capita loss of \$10.85 as compared to the National per capita loss of \$18.08.

Today, the City retains a coveted Fire Insurance Rate of "3," which provides our property owners with some of the lowest insurance rates in the Midwest and results in direct savings to them.

In 1965-66, the U. S. Department of Housing and Urban Development provided the City with a program reservation of 1,000 units of low income housing. At present, the Lansing Housing Commission has built 898 units — the last 100 units of the original program reservation will be reserved to assist Senior Citizens, the handicapped and some families, and the Commission has received six proposals as of one month ago and these are being analyzed as to site location, appropriateness of the buildings and amenities. Unlike other units in the past, these will be part of our tax-base and will provide income to the City.

Lansing is growing and progressing. The City's assessed valuation by 1919, was \$50,671,935 — by 1949, it had tripled — in 1969, it stood at \$444,995,825—it now stands at \$778,040,300. Of that total, 43,819 Real Property descriptions (land and buildings) have an assessed valuation of \$576,653,350 and 3,182 Personal Property descriptions (machinery, stock and fixtures — but not including land and buildings — of industries, businesses and professions) have an assessed valuation of \$201,386,950. Not only do these figures point out the large growth in the City of Lansing, BUT they vividly point out the need and value of industries and businesses to the financial support of the City of Lansing, the County of Ingham, and to our educational system, including the Community College. In short, the 3,182 industries and businesses pay more than one-third of all the property taxes levied for all purposes, in addition to those levies on land and buildings. Our two largest private employers — Oldsmobile and Fisher Body — together pay 15 percent of the total tax levy.

The importance of industry and business cannot be measured by tax income alone. The key is employment and what that employment picture does for the human being. In the recent past, we witnessed the bankruptcy of Diamond Reo, and the departure of Warner-Swasey and John Bean Company — each leaving in its wake substantial unemployment and the heartaches and fears which always result. Certainly it is true that our unemployment rate is substantially below that of the State of Michigan as a whole, and that we have gained job slots over the years, but that is of little consolation to a person in need of a pay check. Therefore, high employment must be a goal for all of us in the months and years ahead.

In 1969, the Greater Lansing Area was rated as a Billion Dollar Effective Buying Income Market (\$1,108,410,000). Today, it has more than tripled that amount. The Median Household Estimated Buying Income in Lansing is \$14,801, as compared to \$10,627 in 1969, and \$6,889 in 1960, and Per Capita Estimated Buying Income is \$5,075, as compared to \$2,028 in 1960, and \$3,099 in 1969, according to the latest

reports of SALES-MANAGEMENT, The Market Magazine, July 21, 1975. The Median Household Estimated Buying Income for East Lansing is just slightly below that for Lansing, but well above that for the counties of Eaton, Clinton, and Ionia. Income levels, in terms of Median Household Effective Buying Income, shows Lansing-East Lansing 18th in affluency out of the several hundred metro-markets in the Nation, though they rank 83rd in population. The key here is not that we are doing well compared to most, but that we have a position of good standing from which to retain the industries and businesses we now have, and to "hard sell" potentially new ones to relocate in our area. Cooperation on the part of all segments can open up the employment market.

To improve the business climate, you have accepted my past recommendations to establish Tax Districts, under State law, to provide property tax incentives — presently 4 employers are using the system, one of which had originally contemplated leaving the State. Too, you have accepted my recommendations to establish an Economic Development Corporation and a Downtown Development Authority. For this, I am grateful, because I am confident both can serve as tools to retain businesses we have, and ferret out new ones.

Likewise, I offer thanks to the Lansing Metropolitan Development Authority for its efforts to relocate new businesses in Lansing and in the surrounding area. In 1975, the LMDA played an important role in helping several firms establish new operations here, including 3M Business Products, which anticipates eventually an employment force in excess of 50, plus a new Michigan distribution center, a new warehouse, a new service center, and a new office facility.

In an effort to market the vacant urban renewal lands, and to stimulate employment, the Housing and Redevelopment Department and my office have collaborated in an aggressive marketing effort, which is now underway. Approximately 1,050 advertising packets have been mailed to potential developers in both the United States and Canada, including insurance companies, builders, food chains, hotels, finance houses, etc. Another 128 advertising packets have been delivered in Lansing proper. Approximately 280 personal contacts have been made with potential developers, and a Marketing Presentation was prepared and made in Lansing, Detroit, Chicago, and Atlanta, Georgia. Within the week, an additional 37 firms will view the presentation. As a result, one proposal for the sale and development of project land is under review, and a number are in discussion stage.

In regard to employment, the Manpower Administration Office currently administers \$3,681,101 in funds awarded to the City of Lansing by the Department of Labor under Titles II and VI of the Comprehensive Employment and Training Act (CETA) of 1973. The original grant of \$1,707,353 for FY 1975, was increased in July by \$1,973,748 for FY 1976. As already mentioned, and presently before you, is an additional \$800,000 grant for public service

employment under Title X of the Public Works and Economic Development Act of 1965. Lansing was one of a few cities in Michigan selected to receive Title X funds.

Over 95% of the CETA funds are used to provide employment for residents of the Lansing area and less than 5% for administrative costs. Included in the administrative costs are the salaries of a full-time director and a coordinator. None of the funds are used for rent, equipment, material or supplies.

Currently the CETA grants provide 176 jobs for 27 departments in the City and 68 jobs for 12 government related agencies and non-profit agencies, such as the Lansing Housing Commission, the Lansing School District, CATA, Lansing Community College, the Community Art Gallery, the Urban League, and the Michigan Department of Natural Resources. Two hundred forty-two or 98% of these jobs are presently filled. After the first of the year an additional 28 jobs will be created with the Title X funds and in April, 17 more jobs will be opened in the existing Title II and Title VI programs.

Often overlooked as a generator of employment and income are the efforts of the Convention Bureau of Greater Lansing, in securing both large and small events, which for 1975, resulted in delegate spending in our community of \$18 million by an estimated 250,000 persons. Recipients of those dollars were the hotels and motels, restaurants, bowling establishments, general merchants and the employees of each. By maintaining our position in the State conference market, and greatly expanding our promotional efforts around the Nation this year, Lansing can expect increased dollars from this most desirable and lucrative convention business.

The calendar year of 1975, alone, was a landmark year for the Convention Bureau of Greater Lansing. Nineteen hundred seventy-five was the first year of the Matching Fund Grant from the Department of Commerce, State of Michigan to the Convention Bureaus of Michigan, which included Lansing. The State funds permitted Lansing's Bureau to produce five various colorful brochures on Greater Lansing and our conference facilities. These brochures, (totaling 75,000) have been distributed to the Nation and Region, promoting Lansing and Mid-Michigan as future conference sites. This is the first time in the City's history that such necessary sales promotional brochures have been published.

The State Grant also permitted Lansing to Nationally advertise the area's conference facilities in National trade magazines such as "Meetings & Conventions," "Sales Meeting Magazine" and the Wall Street Journal; advertising that reached an estimated 100,000 persons per month, around the United States, who decide where to hold conventions, conferences, sales meetings, athletic events, etc.

In addition to the State's 1975 participation in convention/conference promotion, Ingham County Commissioners passed the

2% County-wide tax to support the County-wide promotion by the Convention Bureau.

The Year 1975 saw a continued drive for improvement — numerous improvements were made at Potter Park and others, and the new Gier Recreational Center was opened; the City Market was remodeled and the area improved; the new Veterans' Memorial Bridge on East Michigan Avenue was completed at a contract price of \$1.3 million; the Public Service Department moved its Yard and Service Garage into a new \$700,000 complex, which includes a service garage, salt storage sheds, truck and equipment garages and expanded office space; 4.8 miles of storm and sanitary sewer construction, at a cost of \$556,000, was completed, as was 3.03 miles of curb and gutter at a cost of \$80,000, 1.4 miles of new blacktop streets at a cost of \$103,000, and 15.1 miles of streets were resurfaced at a cost of \$334,000; great progress was made on the \$33 million Wastewater Plant expansion which was started in 1974, and is 55 percent completed; and a City-wide refuse program was started.

In a communication to the City Council more than 6 years ago regarding bus transportation, I urged the City Council to direct itself away from a single type ownership and toward an authority type of operation, in which all governmental units served would participate in funding. Eventually, this approach was approved, and it steadily is improving under the Capital Area Transportation Authority. Ridership in 1975 has increased over 1973 by 115%. As you are aware, 1974 was a banner year for CATA and Lansing with the highest increase of ridership of any transit operation in the State. Ridership in 1976 should reach 2,000,000.

In regards to submitting and receiving grants from the Federal Government, CATA has signed one grant for operating monies from the Urban Mass Transportation Administration with one more on the docket to be signed within the week. CATA will be receiving final approval on three capital assistance grants shortly, which will provide the Lansing area 27 new large transit vehicles, one "new" garage/office and maintenance facility and 40 new shelters. This new equipment will help to guarantee a strong and viable balance mass transit system for the City of Lansing. CATA has also been fortunate to receive and implement a Public Transit Information Services grant from the State of Michigan. This primarily concerns the arrival signs in downtown Lansing and also the new transit Information number which residents may call to obtain not only intra-city bus information, but other such information as air, rail, and bus and inter-city bus for the complete State of Michigan. This project will serve as a pilot demonstration for the eventual use throughout the State's other transit operations. In October, CATA started a Small Bus project to serve low mobility, Senior Citizens, and mobility limited individuals. Two of these eight vehicles in this grant are being used to serve Senior Citizens and mobility limited (handicapped) individuals on a 36-hour advanced notice system, curb to curb. The remaining

vehicles are operating on a fixed route basis to feed into the major Lansing routes. This project is funded for a one year period by the State.

CATA is continuing to submit additional grants in their continued effort to provide sound transit services throughout the area. Two additional State of Michigan demonstration grants have been officially approved and await contract writing. They are basically a continuation of the previous mentioned Public Transit Information Services project and the Small Bus grant. This next Small Bus grant will provide express buses to the Lansing downtown area from outlying communities. Total State and Federal Grants for fiscal years 1975 and 1976 will approximate \$4.5 million.

On this day, the City of Lansing is recognized as a leader in the Nation for cities of its size in the fields of overall municipal services. Lansing is, also, the major local contributor to the Capital Area Transportation Authority, whose new buses travel throughout the City and surrounding area. Likewise, Lansing is the major local contributor to the Capital Region Airport Authority, whose responsible efforts have resulted in a modern facility, good air service and ever increasing use by passengers and freight shippers.

But what of tomorrow? For each of us, there are problems to be resolved, many even beyond our control. On the INFLATIONARY SIDE, the City is experiencing, as I pointed out one year ago, price increases beyond reason — increases ranged from 60% to 271% — and though the trend has now slowed; increases are still apparent, and indications are that prices will continue to rise. The Purchasing Director has saved the City substantial dollars by wise purchasing techniques. I recommend he continue to be given a free-hand in the interest of the taxpayers. However, inflation will plague the 1976-77 Budget, so I recommend your close attention to it.

In the past year, the U. S. Congress seemed to be out-of-session MORE than in-session. Major needs were ignored. Not approved was legislation to provide for continued Federal Revenue Sharing, from which the City of Lansing benefits by \$3.2 million annually — of the total, our Police Department receives \$1.2 for its fight against crime. Without the re-enactment, chaos can result. You were warned of this one year ago, but took no action as recommended — the following is a quote from my Message:

"... Members of Congress are currently discussing renewal of the State and Local Fiscal Assistance Act of 1972, General Revenue Sharing, beyond its present December 1976, expiration date. In all, from May, 1973, through October, 1974, a total of \$4.2 million was expended and during this same two (2) year period of 1973-75, taxpayers will have benefited for a \$2.01 tax reduction. As recently pointed out to you by the City Finance Director, revenue sharing funds have been primarily used for Capital Improvements. However, in upcoming

budgets, it is now estimated that 100% of these funds will be needed for general operations. . . . It is obvious from the financial projections that have been made, that the loss of such Federal Revenue Sharing Funds, if the U. S. Congress fails to act, coupled with the escalating costs of operations, the City is, and will be, experiencing for some time, could result in a minimum of \$4.20 per thousand increase to local property owners. Therefore, in order to avoid such future hardships on our taxpayers, I recommend that you adopt a resolution, at as early a date as possible, recommending that Federal Revenue Sharing not only be continued but increased sufficiently to cover both operating and Capital Improvement expenditures. Such resolution should be forwarded to the Michigan Congressional Delegation, U. S. Conference of Mayor's — National League of Cities and the Michigan Municipal League."

Since you did not lend your wholehearted support formally to the re-enactment of Federal Revenue Sharing as urged above, I am pleading for action by you now. Time is of essence. I recommend that you make this a priority.

Coupled with the aforementioned difficulty has been a continued appetite on the part of some Council members to overspend. As a result, we face a crisis with the upcoming 1976-77 Fiscal Year Budget. As a reminder, I point out that in the years of 1973-75, you were provided with \$2.2 million in "excess funds" and \$1 million reserved toward the construction of a new Police Department Building. Today, we have no new Building and the \$1 million is gone, and almost all of the "excess funds" are depleted — purchased were lands and buildings not even budgeted in the Capital Improvements Program, and some of the purchases were questionable. The net result is that some of the funds which could have been used to meet the Budget needs of 1976-77 no longer exist. Too, you did for the present Fiscal Year, increase my Budget Recommendations by more than one-half million dollars without the necessary and appropriate tax increase to meet the spending. Minus those, a tax increase is imminent, if the City is to meet the requirements of the community. I recommend a curb on the "spending appetite" of some Council members and a total scrutiny by all of all spending.

The "Atlanta Study" pointed out the need of City Council to annually establish priorities for the Mayor's Budget Recommendations. For some months now the City Council has procrastinated and no decision is on hand. Inasmuch as the Mayor's Budget Committee can no longer delay, I recommend your immediate attention to these priorities.

Presently, the City is the recipient of substantial Federal dollars under the Community Development Act of 1974. Such funds will be available to us at a decreasing annual amount for a total of 6 years — by law such funds are restricted in use, with housing-stock improvement listed as a priority. Literally, the City of Lansing can

improve hundreds of older homes in need of repair, through a system of grants and loans at small interest rates. Neighborhoods — as a whole — can be given a "new look" and become areas of pride. Presently, there are those who are pushing for immediate action and results, even without the proper foundation to assure an excellent program. I recommend that you oppose this approach so that the program eventually is one which truly fulfills what is promised.

During the previous years and specifically the old Model Cities program, we saw distrust, mismanagement and a waste of hundreds of thousands of dollars. To date, Federal Grand Juries have indicated two persons, both of whom were found guilty and both of whom are awaiting sentencing — and, certainly others will follow. Therefore, it behooves each of us, in the new Community Development Program, to insure that these Federal monies are spent according to law, properly programmed, and in the best interest of the majority of the citizens of Lansing and not any special segment.

Yes, we have problems — these are just a few — and, these problems are not without solutions. Amidst the problems, Lansing is an excellent City, with a great past. It has the potential for an outstanding future.

In this Year 1976 — let us celebrate and recall two hundred years of independence. In doing so, I remind you once again of the last line of the Declaration of Independence, and I quote:

"For the support of this Declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our Lives, our Fortunes, and our Sacred Honor."

History shows that the 56 signers fulfilled their pledge — to the detriment of themselves — but to the benefit of all of us.

Therefore, let us together pledge our time, our maximum efforts and our knowledge to the City of Lansing — that we will give it more, than it gives us — that time will show we left more good behind than was here when we came — that we will carefully build on the strong foundations provided to us over the years, and assure that for those to follow, the future will be bright and full of promise.

With diligent effort and God's help, it will be done.

Respectfully,

GERALD W. GRAVES,  
Mayor.

#### REPORTS OF CITY OFFICERS AND BOARDS

January 5, 1976

To the Honorable Mayor  
and Members of the City Council  
City of Lansing  
Gentlemen:

I herewith report that I have given to the City Assessor an itemized list of private properties which had trash and debris removed by the City of Lansing, in the amount of \$342.50, to be assessed on the July, 1976, tax rolls.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Received and placed on file.

January 9, 1976

Honorable Mayor Gerald W. Graves  
Mayor Pro-Tem Terry J. McKane  
Members of the Lansing City Council  
Lansing City Hall  
Lansing, Michigan 48933  
Dear Mayor Graves, Mayor Pro-Tem  
McKane, and Council Members:

I hereby certify that the Amendment of the Contract between the Tri-County Aging Consortium and the City of Lansing (PN-98), effective from November 16, 1975 through September 30, 1976, has been properly submitted to you in conformance with Section 2A-11 of the Community Development Ordinance.

The modification in the Scope of Services and the budget are in conformance with the application. This office in fact encourages these modifications and recommends the consolidation proposed by Human Resources Department and the Aging Consortium.

The contract amendment does meet with the requirements set forth for certification pursuant to the above sighted Section.

Respectfully submitted,

ORRIN E. SHARP,  
Executive Assistant to the  
Mayor for Community  
Development.

Referred to Committee of the Whole.

January 8, 1976

Mayor Gerald W. Graves  
Mayor Pro-Tem Terry J. McKane and  
Lansing City Council Members  
Tenth Floor, City Hall  
Lansing, Michigan 48933  
Dear Mayor and Council Members:

As a follow-up on the letter you received from my office, dated 12-3-75, relative to the establishment of an Ethnic Festivals Planning Committee and its companion Ethnic Festivals Advisory Committee, this is to update you on new developments. On December 22, 1975, the Council adopted a resolution which reemphasized its support

of our Bicentennial efforts, encouraging City Departments to cooperate with the Bicentennial Office. In keeping with this spirit of cooperation, the Bicentennial Director, Lynda Egbert, and I determined that it was essential to have a staff person from Council assigned to work with our Ethnic Festivals Committee and the Advisory Committee. The most logical person identified to directly assist us was your Legislative Coordinator, Helen Moore, who also shares an office with Ms. Egbert and has indirectly worked with the Bicentennial Commission since its inception.

In pursuit of having Helen assigned to this project, a meeting transpired between Les Hopkins, Internal Auditor (Helen's immediate supervisor), Lynda Egbert, Bicentennial Director and Helen Moore. Mr. Hopkins gave his approval to the assignment, pending authorization of the whole Council. It is understood that all Council assignments take precedence over any subsequent responsibilities generated through the Ethnic Festivals Committees. With your approval Helen will be officially assigned to coordinate various activities of the Ethnic Festivals Planning Committee and the Ethnic Festivals Advisory Committee, working with myself, Ms. Egbert and Mr. Hopkins — the first assignment being to contact various City Department Heads who will, hopefully, assign an available staff person to the Ethnic Festivals Advisory Committee.

Hoping that the request for Helen's assistance meets with your approval . . .

Respectfully submitted,

**RICHARD D. LETTS,**  
Chairman,  
Ethnic Festivals Planning  
Committee,

**LYNDA EGBERT,**  
Director,  
Lansing Bicentennial  
Commission.

By Councilman McKane (Gunter)—

That we concur in the recommendation of the appointment.

Lansing, Michigan

Gentlemen:

The Board of Public Service to whom was referred the letter from Tri-County Regional Planning Commission requesting clarification of the City's position on the three street projects listed, namely, the proposed widening of Clemens Street from Elizabeth to Kalamazoo between 1977 and 1978; the proposed extension of Wood Street from Grand River to Saginaw between 1978 and 1980, and the proposed extension of Miller Road from Aurelius northeast to the Jolly-Dunkel intersection between 1979 and 1981, makes the following recommendations:

1. Recommends that the proposed widening of Clemens Street from Elizabeth to Kalamazoo be done between 1978 and 1979 as indicated in the C.I.P. projection.
2. Recommends that the proposed extension of Wood Street from Grand River to Saginaw be deleted from the program until such time as needs and funds are available.
3. Recommends that the proposed extension of Miller Road from Aurelius northeast to the Jolly-Dunkel intersection be deleted from the program until such time as needs and funds are available.

P-4-74

Tecumseh Riverview Subdivision—

Final Plat

Honorable Mayor and

Members of City Council:

The Planning Board, at their January 6, 1976 meeting, approved the Final Plat of Tecumseh Riverview Subdivision subject to the following conditions:

- 1) That either an Abstract of Title holds or an attorney's opinion as to marketability or a Certificate of Title Insurance be submitted to the City Clerk prior to the signing of the Plat and the affixing of the Municipal Seal.
- 2) That financial security be posted in the amount specified by the Public Service Department prior to the signing of the Plat and the affixing of the Municipal Seal.
- 3) Final clearance from the Board of Water and Light.

This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

LS-20-75

3205 Maloney Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, approved the request by Orby Gray to divide property at 3205 Maloney Street, more particularly described as:

Lot 376 of Pleasant Grove Subdivision No. 1, and that part of Lot 377 of said Pleasant Grove Subdivision No. 1, described as: commencing at a point on the easterly line of said Lot 377, 46.8 feet northwesterly from the southwest corner of said lot, and southeasterly 46.8 feet along the easterly line of said lot, to the southeast corner of said lot; thence west 192 feet to the southwest corner of said lot; thence northwesterly 36.3 feet along the easterly line of Maloney Street to the center line of ditch (if extended westerly); thence northeasterly in a straight line along the center line of the ditch to the place of beginning, according to the recorded plat thereof and subject to any restrictions of record, City of Lansing, Ingham County, Michigan.

The New parcels created shall be known as Parcel A and Parcel B. Parcel A is described as:

The south 55 feet of Lot 376, Pleasant Grove Subdivision No. 1, City of Lansing, Ingham County, Michigan, subject to any restrictions of record.

Parcel B:

The north 15 feet of Lot 376, and that part of Lot 377 described as: commencing at a point on the easterly line of Lot 377, 46.8 feet northwesterly from the southeast corner of said lot, thence southeasterly 46.8 feet along the easterly line of the lot to the southeast corner of said lot; thence west 192 feet to the southwest corner of said lot; thence northwesterly 36.3 feet along the easterly line of Maloney Street to the center line of the ditch (if extended westerly); thence northwesterly in a straight line along the center line of the ditch to the place of beginning according to the recorded plat thereof and subject to any restrictions of record.

The entire parcel contains 21,800 square feet and has frontage on Maloney Street of 109 feet with 200 feet in depth. The Board believes that this division will create lots large enough without promoting overdevelopment and will promote housing that is compatible with those developed in the vicinity.

The applicant has indicated that the subject property has two sewer leads into the property and, therefore, it will be convenient to hook up into two dwellings without disrupting the existing sewer facilities.

This recommendation was by a vote of 5 yeas and 3 nays.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

LS-21-75

Lot 151, Barritt Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, recommended that the lot split to divide Lot No. 151 into two parcels, one of which would be a ten foot width, for the purpose of constructing a pedestrian walkway and sewer easement be denied.

The Board found, based on testimony and evidence, that the division of land would be contrary to the deed restrictions recorded with the Subdivision known as Bancroft Hills No. 8.

The Board further believes that the private pedestrian walkway could cause problems for those individuals having dwellings on either side. Problems that they may have relate to the following:

- 1) The private easement would encourage through traffic in terms of pedestrians, bicyclists, and possible motor driven vehicles which would not relate directly to its intent. This would subject the adjacent property owners to additional traffic and activities and threaten their privacy.
- 2) There are several areas in the City where similar facilities have developed and when outside activities are scheduled, people have the tendency to park on the adjacent streets and walk to the activity. In this case, Barritt Street could become a parking lane.
- 3) The initial improvement and general maintenance could be a requirement of approval of this request, but it could also be difficult to enforce the standards required.

In regard to the proposal for the sewer easement, this matter should be considered by the Public Service Department and a request made directly to that department.

This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

Z-62-75

1615 West Holmes Road

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, recommended that the petition by Trend Realty to rezone property at 1615 West Holmes Road from "A-1" Family Residential District to "D-1" Professional Office District be denied.

The Board found, based on testimony and evidence, that this site was located within a well established residential area. The Board believes that this change of zoning would constitute a spot zone and could foster uncontrolled development along this area of Holmes Road.

The Comprehensive Master Plan suggests that this area be developed in a residential nature with supporting commercial and office uses being located at the intersection of the major streets located east of this property and to the west. It is further pointed out that recent planning studies within this area, lying south of Holmes Road, would indicate that the development potential of this area should be directed

toward residential development so as to maintain a compatible land use relationship within the established residential development in this area.

This recommendation was by unanimous vote. There was a petition submitted in favor of this request with nine signatures.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

Z-41-74

3100-3200 blocks of

West Mt. Hope Avenue

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, recommended that the request by Marjorie Krueger to rezone the parcel of land located in the 3100 and 3200 blocks of West Mt. Hope Avenue (south side) from "A-1" Family Residential District to "D-M" Multiple Dwelling District be denied.

The petition was before the Planning Board on September 3, 1974. At that time the Board tabled the petition until such time as development plans for this area were drawn up by the planning staff and the area citizens, known as the Lewton Neighborhood Planning Committee. The Plan, entitled "Lewton Neighborhood Plan" was produced and approved by the Planning Board on March 4, 1975. This Plan was then submitted to the City Council and approved by the City Council on July 28, 1975.

The Lewton Neighborhood Plan recommends that this site be developed for three different densities (see plan) of 6, 9, and 12 dwelling units per acre. The requested "D-M" or "D-M:1" Multiple District would have densities per acre of 29 and 14.5 respectively. The requested rezoning has the possibility of creating development at a density more than double that recommended in the Neighborhood Plan. Based on the fact that the proposed request is inconsistent with the overall development plan for this area, the Board is recommending denial and would entertain a proposal that would be consistent with the Lewton Neighborhood Plan.

This recommendation was made by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

Z-53-72

3131 West Mt. Hope Avenue

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, recommended that the petition by Theodore Pawdzik to rezone property located at 3131 West Mt. Hope Avenue from "A-1" Family Residential District to "CUP" Community Unit Plan District be denied.

On August 6, 1974, the Planning Board held public hearings on this request and subsequently tabled the petition so that a land use development plan could be developed for the vacant land in this area. As a result, the planning staff and area citizens did work together to develop such a land use plan, which is titled "The Lewton Neighborhood Plan" and the Planning Board did approve that Plan on March 4, 1975. Following the Planning Board's adoption of the Plan, this recommendation was sent to City Council, and City Council, at their meeting of July 28, 1975, also approved this Master Plan Amendment.

The Lewton Neighborhood Plan recommends that this site be developed for two different densities of six and nine dwelling units per acre. The requested rezoning has an approximate gross density of 17.5 dwelling units per acre. The exact density of this proposed development is not known because the petitioner cannot supply information as to the number of duplex units he intends to build. In any case, the proposed development plan does not meet the recommendations of the Lewton Neighborhood Plan for this site.

This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

January 8, 1976

Z-45-75

400 block East Greenlawn

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of January 6, 1976, recommended that the request by ENT Associates to rezone property in the 400 block of East Greenlawn from "E" Commercial District and "J" Parking District to "D-1" Professional Office District be approved.

This rezoning was approved in accord with the site plan submitted, providing that

the parking that now extends into the required front yard on Greenlawn is removed. This would call for the removal of approximately three (3) spaces. The Board found, based on testimony and evidence, that the 1960 Comprehensive Master Plan recommends that this lot be developed as part of a sub-community shopping center. The type of use proposed is a use that is normally found in this type of development where the immediate neighborhood can be served.

The Board believes that the impact of the requested rezoning on the neighborhood is expected to be minimal. The most noticeable impact will be an increase in traffic along Greenlawn Avenue. While the subject property is presently operated as a parking lot, the post office holds most of the permits for that lot. Their main use of this lot is for over-night storage, with the majority of the vehicles being moved in the early morning and late afternoon. A medical clinic would have continuous traffic movement to and from the site during business hours. The exact amount that traffic will increase is hard to assess without knowing the size of the proposed medical clinic. The proposed use of this site offers some improvement over the existing use, however. Presently the post office vehicles leave the site and travel Greenlawn to Maplewood, up Maplewood to the post office building to pick up outgoing mail. At the end of the day, the process is reversed as the vehicles are returned to the lot. Maplewood is a residential street and this existing traffic flow is disruptive to this residential area. The proposed use of this site would help alleviate some of that traffic on Maplewood.

The on-site parking will be screened where it abuts the single family homes to the west; however, the apartment buildings to the north are not in a residential district and the Zoning Ordinance would not require screening in this area. It would be advisable to require landscaping, screening, and fencing wherever on-site parking abuts a residential use. Further, the boundaries of the site are acceptable as boundaries for this zoning district. This district and the proposed use are an acceptable transitional use between the commercial to the east and the residential to the west.

With the on-site parking and increase in traffic on Greenlawn, the requested rezoning of this site is not expected to have any noticeable additional impact on the area beyond the existing use. The requested rezoning will have minimal impact on the subject property itself. The lot has adequate size for the proposed use and code requirements for setbacks, side yards, rear yard, and off street parking and should prevent overdevelopment of the site.

This recommendation was by 6 yeas, 2 nays vote of the Board.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

**THE PUBLIC MAY NOW ADDRESS THE CITY COUNCIL ON ANY OF THE FOLLOWING RESOLUTIONS — YOU MAY SPEAK ONLY FOR 3-MINUTES ON ANY ONE RESOLUTION.**

Robert Hollingsworth, 427 Seymour Ave., spoke relative Mayor's message and also relative resolution No. 2.

Chas. Mitchner, 300 N. Washington, Greater Lansing Urban League, spoke relative resolution on Dr. Martin Luther King.

Rev. Graves, Ministerial Alliance, spoke re: Dr. Martin Luther King.

**RESOLUTIONS**

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the City Assessor be, and he is hereby directed to spread on the July, 1976 tax rolls, the cost of correcting the hazardous and unsanitary conditions of properties in the year 1975, in the amount of \$342.50, as reported this date by the Building Commissioner, and as per attached list.

Adopted by the following vote:

Unanimously.

By Councilman Baker and Councilman Hull—

Resolved by the City Council of the City of Lansing:

Whereas, January 15 is the birthday of Dr. Martin Luther King; and

Whereas, Dr. King's ideals and values exemplified the finest qualities and ideals of all people; and

Whereas, he conducted his life in a manner befitting emulation by all people; and

Whereas, the work that he did brought closer the creation of a true brotherhood between men and women of all races, creeds and walks of life; and

Whereas, the citizens of America were indeed blessed by the fruit of his labors and honored when he received the Nobel Peace Prize;

Now, Therefore, Be It Resolved that the City of Lansing declares January 15 as a "Day of Celebration" in commemoration of the birthday of Dr. Martin Luther King, and

Be It Further Resolved that this City Council urges the residents of Lansing to reflect for a moment on January 15 on those ideals and how we all might help to bring closer to realization the peace and brotherhood between all people that Dr. Martin Luther King gave his life to make a reality, and

Be It Finally Resolved that the City of Lansing supports and urges the State of Michigan Legislature and Governor to declare January 15 a State Holiday henceforth commencing January 15, 1977.

By Councilman Adado—

That the last paragraph be amended to read "Commemorative Holiday."

The amendment lost.

The resolution was adopted by the following vote:

Unanimously.

By Committee on Housing Redevelopment and Human Resources—

Resolved by the City Council of the City of Lansing:

Whereas, Section 2A-8 of the Lansing Code states that the City Council shall place on file in the City Clerk's Office a proposed Housing and Community Development Act Budget not later than the third Monday after receiving the Mayor's recommendations and requires that the City Council shall schedule a public hearing on the proposed budget not earlier than one week after having placed its proposal on file with the Clerk; and

Whereas, the Housing and Community Development Act requires that at least two public hearings be held to obtain the views of citizens on community development and housing needs and that the citizens be provided an adequate opportunity to participate in the development of the application; and

Whereas, the Mayor's Housing and Community Development Act Budget recommendations for Fiscal Year 1977 were submitted to City Council on December 22, 1975;

Now, Therefore, Be It Resolved that the City Council does hereby concur in the recommendations of the attached Housing and Community Development Act Proposed Budget with the noted exceptions and shall place same on file in the City Clerk's Office, noted exceptions as follows:

1. All personnel additions and/or promotions (not including cost of living, merit increases, and longevity) will be deleted from their respective budgets and transferred to General Administration Reserve for Contingencies.
2. All deletions or reductions in other line items will be transferred to General Administration Reserve for Contingencies.
3. No new personnel will be added to Administration.
4. All new positions in Administration will be filled by transferring existing personnel from other positions.
5. Any person transferred into another job description shall be provided with

a full opportunity to learn the new job (not less than six months) and shall be provided with a formalized on-the-job training to be developed by the receiving Department or Division.

Be It Finally Resolved that the public hearings shall be held at Sexton High School Auditorium on January 28, 1976 at 7:30 p.m., and also at Eastern High School Auditorium on January 29, 1976 at 7:30 p.m.

By Councilman Adado—

That in No. 5 in the second line it be changed to read "not less than four months or more than six months."

Carried.

By Councilman Baker—

and,

Whereas, the Title X Labor funds must be expended within a twelve month or lesser period commencing February 28, 1976 and the Title X HUD funds must be expended within a twelve month period commencing April 1, 1976;

Now, Therefore, Be It Resolved that the Mayor and City Clerk are directed to sign all necessary contractual documents incidental to the receiving of the aforementioned HUD funds and such other contractual documents or directives necessary to insure the accomplishment of the Benjamin Davis Park Development, the removal of stumps and the planting of trees, the development of the Red Cedar Bike path with connecting links, the construction of a stairway on the south east end of the Michigan Avenue Bridge and all other projects incidental to the completion of the projects described providing that the total of the monies expended do not exceed \$1,101,300 after approval by the City Attorney as to form; and,

Be It Further Resolved that the Finance Director, the Planning Director, the Purchasing Director, the Parks and Recreation Director, the Public Service Director, the Mayor's Assistant for Community Development, the Personnel Director, the Manpower Director, the Program Coordinator and such other offices or departments that may become involved in the expenditure of these funds are directed to immediately take whatever action is necessary so that the projects outlined may commence on or before February 28, 1976, with completion of these projects to be accomplished prior to November 1, 1976; and,

## Be It Further Resolved That:

- a. The Mayor's Assistant for Community Development is charged with the overall administrative coordination of the activities pertaining to the expenditure of these funds to insure that all actions taken are in accordance with the City's Community Development policies and the policies of those Federal and State agencies participating;
- b. The Public Service Director is charged with taking those actions necessary to construct the stairway on the southeast end of the Michigan Avenue Bridge;
- c. The Parks and Recreation Director is charged with the implementation and field direction of all of the projects outlined, less the stairway construction, but to include the construction of the Red Cedar Bike Path and its linkages with the Riverfront Park. In the case of the Red Cedar Bike Path, the Planning Director will provide the services of Mr. Jon Bauer who will act as project manager under the direction of Mr. Haskell to insure the completion of all projects and actions incidental thereto to the

Red Cedar Bike Path and its linkages to the Riverfront Park,

- d. The Planning Director is directed to take immediate action to obtain environmental and any other construction clearances to permit the completion of all projects by November 1, 1976;

Be It Finally Resolved that \$5,000 be transferred from the Building Rental Account AC 251-930-000-942 to the Planning Department's Contractual Study Account AC 261-801-000-801 and that these monies will be used for a preliminary engineering study on the Red Cedar Bike Path and Linkages thereto.

Adopted by the following vote:

Unanimously.

By Committee on Housing and Human Resources—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has entered into a Grant Agreement with the United States of America to plan and implement a Community Development Program pursuant to Title I of the Housing and Community Development Act of 1974; and

Whereas, the City of Lansing, through the Human Resources Department, entered into a Contract with the Tri-County Aging Consortium (PN-98), effective from November 16, 1975 through September 30, 1976, in the amount of Sixty-two Thousand Six Hundred Eighty-three and 00/100 Dollars (\$62,683.00); and

Whereas, the City of Lansing, through the Human Resources Department, and the Tri-County Aging Consortium, do mutually agree to amend said Contract; and

Whereas, the total compensation under this amended contract shall not exceed Sixty-Two Thousand Six Hundred Eighty-three and 00/100 Dollars (\$62,683.00); and

Whereas, as a result of a change in operational agencies it is necessary that for the next six months the Tri-County Office of Aging manage the Northside Center to effectuate a reorganization of services because of segmented nutrition programs; and

Whereas, the City Council is interested in the merger and reorganization of services to improve the efficiency of nutrition operations for senior citizens; now, therefore, be it

Resolved, that the Human Resources Director and the Director of the Tri-County office of Aging are hereby directed to prepare a preliminary plan for reorganization for submission to the Housing Human Resources Committee of the City Council on April 1, 1976 and that that Plan be finalized for submission to the City Council by May 1, 1976; and be it

Further Resolved, that the Mayor and City Clerk are hereby directed to sign said Contract Amendment on behalf of the City of Lansing after approval as to form by the City Attorney of the City of Lansing.

Adopted by the following vote:

Unanimously.

Sec. 36-98. Neighborhood District Area No. 1 Citizen's District Council — Created Appointment of Members, Powers and Duties.

There shall be created a Citizen's District Council for Neighborhood District Area No. 1, pursuant to Act No. 344 of the Public Acts of 1945, as amended by Act 189 of the Public Acts of 1968 and Act 173 of the Public Acts of 1969 of the State of Michigan. The Citizen's District Council shall consist of fifteen members with the combination of elected and appointed members as follows: 6 members elected from the Development Area; 2 members appointed from the Development Area; 4 members elected from the balance of the District Area, excluding the Development Area; and 3 members appointed from the District Area, excluding the Development Area. The members of the Citizen's District Council appointed by the Mayor of the City of Lansing shall be selected in a manner that insures that the Citizen's District Council is, to the maximum extent possible, representative of the residents of the area and of other persons with a demonstrable and substantial interest in the area. The term of office on the Citizen's District Council shall be for three years.

The rights, duties and functions of the Citizen's District Council shall be the same as set forth in Act 189 of the Public Acts of 1968 and Act 173 of the Public Acts of 1969 of the State of Michigan, including other amendments to this Act as they may affect those rights, duties, and functions.

All vacancies occurring for elected members of the Citizens' District Council shall be filled by the unsuccessful candidate in line of succession by the highest vote count received in the last election. If such successors are unavailable, the remaining members of the Committee, both elected and appointed, shall meet to elect, by a majority vote of the total membership of the Council, an individual for the position to serve through the duration of the unexpired term of office.

All vacancies occurring for appointed members shall be filled by reappointment by the Mayor of the City of Lansing, in accordance with the same procedure used for the initial appointments.

Sec. 36-99. Authorization to Elect Officers and Draft Bylaws, Etc.

The Citizens' District Council, for the purposes of organizing and functioning, may elect officers, adopt any reasonable rules of procedure and draft bylaws, and

do such acts as may be required for its organization and conduct of its business, insofar as they do not conflict with the provisions of Act 344 of the Public Acts of 1946, as amended, or the Charter of the City of Lansing.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

That Councilman Blair and Brenke be excused from the session.

Carried.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

That the rule prescribed in Sec. 5.5 (g) of the Charter relative to considering business not on the agenda, be waived.

Carried.

Honorable Gerald W. Graves and

Members of the City Council

Lansing City Hall

Lansing, Michigan 48933

Dear Mayor Graves and Council Members:

Recently, Councilman James Blair, acting as the City's representative to the Tri-County Regional Planning Commission, referred a document entitled "Proposed Regional Housing Plan" for the Planning Department's review. Attached please find my response to Mr. Blair regarding the Regional Housing Plan. I would like to draw your attention to point 3, on pages 2 and 3 of this memorandum because I do believe it has considerable implications for the City of Lansing, particularly that point which says that Lansing presently has 41.8 percent of the poverty level households in the region and the implication that 60.8 percent of the potential tracts available for construction are located within the City of Lansing.

These statements in this plan seem to advocate that Lansing continue to assume more than its share of low and moderate income families in the region. As you are aware, low income families require higher levels of service with little or no tax return. The City of Lansing simply cannot continue to endorse or encourage approaches which add to the number of poverty level households without honest efforts on the part of other governmental jurisdictions to share in the housing problem.

I would recommend that you strongly endorse modifications to the regional plan which would shift the attention, for the present time, from the City of Lansing to outlying governmental jurisdictions.

Sincerely,

ALAN E. TUBBS,  
Planning Director,  
City of Lansing.

Referred to Committee of the Whole.

Mayor Gerald W. Graves and

Members of the City Council

City Hall

Lansing, Michigan 48933

Dear Mayor Graves and Council Members:

Re: Waterfront Development between Kalamazoo and Michigan Avenue and relationship to the Reniger Proposal for an Economic Development Grant

During the past six months, Mr. Reniger has met with the City Council, the Mayor

and several departments heads regarding his desire to proceed with a renovation of the Reniger Property at 200 Mill Street from a warehouse-office complex to a specialty-commercial mall-office complex. Specifically, Mr. Reniger requests a City commitment to Riverfront Development and support for his request from the Economic Development Administration for a loan to rehabilitate his property.

The City Council, on July 28, 1975, referred Mr. Reniger's Proposal to the Waterfront and Planning Boards. Those Boards responded on September 10, 1975 and October 7, 1975, respectively. (See attached letters) Both Boards reported that Mr. Reniger's proposal is consistent with the Waterfront Development and Central City Development Plans. Furthermore, his proposal is consistent with the recommendations of the City's Economic Consultant who in essence states that the downtown district should diversify and promote unique specialty types of commercial stores not found in suburban shopping malls.

On November 19, 1975, Mr. Reniger submitted a refined proposal to the Mayor's Office and Mayor Graves subsequently requested me to review this proposal and to assist Mr. Reniger in finalizing his Application for Economic Development Assistance.

Following the Mayor's request, I met with the Board of Water and Light, the Federal Program Coordinator, Parks Director, Public Service Director, Housing and Redevelopment Director and the Traffic Engineer. The purpose of this meeting was to review Mr. Reniger's Proposal to determine the commitments necessary on the part of the City, the programs of the various departments and how they might affect or be effected by the proposed development and, finally, to review potential funding sources to implement department recommendations.

The 1966 recommendations of the Mayor's Riverfront Development Committee were also reviewed. Acting on those recommendations, the City Council acquired the Poxson Building with plans to eventually demolish the building to provide a grand entrance to downtown and a terraced plaza down to the river's edge. Also, the City Council incorporated a cantilevered walkway on the east side of the Allegan ramp to allow the eventual connection with a pedestrian walkway on the west bank and a pedestrian bridge to the east bank of the river.

Recently, the City Council, acting on the recommendations of its Building and Properties Committee, purchased the Mill Street property (CATA Building). In its report, the committee reaffirmed past City policy for riverfront development by recognizing the short term use of this building with eventual plans to raze the structure and convert the land to parking as well as provide additional depth to the riverfront walk.

None of the City departments experienced difficulties with the Reniger proposal or

saw a conflict with City policy. The Board of Water and Light did indicate a need for continued access from Mill Street and outlined general long range plans for expansion of the water treatment reservoir and their willingness to be sensitive to the riverfront development in designing the exterior treatment for the reservoir.

Traffic and Planning recommended extension of City Market Drive from Alex's to just south of Kalamazoo to provide better access and circulation to the riverfront area. The sketch plan attached to this report shows the activities recommended by the various City departments for the development of the east bank of the river. Based on these activities, preliminary cost estimates were prepared for an orderly development process and funding sources for each phase proposed. These are attached to this letter.

In researching information for this development proposal, two issues were raised which I believe should be brought to your attention for discussion and action. The first issue is the railroad right-of-way south of Alex's to Kalamazoo. The Penn Central Railroad has abandoned this portion of their right-of-way and the tracks will be removed this spring. The property is up for sale. In discussing this right-of-way (needed for the street extension) with the railroad officials in Chicago, it was brought to my attention that Mr. George Dines has been in negotiation with the railroad for purchasing the property adjacent to Alex's. If this is allowed to happen, the City is blocked from the future extension of the City Market Drive under Michigan Avenue. Assuming you agree with the street extension as recommended, immediate action on your part will be required.

The other issue is the traffic sign shop. The City proposes to expend approximately \$50,000 to renovate one of the CATA buildings in the flood plain on the riverfront for a traffic sign shop to replace one which has been condemned by City inspections. The question is does it make sense to spend that much or should we invest an additional \$50,000 to build a new one in a location which will be permanent.

In summary, the City does have the ability to complete Phases II and III, provided the commitment is made to utilize the funds remaining from the sale of Urban Redevelopment 1 and 2 properties to re-invest in this area. A policy on these funds would enable the City's administrative staff to undertake the preparation of the appropriate applications to secure the remaining funds using the urban renewal funds for match.

If the Council concurs in this conceptual plan approach, I would recommend that the following approach be taken:

1. The Council concurs with the concept plan as a guideline for administrative action.
2. The Council establish a policy to re-invest the funds realized from the sale of Urban Renewal properties to com-

plete the Eastside Riverbank Plan and the Urban Renewal Riverfront Park.

3. The Council endorse Mr. Reniger's application for an Economic Development Assistance loan with inclusion of the above policy statement.
4. The Council direct the Property Manager for the City to begin negotiations for the purchase of the Penn Central railroad property to preserve our options for extension of the City Market Drive.
5. The Council resolve the issue of the Traffic Sign shop.

I will be happy to answer any questions you have or provide additional information if so desired.

Sincerely,

ALAN E. TUBBS,  
Planning Director,  
City of Lansing.

Referred to Committee of the Whole.

Delaware Park No. 2

Preliminary Plat

Honorable Mayor and

Members of City Council:

#### NOTICE HEARING ON A PROPOSED SUBDIVISION

The Planning Board will hold a public hearing on Tuesday, February 3, 1976 at 7:30 p.m. in City Council Chambers, Tenth Floor, City Hall on a proposed subdivision plat known as Delaware Park No. 2. This is not a matter of rezoning.

The property under consideration consists of approximately 4.22 acres and is located west of Annapolis Street and north of the property at 200 West Miller Road, City of Lansing. The proposed subdivision of Tecumseh Development, Incorporated, consists of seventeen (17) lots, average size being 7,200 square feet. The proposed use of these lots is for single family homes. Present zoning of the site is "A" One Family Residential District.

This notification is in accord with Section 37-8 of the Lansing Subdivision Regulations.

You are cordially invited to attend this hearing.

Sincerely,

ALAN E. TUBBS,  
Planning Director.

Received and placed on file.

January 15, 1976

Mayor Gerald W. Graves and

Members of City Council

City of Lansing

Lansing, Michigan 48933

Gentlemen:

Enclosed is the 1975 Municipal Employment Survey for the City of Lansing. This annual survey is compiled from the statistics received from each department of our city government. We have developed a comprehensive comparative report reflecting the employment scene from December 1972-December 1975.

This year we felt a responsibility to completely separate all federally funded departments and personnel because of the new city departments funded under the Community Development Act.

Our staff has reviewed the previous surveys and made the same separation of Federal programs.

We have submitted, for your information, a comparative report of the employment statistics from December 1972 to the present 1975 survey, in order to evaluate the accountability of the Affirmative Action Plan adopted by the City Council, November 1972.

You can observe the following changes:

Salaried employment decreased from 934 in 1974 to 918 in 1975. This is a decrease of 16 salaried employees, of which 1 is a minority. Salaried women decreased from 191 in 1974 to 186 in 1975. This is a decrease of 5 salaried women, of which 2 were minorities.

Hourly employment decreased from 352 in 1974 to 346 in 1975. This is a decrease of 6 hourly employees. However, there is an increase of 3 hourly minorities. Hourly women decreased from 22 in 1974 to 19 in 1975. This is a decrease of 3 hourly women, of which 1 was a minority.

Contract employment decreased from 179 in 1974 to 174 in 1975. This is a decrease of 5 contract employees, of which 4 were minorities. Contract women decreased from 56 in 1974 to 50 in 1975. This is a decrease of 6 contract women, of which 4 were minorities.

Total employment, less federally funded employees, decreased from 1,465 in 1974 to 1,438 in 1975. This is a decrease of 27 employees, of which 2 were minorities. Women employment decreased from 269 in 1974 to 255 in 1975. This is a decrease of 14 women, of which 7 were minorities.

The Comparative Report in 1972, page 1, shows the total minority employment at 12.49%. Three years later in 1975, total employment has increased by 21 employees. However, total minority employment has decreased by 17 employees, a reduction of 1.37%.

The Comparative Report for women, 1972 through 1975, shows a marginal increase in employment. But the significant factor reveals the fluctuation of women employees in the number of reductions in 1975 survey.

The Comparative Federal Report, page 3, also points out since 1972 total federal employment has increased by 130 employees, with a decrease in total federal minority employment of 2 employees, a reduction of 25.10% over all. Federal women employment for the same period has increased 34 positions. However, taking into account total federal employment increased 130 positions, the percentage of federal women employment does not keep pace with the 47.32% employed in 1972. Federal women employment 1975 is 36.78%, a reduction of 10.54%.

EXHIBIT IV, Classification V and Above depicts limited number of minorities and women employed in these positions. The comparative report shows an increase of 5 positions since 1974; 2 white males and 3 white females. The positions held by minorities remains the same, 9 although there was an increase of 1 minority male and a decrease of 1 minority female. EXHIBIT IV substantiates the fact that minorities and women are still employed in the lower classifications which have not improved with upward mobility.

Although there is a reduction in total employment, which could compensate for the reduction in minority and women employment, numerous departments had hiring opportunities in 1975 as is reflected in EXHIBIT VI. A total of 190 employees were hired with only a .7% increase in total minority employment. (the 55 school guards are not included in the 190 figure since they are not reported in the Survey.) We feel this does not constitute a "good faith effort" to afford employment opportunities to minorities and women in City Government.

The committee wishes to recognize those departments that have exhibited the effort to provide equal employment opportunities for all citizens and those who have developed Affirmative Action Plans. This report should serve to inform the mayor, city council members and department heads of the need to implement the Affirmative Action Plans adopted by City Council in November 1972, the Guidelines of Implementation, June 1975.

This report has been compiled at the request of the Human Relations Committee and the Committee takes full responsibility for the report.

#### THE HUMAN RELATIONS COMMITTEE,

STUART DUNNINGS, JR.,  
Chairperson,

HAROLD K. CUTLER,  
Chairperson,  
Employment Sub-Committee.

Referred to Committee of the Whole.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

This is to advise that Dr. Eugene Nakfoor has found it necessary to resign from the Lansing Fire Board, due to the fact that he has recently moved out of the City of Lansing. Therefore, I am submitting to you for your consideration and confirmation, the name of E. Boomie Mikrut to fill this most important position, which term expires on June 30, 1976.

From 1943-1946, Mr. Mikrut served the United States Navy, entering as an Ensign and separating as a Lieutenant Senior Grade.

Mr. Mikrut has the special qualification of being both a Certified Public Accountant and an Attorney. He received his B.A. from Wayne State University, his M.B.A. from Harvard Business School and his Juris Doctorate from Harvard Law School. He was admitted to the Michigan State Bar in 1949, and is privileged to practice before the Federal District Court, U. S. Court of Appeals, the Tax Court of the United States and the United States Supreme Court.

Mr. Mikrut has served as an Assistant United States Attorney; he has been a member of the Tax Staff of Arthur Andersen & Co., Certified Public Accountants; a Director of the Michigan Municipal Finance Commission from 1955-1970; a Special Attorney to the Attorney General, 1962-1970; and is presently an Assistant Attorney General for the State of Michigan. Mr. Mikrut resides at 3420 Colchester Road, in the City of Lansing, with his wife, Stella.

Trusting this recommendation meets your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

**THE PUBLIC MAY NOW ADDRESS THE CITY COUNCIL ON ANY OF THE FOLLOWING RESOLUTIONS — YOU MAY SPEAK ONLY FOR 3-MINUTES ON ANY ONE RESOLUTION.**

Mr. Brewer, 1513 E. Oakland, spoke relative Riverfront Development.

Councilman Baker responded.

## By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing is desirous of continuing development of Lansing's Waterfront in accordance with the concepts outlined in Lansing's Waterfront Plan published in February, 1974; and

Whereas, a portion of the Riverfront Park in Urban Renewal Project No. 2 is in the final stages of completion and extends along both banks of the Grand River from Michigan Avenue north to Saginaw St.; and

Whereas, the City of Lansing is desirous of linking this Riverfront Park with the planned open space, riverfront and commercial development along both banks of the Grand River from Michigan Avenue South to St. Joseph St.; and

Whereas, the newly completed Riverfront Drive terminates at the north entrance to the underpass east of Grand Avenue; and

Whereas, the City's Master Plan calls for the extension of this Riverfront Drive through the railroad underpass with a subsequent connection with Mill Street and exiting on Cedar St. south of Kalamazoo to permit circulation across Cedar and onto Larch; and

Whereas, the City Council of the City of Lansing has provided direction to the respective departments to proceed with the construction of the Red Cedar Biking Path with connecting links to the Riverfront Park, and also has directed the Public Service Director to proceed with the construction of a stairway at the Southeast end of Michigan Avenue Bridge;

Now, Therefore, Be It Resolved that the City Council directs that the following actions be taken:

1. The Housing and Redevelopment Director will:

- (a) Re-invest and reserve all funds to be realized (estimated to be \$631,500) from the sale of Urban Renewal No. 2 properties for priority expenditure as follows:

- (1) Completion of the Riverfront Park
- (2) Purchase of the Penn Central right of way
- (3) Development of the Riverfront along both banks of Grand south to St. Joseph Street;

The priority of expenditure and the anticipated source of funding for the above listed projects will be as follows:

Riverfront Park	\$324,500
Penn Central Purchase	150,000
Construction of Riverfront Drive	225,000
Construction of Pedestrian Bridge	180,000
Contingency	87,000
	<u>\$966,500</u>

2. The Property Manager will immediately begin action to secure free and complete title to all the Penn Central Railroad Property from Michigan Avenue south to the Grand Trunk and Western Railroad line;

Be It Finally Resolved that the Council directs that none of the aforementioned projects commence until monies derived from the sale of Urban Renewal No. 2 properties and/or matching funds are available and that any projects proposed by any Department must be in conformity with the plan for riverfront development as projected by the attached map and phasing description.

Lost by the following vote:

Yeas: Councilmen Adado, Belen, Gunther, Hull, McKane—5.

Nays: Councilman Baker—1.

By Councilman Hull—

That the resolution be reconsidered.

Carried.

The resolution was then adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council, on May 12, 1975, adopted Economic Development priorities to assist existing businesses as a part of the Overall Economic Development Plan for Ingham County, and

Whereas, the United States Department of Commerce Economic Development Administration approved such a plan on July 1, 1975, and

Whereas, Mr. Henry Reniger has requested assistance from the Economic Development Administration in the form of a loan or loan guarantee to convert existing wholesale businesses to commercial specialty uses, in support of the Central City Development Plan, and

Whereas, Mr. Reniger's proposal requires a commitment from the City to make improvements to the riverfront to enable pedestrian access to his proposed project, and

Whereas, the City has received funds to provide this pedestrian access and adopted a policy to continue development of the riverfront in the vicinity of his project,

Now, Therefore, Be It Resolved that the Lansing City Council hereby endorses Mr. Henry Reniger's proposal for an Economic Development Loan or Loan Guarantee from the United States Department of Commerce Economic Development Administration, and

Furthermore, requests the Mayor to provide whatever assistance is required to assure the successful implementation of this application.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, it is vital to the economy of the City of Lansing that General Revenue Sharing be reenacted as of January 1, 1977; and

Whereas, the reenactment of the General Revenue Sharing Act will enhance the economy of the Greater Lansing Area, curtail extensive property tax increases, help eliminate hardship to the citizens, preserve the local budgeting and planning processes, and eliminate the prospect of extensive lay-offs of City employees as outlined in the attached addendum;

Now, Therefore, Be It Resolved that the Mayor and City Council request all U. S. Senators and Representatives to favorably consider and reenact the General Revenue Sharing effective January 1, 1976 at a level at least equal to that now in effect, and

Be It Further Resolved that this resolution and addendum be forwarded to the proper committee chairmen, our representatives in both houses of Congress, the Na-

tional League of Cities, and the Michigan Municipal League.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That the expiration date on resolution appointing Janette Henderson as City of Lansing citizen representative to Tri-County Regional Planning Commission for a term expiring April 30, 1976, Council Proceedings p. 1059, December 15, 1975, be corrected to April 30, 1977.

Adopted by the following vote:

Unanimously.

By Councilman Gunther—

Resolved by the City Council of the City of Lansing:

SJ-1-76

5401 South Pennsylvania Avenue

More particularly described as:

Lot 63, Battenfield Subdivision No. 2, City of Lansing, Ingham County, Michigan.

Whereas John Brummeler, from Brummeler Distributing Company has requested permission to erect a mobile sign upon the above described premises for the purpose of advertising the commercial use of the property (car wash); and

Whereas the Planning Department has reviewed this request in accord with Section 36-41 (9) and has found that a large pole-mounted type ground sign presently exists on this site identifying the car wash; and

Whereas it is the intent of the Zoning Code to allow at least one identification sign for commercial type operations; and

Whereas it has been the policy of the City Council to discourage numerous signs on any one location; and

Whereas the Planning Committee of Council has reviewed the request and believes that one permitted identification sign is in keeping with the general intent of the Zoning Code, and therefore, would not recommend any additional ground signs at this location;

Now, Therefore, Be It Resolved that the Council of the City of Lansing denies the request for any further type of identification signs at this location.

Adopted by the following vote:

Unanimously.

By Councilman Gunther—

Resolved by the City Council of the City of Lansing:

P-3-75

Concord Village

Tentative Approval

Whereas the Replat of Concord Village has been submitted for tentative approval; and

Whereas the Planning Board, pursuant to Act 285, P.A. 1981, has approved and recommended that City Council tentatively approve the Replat subject to the following conditions:

- 1) That the Final Plat be developed with all public improvements as required by the Lansing Subdivision Regulations and the Michigan State Plat Act.
- 2) All lots will be graded so that surface water drains to the street.
- 3) That the developer utilize an underground electrical distribution system as specified in Section 37.33.1 of the Lansing Subdivision Regulations.
- 4) That the necessary easements be provided for the installation of utilities.
- 5) That the requirements and recommendations of the other City Departments and public agencies be adhered to.
- 6) A maximum of one curb cut be allowed per lot.
- 7) All requirements of the Soil Erosion and Sedimentation Control Plan are to be followed; and

Whereas the Planning Committee of Council reviewed the report of the Planning Board and concurred therewith;

Now, Therefore, Be It Resolved that the Replat of Concord Village is hereby tentatively approved subject to conditions one through seven as set forth above; and

Be It Further Resolved that the City Clerk be, and she hereby is, directed to attach this approval to the Replat and return it to the proprietor.

Adopted by the following vote:

Unanimously.

By Committee on Public Safety and Highways—

Resolved by the City Council of the City of Lansing:

P-474

Tecumseh Riverview Subdivision

Final Plat

Whereas the Final Plat of Tecumseh Riverview Subdivision has been submitted for approval; and

Whereas the Planning Board, pursuant to Act 285, P.A. 1981 as amended, has approved and recommends that City Council approve the final plat subject to the following conditions:

- 1) That either an Abstract of Title holds or an Attorney's opinion as to the marketability or a Certificate of Title Insurance be submitted to the City Clerk prior to the signing of the Plat and the affixing of the Municipal Seal.
- 2) That financial security be posted in the amount specified by the Public Service Department and the Parks Department prior to the signing of the Plat and the affixing of the Municipal Seal.
- 3) Final clearance of the Board of Water and Light; and

Whereas the Planning Committee of City Council and Public Service and Highways Committee of City Council have reviewed the report of the Planning Board and concur therewith;

Now, Therefore, Be It Resolved that the Final Plat of Tecumseh Riverview Subdivision is hereby approved subject to the conditions outlined above and all conditions of previous approvals; and

Be It Further Resolved that the City Clerk is directed to transcribe the Certificate of Approval of the Final Plat of Tecumseh Riverview Subdivision.

Adopted by the following vote:

Dear Miss Multon:

Re: Notice of doing business with the City

The City of Lansing, thru its Agent, Winegardner Real Estate Company has requested to purchase a parcel of property located at 1212 W. Kalamazoo Street. Said property was purchased by myself and my husband (Myrtis L and Lewis W. Smith) on Land Contract, from Kay and Robert Fuller, in September of 1960. Because of my employment with the City of Lansing, I am writing this letter as a formal disclosure of my financial interest.

The current purchase price offered by the City of Lansing was \$16,200.00. Upon our agreement to sell we (Myrtis L. and Lewis W. Smith) have signed a Purchase Agreement, with the agency acting on behalf of the City of Lansing in November, 1975, with the understanding the property was needed to complete the development of the Kingsley Place Project. Due to the fact that the property is not owner occupied and has been used as income property for the past 3½ years, we will not receive any relocation benefits.

Any party requesting more information can contact me at 5134 Balzer Street, Lansing, Michigan, Telephone 393-7724.

The Honorable Mayor and

Members of the City Council

City Hall

City of Lansing, Michigan

Gentlemen:

I attach a true copy of the Circuit Court Opinion File No. 75-18281-CL; Lansing Fire Fighters Association, Plaintiff vs City of Lansing, defendant. You may recall that this action arose from an Arbitrator's Award to the effect that Firefighters who do not serve a full year of service are nevertheless entitled to receive and retain the full \$250.00 annual food reimbursement. Some members of the Council Committee on Personnel may also recall the unusual attempts of the Firefighters legal counsel to persuade them that Arbitrators Awards are sacrosanct and should not become subject to Court review.

I am pleased to inform you that the Court found in favor of the City's position and has denied the relief prayed for by the Plaintiff, the Firefighters Association. In part, the Court Opinion concludes, "that the Arbitrator exceeded the authority bestowed upon him i.e., that he chose to add to, alter, or modify the terms of the written agreement when the terms of the arbitration agreement expressly prohibited such conduct".

Respectfully submitted,

D. J. BODWIN,  
Personnel Director.

Z-61-75

Northeast Corner of Aurelius and  
Cavanaugh Road

Honorable Mayor and

Members of the City Council

Gentlemen:

The Planning Board at their meeting of January 20, 1976, recommended that the petition which was initiated by the Lansing City Council to rezone property at the Northeast corner of Aurelius and Cavanaugh Road from "F" Commercial and —Parking Districts to A-1 Family Residential District be denied. The following is a history and analysis of the site in question and the area in which it is located:

This property was originally zoned to "F" Commercial and "J" Parking districts in October, 1963. This change of zoning was endorsed by the Planning Board and City Council with the thought of promoting commercial development to satisfy the needs of the surrounding residential area. That rezoning was initiated by the property owners.

In October, 1975 a rezoning from "A-1" Family District to "F" Commercial District was requested and approved for the northwest corner of Aurelius and Cavanaugh. At that time, the Forest View Citizens Association requested that the commercial zoning on the northeast corner (the subject property) be rescinded. It was found that the existing commercial area located on the northeast corner of Cavanaugh and Aurelius roads was divided and under several ownerships. It was also found that there were no immediate plans for commercial expansion. It was felt that the ownership status could promote piecemeal or strip development and the needs of the community may never be satisfied. It was also felt that strip or piecemeal development would be detrimental to the movement of traffic at this location.

The requested zoning will bring this area back into compliance with the recommendations of the Forest View Master Plan. That plan recommends commercial development in this area, but on only one corner of this intersection. The Master Plan suggests a "neighborhood shopping center" at this location with a service area of  $\frac{1}{2}$  to  $\frac{3}{4}$  of a mile, and is expected to serve a population of 5,000 to 8,000 persons. This area is gradually approaching the figures.

The northwest corner of Aurelius and Cavanaugh has a six acre commercial site which is sufficient to meet the recommendations of the Forest View Master Plan and the needs of the area. Additional commercially zoned land in this area would be out of line with the recommendation of the Master Plan and what will be needed for commercial development in the foreseeable future. The concept of limiting commercial sites is based on the amount of commercial development necessary to meet the needs of an area and the amount of commercial development an area can support. Through such restrictions an attempt is made to create a quality development and avoid buildings that are vacant much of the time.

The proposed rezoning is not expected to have any negative impact upon the subject property. Hopefully, it will help in the development of this site for a

residential use in the future. Until development does take place, this rezoning could help lessen the tax burden of the owners of this project. It is pointed out that this proposed change does not include either the existing service station on the northeast corner or that area which is occupied by "Keeps Market."

Based on the testimony and evidence at the public hearing which was held on January 6, 1976, and additional information which was provided from the Forest View Association, the Board believes that the change of zoning would impose hardship on those property owners which now have plans for development of their land in the commercial nature. The Forest View Association at their meeting of January 14, 1976, also reviewed this proposed zoning change and recommended that the property not be rezoned back to a residential classification, the reasons were essentially the same as that which was expressed by the Planning Board. That it would impose hardship on these individuals that now own the land and had plans for commercial development. This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS, Director  
Lansing Planning Department

Referred to Committee on Planning.

January 20, 1976

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

Because of the amount of time taken up at Council Sessions by the individuals zeroing in on fluoride, and the illegality of Council action, and that of the Board of Water and Light, by having same added to our drinking water, I have taken it upon myself to do some research. As I mentioned in my communication of December 23, 1975, I am not a champion of fluoridation of drinking water and my goal only is to set the record straight.

The past charge, by certain citizens, that the City Council acted illegally by requesting that fluoride be added to drinking water was proven not to be fact in the communication already forwarded to you. In regard to the charge that the Board of Water and Light "is in violation of a National law which prohibits fluoridation of water systems," I am attaching a copy of the most recent Opinion received by me from the City Attorney. The Opinion advises that:

—The Federal Safe Drinking Water Act governing contaminants in public water systems does not prohibit the use of

fluoride; it leaves the choice of adding such substances to each state or local public water system.

—State law specifically requires each municipality to fluoridate its water system unless rejected by an ordinance or by a majority of the electors if that municipality has not added fluoride prior to July 19, 1968. MCLA. 325.192; MSA 14.528 (102).

—The City Council has the authority to order fluoride, which it did, and the Board of Water and Light was obliged to abide by the decision.

My communication to you is not in support of, or opposed to, fluoridation. This communication to you, like that of December 23, 1975, is, as already mentioned, to set the record straight.

Sincerely,

GERALD W. GRAVES,  
Mayor.

RESOLUTIONS — YOU MAY  
SPEAK ONLY FOR 3-MINUTES ON ANY  
ONE RESOLUTION.**

Mr. Lungg Brewer, 1513 E. Oakland Ave. thanked the council relative to purchase of mini park at the corner of Grand River and Turner Streets.—resolution No. 8.

Mr. King J. Hanson, 1413 Vermont St. spoke relative to resolution No. 7 on the removal of snow from public alleys. There is an alley in the rear of his property.

Mr. Elmer Kempf, 1405 Vermont St., also spoke relative to snow removal in alleys.

## RESOLUTIONS

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

WHEREAS, the City of Lansing and Continental Cablevision of Lansing, Inc. did enter into an Acceptance and Guarantee of Cable Television Franchise setting forth certain understandings under which cable television service would be provided to the City of Lansing and accepted by Council Resolution dated April 29, 1974; and

WHEREAS, Section 10.a of said Acceptance and Guarantee of Cable Television Franchise does call for the appointment of a Cable Advisory Board to foster development of locally originated programs of all natures; and

WHEREAS, in accordance with the Acceptance and Guarantee of Cable Television Franchise, Continental Cablevision of Lansing, Inc. has proposed a Board of nine members to serve one year terms;

NOW, THEREFORE, BE IT

RESOLVED, that the following individuals be approved as members of said Cable Advisory Board; Chairman, James P. Platte; Sister Mary Janice Belen; Martin Campbell; Fred G. Henderson; Peter D. Houk; Mrs. Elmer Manson; Dr. Blanche Martin; Argelio B. Perez; and Robert Schultz.

By Councilman Gunther:

That this be referred to the Committee on Ordinance and Contracts and City Affairs.

Carried:

By Councilman Terry J. McKane—

Resolved by the City Council of the City of Lansing:

WHEREAS, the Michigan Department of State Highways and Transportation has requested that before final payment of all items purchased under Michigan Contract No. UTG-15 can be accomplished, the City of Lansing must prepare a position paper pertaining to the actions incidental to the receipt, utilization and disposition of the vehicles purchased through this grant; and,

WHEREAS, this contract provided for the purchase of six new 15-22 passenger electric buses, non air-conditioned with tires and nine new 15-25 passenger propane buses, in addition to such other items as tackagographs, fareboxes, bus shelters, bus stop signs and radio equipment; and,

WHEREAS, the City of Lansing has determined that these buses were legally accepted by CATA acting as agent for the City of Lansing, this acceptance being consummated by the fact that these

buses were placed into service and this utilization was for all intent and purposes proforma acceptance of these vehicles; and,

WHEREAS, it appears that the specifications for both the electric and propane buses as prepared by the City of Lansing, CATA, BOT and others were initially met by the manufacturer, however, the propane buses did not meet that portion of the specifications which guaranteed their operation for one year and as a consequence of this nonconformance the City of Lansing determined to withhold payment of \$30,589; these monies currently being held in escrow and will be so held until the statute of limitations ends in six years; and,

WHEREAS, this demonstration project in which these buses were utilized took place in the City of Lansing at various intermittent periods during 1973; and,

WHEREAS, this demonstration project was the first project of this type in the country where non air-polluting vehicles were utilized in a mass transit system; and,

WHEREAS, a great deal of difficulty was experienced in the operation and maintenance of these electric and propane buses; and,

WHEREAS, these difficulties and the sequence of events involved with the receipt, operation and maintenance of these vehicles is outlined in the chronology of events for the propane buses and the chronology of events for the electric buses attached; and,

WHEREAS, these difficulties can be attributed to various factors such as a lack of comprehensive experience by the manufacturers of the propane buses and the electric buses, the lack of operational and maintenance experience by the personnel of CATA and certain vehicle malfunctions and deficiencies which became chronic to the operational phase of this demonstration project; and,

WHEREAS, none of these difficulties experienced can be determined to have fallen within the purview of any particular individual or agency but were caused by a combination of factors; and,

WHEREAS, it appears that all parties to this demonstration project repeatedly attempted to resolve and overcome the problems that occurred in the most economical, equitable and expeditious manner; and,

WHEREAS, the City of Lansing has determined that these first generation propane and electric buses were not in the final analysis capable of providing service without excessive maintenance and parts replacement and that this demonstration project did not meet the expectations forecasted;

NOW, THEREFORE, BE IT RESOLVED that the City of Lansing directs the

Purchasing Director to transfer title of the six electric buses and the nine propane buses to CATA for such use, salvage and/or disposal as CATA may determine providing that any such use or disposition is accomplished in compliance with appropriate federal and state regulations.

Adopted by the following vote:

Unanimously.

By Committee on Housing Redevelopment and Human Resources—

Resolved by the City Council of the City of Lansing:

WHEREAS, the Community Development Block Grant Program under Title 1 of the Housing and Community Development Act of 1974 is the successor to the Urban Renewal Program (and Neighborhood Development Program) under Title 1 of the Housing Act of 1949; and

WHEREAS, the projected cost to close-out the City of Lansing's Neighborhood Development Project No. 2, Michigan A-6 is estimated at Six hundred thirty-one thousand five hundred (\$31,500.00) dollars on March 31, 1976; and

WHEREAS, in order to close out Neighborhood Development Project (NDP) No. 2, Michigan A-6 during Fiscal Year 1976, it will be necessary to transfer funds from currently planned projects within the Housing and Community Development Plan to cover the expense of unsold land with NDP Project No. 2;

THEREFORE, BE IT RESOLVED, that the Executive Assistant to the Mayor for Community Development is hereby authorized to submit a Revised Application (Attachment A) to the Department of Housing and Urban Development that reflects the estimated cost to closeout NDP Project No. 2, Michigan A-6 during Fiscal Year 1976 by deleting the funds budgeted in the following activity areas:

Eastside Public Improvements	\$536,158.00
Eastside Acquisition	95,342.00
Total	\$631,500.00

and be it,

FURTHER RESOLVED, that the same Six hundred thirty-one thousand five hundred (\$31,500.00) dollars be reallocated in the following activity areas during the second program year Housing and Community Development Act funding:

Eastside Public Improvements	\$536,158.00
Eastside Acquisition	95,342.00
Total	\$631,500.00

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That Councilman William A. Brenke and Councilman Jack D. Gunther be appointed to serve on the 1976 Board of Review, convening March 15, 1976, at a salary of \$60.00 per diem.

The location of the Board of Review hearings shall be determined by the Committee on Buildings and Properties no later than January 27, 1976, to be approved by the City Council no later than February 2, 1976.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

WHEREAS, a storm system in Grand River Park is needed to correct erosion and maintenance problems, and

WHEREAS, a joint sewer project has been designed in cooperation with Roberts Corporation and Lansing Township with each unit bearing proportional costs of the improvement, and

Whereas, Fishbeck, Thompson, Carr and Huber Inc. have prepared the project and taken bids for the project to be constructed as part of Contract by Lansing Township, and

WHEREAS, the bids of that portion of the project involving the City of Lansing and Roberts Corporation have come in at \$16,677.20 for a total cost of \$19,179.00 including contingencies and engineering, and

WHEREAS, the City of Lansing's share of this cost is \$12,590.00 (funds appropriated in Account No. 249-936-439-974).

NOW, THEREFORE, BE IT RESOLVED, that the City Council approve the City's share of the project in the amount not to exceed \$12,590.00 for lands annexed by the City of Lansing and benefited by the project, and that the Director of Parks and Recreation, the City Purchasing Director and City Attorney be authorized to prepare the necessary purchase order and agreements to reimburse Lansing Township for the City's share of the project not to exceed \$19,179.00 and that the City shall be reimbursed by Roberts Corporation up to \$6,589.00 for their share of the project, and

BE IT FURTHER RESOLVED, that upon approval of these agreements by the City Attorney, the Mayor and City Clerk be authorized and directed to sign on behalf of the City.

Adopted by the following vote:

Unanimously.

By Councilman Hull and  
Councilman Baker—

Resolved by the City Council of the  
City of Lansing:

WHEREAS, the City of Lansing presently removes snow from the public streets for the safety and convenience of citizens; and

WHEREAS, the quality of snow removal is partially dependent upon the absence of motor vehicles parked along the streets so that the snow can be removed from curb to curb; and

WHEREAS, many citizens must use the public alleys to gain entry and exit from their garages and parking spaces; and

WHEREAS, the City of Lansing presently does not remove the snow from public alleys with the result that many citizens are forced to park along the streets in violation of the ordinance of the City of Lansing because they cannot gain access to garages and parking spaces; and

WHEREAS, illegal parking upon the streets subjects citizens to possible fines for parking violations, creates difficulties in removing snow from the city streets, causes additional driving difficulties, and unnecessarily exposes citizens' vehicles to damage and vandalism;

NOW, THEREFORE, BE IT RESOLVED that the Public Service Department be directed to remove the snow from public alleys each and every time the Department of Public Service removes the snow from public local streets.

By Councilman Gunther:

That this resolution be referred to the Committee on Public Service and Highways and Committee on Finance.

Carried:

By Committee on Buildings and Properties.

Resolved by the City Council of the City of Lansing:

WHEREAS, The Property Management Division of the City of Lansing was directed to obtain appraisals which were incidental to the acquisition of the parcel of land located on the N. E. corner of the intersection of Grand River Avenue and Turner Street, referred to as Basic Parks Facility PN-56; and

WHEREAS, said appraisals have been completed which established the fair market value of subject property as being \$3,600.00; and

WHEREAS, the Owner of subject property, Louis J. Vlahakis, has been made aware of the fair market value as established by the appraisals; and

WHEREAS, Mr. Vlahakis is willing to accept \$1,600.00 as budgeted for the subject property thereby donating the balance of the fair market value to the City of Lansing;

NOW, THEREFORE, BE IT RESOLVED that the City Attorney shall prepare a deed to be executed by Mr. Vlahakis transferring title to the City of Lansing and that the funds be made available by the Finance Director in the amount of \$1,600.00 plus costs incidental to the purchase of subject property from Account No. 255-725-003-969.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

WHEREAS, the Lansing City Council's Committee of the Whole has had a number of budget meetings in the past few weeks;

NOW, THEREFORE, BE IT RESOLVED that the Lansing City Council establishes the following items as its official budget policy for the specific benefit of the Mayor and his Budget Committee:

1. All City departments shall submit budget proposals which encompass two levels of funding: (A) Funding at F'76 levels, and (B) Funding at 96% of F'76 levels.

Where departments request budgeting over and above F'76 funding, these requests should be submitted as an addendum to their budgets.

2. All departmental budgets shall be submitted with written justification for each program and with the priority of each program in relation to all of the other programs in their respective budgets.
3. The City Council shall hold public hearings on department allocations recommended by the Mayor during the month of April.
4. Whenever possible and desirable, capital improvements shall be funded from sources other than the general fund revenues.
5. Proposed capital improvements to improve the quality of life in existing residential neighborhoods shall have a higher priority than those proposed to provide services to new developments.
6. Existing user and license fees will be reviewed as appropriate prior to March 1, 1976 and every November thereafter by the Ordinance and Contracts Committee.
7. The Council, Mayor, and appropriate department heads shall give seri-

ous consideration to the use of the City's bonding ability to finance needed capital improvements

8. The Personnel Moratorium Committee shall continue to exert constraint in filling vacancies. New position openings shall be filled by existing City personnel where possible. Department heads shall provide adequate retraining programs for those personnel transferred as described in this policy.
9. The Mayor and the Council shall make every attempt to maintain the existing millage rate for F77.
10. The Council will develop a program budgeting procedure prior to October 1, 1976.

#### REPORTS OF CITY OFFICERS AND BOARDS

City Treasurer submits report on condition of funds in the Treasury as of December 31, 1975.

Received and placed on file.

January 28, 1976

The Honorable Mayor and City Council  
of the City of Lansing, Michigan  
Gentlemen:

Submitted herewith are the Financial Statements of the City funds at December 31, 1975, depicting the financial condition of the City's funds at that date in accordance with Section 7.9 (c) (2) of the City Charter.

This report, together with the Budget Status Report, provides the Mayor and City Council with required data relating to the financial condition of the City, exclusive of operations of the Board of Water and Light.

Respectfully submitted,

Re: Claim of Anthony Parham

Dear Mayor and Council Members:

The claim of Mr. Parham has been researched by this office and it is the recommendation of this office that the claim be denied.

Mr. Parham's vehicle was towed on December 3, 1975. Mr. Parham alleges that on December 7 he went to the police de-

partment to inquire about the vehicle and that he was informed at that time that the police knew nothing regarding his vehicle. On December 9 Mrs. Parham inquired of the police department again; this time she was informed of the location of the vehicle. Mr. Parham then picked up the vehicle on December 14, 1975, paying \$12.00 for towing and \$24.00 (\$2.00 per day) for storage.

If the police department had informed Mr. Parham on December 7 that it didn't know where his vehicle was, Mr. Parham was damaged to the extent of the storage costs for the time period of December 7 to December 9. Even for this minimum amount, the City is not liable because of governmental immunity. For most governmental functions, which a municipality performs, it is immune from liability. MCLA 691.1407; MSA 3.996 (108). The function performed by the police department in having vehicles towed is governmental and does not come within any exception.

For the above reasons, it is my recommendation that the claim be denied.

Respectfully submitted,  
PETER HOUK,  
City Attorney.

Re: Claim of Melva Mills for damage to  
basement when sewer backed up

Dear Mayor and Council Members:

The above captioned claim was referred to this office by Council action of January 5, 1976. The claim is for costs incurred in cleaning up sewerage from the basement of a home after the city line was blocked with towels from a nearby laundry. The city repaired the line within four days from the date that we were first notified of this defect. It is my opinion that this claim is covered by the concept of governmental immunity.

In a recent decision involving the City of Lansing the Michigan Court of Appeals said that where a child drowned after falling into an uncovered sewer drain that the city was governmentally immune. The Court quoted an earlier decision of the Michigan Supreme Court to the effect that

even where governmental property was knowingly maintained in a faulty and dangerous condition by the municipality that it did not constitute an attractive nuisance but merely negligence and that would not suffice to make the city liable. **Rosario vs. City of Lansing, et al**, Court of Appeals Docket No. 23671, decided January 8, 1976; \_\_\_\_\_ Michigan Appeals \_\_\_\_\_ and NW 2d \_\_\_\_\_.

Re: Claim of Rolene Berg for damage to her car when it struck pothole in street

Dear Mayor and Council Members:

The above referenced claim was received by the City Attorney's office on December 29, 1975, for investigation and recommendation.

Ms. Berg alleges that on Monday, November 24, 1975, her vehicle struck a pothole in the street at the intersection of Holmes and Palmer. She is now asking to be reimbursed in the amount of \$45.00 for damage to her vehicle. It should be noted that the bill or a copy thereof for the damage was not submitted with the claim.

Under State law, cities are immune from damages caused by defective highways unless it knew or should have known of the defect and had a reasonable amount of time in which to repair the defect. MCLA (91.1403; MSA 3.996 (103)). The City did not have knowledge of the alleged pothole and there is no showing that it should have known of the defect.

Therefore, it is the recommendation of this office that the claim be denied for the reason that the City is immune from liability for the damage incurred to Ms. Berg's vehicle.

Respectfully submitted,

PETER HOUK,  
City Attorney.

January 23, 1976

Honorable Mayor and Members

of the Lansing City Council

Dear Mayor and Council:

You have asked this office whether a conflict of interest or loyalty existed where a city employee who works for the internal auditor is in addition appointed as the City Council's liaison representative to a community association of which the employee is a member. As further background you have indicated that all of the Council's liaison representatives are responsible for attending the meetings of the association to which they are assigned, conveying the Council's position and views to the association and informing the Council of the association's needs and views. In addition, the liaison representatives are to receive compensatory time off for attending association evening meetings and are expected to answer neighborhood inquiries during regular office hours.

For the reasons delineated herein, it is the opinion of this office that although there is no absolute legal impediment, a liaison representative should not be a member of the community association he is assigned to represent.

Two areas must be considered in answering your inquiry; namely, the common law and the Political Reform Act of 1975 being 1975 PA 227; MLCA 169.1 et seq; MSA 4.1701 (1) et seq. which becomes effective April 1, 1976.

At common law a conflict of interest or loyalty arose where the purely personal interests of a public official or employee interfered with that official's or employee's fair, impartial and objective judgment to which the public is entitled or where such personal interests placed the official or employee in a position which had the tendency of inducing an interference with an objective judgment. See City Attorney opinions 70-32 issued December 18, 1970; 74-42 issued June 11, 1974 and 75-100 issued December 9, 1975. In short, it is the interference with or improper influence of a judgment which gives rise to the conflict of interest or loyalty.

Here it is the primary responsibility of the liaison representatives to act as conduits for the flow of information and ideas between the various neighborhood associations and the City Council. It is not within

the authority of liaison personnel to make policy judgments but rather to act as a transmitter of policy judgments other officials or bodies have promulgated. Therefore, in absence of any judgment or policy making responsibility and function and as long as the liaison personnel accurately convey the information between the various associations and the Council, it is the opinion of this office under the common law precepts delineated in the preceding paragraph that neither a conflict of interest nor loyalty exists merely because a liaison person is assigned to a neighborhood association is also a member of that association.

The Political Reform Act of 1975, *supra*, however has further refined and expanded the common law principles concerning conflict of interest. Sections 124 (3) and 126 of that Act pertain to your particular inquiry and will be discussed *seriatim*.

Section 124 (3) being MCLA 169.124 (3); MSA 4.1701 (124) (3) provides that a public employee shall not act for compensation as the representative or agent of a group or association of which he is a member before the governmental body of which he is employed. A violation of this section is a felony which carries a maximum penalty of \$10,000, three years imprisonment, or both.

That liaison representatives are by definition public employees and receive compensation for their services is beyond dispute. See MCLA 169.14 (5); MSA 4.1701 (14) (5); MCLA 169.4 (3); MSA 4.1701 (4) (3). Under these circumstances there is the very real danger, whether done consciously or not, that a liaison representative, who is also a member of the community association to which he is assigned, would do more than merely convey information and begin, contrary to the Act, to actively lobby for and represent the interests of his particular association. This is not to say that any of the liaison representatives would so act and this office has no reason to suspect such action. Nonetheless, the opportunity and temptation to so act is ever present.

Furthermore, Section 126 of the Act being MCLA 169.126; MSA 4.1701 (126) provides in pertinent part:

"A public employee shall not represent a personal opinion as that of the governmental body of which the public employee is an employee."

Here again it is readily apparent that a liaison representative with the dual role of representing the city to a community association and maintaining a membership in that association could easily run afoul of the Political Reform Act by portraying his personal opinions as those of the Council.

From a reading of the Political Reform Act of 1975, it is patent that the legislature sought not only to insure that public business would be conducted with both impar-

tiality and propriety but also that the actions of public officials and employees in the discharge of their duties would not be tainted by even the appearance of partiality or impropriety.

The case at hand where a liaison representative is also a member of the association he is assigned to represent is illustrative of the kind of situation the Political Reform Act was designed to proscribe. As discussed throughout this opinion, there is ample opportunity presented for easy abuse of office and position. Moreover other community associations whose liaison representatives are not members would more than likely conclude and not without some justification that the associations with member liaison representatives have in some way a greater influence over the actions of the Council. As a result, the healthy atmosphere hoped to be generated by the liaison concept evaporates and is replaced with suspicion and the appearance of impropriety. In short, the designation of a member of a community association as the city's liaison representative to that association, while not violating the letter of the Political Reform Act, clearly thwarts the spirit and intent of the Act.

Trusting the foregoing adequately answers your inquiry, I remain

Respectfully,

PETER HOUK,  
City Attorney.

Referred to Committee of the Whole.

Re: Public hearings during the month of April regarding proposed departmental budget allocations recommended in the Mayor's budget

Dear Mayor and Council:

At the evening session of the City Council on Monday, January 26, 1976, a question was raised concerning whether or not the Council may hold public hearings during the month of April concerning the proposed departmental budget allocations recommended in the Mayor's budget.

For the reasons set forth below, it is the opinion of this office that the City Council may hold such public hearings.

The procedure to be followed in adopting the budget is fully detailed in Chapter 8 of the Charter, being Lansing Charter, ch 8, §§8.2 through 8.5, which basically provides (1) that each department and board shall submit to the Mayor not later

than the first Monday in February an itemized statement of its expected income and expenditures for the ensuing fiscal year; (2) that not later than the fourth Monday in March the Mayor shall prepare and submit to the City Council as a committee of the whole a recommended budget; (3) that the recommended budget shall be reviewed by the Council as a committee of the whole; (4) that the recommended budget of the Mayor together with the recommendations of the Council shall become a public record which shall be available for public inspection in the Clerk's Office on the fourth Monday in April; (5) that not less than one week after it becomes a public record and at least one week before its adoption, a public hearing shall be held on the budget; and (6) that the budget shall be adopted not later than the third Monday of May.

When interpreting the provisions of a municipal charter, the recognized rules of statutory construction are applicable and the primary question focuses upon ascertaining from the language utilized the intention of the electorate in adopting the Charter. *Brady v Detroit*, 353 Mich 243; 91 NW 2d 274 (1958). As a result, the present inquiry narrows to whether or not the Charter language supports an intention that there be an opportunity for public participation in the budget procedure, and if so, at what steps of that procedure.

Lansing Charter, ch 8, §8.4 specifies that a public hearing on the budget, i.e., the Mayor's proposed budget and the recommendations of Council, shall be held not less than one week after the fourth Monday in April and at least one week prior to its adoption. Indeed, the mandate of a public hearing prior to the adoption of a municipal budget was subsequently provided in the State Constitution and by statutes. See Const 1963, art 7, §32 and MCLA 141.411 et seq; MSA 5.3328 (1) et seq. Therefore, it is readily apparent that the Charter language and now the state law amply support the proposition that there be an opportunity for public participation in the budget procedure.

Having concluded that the opportunity for public participation is a prerequisite to the adoption of a budget both under the Charter and the state law, the remaining question, as previously recounted, is at what step in the budget procedure may such an opportunity be given.

In resolving the foregoing question, it is critical to note that Lansing Charter, ch 8, §§8.2 and 8.3 requires that the Mayor submit a recommended budget to the Council as a committee of the whole not later than the fourth Monday of March and that the Council review this budget as a committee of the whole.

The object of the committee of the whole concept is to permit a more informal and less restrictive discussion of matters than would otherwise be possible under the more formal rules of the Council. See Mason,

*Manual of Legislative Procedure* (Senate California Legislature ed 1962) §650, p 459. Further, all meetings of the legislative body of a municipality are, subject to certain limitations not apparent here, required to be open to the public and citizens attending such meetings are entitled to a reasonable opportunity to be heard. MCLA 117.3 (1); MSA 5.2073 (1); Lansing Charter, ch 5, §5.5 (d); Council Rules 47 and 49; City Attorney Opinion 75-83 issued October 16, 1975. Moreover, implied in the reasonable opportunity to be heard is reasonable notice of the question or subject under consideration to the end that interested parties can give some thought to the subject and render germane comments. *Haven v City of Troy*, 39 Mich App 219; 197 NW 2d 496 (1972).

Therefore, each time the Council convenes as a committee of the whole to review and discuss the proposed departmental allocations recommended in the Mayor's budget, the meetings must be open to the public and those citizens in attendance must be afforded a reasonable opportunity to speak. It is at this step in the budget procedure that the opportunity for public participation arises. In addition, reasonable notice of the time, place and of the departmental allocations to be considered should be given to the public under the rationale of *Haven v City of Troy*, supra. However, since the Council is solely charged with a "review" of the Mayor's recommended budget under the Charter, the number of meetings or hearings and the manner in which they are conducted rests solely in the discretion of the Council.

Additionally, it should be noted that Lansing Charter, ch. 8, §8.3 provides *inter alia* that the Mayor's proposed budget and the Council's budget recommendations shall become a public record and available for inspection on the fourth Monday in April. It may be argued from a very narrow construction of the foregoing section that no portion of the Mayor's proposed budget may be disclosed prior to the fourth Monday in April. However, Lansing Charter, ch 2, §§2.1 and 2.3 also declare that all books, papers or records required to be kept in any of the several municipal departments are public records.

In *Brady v Detroit*, supra, the Court held that if at all possible, the provisions of a city charter governing a particular subject matter must be construed together and harmonized for the reason that it is not presumed that the adoption of conflicting provisions was intended.

Based upon the discussion detailed herein regarding the opportunity for and the nature of public participation in the budget process after the Mayor's budget has been filed with the Council in March, this office reads the fourth Monday in April date specified in §8.3 of the Charter as the latest date at which the Mayor's budget must be made public. To conclude otherwise, i.e., that citizens have the opportunity to be present at the budget meetings and comment on the proposed departmental alloca-

tions recommended in the Mayor's budget but that no portion of that budget may be disclosed prior to those meetings, is not justifiable and does violence to the principle in *Brady*, *supra* that conflicting charter provisions be construed in harmony where possible. In short, this office finds neither a statute nor a charter provision which would prevent the public disclosure of the Mayor's budget after it has been filed in final form with the Council and as a result becomes a public record at that time as defined in Lansing Charter, ch 2, §§2.1 and 2.3.

Respectfully submitted,  
PETER HOUK,  
City Attorney.

Honorable Mayor and  
Members of the City Council  
Lansing, Michigan  
Gentlemen:

The Building Department has received a written request from Nora G. Jones; legal interest holder, and Dr. Robert M. Jones; land contract vendor, who are the legal owners of the condemned one family residential dwelling located at:

922 Riverview

further described as:

N. 32.5 ft., Lots 63, 64, and 65  
Riverview Heights Subdivision  
3301-20-134-111-0

to demolish and remove the structure, fill and grade the excavation, by the City of Lansing, and all costs to be applied on the property tax roll.

Therefore, it is requested that the City Council authorize the Building Commissioner to proceed with demolition of this structure, and the Purchasing Agent obtain quotations for demolition of same.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

SUBJECT: Proposed Amendment to Code of Ordinances Governing the Employees Retirement System  
Re: Council Representation on the Board of Trustees

The Boards of Trustees for the City of Lansing Policemen's and Firemen's Retirement System and Employees Retirement System are each comprised of eight trustees, one of which is a representative from the Lansing City Council.

Lansing ordinances CH 26, Sec. 5 governing the Employees Retirement System states that the council representatives shall be the "Chairman, finance committee of the council." And Chapter 16, Section 3 of the Charter of the City of Lansing which governs the Policemen's and Firemen's Retirement System states that the council representative shall be "a member of the council to be selected by the council, to serve at the pleasure of the council."

From April 1967 through December 1975 the council representative to both Boards of Trustees was John T. Anas, Chairman of the Finance Committee of the City Council. However, with the change in City councilmen effective January 1, 1976, it is now necessary that the council appoint new representation to the Boards of Trustees.

Acting under current statutes, Councilman Terry McKane, as Chairman of the Finance Committee, would automatically serve as council representative to the Board of Trustees for the Employees Retirement System, but the council may select Mr. McKane or another councilman to serve as trustee representative to the Policemen's and Firemen's Retirement System. Further, Mr. McKane as Mayor Pro Tem for the City Council for 1976, already has many demands on his time.

I propose that for the purpose of consistency between the two retirement systems and to allow flexibility within the City Council to balance their workload as desired, the Code of Ordinances be amended to permit the selection of council representation to the Employees Retirement System in a manner consistent with the process used for the Policemen's and Firemen's Retirement System.

Director of Finance.

Re: Design and Location of Proposed  
C. D. Community Center

Gentlemen:

Our community center construction program needs a policy decision by City Council if implementation of present plans is to proceed.

The City has been committed for several years to construction of Community Recreation Centers in various parts of the City. Gier Park Center was completed and opened this fall. Kingsley Place Center is under construction. There was a third center proposed and funded for the east side, a fourth for the southwest area proposed in the three year C.D. Plan, and a fifth for the southeast at sometime in the future.

The East Side Center planning stopped when the proposed location at Hunter Park was not approved by City Council. These funds were carried over from the Model Cities program to the C.D. program and are available in the FY76 budget.

Funds were designated in the C.D. Plan in the amount of \$50,000 FY76 plan and \$500,000.00 FY77 to build a center in the southwest area. This plan has not yet been amended.

The proposed C.D. budget for FY77 indicates that there will be funding for one center to serve EITHER the southwest or eastside area. However, at the present time I have direction to proceed with technical planning and citizen involvement for a center in the southwest area.

Is it the intention of City Council that we proceed with site selection and program planning for:

1. Southwest area only.
2. East side area only.
3. Both areas with decision as to the location for first construction to be made at a later date prior to hiring of architectural firm.

I feel I must proceed with the direction given in the original plan unless directed otherwise by City Council. The work plans prepared at this point can be used for either or both geographical areas. Prompt implementation of this phase of the C.D. program requires your prompt decision.

Honorable Mayor and

Members of City Council

Lansing, Michigan 48933

Dear Mayor Graves and Council Members:

Re: Report on Manpower Conference:  
"CETA: Manpower Planning, Programming, and the Prime Sponsor," held January 17, 1976, at Kellogg Center, M.S.U.

The Principal speakers at the subject Manpower conference—Don Baker, Chief Clerk for the Committee on Education and Labor; and Charles Caine, representing Richard C. Gilliland, Director of Region V, ETA office—discussed the probable future of public service employment (CETA).

At the end of 1975, 8.5% of the national labor force is unemployed and it is predicted that recovery from the recession will be slow, with unemployment dropping to 7.6-7.9% at best by the end of 1976, and to 7.1-7.3% by the end of 1977.

Although PSE has been designed to alleviate the unemployment situation, Congress is generally opposed to it and labor unions and the general public have been apathetic. The reasons are several: The cost of PSE is high. The percentage of the population that benefits is small. Both Congress and the public are more concerned with inflation than with unemployment. The unemployed themselves have not become significantly vocal because of their financial condition. Their financial hardships have been cushioned by:

1. The inflow of women and young adults into the labor market, indicating that family members other than the head of the household are contributing to the family income;

2. Family savings, which are the highest they have ever been during any recession;
3. SUP benefits and the extension of unemployment benefits, which amounted to \$18,000,000 in 1975.

As these cushions disappear, public consciousness will rise. Baker does not believe that CETA Title VI will be renewed in its current form. A Committee chaired by Congressman Daniels, however, is preparing a bill to renew Title VI funding under new operating conditions. The Daniels bill would increase the Title VI administrative allowance from 10% to 15% of the total grant and provide for such items as consumable supplies and equipment, which are currently disallowed. The bill would also require that PSE workers be used in projects of 1 to 12 months duration. It would further require that 80% of the funds go to non-profit agencies and 20% to projects funded by the prime sponsor or the program agent himself.

The purpose of shifting to the project approach is to assure Congress that PSE is temporary and is not a form of revenue sharing, which it tends to become in its present forms. Projects can be phased down with little effect on municipal budgets and operations. The distributions of the bulk of Title VI funds to non-profit agencies should give further credence to this argument. Another reason for this approach is that projects are visible and should therefore increase public awareness of the program.

Region V is concerned that not enough CETA employees are being transitioned to unsubsidized employment upon termination (the goal is 50%) and that too many cities are using CETA funds to recall laid-off city employees, thus violating the maintenance of effort clause in the federal regulations. Region V has been assured that the federal government will provide additional funds to cover unemployment insurance claims; specific information should be provided prime sponsors within a few weeks.

COMMENT: The Daniels bill would reduce the City's role in CETA Title VI mostly to administration. Approximately 122 of the current 152 CETA employees in Title VI would have to be phased out this coming summer and the remaining 30 relegated to project work—assuming that the 1977 funding stays at the 1976 level. If the project concept applies equally to non-profit agencies, most of the CETA employees with Lansing's 12 sub-contractors would have to be terminated or shifted to project-type jobs. Lansing would have to develop approximately 20 new contracts with non-profit agencies to distribute its Title VI funds and would have to expand the manpower staff to handle the increased administrative burden. Although there is doubt that the Daniels' bill will "fly," Lansing officials should be aware of its implications and allow for them in their planning.

Sincerely,  
JOHN HOULDSWORTH,  
Director,  
Manpower Administration.

Honorable Mayor Gerald W. Graves and  
Members of the Lansing City Council  
Gentlemen:

Subject: Proposed Change Order No. 1  
Twin Pines Nursery  
City Market Renovations

As a result of site conditions created by work under change orders with the general contractor for the City Market renovations, it is necessary to consider a change order for the landscaping contractor, Twin Pines Nursery. A copy of proposed change order is attached.

The proposed change order will increase the contract price by \$520.50, from \$7,958.00 to \$8,478.50, for the following three (3) items:

1. Furnish and install fieldstone along north property line at edge of parking lot in lieu of sod.

Because of the slope of the bank at this location, and our previous unsatisfactory experience with sod or rip-rap in holding such a sloped bank in place, without erosion problems, it is necessary that this item be installed.

2. Furnish and install top soil in area between sidewalk along Cedar Street and new curb at eastern edge of parking lot.

In order to compensate for the additional top soil quantity required by the raised curb elevation, this top soil is required to be installed.

3. Furnish and install one tree, the species of which is Paul's Scarlet Hawthorne.

This tree is recommended as a substitution for several smaller bushes.

In addition to the above items, this proposed change order will extend the time of performance for this contractor until a June 15, 1976 completion date. This extension is necessary due to the timing of the completion of work by the general contractor, and the timing of the onset of bad weather.

Funds required for this change order are currently budgeted in the City Market renovation account. It is my recommendation that this change order be approved.

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

Members of the Lansing City Council  
Gentlemen:

Subject: Change Order No. 2  
Contract No. 1, Site Improve-  
ments and Miscellaneous. Con-  
struction  
Riverfront Park  
Project No. 2, Mich. A-6

Attached you will find a copy of pro-  
posed Change Order No. 2 to the subject  
contract between the City of Lansing and  
Brown Brothers, Incorporated. The pro-  
posed change order reflects modifications  
that are necessary as a result of additional  
materials and work required to accomplish  
the Phase I construction. Most items in  
the proposed change order are self-explana-  
tory.

It should be noted that the largest portion  
of the increase called for in this change  
order directly relates to the need to obtain  
additional fill dirt to meet site require-  
ments. The contractor must supply this  
fill dirt, due to the fact that some of the  
fill dirt anticipated to be received from the  
excavation of the Lansing Community Col-  
lege ramp was found to be unacceptable,  
due to its rubble and muck content. This  
item represents \$10,276.00 of the \$11,987.00  
total increase proposed. The price per  
cubic yard is very favorable.

All costs for this proposed change order  
will be charged against Urban Renewal  
funds, for which adequate budget exists. It  
is my recommendation that this proposed  
change order be approved.

Sincerely,

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

Lansing, Michigan 48933  
Dear Councilman Hull,

The Services Committee of the Lansing  
Bicentennial Commission is proposing in-  
stallation of fifty state flags along the  
Michigan Avenue Bridge. Enclosed is the  
cost breakdown for the entire purchase  
and installation of the flags. While the  
Service Clubs are happy to provide this  
service as a benefit to the City, we feel  
we cannot commit our clubs to an indefinite  
maintenance cost. However, if the City

is able to maintain the flags on a continuing basis, the clubs will be able to finance the entire purchase and installation of the flags and flag pole structures.

Maintenance would primarily involve regular replacement of wornout flags, probably on a yearly basis. The costs would amount to approximately \$600-\$900 per year.

If the City is able to finance maintenance, we believe the flags will be an attractive addition to our Community.

Sincerely,

BUDD GOODWIN, Chairman,  
Service Clubs Committee,  
Lansing Bicentennial Commission.

Re: Appropriation Transfer Request

Gentlemen:

Upon the unanimous vote of the Lansing City Charter Commission I have signed and submit to you herewith, an appropriation transfer request which has been approved by the City Director of Finance, Mr. Dowsett.

You will recall that the Council initially allocated the \$46,250.00 budget for the Charter Commission into five categorical accounts in November, before the Charter Commission was organized and operating.

The request to transfer \$1,000.00 from the Consultation account to Board Expenses is necessary to facilitate payment of incidental expenses such as the gathering of resource material.

The request to transfer \$500.00 from Office Supplies to Office Equipment account involves our acquisition of a tape machine necessary for the preparation of minutes and out going correspondence. The City had no comparable equipment available for our use.

I understand that it is City practice to establish specific accounts rather than try to stretch the definition of an account to include a broader range of purposes than the short summary name of the account itself might imply.

We would appreciate your assistance in this matter at your early convenience.

Sincerely yours,

THOMAS C. WALSH,  
Chairperson.

January 29, 1976

Honorable Mayor Gerald W. Graves  
and Members of the City Council

Lansing City Hall

Lansing, Michigan 48933

Dear Mayor Graves and Council Members:

On January 20, 1976, the Lansing Planning Board at their mid-monthly meeting unanimously adopted the 1977-82 Six-Year Capital Improvements Program including the 1977 Capital Budget (attached). The recommended FY-77 Capital Budget totals \$5,838,000 which includes \$995,000 from the General Fund (see page 2), \$1,668,000 from Act 51, \$625,000 from the Sewer Fund and \$2,550,000 from Community Development funds which you approved by resolution in December, 1975 (Community Development Program Budget Recommendations). It is interesting to note that the total FY-77 Capital Budget including all previously funded projects and programs (see page 3 of the attached document) is over \$50,000,000.

The Planning Board after reviewing the recommendations adopted by the Capital Improvements Program Technical Coordinating Committee submits the 1977-82 CIP Six-Year Program for your review and approval with the following recommendations for the Six-Year Program.

#### General Recommendations

(1) The Planning Board finds it extremely difficult to review and recommend a Capital Improvements Program without the benefit of Front End City wide policy. Consistently year after year the Six-Year CIP Program has reflected a set of fragmented departmental policies and goals and does not truly represent City wide policies and objectives that can only be developed and adopted by the Mayor and City Council.

On July 28, 1975, the City Council approved a year around CIP Planning and Budgeting Process as submitted by the Planning Board. This year's Six-Year Program was developed by utilizing a modification of the New Process due to a time limitation. Needs assessments and policy recommendations regarding growth, development, rehabilitation, major maintenance, replacement, etc. were not developed.

However, the New Process officially begins on February 1, 1976, with Phase I (February 1 through third Friday in August), Policy Development, being the key to the success of the Process and its Products.

The Planning Board requests the Mayor and Council to review the New Process and actively support the City departments and Boards in their preparation of policy recommendations for the City of Lansing.

(2) The City Council and the Mayor should review those **proposed** projects and programs funded by Act 51 and Sewer Fund as you do for Community Development and the General Fund.

(3) In light of the projected limited resources available to the City, the Planning Board recommends developing a Bonding Package for future CIP Programs that reflects the policies and needs of the City. In addition, the Board also recommends a complete analysis of **existing** bonds including updated costs, priorities and alternative uses of those bond funds be initiated as soon as possible.

#### Specific Recommendations PUBLIC SERVICE

##### BRIDGES

**Pedestrian Overpasses**—In the past, overpasses have cost the City between \$30,000 and \$50,000 per overpass. Due to new state laws which require 200 foot handicap ramps, the cost for a pedestrian overpass will be approximately \$100,000. The Board recommends pedestrian overpasses be re-evaluated and a City wide policy be established.

**Kalamazoo Street Bridge**—This project should be postponed until detailed studies on condition and improvement alternatives have been completed. This project should have a **lower priority** than Edgewood Boulevard regarding the application for Federal Aid Urban Systems Funds.

**Elm Street Bridge**—This project should be reevaluated in terms of cost, design, priority, etc. This action should occur during the examination and analysis of existing General Obligation Bonds.

##### STREETS

**Miller Road—Cedar Street to Washington**—Costs should reflect 36 foot pavement and not widening to four lanes.

**No. 5—Edgewood Boulevard—Cedar Street to Washington**—Acquisition and relocation costs should also be included in the project costs. Recommend this project as a priority for Federal Aid Urban Systems Funds for FY-1977 in lieu of Kalamazoo Street bridge.

**No. 13—Clemens Street Widening—Elizabeth to Kalamazoo**—Postpone this project to latter part of the Six-Year Program. Recommend a detailed study be conducted to determine how the traffic circulation should best be handled.

**No. 35—Grand Avenue Extension—Oakland to Grand River**—Delete from Six-Year Program.

**No. 36—Dunkel—Miller Extension—Aurelius to Jolly**—Delete from the Six-Year Program.

**No. 38—Shiawassee Extension—Pennsylvania to Marshall**—Delete from Six-Year Program.

The Planning Board remains available to serve you at your convenience. If you have any questions regarding the Six-Year Program, please contact the Planning Department.

Respectfully submitted,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee of the Whole.

January 29, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

At the January 14, 1976 meeting, the Traffic Board reviewed a request made by citizens in the Cherry-Hillsdale area. During freezing weather when the streets are icy, vehicles that stop at the STOP signs on Hillsdale and on St. Joseph Streets at Cherry Street have a difficult time getting started again. The Cherry Street Association has requested that the STOP signs be replaced with YIELD signs.

An engineering analysis of the accidents, traffic volumes, and sight distance at these two intersections reveals that STOP signs are not warranted. Cherry Street is presently classified as a through street from Kalamazoo to St. Joseph, and is One-Way southbound from Kalamazoo to Hillsdale. Since 2/3 of the vehicles on Cherry Street turn onto Lenawee, Cherry does not need to be One-Way south of Lenawee.

The Traffic Board recommended, by a 7-0 vote that the STOP signs on Hillsdale and on St. Joseph at Cherry Street be changed to YIELD signs, that the designation of Cherry Street as a through street be deleted, and that Cherry Street be One-Way southbound from Kalamazoo to Lenawee only. The STOP signs on Lenawee at Cherry will remain.

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Board has reviewed the following three proposed street improvement projects:

1. Widening Clemens Street from Elizabeth to Kalamazoo.
2. Extension of Wood Street from Grand River to Saginaw.
3. Extension of Miller Road from Aurelius Road to the Jolly/Dunckel intersection.

At the January 14, 1976 meeting, the Board recommended that the Clemens widening project be retained in the current Capital Improvement Program for 1979-80; that the extension of Wood Street be dropped from the current Capital Improvement Program with the understanding it may have to be added at a later date depending on future development along the Wood Street corridor; and that the extension of Miller Road be eliminated from the Capital Improvement Program since it is outside the Lansing City Limits and is contrary to the policy decision made by Council to retain Miller as a residential collector street. All recommendations were by a 7-0 vote.

Respectfully submitted,

LANSING TRAFFIC BOARD

Raymond O. Severy,  
Secretary.

Letter (c)

January 29, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

Presently vehicles are restricted to making a right turn only from Michigan Avenue to Logan Street. A review of the accidents at this intersection over the past 4 years reveals that 8 of 22 accidents have occurred between 7:00 p.m. and 7:00 A.M., and only one of those involved a vehicle proceeding thru the intersection on Michigan Avenue.

The Traffic Board recommends for Council's consideration changing the restriction to Right Turn Only 7:00 A.M. to 7:00 P.M. from eastbound and westbound Michigan Avenue to Logan Street. This will restrict vehicular movement during the high accident hours, and will improve the convenience during the remaining time.

Respectfully submitted,

LANSING TRAFFIC BOARD

Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

Letter (d)

January 29, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Department has again done an engineering study of the intersection of S. Cedar Street and Long Boulevard. Since the last study performed in early 1974, traffic volumes on both Cedar Street and on Long Boulevard have increased to the point that a traffic signal is now warranted. The heavy volume of traffic on Cedar Street results in an inadequate number of gaps to allow Long Boulevard traffic to enter Cedar Street.

Installation of a traffic signal should reduce the number of right angle accidents at the intersection below the 5 that occurred in 1975, but may cause an increase in rear end accidents on Cedar Street. The signal will be timed to allow progression of traffic on Cedar Street as much as possible to reduce this accident potential.

The Traffic Board recommended for Council's consideration the installation of a traffic signal on South Cedar Street at Long Boulevard. The vote was 7-0.

Respectfully submitted,

LANSING TRAFFIC BOARD

Raymond O. Severy,  
Secretary.

Resolved by the City Council of the City of Lansing:

#### RESOLUTION OF MUNICIPAL AUTHORITY TO OPEN CITY OF LANSING PETTY CASH FUND BANK ACCOUNT

I hereby certify that I am the duly elected and qualified clerk of the City of Lansing and the keeper of the records and corporate seal of said City, and that the following is a true and complete copy of a

resolution duly adopted at a meeting of the Council of the City of Lansing, held in accordance with its Charter on Monday, February 2, 1976 and that such resolution is still in full force and effect.

Resolved, that Michigan National Bank is hereby designated a depository of this City for Petty Cash Fund account purposes and that funds deposited therein may be withdrawn upon checks or other instruments of the City.

Resolved Further, that all checks, drafts, notes or orders drawn against said funds shall be signed by any one of the following:

Any director of a City department or persons designated by him.

Resolved Further, that Michigan National Bank is hereby authorized and directed to honor and pay any checks and other instruments so drawn.

Resolved Further, that the Finance Director is hereby authorized to execute on behalf of the City signature cards, or other documents, containing the rules and regulations of said Bank, and the condition under which deposits are accepted.

Resolved Further, that the Clerk shall certify to said Bank the names of the present officers of this City and shall thereafter as changes in the personnel of said offices are made, immediately certify to said Bank a complete list of officers who are authorized to act in accordance with this resolution. The Bank shall be fully protected and shall be indemnified for any claims, expense, or loss resulting from the honoring or refusing to honor any signature; and that this resolution shall remain in force until written notice to the contrary shall have been received by said Bank and that receipt of such notice shall not affect any action taken by said Bank prior thereto.

I further certify that the following are the titles, names and genuine signatures of the Present Officers and Employees of this City Authorized by the Above Resolution.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Tri-County Regional Planning Commission is proposing to adopt a "Regional Housing Plan" which deals with the location of further rehabilitation efforts, the location of households needing housing and other forms of assistance, and the location of future housing for persons with low and moderate income; and

Whereas, the plan is primarily directed at the coordinated use of Community Development Entitlement and Discretionary

money and other federal and state funding sources for housing programs; and

Whereas, the City of Lansing has long believed that housing problems at the local level cannot be properly addressed unless the regional implications of the housing market are considered by all concerned governmental units; and

Whereas, the proposed "Regional Housing Plan" seems to advocate that the City of Lansing continue to assume more than its share of housing programs for low and moderate families in the region; and

Whereas, the City of Lansing presently has 42 percent of the poverty level households in the tri-county region;

Therefore, Be It Resolved, that the City of Lansing will not continue to endorse or encourage housing program approaches which add to the number of poverty level households without honest efforts on the part of other governmental jurisdictions to share in the housing problem; and be it

Further Resolved, that the City of Lansing strongly endorses major modifications to the "Regional Housing Plan" which would shift the development of new low and moderate income housing to outlying governmental jurisdictions.

By Councilman Blair (Adado)—

That this resolution be tabled for one week.

Adopted by the following vote:

Nays: Councilman Baker—1.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing Police Department utilizes the Michigan State Police crime information system called LEIN, as well as their own information system called the Lansing Area Law Enforcement System (L.A.L.E.S.), and

Whereas, the Police Department currently must utilize a teletype to enter and receive data from LEIN, and this process is very slow and encounters delays which make it difficult for officers to utilize their time in the most efficient manner, and

Whereas, the Police Department, after entering data through the LEIN system, must then prepare and enter the data a second time into the L.A.L.E.S. system, and

Whereas, the State Police uses a different form of terminal for their own operations, manufactured by Incoterm Corporation, which is faster, and

Whereas, the City of Lansing could replace existing Honeywell 7700 terminals with the Incoterm terminal, thereby allowing more efficient access to crime information through LEIN, and

Whereas, by the lease of the TOTAL data base management system from Honeywell Corporation, it would be possible to use this same Incoterm terminal to enter and retrieve data from the L.A.L.E.S. system without the necessity to re-enter data or inquiries a second time, and

Whereas, the TOTAL system would have a wide range of applications in all other program areas, including accounting, tax billings, etc., wherein the staff time necessary to develop new programs or to alter existing programs would be reduced by approximately thirty percent, and

Whereas, rescinding the contract leasing the Honeywell 7700 terminals, entering into a lease with Honeywell on the TOTAL system, and entering into a lease with Incoterm for their terminals would cause a net increase in costs of \$414.00 per month, which would be more than offset by increased efficiency in the Police Department and in the Data Processing Center programming staff, and

Whereas, funds are available within existing appropriations.

Now, Therefore, Be It Resolved, that the Finance Director is instructed to prepare lease contracts with Honeywell Corporation for the Total system, and with Incoterm Corporation for the lease of new terminals, and that the lease with Honeywell 7700 terminals be rescinded, and that the Mayor and City Clerk be authorized to sign said contracts upon approval of the City Attorney as to form.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the City Council, by resolution dated June 16, 1975, approved a request to the State Legislature to take legislative action to allow construction of a fire station on a portion of Marshall Park and approved action to make improvements to the remaining ball fields, and light a field, and transfer three acres from the Fire Department to the Park Department, and

Whereas, the State Legislature has taken necessary legislative action to allow construction of the Fire Station, and

Whereas, the improvements to the Marshall fields and the lighting of an additional field at a suitable location are to be funded through the sale of fire station properties being replaced by the proposed new station, and

Whereas, the best interests of the community for fire protection and recreational services requires prompt action; now

Therefore, Be It Resolved, that the Fire Chief and Purchasing Director be authorized and directed to proceed with architectural contracts with Manson, Jackson and Kane and other agreements necessary to design and construct the proposed fire station, and

Be It Further Resolved, that the Purchasing Director and Director of Parks and Recreation be directed to proceed with such contracts and agreements to improve the remaining fields at Marshall and a field at Gier to maintain recreational services, and

Be It Further Resolved, that the fire station properties to be replaced (No. 6 and No. 8) Fire Stations be placed on the ballot for authorization to sell and that an amount not to exceed the actual cost of replacing, repairing and improving recreational facilities caused to be altered by the construction of the new fire station be charged against the proceeds of this sale.

Be It Further Resolved, that upon approval of the necessary contracts and agreements by the City Attorney, that the Mayor and City Clerk be authorized and directed to sign on behalf of the City.

By Councilman Baker—

That this resolution be tabled for one week and referred back to the Committee on Buildings and Properties and Committee on Parks and Recreation for modification.

Adopted by the following vote:

Yeas: Councilmen Baker, Blair, Brenke, Gunther, Hull, McKane—6.

Nays: Councilman Adado—1.

By Councilman Hull, Councilman McKane, and Councilman Baker—

Whereas, the Blue Lake Fine Arts Camp of Twin Lake, Michigan, has established an outstanding youth international program which permits outstanding young American musicians to tour Europe; and

Whereas, such activity has resulted in outstanding youth musical organizations from Europe touring the United States; and

Whereas, it appears that European musical groups will be touring the United States and will be in Michigan during the summer of 1976; and

Whereas, Lansing is the capital city of Michigan and represents a community capable of displaying to our European friends a picture of American life;

Now, Therefore, Be It Resolved, that the City Council of the City of Lansing extends an invitation to any and all of the

touring groups working with the Blue Lake Fine Arts Camp to visit Lansing during the summer of 1976; and

Be It Further Resolved, that a copy of this resolution be transmitted to Blue Lake Fine Arts Camp as evidence of the City of Lansing's desire to welcome our European friends to Lansing.

Adopted by the following vote:

Unanimously.

By Councilman Hull and  
Councilman Baker—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing presently removes snow from the public streets for the safety and convenience of citizens; and

Whereas, the quality of snow removal is partially dependent upon the absence of motor vehicles parked along the streets so that the snow can be removed from curb to curb; and

Whereas, many citizens must use the public alleys to gain entry and exit from their garages and parking spaces; and

Whereas, the City of Lansing presently does not remove the snow from public alleys with the result that many citizens are forced to park along the streets in violation of the ordinance of the City of Lansing because they cannot gain access to garages and parking spaces; and

Whereas, illegal parking upon the streets subjects citizens to possible fines for parking violations, creates difficulties in removing snow from the city streets, causes additional driving difficulties, and unnecessarily exposes citizens' vehicles to damage and vandalism;

Now, Therefore, Be It Resolved, that the Public Service Department be directed to remove the snow from all public alleys; and

Be It Further Resolved, that the amount of \$6,260 be and is appropriated from Acct. No. 101-941-000-963—Contingencies (Reserves for Emergencies) for the purpose of removing snow from the public alleys.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Hull, McKane—4.

Nays: Councilmen Adado, Brenke, Gunther—3.

By Councilman McKane—

That the Committee on Public Service and Highways negotiate with private Contractor for the plowing of alleys in the city on contractual basis and report back to the Council.

Adopted by the following vote:

Unanimously.

By Councilman Baker—

That we reconsider the original resolution.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Hull, McKane—4.

Nays: Councilmen Adado, Brenke, Gunther—3.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

LS-21-75

Lot 151, Barritt Street

Bancroft Hills No. 3, City of Lansing,

Ingham County, Michigan

Whereas, the Asbury United Methodist Church has requested to divide the above described property into two parcels; and

Whereas, the property division will create one lot which would not conform to the minimum requirements of the Subdivision Ordinance; and

Whereas, the Planning Board has reviewed this request and recommended that the division of land be denied; and

Whereas, the Planning Committee of City Council has reviewed the recommendation of the Planning Board and concurs therewith;

Now, Therefore, Be It Resolved, that in accordance with Section 37-27 of the Subdivision Control Ordinance that the request to divide the above described property into two lots is denied.

Adopted by the following vote:

Unanimously.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

LS-20-75

3205 Maloney Street

More particularly described as:

Lot 376 of Pleasant Grove Subdivision No. 1, and that part of Lot 377 of said Pleasant Grove Subd. No. 1 described as, commencing at a point on the easterly line of said Lot 377 46.8 feet northwesterly from the southwest corner of said Lot, and southeasterly 46.8 feet along the easterly line of said Lot, to the southeast cor-

ner of said Lot, thence west 192 feet to the southwest corner of said Lot; thence northwesterly 36.3 feet along the easterly line of Maloney Street to the centerline of the ditch (if extended westerly); thence northwesterly in a straight line along the centerline of the ditch to the place of beginning, according to the recorded plat thereof and subject to any restrictions of record, City of Lansing, Ingham County, Michigan.

Whereas, Obry Gray has requested to divide the above described property into two parcels; and

Whereas, the property division will create two residential lots which do not conform to the minimum requirements of the Subdivision Ordinance; and

Whereas, the Planning Board has recommended that the request be approved; and

Whereas, the Planning Committee of City Council, who has reviewed the recommendation of the Planning Board, and concurs therewith;

Now, Therefore, Be It Resolved, that in accordance with Section 37-27 of the Subdivision Control Ordinance the above described parcel be divided as follows:

Parcel A: The south 55 feet of Lot 376, Pleasant Grove Subdivision No. 1, City of Lansing, Ingham County, Michigan, subject to any restrictions of record.

Parcel B: The north 15 feet of Lot 376 and that part of Lot 377 described as: commencing at a point on the easterly line of Lot 377, 46.8 feet northwesterly from the southeast corner of said Lot; thence southeasterly 46.8 feet along the easterly line of the Lot to the southeast corner of said Lot; thence west 192 feet to the southwest corner of said Lot; thence northwesterly 36.3 feet along the easterly line of Maloney Street to the centerline of the ditch (if extended westerly); thence northwesterly in a straight line along the centerline of the ditch to the place of beginning according to the recorded plat thereof and subject to any restrictions of record.

The applicant, however, stipulates and understands that the lot split that he is granted by the City of Lansing does not necessarily mean that the applicant may proceed with the division of property. The applicant further understands that there may be some private restrictions contained in his Deed or plat restrictions, which may or may not be recorded with the Registrar of Deeds, which run with the land. The applicant further understands that the City does not have any power or authority over these restrictions.

Adopted by the following vote:

Unanimously.

## ZONINGS

By Councilman Baker—

Whereas, by petition duly filed on the 29th day of September, 1975, this Council was petitioned to change the following described property from "F" Commercial and "J" Parking Districts to "D-1" Professional Office District, all as set forth in the Zoning Code of this city, and

Whereas, the notice as required by law has been given for a public hearing on said petition, and

Whereas, at such hearing held on the 2nd day of February, 1976, all parties interested therein were heard and given due consideration, and

Whereas, the property involved is described as:

Z-45-75—400 block East Greenlawn, more particularly described as:

That part of the northeast  $\frac{1}{4}$  of Section 28, T4N, R2W, City of Lansing, Ingham County, Michigan, commencing at the east  $\frac{1}{4}$  corner thereof; thence running north 203.0 feet; thence parallel with the east/west  $\frac{1}{4}$  line S 89° 38' west 1603.01 feet to the point of beginning, said point being 30 feet north of the centerline of Greenlawn Avenue; thence north 0° 10' 42" west 208.65 feet; thence south 89° 38' west 150.0 feet parallel with said  $\frac{1}{4}$  line; thence south 0° 10' 42" east 208.65 feet to a point 30 feet north of the centerline of Greenlawn Avenue; thence parallel with said  $\frac{1}{4}$  line north 89° 38' east 150.0 feet to the point of beginning, City of Lansing, Ingham County, Michigan,

from "F" Commercial District and "J" Parking District to "D-1" Professional Office District.

Whereas, pursuant to Act 207, P.A. 1921, the Planning Board advised the City Council to approve this request; and

Whereas, the Planning Committee of Council, to whom was referred the report of the Planning Board, concurs therewith;

Now, Therefore, Be It Resolved, that the Council of the City of Lansing ordains that the petition to rezone the above described property from "F" Commercial District and "J" Parking District to "D-1" Professional Office District be approved; and

Be It Further Resolved, that the site development shall be reviewed and approved by the Planning Department prior to issuance of Building Permits. The site plan shall include the location of building, parking, drive, et cetera and the type and location of landscape, screening, and fencing for this site.

Adopted by the following vote:

Unanimously.

By Councilman Baker—

Whereas, by petition duly filed on the 17th day of November, 1975, this Council was petitioned to change the following described property from "A" One Family Residence District to "B" One Family Residence District, all as set forth in the Zoning Code of this city, and

Whereas, due notice as required by law has been given for a public hearing on said petition, and

Whereas, at such hearing held on the 29th day of December, 1975, all parties interested therein were heard and given due consideration, and

Whereas, the property involved is described as:

Z-60-75—5707 South Waverly Road,  
more particularly described as:

Lot 33, except the east 33 feet thereof, Lot 34, except the west 167 feet of the south 67 feet thereof, and the north 42 feet of Lot 35, except the west 167 feet thereof, Supervisor's Plat of Glendale Subdivision, City of Lansing, Ingham County, Michigan,

from "A-1" Family Residential District to "B-1" Family Residential District.

Whereas, pursuant to Act 207, P.A. 1921, the Planning Board advised the City Council to approve this petition subject to a portion of land being deeded to the City of Lansing directly off the north end of Foxpointe for the purpose of constructing a cul-de-sac to allow turnarounds for all types of vehicular traffic; and

Whereas, the Planning Committee of Council, to whom was referred the report of the Planning Board, concurs therewith;

Now, Therefore, Be It Resolved, that the Council of the City of Lansing ordains that the petition to rezone the above described property from "A-1" Family Residential District to "B-1" Family Residential District be approved; and

Be It Further Resolved, that the site development shall be reviewed and approved by the Planning Department prior to issuance of Building Permits. The site plan shall include the location of building, parking, drive, et cetera and the type and location of landscape, screening, and fencing for this site; and

Be It Further Resolved, that immediate action be taken by the Public Service and Highways Committee of Council to negotiate with the church organization for land that will provide an adequate cul-de-sac at the end of Foxpointe Lane. It is the intent that all negotiations will be confirmed prior to the issuance of any Building Permits for this property.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council's Committee of the Whole has had a number of budget meetings in the past few weeks;

Now, Therefore, Be It Resolved, that the Lansing City Council establishes the following items as its official budget policy for the specific benefit of the Mayor and his Budget Committee:

1. All City departments shall submit budget proposals which encompass two levels of funding: (A) Funding at F'76 levels, and (B) Funding at 96% of F'76 levels.

Where departments request budgeting over the above F'76 funding, these requests should be submitted as an addendum to their budgets.

2. All departmental budgets shall be submitted with written justification for each program and with the priority of each program in relation to all of the other programs in their respective budgets.
3. The City Council shall hold public hearings on department allocations recommended by the Mayor during the month of April.
4. Whenever possible and desirable, capital improvements shall be funded from sources other than the general fund revenues.
5. Proposed capital improvements to improve the quality of life in existing residential neighborhoods shall have a higher priority than those proposed to provide services to new developments.
6. Existing user and license fees will be reviewed as appropriate prior to

March 1, 1976 and every November thereafter by the Ordinance and Contracts Committee.

7. The Council, Mayor, and appropriate department heads shall give serious consideration to the use of the City's bonding ability to finance needed capital improvements.
8. The Personnel Moratorium Committee shall continue to exert constraint in filling vacancies. New position openings shall be filled by existing City personnel where possible. Department heads shall provide adequate retraining programs for those personnel transferred as described in this policy.
9. The Mayor and the Council shall make every attempt to maintain the existing millage rate for F'77.
10. The Council will develop a program budgeting procedure prior to October 1, 1976.

Extension of Skating Season and  
Transfer of Funds

Gentlemen:

The outdoor skating season is one of the best in years. Attendance between 1-8-76 and 1-31-76 has been 26,131. We are funded now for skating through February 7, 1976.

I recommend transfer of an additional \$2,250 to cover costs of ice rink rangers for eight rinks for an additional week through 2-15-76.

Respectfully,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Referred to Committee on Parks and Recreation.

## REPORT OF COMMITTEE

The Committee on PARKS AND RECREATION, to whom was referred the recommendation of the Director of Parks and Recreation to extend the skating season through 2-15-76, reports as follows:

That the Committee concurs in the recommendation, and that \$2,250 be transferred to account No. 101-725-600-707 to cover rangers for eight rinks through 2-15-76.

Signed:

Members of City Council

Re: Cooley House

Gentlemen:

On November 10, 1975, City Council authorized a lease with the Capital Area American Youth Hostel to restore, develop and operate the Cooley house as a hostel center.

Following this action the city was notified by the attorney for Mrs. Grace Cooley that it was the intent of Mr. Cooley's will the house be removed upon termination of occupancy. The Cooley family does not wish the house to be used by the Hostels, and that Mr. Cooley's intent to demolish the house be honored.

The Park Board has reviewed the request and voted unanimously at their January meeting to recommend that, under these circumstances, the lease not be executed.

The Park Board is in basic support of the Youth Hostel program, but does not consider the issue should be pressed further,

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Subject: B-76-465  
Street Furniture and Graphics  
Riverfront Park Contract No. 4  
Project No. 2, Mich. A-6

Gentlemen:

Attached you will find a tabulation of the two (2) bids received and opened at 3:00 p.m. on February 3, 1976, for Street Furniture and Graphics—Riverfront Park Contract No. 4, Project No. 2, Mich. A-6. We recommend acceptance of the low bid submitted by Clark Construction Company in the amount of \$27,227.00.

Acceptance is subject to the approval of said bidder by the Equal Opportunity Division of the Detroit Area Office of the U. S. Department of Housing and Urban Development, provided, however, that failure of HUD to respond to the request for approval within fifteen (15) working days shall be considered approval.

Respectfully submitted,

VAUGHAN L. MCKINCH,  
Purchasing Director,

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

Z-1-76

1217 West Main Street

February 5, 1976

Honorable Mayor and

Members of the City Council

Gentlemen:

The Planning Board at their meeting of February 3, 1976, recommended that the petition by Donald A. Hines as attorney for General Motors Corporation, to rezone property at 1217 West Main Street from B-1 Family Residential to I-Heavy Industrial District be approved.

The Committee has found that the proposed changes is consistent with the Master Plan Projection and will promote development in accord with the zoning and land use characteristics of the area. This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Director,  
Lansing Planning Department.

Referred to Committee on Planning.

Z-2-76

1124 William Street

February 5, 1976

Honorable Mayor and

Members of the City Council

Gentlemen:

The Planning Board at their meeting of February 3, 1976, recommended that the petition by Donald A. Hines, as attorney for General Motors Corporation, to rezone property at 1124 William Street from C-2 Family Residential District to I-Heavy Industrial District be approved. The Board found that the site is presently occupied by a vacant residential structure which is completely surrounded by industrial zoned land.

The Board has found that the change is consistent with the Master Plan projection for this area and the zoning will allow development in accord with the zoning district applied to the adjacent lands, which is for industrial expansion. The Board further recommended that the property located at 1203 W. Main Street be completely screened from the industrial property. Said screening is to be reviewed and approved by the Planning Department. This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Director,  
Lansing Planning Department.

Referred to Committee on Planning.

Z-3-76

S.W. Corner Midwood Street/  
Pleasant Grove Road

February 5, 1972

Honorable Mayor and

Members of the City Council

Gentlemen:

The Planning Board at their meeting of February 3, 1976, recommended that the request by Harold A. Moore and the Pilgrim Rest Baptist Church, to rezone property on the S.W. Corner of Midwood Street and Pleasant Grove Road from CUP District to B-1 Family Residential District be approved.

The Board found that the petitioner proposed to construct a church with a seating capacity of 350-400 people on this site. The Board believes that the change will promote development that will be compatible with the surrounding areas. The Board believes that the size of the site allows for development of the church with adequate room for expansion in the future. Sewer facilities are available to serve this site, however, caution must be taken at the time of the development to assure that storm waters and surface water is handled properly. It was further recommended by the Board that site plans for this site are to be developed with assistance from both the Planning Department and the Traffic Engineer to assure that on-sight improvement such as landscape, screening and fencing are installed properly and that the traffic flow to and from this site is developed in accord with the recommendation of the Traffic Engineer. This recommendation was by unanimous vote.

One person spoke regarding vehicular access to this site. He was concerned about the increase of traffic on Midwood Street when the church site developed.

Sincerely,

ALAN E. TUBBS,  
Director,  
Lansing Planning Department.

Referred to Committee on Planning.

Z-63-75

3120 Ellen Avenue

February 5, 1976

Honorable Mayor and

Members of the City Council

Gentlemen:

The Planning Board at their meeting of February 3, 1976, recommended that the petition by Mary and Jim Golbeck to rezone property at 3120 Ellen Avenue from A-1 Family Residential District to C-2 Family Residential District be approved. It is felt that the requested change to C-2 Family will promote development consistent with the master plan as it relates to density. We also believe that the proposed use of the land will be compatible in development in this vicinity and will not seriously affect the adjacent properties or properties within the general vicinity of the site.

The Board further recommended that the site development be reviewed closely regarding the lot grade and storm water run-off. This recommendation was by unanimous vote.

One person spoke regarding run-off water, but did not object to the zoning.

Sincerely,

ALAN E. TUBBS,  
Director,  
Lansing Planning Department.

Referred to Committee on Planning.

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

Please be advised that I have recently received a communication from Mr. William Murphy, a member of the Housing and Redevelopment Advisory Board, stating that he must resign as a member of this Board, due to the fact that he has moved his residence outside of the City of Lansing. Therefore, I am submitting the name of Clarence Rosa for your consideration and confirmation to fill the vacancy for the term ending June 30, 1978.

Mr. Rosa is a native of Lansing and is presently a Registered Architect in private practice as a consultant with offices in the Michigan National Tower. He is a Fellow in the American Institute of Architects and previously served for 30 years as Deputy Director for the State Building Division.

A very active member of this community, Mr. Rosa served for 17 years with the Lansing School Board; as a member of the Board of Urban Redevelopment from 1964-1975, besides serving several terms as Chairman, he also served on the following: Chairman of the Mall Committee, Chairman of the By-Laws Committee, Chairman of the Riverfront Park Committee, a member of the Personnel Committee, Mall Sculpture Committee, Housing Proposal Review Committee, Condemnation Proceedings Committee, Committee for Selection of Mall Design Consultant, Architectural Consultant Committee, Proposal Review Committee and Representative on the Citizen's Advisory Committee.

Mr. Rosa resides at 1430 Lindbergh Drive in the City of Lansing, with his wife, Clarice.

Trusting this recommendation meets your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

February 5, 1976

Mayor Pro Tem Terry McKane and

Members of City Council

Dear City Council Members:

During the past several years, the City of Lansing has experienced a loss of 2,828 permanent manufacturing jobs as a result of the closing of Diamond Reo, John Bean and the Warner Swasey plants. In addition to the almost 3,000 families which have experienced economic hardships, the City of Lansing has lost an estimated \$300,000 per year in City income taxes and another \$103,908 per year from the personal property tax (stock, fixtures and equipment). Another 250 permanent jobs have been lost by the closing of the Yankee Department store; W. T. Grant Stores and the Wursberg's Store in Downtown Lansing. Additional jobs have been lost by the closing of a number of merchandising establishments such as Spartans, Topps, Arlans and Shoppers Fair.

On Tuesday, February 3, 1976, I met with Mr. James Collision, the local representative of the U.S. Economic Assistance Administration; Mr. Donald Hunter, who accompanied Mr. Collision; Mr. Tubbs, the Planning Director, and Mr. Lewis of my administrative staff to discuss economic development problems in the City of Lansing.

Mr. Collision was most cooperative and strongly urged because of the economic dislocation presented to him that the City of Lansing immediately submit a Title IX Economic Adjustment Program Grant request to the Chicago office of the Economic Development Administration. Mr. Collision further advised that there are limited uncommitted Title IX monies remaining in Washington which could assist in financing the Lansing Economic Development Corporation formed under P.A. 338. Preliminary estimates are that the City of Lansing, IF IT ACTS VERY SPEEDILY, could in the months ahead be the recipient of \$2,500,000 to \$3,000,000.

A PREREQUISITE TO RECEIVING THESE FUNDS FOR THE ECONOMIC DEVELOPMENT CORPORATION IS THE PREPARATION OF AN ECONOMIC DISLOCATION STRATEGY PLAN FOR LAN-

SING. MR. COLLISION ADVISED THAT LANSING COULD EXPECT TO RECEIVE \$50,000 TO AID IN THE PREPARATION OF THIS PLAN.

Because of the urgent need to take advantage of the limited number of dollars available to assist economic development in the days ahead, I requested Mr. Tubbs to immediately commence during the late hours of February 3, 1976, the preparation of an application for this grant. Since I will be meeting with EDA officials in Chicago on Wednesday pertaining to economic development in Lansing, it is my desire to submit this application at the same time.

ATTACHED FOR YOUR PERUSAL IS A PRE-APPLICATION WHICH DESCRIBES THE ACTIVITIES TO BE UNDERTAKEN TO PREPARE AN ECONOMIC DISLOCATION PLAN FOR THE CITY OF LANSING.

The intent of the application is to submit a budget totaling \$70,000, of which \$50,000 will be a direct grant from EDA. Local matching funds are to be provided through the transfer of funds within the Community Development Budget. The bulk of the work would be undertaken by a private consulting firm. Two additional personnel and a part-time secretary will be employed by the City to work with this consultant to prepare the plan. It is my intent that the coordination for the preparation of this plan will be handled by the Planning Department. Funds are also included in the grant to pay for office space. There are two offices remaining in the Grant's Building which can accommodate this activity.

In order to implement our economic development program in Lansing, I am urging you to take the following action and IMMEDIATELY:

- 1) Adopt the attached resolution supporting the application and authorizing the Mayor to submit the proposal to the Economic Development Administration at my meeting in Chicago next week.
- 2) Approve a transfer of \$20,000 within the CD budget to provide local match funds for this planning grant. Mr. Orrin Sharp will work out the details for presentation to you.
- 3) Direct the City's Program Coordinator to expedite the letter of intent and clearinghouse procedures for A-95 review.

I am certain that you agree with me that your favorable response which is needed at this moment will result in providing a badly needed boost to accomplish the objectives of the Economic Development Program in Lansing and to provide a better climate in the days ahead for those people less fortunate than ourselves.

Sincerely,  
GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

Attached is a communication, dated January 30, 1976, from the U. S. Department of Housing and Urban Development, as signed by Louis Rampp, Program Manager, which advises that overall the City of Lansing is carrying out the Community Development Program in a satisfactory manner and generally in compliance with regulations.

Item 2 reads as follows, and I quote:

"Although it was determined that the City's efforts to identify, train, and/or hire lower-income residents of the project area were adequate, we are suggesting that Mr. Letts communicate with Ms. Vintes on the awarding of contracts covered by Section 3 and AAP's that have been secured from contractors and sub-contractors."

In regard to the last part of the aforementioned, I have been advised by Richard D. Letts, Equal Opportunity Officer, that the City of Lansing has not awarded any such contracts. A copy of his communication is, also, attached.

Sincerely,  
GERALD W. GRAVES,  
Mayor.

February 7, 1976

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

The following is a quote from part of my State of the City Message, dated January 12, 1976:

"But what of tomorrow? For each of us, there are problems to be resolved, many even beyond our control. On the INFLATIONARY SIDE, the City is experiencing, as I pointed out one year ago, price increases beyond reason—increases ranged from 60% to 271%—and though the trend has now slowed, increases are still apparent, and indications are that prices will continue to rise. The Purchasing Director has saved the City substantial dollars by wise purchasing techniques. I recommend he continue to be given a free-hand in the interest of the taxpayers. However, inflation will plague the 1976-77 Budget, so I recommend your close attention to it.

In the past year, the U. S. Congress seemed to be out-of-session MORE than in-session. Major needs were ignored. Not approved was legislation to provide for continued Federal Revenue Sharing, from which the City of Lansing benefits by \$3.2 million annually—of the total, our Police Department receives \$1.2 for its fight against crime. Without the re-enactment, chaos can result. You were warned of this one year ago, but took not action as recommended—the following is a quote from my Message:

... Members of Congress are currently discussing renewal of the State and Local Fiscal Assistance Act of 1972, General Revenue Sharing, beyond its present December 1976, expiration date.

In all, from May, 1973, through October, 1974, a total of \$4.2 million was expended and during this same two (2) year period of 1973-75, taxpayers will have benefited from a \$2.01 tax reduction. As recently pointed out to you by the City Finance Director, revenue sharing funds have been primarily used for Capital Improvements. However, in upcoming budgets, it is now estimated that 100% of these funds will be needed for general operations. . . . It is obvious from the financial projections that have been made, that the loss of such Federal Revenue Sharing Funds, if the U. S. Congress fails to act, coupled with the escalating costs of operations the City is, and will be, experiencing for some time, could result in a minimum of \$4.20 per thousand increase to local property owners. Therefore, in order to avoid such future hardships on our taxpayers, I recommend that you adopt a resolution, at as

early a date as possible, recommending that Federal Revenue Sharing not only be continued but increased sufficiently to cover both operating and Capital Improvement expenditures. Such resolution should be forwarded to the Michigan Congressional Delegation, U. S. Conference of Mayor's—National League of Cities and the Michigan Municipal League."

Since you did not lend your wholehearted support formally to the re-enactment of Federal Revenue Sharing as urged above, I am pleading for action by you now. Time is of essence. I recommend that you make this a priority."

Though it took one year for you to respond to my original request of 1975, you did respond to my second request of 1976. You approved a formal resolution and had those forwarded to certain members of the Michigan Congressional Delegation and several others. I am now requesting you immediately approve that the same information be forwarded to the Key Committees and Members in Congress for Revenue Sharing Re-enactment. The list is attached. The necessity is of utmost importance.

The failure of the U. S. Congress to re-enact revenue sharing along the lines of the past, will jeopardize City services, while simultaneously result in a property tax increase. Presently, revenue sharing ends on December 31, 1976, which (a) is in the middle of the 1976-77 Fiscal Year for the City of Lansing, and most others; (b) the net affect is that the City of Lansing stands to lose \$1.5 million for the last one-half of the aforementioned Fiscal Year; and, (c) we will be prohibited by State Law and the City Charter from budgeting this \$1.5 million, if the U. S. Congress does not act by the third Monday in May, which is the last date permitted for your approving of the Regular Budget for Fiscal Year 1976-77.

Trusting you will instruct the Internal Auditor to immediately process communications addressed to those on the attached list, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

Hon. Mayor Pro-Tem and Members  
of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

In accordance with Ordinance No. 389 (Community Development Ordinance), I am submitting for your consideration and

confirmation the name of Gregory Byrd, to serve as one of the two representatives of the Development Area of the Citizens' District Council for Westside Area, which term expires December 8, 1978.

Gregory Byrd is a resident of Lansing and attended Michigan State University in the field of Electronic Engineering. He is a veteran having served in the U. S. Marine Corps for two years. Mr. Byrd was employed for over three years in production at the Ford Motor Company in Detroit, and presently is an independent building contractor in the City of Lansing. Mr. Byrd is a property owner at 1409 W. Kalamazoo and resides at 648 S. Foster in the City of Lansing. He and his wife, Lana, have two children.

Trusting this recommendation meets your approval, I remain

City Hall  
Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

Attached, please find a recent communication from F. J. Winters, Executive Vice President of the National Association of Purchasing Management, Inc., advising that Vaughan L. McKinch has been designated by that organization as a Certified Purchasing Manager. Out of the more than 28,000 Purchasing Agents recognized Internationally, only 3,226 have attained the goal of Certified Purchasing Manager.

Mr. McKinch has been a great asset to the City of Lansing as I have previously stated, and I quote from my State of the City Message of January 12, 1976:

"For each of us, there are problems to be resolved, many even beyond our control. On the INFLATIONARY SIDE, the City is experiencing, as I pointed out one year ago, price increases beyond reason—increases ranged from 60% to 271%—and though the trend has now slowed, increases are still apparent, and indications are that prices will continue to rise. By Committee on Public Service  
and Highways—

Resolved by the City Council of the City of Lansing:

That it is hereby determined to be a matter of public health and necessity to re-construct the existing sanitary sewer in Detroit Street from Marcus Street to Harton Street, for the purpose of repairing said sewer, and that the construction of this work is hereby ordered.

And Further, that the estimated cost of this project is \$50,000.00 and shall be financed by the City from Account No. 159-414-022-818.

Be It Further Resolved, that the Purchasing Director be directed to advertise and let for bid the specifications for the said project as submitted by the Department of Public Service.

The Department of Public Service is hereby directed to prepare as far as necessary, plans and specifications for this project, and it is further directed to estimate in detail the cost of said project and to furnish said information to the City Council.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and  
Properties—

Whereas, the legal owners, Nora G. Jones; legal interest holder, and Dr. Robert M. Jones; land contract vendor, of the property located at 922 Riverview, further described as:

N. 32.5 ft., Lots 63, 64, and 65, Riverview Heights Subdivision 3301-20-134-111-0,

did submit a written request to the Building Commissioner to demolish and remove a single family, fire damaged residential structure, to include filling and grading of the site, and that all costs be applied to the property tax roll,

Now, Therefore, Be It Resolved that the Building Commissioner be authorized to proceed with the demolition of said structure and the Purchasing Agent to proceed with obtaining quotations for this work.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has experienced a severe dislocation of basic manufacturing jobs in the past several years; and

Whereas, the City of Lansing has responded by incorporating an Economic Development Corporation under Public Act 338 to undertake positive measures to ensure a solid economic base is maintained whereby all citizens may be provided the opportunity for employment; and

Whereas, Federal assistance is available under Title IX of the Public Works and Economic Development Act of 1965, as amended to assist the Economic Development Corporation in achieving its objective; and

Whereas, the prerequisite for these Title IX funds is the preparation of an Economic Adjustment Plan; and

Whereas, funds are available in the Community Development Budget to provide local match to develop this plan;

Now, Therefore Be It Resolved, that the Mayor of Lansing is authorized to file a pre-application with the United States Economic Development Administration for the preparation of an Economic Adjustment Plan; and

Be It Further Resolved, that \$20,000 in local match funds will be provided from the Community Development Budget; and

Be It Finally Resolved, that the City Program Coordinator is directed to expedite State Clearinghouse and A-95 reviews.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That Change Order No. 1 to the Agreement for Landscaping of the Lansing City Market, dated September 17, 1975, increasing the contract amount by \$520.50, from \$7,858.00 to \$8,478.50, due to additional material and work required by site and field conditions, be approved, and

By Committees on Housing and Redevelopment and Human Resources, and Parks and Recreation—

Resolved by the City Council of the City of Lansing:

That the bid submitted by Clark Construction Company for Contract No. 4 of Phase I of the Riverfront Park located in Project No. 2, Mich. A-6, in the amount of \$27,227.00 be approved as the best and lowest acceptable bid, subject to approval of said bidder by the Equal Opportunity Division of the Detroit Area Office of the U. S. Department of Housing and Urban Development (HUD); provided, however, that failure of HUD to respond to the request for approval within fifteen (15) working days shall be considered as approval, and

Be It Further Resolved, that the Mayor and City Clerk be and are hereby, authorized and directed to execute a contract with Clark Construction Company on behalf of the City of Lansing, according to said bid presented and specifications on file; upon approval as to form of the contract and the bonds and insurance policies by the City Attorney, and upon certification as to the availability of funds by the Finance Director, and upon approval of Clark Construction Company by the Equal Opportunity Division of the Detroit Area Office of HUD in the manner herein specified.

Adopted by the following vote:

Unanimously.

By Committee on Housing and Redevelopment, and Human Resources, and Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

That Change Order No. 1 to the contract between Landscape Development, Inc., and the City of Lansing, Michigan, dated November 19, 1975, increasing the contract amount by \$1,181.00, from \$78,035.60 to \$79,216.60, due to the substitution for and deletion of landscape materials throughout Riverfront Park, be approved, and

That the Mayor and City Clerk be and are hereby authorized and directed to execute said Change Order No. 1, upon its approval as to form by the City Attorney and certification as to the availability of funds by the Finance Director.

Adopted by the following vote:

Unanimously.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the Congress of the United States has recently passed an Act to authorize a local Public Works Capital Development and Investment Program; and

Whereas, this Act will provide 6.168 billion dollars of anti-recessionary assistance; and

Whereas, the programs authorized are as follows:

- (1) A \$1.563 billion countercyclical grant program allocated by formula to states and local governments based on unemployment rates and adjusted local taxes, to be used for maintenance of local services.
- (2) A \$2.5 billion public works program of 100% Federal grants for construction or repair of public works projects administered by the Economic Development Administration (EDA), with priority given to localities with high unemployment.
- (3) \$500 million to extend EDA's Title X Job Opportunities Program through calendar year 1976.
- (4) \$125 million for interest subsidies on fixed asset loans provided under EDA's current business loan program.
- (5) \$100 million for new "redevelopment areas" eligibility for cities with over 50,000 population that submit "overall economic development programs" to EDA.
- (6) \$1.4 billion in new water pollution authorization for FY1977 for primarily nonindustrial states.

Whereas, the President has indicated that it is his intent to veto the aforementioned legislation; and

Whereas, it appears it is the intent of Congress to override the President's veto; and

Whereas, this countercyclical legislation states that certain portions of these funds will be allocated to projects which commence within 90 days; and

Whereas, the priority of the utilization of these funds will be granted to cities which exceed the national jobless rate (8.8%); and

Whereas, the City of Lansing's current jobless rate is 10.4%, therefore, Lansing would appear to be one of the most eligible cities to qualify for the monies to be made available through this legislation;

Now, Therefore, Be It Resolved, that the City Council directs the Committee on Planning and the Committee on Public Service and Highways to provide guidance to the Program Coordinator as to the priority of projects and/or programs so that he may submit grant applications in the priorities determined.

Adopted by the following vote:

Unanimously.

By Councilman Adado—

Resolved by the City Council of the City of Lansing:

That the Internal Audit Department is directed by the City Council to implement a work standards study of all municipal operations. The purpose of this study shall be to establish data leading to more efficient and economical utilization of tax dollars, work force, materials and equipment. All department heads and personnel of the City of Lansing are herewith directed by this resolution to cooperate fully with the Internal Audit Department in this endeavor toward the improvement of the municipal operations.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That the following appointments to the Economic Development Corporation Board of Directors be confirmed:

Nays: Councilman Blair—1.

The resolution as amended was adopted by the following vote:

Yeas: Councilmen Adado, Baker, Belen, Brenke, Gunther, Hull, McKane—7.

Nays: Councilman Blair—1.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has entered into a franchise with Continental Cablevision of Lansing, Inc.; and,

Whereas, this franchise provides for an allocation to the City of a governmental access channel; and,

Whereas, this government access channel is capable of being utilized in various modes; and,

Whereas, the City of Lansing has not determined what the highest and best use is for this channel; and,

Whereas, it is appropriate that the City of Lansing form an Ad Hoc Committee to formulate basic Council policy guidance for the City in regard to the utilization of this channel; and,

Whereas, a Cable TV Advisory Board will shortly be formed and proceed to suggest, review, plan and assist in the development of locally originated programs to insure the fullest utilization of the cablevision facility provided by Cablevision for community services;

Now, Therefore, Be It Resolved, that a Council Ad Hoc Cable TV Policy Committee be formed to develop and recommend to Council basic policy guidance and guidelines; and,

Be It Further Resolved, that this Ad Hoc Committee will consist of a representative from the Mayor's Office, the City Attorney and two City Council representatives to be selected by the Mayor Pro-Tem; and,

Be It Finally Resolved, that this Committee is directed to submit their policy recommendations for consideration by Council no later than Wednesday, March 24, 1976.

Adopted by the following vote:

Unanimously.

By Committee on Personnel—

Resolved by the City Council of the City of Lansing:

That effective February 9, 1976, the City Personnel Director is authorized and directed to establish the position Coordinator VI (\$12,992-\$14,603) within the Community Development Management Section of the Classification and Compensation Plan as a jointly funded CETA Title X (\$10,000) and HUD Title X (\$2,992) position. All costs attendant to this position shall be so funded within current budgetary allocations under Title X (CETA) and Title X (HUD), and be it;

Further Resolved, that upon the expiration of said funding, or in the event of any future contingencies which may be brought about by amendments or decisions or any and all actions of Federal or other agencies affecting the Project Grant, the City of Lansing will assume no financial or other responsibility toward the continuation of said Project or positions within said Project.

By Committees on Planning and  
Public Service and Highways—

Resolved by the City Council of the City  
of Lansing:

P-3-75

Concord Village

Preliminary Approval

Whereas, an application has been filed  
for final approval of Preliminary Replat  
of Concord Village, and

Whereas, the Planning Department in  
accordance with Section 37-8 of the Sub-  
division Control Ordinance, has reviewed  
this application and recommends approval  
thereof, and

Whereas, the Planning Committee of City  
Council and the Public Service and High-  
ways Committee of City Council have re-  
ceived this application and the report of  
the Planning Department, and concur  
therewith;

Now, Therefore, Be It Resolved, that the  
Preliminary Plat of Concord Village be  
approved subject, however, to all conditions  
set forth by City Council at the time of  
tentative preliminary approval.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City  
of Lansing:

Whereas, the Tri-County Regional Plan-  
ning Commission is proposing to adopt a  
"Regional Housing Plan" which deals with  
the location of further rehabilitation efforts,  
the location of households needing housing  
and other forms of assistance, and the  
location of future housing for persons with  
low and moderate income; and

Whereas, the plan is primarily directed  
at the coordinated use of Community De-  
velopment Entitlement and Discretionary  
money and other federal and state funding  
sources for housing programs; and

Whereas, the City of Lansing has long  
believed that housing problems at the local  
level cannot be properly addressed unless  
the regional implications of the housing  
market are considered by all concerned  
governmental units; and

Whereas, the proposed "Regional Hous-  
ing Plan" seems to advocate that the City  
of Lansing continue to assume more than  
its share of housing programs for low and  
moderate families in the region; and

Whereas, the City of Lansing presently  
has 42 percent of the poverty level house-  
holds in the tri-county region;

Therefore, Be It Resolved, that the City  
of Lansing will not continue to endorse or  
encourage housing program approaches  
which add to the number of poverty level  
households without honest efforts on the  
part of other governmental jurisdictions to  
share in the housing problem; and be it

Further Resolved, that the City of Lan-  
sing strongly endorses major modifications  
to the "Regional Housing Plan" which  
would shift the development of new low  
and moderate income housing to outlying  
governmental jurisdictions.

Adopted by the following vote:

By Councilman Hull—

That the following resolution be sub-  
stituted for the resolution that was tabled  
on February 2, 1976.

By Committee on Buildings  
and Properties—

Resolved by the City Council of the City  
of Lansing:

Whereas, the City Council, by resolution  
dated June 16, 1975, approved a request  
to the State Legislature to take legislative  
action to allow construction of a fire sta-  
tion on a portion of Marshall Park and  
approved action to make improvements to  
the remaining ball fields, and light a field,  
and transfer three acres from the Fire  
Department to the Park Department; and

Whereas, the State Legislature has taken  
necessary legislative action to allow con-  
struction of the Fire Station; and

Whereas, it is the intent of the City  
Council that the improvements to the  
Marshall Fields and the lighting of an  
additional field at a Gier Park location  
are to be funded through the sale of fire  
station properties being replaced by the  
proposed new station; and

Whereas, the best interests of the com-  
munity for fire protection and recreatoinal  
services requires prompt action;

Now, Therefore, Be It Resolved, that the  
Fire Chief and Purchasing Director be  
authorized and directed to proceed with  
architectural contracts with Manson, Jack-  
son and Kane and other agreements neces-  
sary to design and construct the proposed  
fire station; and

Be It Further Resolved, that upon ap-  
proval of the necessary contracts and  
agreements by the City Attorney that the  
Mayor and City Clerk be authorized and  
directed to sign on behalf of the City; and

Be It Further Resolved, that the City  
Attorney and Director of Parks and Rec-  
reation be directed to prepare appropriate  
resolutions for the Council providing that

the fire station properties to be replaced (No. 6 and No. 8), be placed on the ballot for authorization to sell and that an amount not to exceed the actual cost of replacing, repairing, and improving recreational facilities caused to be altered by the construction of the new fire station be charged against the proceeds of this sale.

By Councilman McKane—

That the resolution be tabled for one week and referred back to the Committee on Buildings and Properties.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Hull, McKane—4.

Nays: Councilmen Adado, Belen, Brenke, Gunther—4.

Re: Leisure Center Programs

Gentlemen:

As a method of improving the City's summer recreation offerings, Assistant Director Douglas Finley, and a Recreation Division staff committee studied our use of a relatively new programming format known as "Leisure Centers." The Park Board has reviewed their recommendations on this program and has directed that they be made part of the 1976-77 budget request.

The concept of the Leisure Center is to provide the people of the City of Lansing with a quality summer recreational program that is designed to serve communities (larger than neighborhoods) with activities offered to meet specific needs of residents within each community.

The Leisure Center concept encompasses all of the current areas of summer programming except League Athletics. Furthermore, it is proposed to incorporate the existing playground, indoor swimming and instructional programs into the Leisure Centers. Funding for the program as proposed will be generally within the limits already established for the existing individual activities.

It is the objective of the Leisure Centers to develop a program that will have a drawing appeal for a broad range of people through each community. Leisure Center activities will include instructional programs, creative arts, swimming, family and adult activities and general athletics. The "mix" of activities will be varied to meet interests of each particular community within the city.

Leisure Centers would be staffed with mature/experienced leaders plus specialists. Each Center will have a staff of qualified recreation leaders in the disciplines of sports, crafts, recreational programs, and cultural arts. Center activities will be coordinated by a Center supervisor.

Traditionally, schools are designed with comprehensive indoor and outdoor physical education facilities, including pools, and are centrally located in areas with a high density of people. It therefore seems natural to use school facilities as the principal sites for the Leisure Center Programs.

Feasibility of the proposed Leisure Centers will depend upon cooperation between the Lansing Board of Education and Lansing City Government. The concept can only be developed if the free use of school facilities is provided by the Board of Education.

Proposed Leisure Center sites have been selected based on building facilities, density of population, building accessibility for the handicapped, and the level of area playground participation for the last two years. A combination of school and park facilities have been designated.

Gardner Junior High School  
Northwestern Elementary  
Gier Community Center/Otto Junior High  
Sexton High School  
Eastern High School  
Holmes School/Walsh Park  
Moores Elementary School and Park  
Dwight Rich Junior High School  
Walter French Junior High School  
Mt. Hope Elementary School  
Everett High School  
Kendon Elementary School  
Harry Hill High School  
George Town Complex

To further equalize summer recreation services, seven supplemental playgrounds will operate limited programs in remote locations of the City. These sites are not within convenient distance to a proposed Leisure Center, and were selected based on a high density of pre-school children in the immediate area. Locations selected are:

Edmore Park  
Post Oak School  
Forest Road School  
Averill Park  
Woodcreek School  
Bluebell Park  
Basset Park

The Leisure Center concept was first discussed by the City/School Liaison Committee in December, 1975. I am now requesting the City Council take formal action indicating their support for the Leisure Center program; and to formally request the availability of selected school facilities from the Board of Education.

Thank you.

Sincerely,  
THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Referred to Committee on Parks and Recreation.

 Members of the Lansing City Council  
 Lansing City Hall  
 Lansing, Michigan 48933

Dear Mayor Graves, Mayor Pro-Tem  
 McKane, and Council Members:

I hereby certify that the Contract between Sol de Aztlan, Incorporated and the City of Lansing (PN34R) for \$1,473.00 has been properly submitted to you in conformance with Section2A-11 of the Community Development Ordinance.

The Contract's scope of services is consistent with the overall objectives adopted by the City for Community Development. The budget for this project was not included in the original application's budget but was amended to include this allocation.

The Contract as sighted does meet with the requirements set forth for certification pursuant to the above sighted section.

Respectfully,

ORRIN E. SHARP,  
 Executive Assistant to the  
 Mayor for Community  
 Development.

February 10, 1976

Honorable Mayor Gerald W. Graves

and Members of the City Council

Lansing City Hall

Lansing, Michigan

Dear Mayor Graves and

Council Members:

The Planning Department and Planning Board have completed a review of the Twenty Year Master Plan, dated September, 1975, for the Capital City Airport (a copy of which is on file in the Planning Department). The Development Plan was prepared by the consulting firm of Landrum and Brown of Cincinnati, Ohio, in association with Peckham Engineering of Lansing, Michigan under a grant from the Federal

Aeronautics Administration. The purpose of the airport master plan study is to designate a development plan for Capital City Airport that will accommodate anticipated air traffic volumes through 1995, and will be compatible with the environment and other community development. The 1967 Master Plan for the airport which proposed numerous improvements has been accomplished. Therefore, an urgent need has existed for an in-depth analysis of future facilities requirements at the airport and a comprehensive long range plan to guide development that would take full advantage of expected advances in aviation technology.

The Planning Board has reviewed the findings reported by the consultants and recommends that the City of Lansing endorse the Capital Region Airport Authority's implementation of the preferred development plan in the following manner:

1. Acquire the land to the ultimate boundaries of Capital City Airport as proposed in the Twenty Year Master Plan dated September, 1975, and described in Exhibit III-3 (attached), as soon as possible. Included in this acquisition should be land to the east of the existing airport boundaries to reserve local options for the future alignment of DeWitt Road, which is currently being determined under the Logan Corridor Joint Development Study.
2. Implement the first stage development pictured in Exhibit III-7 (attached) as soon as possible.
3. Prior to development of Capital City Airport, beyond the land purchase and first phase development of Alternative 3, a study should be undertaken to:
  - a. Re-examine the need and feasibility of the long range development plan as delineated in Alternative 3.
  - b. Examine in a cost/benefit framework the trade-offs between further expansion of Capital City Airport (beyond the first stage development) and development of satellite/general aviation airports elsewhere in the Tri-County Region.
4. Request that the Airport proceed to determine the types and levels of public services, utilities and surface transportation required from local jurisdictions.
5. Request that the Authority identify the specific health, environmental and safety factors related to land development which are implied by the Master Plan. Inform appropriate local jurisdictions concerning these factors for incorporation of amendments to local land development codes and ordinances.

Should you have any questions regarding these recommendations, please contact me.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Letter (a)  
Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

Philip J. Gannon, President of Lansing Community College, requested that we investigate the possibility of installing a pedestrian signal on Capitol Avenue south of Genesee Street. He is concerned about the safety of students crossing Capitol Avenue.

Our engineering survey reveals that warrants for a pedestrian signal on Capitol Avenue do exist. The warrants are 600 vehicles per hour for eight hours and 150 pedestrians per hour for the same eight hours. Traffic volume on Capitol Avenue ranges from 700-800 vehicles per hour with approximately 200 pedestrians per hour crossing Capitol Avenue. Because of problems with non-intersection signals, the signal should be at the intersection of Capitol Avenue and Genesee Street.

The Traffic Board, by a 7-0 vote, recommended for Council consideration installation of a traffic signal at the intersection of Capitol Avenue and Genesee Street.

Respectfully submitted,  
LANSING TRAFFIC BOARD,  
RAYMOND O. SEVERY,  
Secretary.

Referred to Committee on Public Safety.

February 12, 1976

Letter (b)  
Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

At the request of the State of Michigan Department of Public Health, the Traffic Engineering Department has conducted extensive studies to determine the need for a pedestrian actuated traffic signal at 3500 North Logan Street in front of the Public Health Offices. The Department of Public Health (DPH) first requested the pedestrian traffic signal in January, 1973, and has made periodic requests since then to have this signal installed. The Traffic Engineering Department has investigated each request and determined that the pedestrian and vehicular volumes on Logan Street were far below the minimum warrants needed to justify the installation of the pedestrian signal.

On December 19, 1975, the DPH provided the City with count information on the number of pedestrians crossing Logan St. in front of their offices for the dates of November 3 and December 12, 1975. We analyzed the pedestrian counts, traffic volumes, accidents, speeds, vehicular gaps, pedestrian delays, signs, pavement markings and physical conditions of Logan St. to determine if the signal was warranted. The pedestrian and vehicular volume are not high enough to warrant a signal and there are adequate gaps in the traffic for pedestrians to safely cross Logan Street. A gap of twenty two seconds exists every minute. This is enough time for a person to cross Logan St. walking at a rate of two and one-half feet per second. The average walking speed of an adult is four feet per second. The accident history in front of the DPH has been seven accidents in the last six years, with no pedestrians involved. Also, the type of accidents in the past are not the type which could be prevented by the installation of a traffic signal.

On February 11, 1976, the Traffic Board recommended that the request for a pedestrian actuated traffic signal on Logan St. at the Department of Public Health be denied. The vote was 7-0.

Respectfully submitted,  
LANSING TRAFFIC BOARD,  
RAYMOND O. SEVERY,  
Secretary.

Referred to Committee on Public Safety.

Letter (c)

Honorable Mayor Graves and  
Members of City Council

Gentlemen:

There has been a problem of trucks parking in the left turn lane of Grand Avenue south of Michigan Avenue during the morning peak, causing traffic congestion. The existing regulations are "No Parking At Any Time" and "No Standing 4-6 P.M." on the west side of Grand from Allegan to Michigan.

The Traffic Board recommended that "No Parking At Any Time" be retained, and that the "No Standing" regulation be expanded to include both 7-9 AM and 4-6 PM. The recommendation was by a 7-0 vote.

Respectfully submitted,

LANSING TRAFFIC BOARD,

RAYMOND O. SEVERY,  
Secretary.

Referred to Committee on Public Safety.

Mr. Thomas C. Walsh, Chairman and  
Members of the Lansing City Charter  
Commission

City Hall

Lansing, Michigan 48933

Dear Commissioners:

We are submitting this letter to you as a formal request that we receive no compensation as members of the City of Lansing Charter Revision Commission.

We have returned the Withholding and other forms (which were given the Charter Commissioners), unsigned, to our Commission Secretary.

We recognize that our feelings in this case are a matter of personal opinion, and we sincerely respect the opinions of the other Commissioners who may not agree with us in this regard. We do, however, feel very strongly that public service of this type should, when reasonable, be performed as a contribution to the community. This service is in keeping with that rendered by members of the many boards and commissions of the city and in accord with the recommendations of the Greater Lansing Labor Council and the Chamber of Commerce of Greater Lansing.

We deem it an honor and a privilege to serve our city in this fashion and with years of experience in community activities of all types we sincerely believe that we will be able to contribute materially to the efforts of the entire Commission in modern-

izing and updating Lansing's governmental structure. We look forward to this interesting and challenging opportunity to serve our community in a very positive and progressive manner.

We further suggest that, if possible, the amount allocated for our compensation as elected members of the Charter Commission be transferred to the Commission's general account to be used for such items of supplies and expenses as may be deemed appropriate.

Sincerely,

MALCOLM L. MILKS,  
Lansing City Charter  
Commissioner,

DICK HOLMES,  
Lansing City Charter  
Commissioner.

Referred to Committee on Finance, and  
City Attorney.

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

During the regular session of the Council, a presentation was made in opposition to fluoride in drinking water. At that time you were advised that a Doctor had, through chemical analysis and research, scientifically determined that fluoride in drinking water damages the stomach, liver, kidneys, etc. To keep the record straight, I am submitting the following to you for your information.

The Doctor in question is a Chiropractic Doctor who does not deal basically in internal medicine, but deals in a system of healing which holds that some diseases result from a lack of normal nerve function and employs manipulation and specific adjustments of body structures.

He had advised that "there has evidently been an unintentional misunderstanding as to my determining through chemical analysis that fluoride in drinking water damages the stomach, liver, kidneys, etc."

The Chiropractic Doctor does have a personal opinion that fluoridation does present some problems and forwarded several articles for a basis. However, contrary to what you were advised at Council Session on December 15, he has made no scientific studies.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Received and placed on file.

February 13, 1976

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

I am submitting to you for your consideration and confirmation to the Citizen's District Council No. 1, Westside Area, for Community Development, the name of Boyd Lewis to fill the vacancy created by the resignation of Dr. Clyde E. Henson, a representative from the Peripheral Area, whose term expires December 8, 1978.

Mr. Lewis is a lifelong resident of Lansing and graduated from J. W. Sexton High School. He is a veteran, has served for 2½ years in the United States Merchant Marines during World War II. Mr. Lewis was employed with Rankin Lewis and Sons for 29 years, 16 of those years as President and General Manager. He presently is sole proprietor of Boyd's Trucking Company, an independent trash hauling business. Mr. Lewis was a member of the Board of Directors of the State Chamber of Commerce for four years, President for four years of the Greater Lansing Rubbish Hauler's Association, and served for two years on the Ingham County Library Board. He is also a life member of the NAACP, a member of the Esquire Club, the Dwight Rich PTA, and the Capitol Lodge #8 of the Masonic Temple. Mr. Lewis and his wife, Margaret, have two children and reside at 609 West Street.

Trusting this recommendation meets your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
Tenth Floor—City Hall  
Lansing, Michigan 48933  
Dear Mayor Pro-Tem and  
Council Members:

Attached to this communication is a resolution regarding the funding of the pending Presidential Preferential Primary. It is my recommendation that this resolution be adopted and forwarded to the Governor and the appropriate Members of the State Legislature because of the unnecessary additional financial burden this type of State mandated programming would impose on City of Lansing taxpayers.

The City's cost of holding elections has now risen upwards to approximately \$20,000 involving the use of 435 voting devices which must be delivered and picked up from 86 precinct voting locations. In addition, for any City, State or National election we must employ about 400 to 425 persons who are required to take two days of instructions prior to the election being held.

These are only the major cost factors involved, there are numerous other attendant spin-off costs such as preparation of a payroll for election officials, printing and distribution of instruction sheets and the cost of about 25 persons who are employed at the Computer Center on election nights.

For these reasons, I am urging you to give this matter your immediate attention and affirmative response.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole and Committee on Finance.

## RESOLUTIONS

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the proposed Contract between the Michigan State Highway Commission and the City of Lansing for the resurfacing of portions of Michigan Avenue with Highway M-143, at a cost to the City of Lansing of \$11,600.00, be approved, and

That the Mayor and City Clerk be authorized to sign this Agreement upon certification of the City Controller as to the availability of funds, and after approval as to form by the City Attorney.

Adopted by the following vote:

Unanimously.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

That the audit of the books of the Board of Water and Light for the fiscal year ending June 30, 1976, be awarded to Main LaFrentz & Company, Certified Public Accountants. The audit is to be performed in accordance with specifications approved by the City Council on December 23, 1963, and the letter from Main LaFrentz & Company, Certified Public Accountants, dated February 2, 1976. A copy of the letter is attached.

Adopted by the following vote:

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

That the audit of the books of the City of Lansing for the fiscal year ending June 30, 1976, be awarded to Seidman & Seidman, Certified Public Accountants.

The audit is to be performed in accordance with specifications approved by the City Council on December 23, 1963, and the letter from Seidman & Seidman, Certified Public Accountants, dated January 30, 1976, which is attached.

Adopted by the following vote:

By the Housing Redevelopment and Human Resources Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the Housing and Community Development Act of 1974 requires that the City of Lansing prepare and submit a Community Development Application which will include a Community Development Plan Summary, a Housing Assistance Plan, a Community Development Budget and certain other assurances and attachments; and

Whereas, the City of Lansing held two public hearings to enable the citizens to express their desires as to priorities and needs of the city, and they, within the constraints of HUD guidelines and dollar limitations were incorporated into the application and supporting documents; and

Whereas, Community Development (CD) Regulations and guidelines preclude the delivery of human services type activities in City of Lansing Census Tracts where no physical activities have been undertaken, therefore, it has become necessary to eliminate Census Tracts 11 and 20 from the CD Application; and

Whereas, CD activities in approved Census Tract areas may necessitate relocation of individuals to unapproved areas who may require continuation of said human services; and

Whereas, a large percentage of these individuals relocated from the CD target areas relocate in Census Tracts 11 and 20 and the public housing in Census Tracts 14, 29, 32, 33.01, 36.02, and 37; and

Whereas, the above Census Tracts and Public Housing areas contain high percentages of low and moderate income families; now therefore be it

Resolved that the Mayor is designated to prepare and sign a letter to HUD that will be submitted at the same time as the Application, requesting the addition of the public housing in Census Tracts 14, 29, 32, 33.01, 36.02, and 37 to the 1976-1977 Community Development Human Resources Target Areas; and be it further

Resolved that the City of Lansing herewith approves the attached Fiscal Year 1976-1977 Community Development Application with attachments; and be it further

Resolved that the Mayor and City Clerk are directed to sign the 1976-1977 Community Development Application after approval by the City Attorney as to form; and be it further

Resolved that the City Attorney is authorized and directed to sign all required assurances; and be it further

Resolved that the Mayor is designated as the authorized representative to act in connection with this application and is hereby authorized to provide such additional information and assurances as required; and be it finally

Resolved that the Program Coordinator is directed to transmit this Council-approved Application to the appropriate A-95 review agencies by February 23, 1976, and the Department of Housing and Urban Development by April 5, 1976.

By Councilman McKane—

That the resolution be amended in paragraph 7 line 3 that after the word of the words "Census Tracts 11 and 20 and " be deleted.

By Councilman Adado—

Resolved by the City Council of the City of Lansing:

Whereas, Eugene C. Nakfoor, M.D., accepted appointment to the Lansing Fire Board on September 20, 1971; and

Whereas, Dr. Nakfoor's medical specialty has been in the field of emergency medical services and was able to combine his educational and occupational background with an active interest in the welfare of the City

of Lansing and its Fire Department at a time when the department was upgrading its ambulance service; and

Whereas, Dr. Nakfoor gave unstintingly of his time and professional skills toward improvements in the organization, equipping, training and employment of the Fire Department's Emergency Medical Technicians to the end that the improved capabilities have been dramatically reflected in the number of lives saved; and

Whereas, Dr. Nakfoor has been forced by reason of relocation of his residence outside the city to terminate his membership on the Fire Board effective December 4, 1975;

Now, Therefore, Be It Highly Resolved by the Mayor and Council of the City of Lansing and by the Lansing Fire Board that Dr. Nakfoor's exemplary service with the Fire Board and in behalf of his community were in the highest tradition of citizen participation in the affairs of government,

Further that both bodies by this resolution commend him for that service.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Lions International Convention will be held in Honolulu, Hawaii, June 23-26, 1976; and

Whereas, the Lions of Michigan have invited the Lansing Sexton High School Band to appear in the International Parade on June 23, and to perform for State meetings on request; and

Whereas, the parents and members of Sexton's Band have been actively engaged in projects since November, 1975, with a goal of raising \$20,000 toward the cost of this trip;

Now, Therefore, Be It Resolved that the Mayor and City Council of the City of Lansing congratulates Sexton High School Band for being chosen by the Lions of Michigan for this honor and privilege and commends the parents for their work to make this trip possible; and

Be It Further Resolved that the Mayor and City Council are proud to have the Sexton High School Band represent the City of Lansing, the State of Michigan and the Lions of Michigan and glory in this honor bestowed upon them; and

Be It Finally Resolved that the Mayor and City Council request that the residents of the City of Lansing give full support to the efforts being made by the Sexton students and parents in attempting to raise the funds for their trip.

The following resolution was offered:

By Councilman Baker—

Resolved by the City Council of the City of Lansing:

Whereas, it is important that fullest participation by CBD interests be fostered and involved in the Downtown Development Authority; and,

Whereas, the City Council must adopt any plan developed by the Downtown Development Authority prior to its implementation; and,

Whereas, the City Attorney's office will be responsible for reporting to the City Council as to the legal impact and ramifications of any such proposed plan; and,

Whereas, if the City Attorney is a member of such Downtown Development Authority Board, said City officer would have a vested interest in both the proposed plans and in the City of Lansing as its legal counsel and such presents a clear danger of a possible conflict of interest; and,

Whereas, the Mayor of the City of Lansing is a member of the Downtown Development Board and can, therefore, clearly represents the interests of the City of Lansing and its electorate;

Now, Therefore, Be It Resolved that the name of Peter Houk, City Attorney, be stricken from the proposed list of appointments to the Downtown Development Authority; and,

Be It Further Resolved that the Mayor is hereby requested to forthwith nominate one additional person to the Downtown Development Authority and forward their name to Lansing City Council for consideration; and,

Be It Finally Resolved that the remaining names proposed for confirmation be and are hereby confirmed.

**By Committee on Housing, and Human Resources—**

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the United States of America have entered into an Agreement to plan and develop a Community Development Program; and

Whereas, the Lansing Community Development plan provides for the development of Education and Communication Programs; and

Whereas, the City of Lansing through the City Demonstration Agency entered into a Contract on the 8th of June, 1971, with Sol de Aztlan, Incorporated to provide funds for the purchase of equipment and for the establishment of a Spanish-speaking radio production facility in the Model Neighborhood; and

Whereas, the City of Lansing, through the Human Resources Department, desires to engage in a new Contract with Sol de Aztlan, Incorporated for One Thousand Four Hundred Seventy-Three and 00/100 (\$1,473.00) Dollars to repair and maintain the equipment mentioned above, in connection with said Community Development Program; now, therefore, be it

Resolved, that the Mayor and the City Clerk are hereby directed to sign said proposed Contract on behalf of the City of Lansing after approval as to form by the City Attorney and after certification as to the availability of funds by the Director of Finance and the C.D. Fiscal Officer.

**By Committee on Housing, and Human Resources—**

Resolved by the City Council of the City of Lansing:

Whereas, the City Council of the City of Lansing has received New Way In's application for Law Enforcement Assistance Administration (L.E.A.A.) funding through the State of Michigan, Office of Criminal Justice Programs; and

Whereas, it is the intent of the City of Lansing to provide Nine Thousand Six Hundred Eleven and 00/100 (\$9,611.00) Dollars of second year Community Development funds to match with L.E.A.A. monies up to June 30, 1977; and

Whereas, the City of Lansing must also provide Twelve Thousand, Three Hundred Seventy-Seven and 00/100 (\$12,377.00) Dollars of second year Community Development funds to match the L.E.A.A. funds for the period extending from July 1, 1977 to September 30, 1977, at which time the L.E.A.A. fiscal year will end; and

Whereas, this fifteen (15) month application is being submitted to provide financial assistance to New Way In, Incorporated for the purpose of providing a Young Offender Treatment Residence; and

Whereas, this application shall not be considered binding on either party until July 1, 1976, when the final Contracts have been approved; now, therefore, be it

Resolved, that the Mayor and the City Clerk are hereby directed to sign this grant application on behalf of the City of Lansing.

Adopted by the following vote:

Unanimously.

By Finance Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Lansing City Demonstration Agency and New Way In, Incorporated entered into a Contract dated August 9, 1973, which subsequently was amended on March 27, 1974, covering the period from April 1, 1973 through March 31, 1974, and in which there was a tacit agreement that any revenues generated through payments from agency facility residents for board and room would accrue to New Way In, Incorporated and which revenues could be used for any purpose in the furtherance of that agency's operation which conformed with their contractual obligation; and

Whereas, the City of Lansing, through the Lansing City Demonstration Agency and New Way In, Incorporated entered into a Contract effective from April 1, 1974 through March 24, 1975, which Contract subsequently was amended and extended through April 30, 1975, and in which there was a tacit agreement that any revenues generated through payments from agency facility residents for board and room would accrue to New Way In, Incorporated and which revenues could be used for any purpose in the furtherance of that agency's operation which conformed with their contractual obligation; and

Whereas, the City of Lansing, through the Lansing City Demonstration Agency and New Way In, Incorporated entered into a Contract on May 20, 1975, effective from April 1, 1975 through March 31, 1976, which subsequently was amended on December 22, 1975, and in which there was a tacit agreement that any revenues generated through payments from agency facility residents for board and room would accrue to New Way In, Incorporated and which revenues could be used for any purpose in the furtherance of that agency's operation which conformed with their contractual obligation; and

Whereas, the above cited Contracts each provided funds on a match contribution from the Office of Criminal Justice Programs; and

Whereas, the Office of Criminal Justice Programs' auditors have determined that funds generated through payments from agency facility residents for board and room and which were applied to the purchase of a 1975 Dodge, eight (8) passenger van should be so designated in a Contract Amendment; and

Whereas, Department of Housing and Urban Development officials concurred in such Amendment; now, therefore, be it

Resolved, that the City of Lansing, through the Human Resources Department, and New Way In, Incorporated do mutually agree to:

1. Amend the above cited Contracts to permit the application of funds generated from agency residents for room and board in accordance with the following schedule:

1973-1974	\$7,333 x 34% = \$2,493
1974-1975	\$8,441 x 5% = \$ 422
1975-1976	\$2,790 x 50% = \$1,395
Cost of Van	\$4,310

2. Part I, Section 2, Paragraph C of the Contract, effective from April 1, 1975 through March 31, 1976, shall be added and shall read in its entirety as follows:

C. Shall use the van, purchased with revenue generated by rental from the last three (3) years, for the following purposes:

- (1) To transport clients to and from work.
- (2) To transport groceries and supplies to the different centers.
- (3) To transport groups of clients to Adult Basic Education classes.
- (4) To take clients to regular parole office for monthly check-ins.

3. Part I, II, III, IV, and V, effective from April 1, 1975 through March 31, 1976, are hereby replaced and superseded by the revised sheets attached to this Resolution as pages 7-26.

4. Part VI, the Budget Sheets of this Contract, effective from April 1, 1975 through March 31, 1976 are hereby replaced and superseded by the revised budget sheets and are attached to this Resolution from pages 29-33 to 27-31.

5. All other terms and conditions of the above cited Contracts shall remain unchanged.

and be it further

Resolved, the Mayor and City Clerk are hereby directed to sign the Amendment to the Contract between the City of Lansing and New Way In, Incorporated, effective April 1, 1975 through March 31, 1976.

Adopted by the following vote:

Unanimously.

By Housing, Human Resources Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Lansing City Demonstration Agency, and the Department of Parks and Recreation entered into a Cooperative Agreement July 20, 1974, to provide a Basic Parks program (PN-56); and

Whereas, the Department of Parks and Recreation was unable to complete the Basic Parks project within the prescribed time; and

Whereas, the City of Lansing, through the Human Resources Department, and the Department of Parks and Recreation entered into a new Cooperative Agreement

on July 30, 1975, for the sum of Twenty Thousand Eight Hundred Eight-Six and 00/100 Dollars (\$20,886.00) effective from October 1, 1974 through October 31, 1975; and

Whereas, the City of Lansing and the Department of Parks and Recreation mutually agree to amend and extend said Cooperative Agreement, effective from November 1, 1975 through February 28, 1976, in the following manner:

	From	To
Personnel		\$ 2,606.00
Occupancy	\$ 8,880.00	2,418.00
Equipment	12,006.00	15,862.00
	<u>\$20,886.00</u>	<u>\$20,886.00</u>

Whereas, said Amendment will not acquire additional funds; now, therefore, be it

Resolved, that the Mayor and City Clerk are hereby directed to sign said proposed Cooperative Agreement on behalf of the City of Lansing, after approval as to form by the City Attorney and after certification as to availability of funds by the Finance Director of the City of Lansing.

### ZONING

By Councilman Baker—

Whereas, by petition duly filed on the 15th day of December, 1975, this council was petitioned to change the following described property from "A-1" One Family Residence District to "D-1" Professional Office District all as set forth in the Zoning Code of this city, and

Whereas, due notice as required by law has been given for a public hearing on said petition, and

Whereas, at such hearing held on the 9th day of February, 1976, all parties interested therein were heard and given due consideration, and

Whereas, the property involved is described as:

Z-62-75 — 1615 West Holmes Road,

more particularly described as:

Commencing 690 feet east of the north  $\frac{1}{4}$  post of the northwest  $\frac{1}{4}$  of Section 32; thence south 161 feet; thence east 102.4 feet; thence north 161 feet; thence west 102.4 feet to the point of beginning, Section 32, T4N, R2W, City of Lansing, Ingham County, Michigan,

from "A-1" Family Residential District to "D-1" Professional Office District.

Whereas, pursuant to Act 207, P.A. 1921, the Planning Board advised the City Council to deny this request; and

Whereas the Planning Committee of Council, to whom was referred the report of the Planning Board, by a 2-0 vote concurs with the report of the Planning Board.

The Committee believes that there is adequate land in the vicinity both to the east and to the west which allows the type of land use proposed;

Now, Therefore, Be It Resolved that the Council of the City of Lansing ordains that the petition to rezone the above described property from "A-1" Family Residential District to "D-1" Professional Office District be denied.

The following ordinance(s) of the City of Lansing, Michigan, providing that the Code of Ordinances be amended by:

- a. Revising Section 26-5 of Code (Same—Membership, terms of office) Board of Trustees — Retirement System.
- b. Revising subsection (33) of Section 36-39—"H" districts — permitted uses).
- c. Revising Section 16-2 of said Code (Cluttering or littering Private Premises, streets, and public places — prohibited exceptions).
- d. Adding a new subsection to Section 36-1 to be numbered subsection (49) defining Junk Yard or Storage Yard and renumbering subsection (49) to Chapter 36 to subsection (50)—(Junk Yard or Storage Yard).

was introduced by Councilman Belen, read a first and second time by their title(s), and referred to the Committee on Ordinance and Contracts and City Affairs.

**ORDINANCES**

By Councilman Belen—

The Committee reported that it had considered an ordinance providing, that the Code of Ordinances, City of Lansing, Michigan, be amended by revising subsection (3) of Section 9B-3; subsection (1) of Section 9B-4; and by adding a new subsection (9) to subsection 301 and revising subsection 2203 of Section 9B-10 of said Code (Mechanical Code), and recommended that the ordinance be passed.

Carried.

**ORDINANCE NO. 411  
(Mechanical Code)**

By Councilman Belen—

Resolved by the City Council of the City of Lansing, that the Ordinance providing that the Code of Ordinances, City of Lansing, Michigan, be amended by revising subsection (3) of Section 9B-3; subsection (1) of Section 9B-4; and by adding a new subsection (9) to subsection 301 and revising subsection 2203 of Section 9B-10 of said Code, be placed on order of immediate passage.

Carried.

By Councilman Belen—

Resolved by the City Council of the City of Lansing, that the Ordinance providing, that the Code of Ordinances, City of Lansing, Michigan, be amended by revising subsection (3) of Section 9B-3; subsection (1) of Section 9B-4; and by adding a new subsection (9) to subsection 301 and revising subsection 2203 of Section 9B-10 of said Code, be now passed.

Adopted by the following vote:

Unanimously.

**ORDINANCE NO. 411**

**AN ORDINANCE OF THE CITY OF LANSING, MICHIGAN, PROVIDING THAT THE CODE OF ORDINANCES, CITY OF LANSING, MICHIGAN, BE AMENDED BY REVISING SUBSECTION (3) OF SECTION 9B-3; SUBSECTION (1) OF SECTION 9B-4; AND BY ADDING A NEW SUBSECTION (9) TO SUBSECTION 301 AND REVISING SUBSECTION 2203 OF SECTION 9B-10 OF SAID CODE.**

The City of Lansing Ordains:

Section 1. That the Code of Ordinances of the City of Lansing, Michigan, be amended by revising subsection (3) of Section 9B-3; subsection (1) of Section 9B-4; and by adding a new subsection (9) to subsection 301 and revising subsection 2203 of

Section 9B-10 of said Code so that such subsections and sections shall read as follows:

**Sec. 9B-3. Authority of Board.**

(3) If a vacancy occurs in the office of Chief Mechanical Inspector, the Mechanical Board shall submit the name(s) of a person(s) to the Building Commissioner for his consideration. The Building Commissioner shall then appoint a person to the office of Chief Mechanical Inspector, but he may appoint a qualified person whose name was not on the list submitted to him by the Mechanical Board. The Mechanical Inspector must have six (6) years experience in Mechanical Construction work, with two years immediately prior to his appointment as the holder of a Lansing Mechanical Contractors License in heating and refrigeration.

**Sec. 9B-4. Examination and license required.**

(1) No person, firm or corporation shall engage in the business of, or perform the work of, installing, erecting or altering any mechanical equipment unless the person or an individual of a firm or of a corporation has first obtained a license therefor from the city, by filing with the city clerk an application, insurance policy and bond as herein required. Should a vacancy occur in the position of the sole licensed individual of a firm or corporation, the firm or corporation may select a qualified individual from that firm or corporation to take the license examination at the next regular mechanical board meeting. Upon approval of the mechanical board of the applicant as to his professional qualifications and upon approval of all required documents by the city attorney, the city clerk will place such application on the next agenda of the city council. If the city council approves said application, a license shall be issued.

**Sec. 9B-10. Changes in Uniform Mechanical Code.**

**Section 301, Permits required,** is hereby amended by adding the following:

9. Any emergency repairs, alterations, or replacements on service connectors, interior distribution systems, fixtures, and appliances performed by franchised utilities.

**Section 2203, Permit,** is hereby amended by revising the first paragraph as follows:

It shall be unlawful for any person to install, alter, or repair or cause to be installed, altered or repaired any gas piping, without first obtaining a permit from the Building Official to do so, provided, however, no permit shall be required by franchised utilities performing emergency repairs, alterations, or replacements on service connectors, interior distribution systems, fixtures, and appliances.

Section 2. All ordinances or parts of ordinances inconsistent with the provisions hereof are hereby repealed.

Councilman Blair, Baker, Belen, McKane and Hull expressed concern relative to proposal of State Mental Health Board to move the Riverside Center unit from Ionia to the Provincial Hospital, 1226 E. Michigan Ave.

#### REPORTS OF CITY OFFICERS AND BOARDS

February 16, 1976

Lansing City Council

Committee of the Whole

10th Floor, City Hall

Re: Reduction of Security Deposit—  
Glen Eden Estates Subdivision

Gentlemen:

As required by Section 37-35 (1) of Chapter 37 of the Code of Ordinances of the City of Lansing, Michigan, I request permission to release financial security in the amount of \$2,200.00 payable to B.I.L.D. Corporation and the City of Lansing posted as security deposit for improvements at Glen Eden Estates Subdivision.

A copy of the recommendation by the City Engineer for the release is attached for your review.

We will hold an American Bank and Trust Time Certificate in the amount of \$11,250.00 for the completion of the following improvements at Glen Eden Estates Subdivision:

Monuments:	\$ 2,050.00
Sidewalks:	9,200.00
	<u>\$11,250.00</u>

Very truly yours,

EDWARD C. PERRY,  
Deputy Controller.

Referred to Committee on Finance.

#### REPORT OF COMMITTEES

The Committee on FINANCE, to whom was referred the request of the Deputy Controller for the release of financial security in the amount of \$2,200.00 posted as security deposit for improvements at Glen Eden Estates Subdivision, reports as follows:

That said request be approved.

Signed:

TERRY J. McKANE,  
WILLIAM A. BRENKE,  
JAMES D. BLAIR,  
Committee on Finance.

By Councilman McKane—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

February 19, 1976

Honorable Mayor and City Council

City Hall

Lansing, Michigan

Gentlemen:

Attached are two proposed Cost Agreements between the Michigan State Highway Commission and the City of Lansing for Traffic Signal Modernization on M-99 (Logan St.) at Barnes Ave. and M-99 (Logan St.) at Mt. Hope Ave.

The City of Lansing will pay 50% of the cost for these two Agreements.

I would recommend approval of these two Agreements.

Respectfully submitted,

ROBERT R. BACKUS,  
Director of Public Service.

Referred to Committee on Public Service and Highways.

February 19, 1976

Honorable Mayor and

Members of City Council

City of Lansing, Michigan

Re: Existing Sycamore Starter House  
Improvements

Gentlemen:

We are recommending that the firm of Rother and Hartwick be contacted to prepare plans, specifications and bidding documents as required for improvements at the existing Sycamore Starter House to bring

the building up to a level acceptable to the Building Department and Health Department for our continued use. However, this will not correct structural problems of the building. The total fee for professional services shall not exceed \$750.00. This project is funded by account No. 249-936-542-975.

We are requesting your approval.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Referred to Committee on Parks and Recreation.

February 19, 1976

Honorable Mayor Gerald W. Graves  
and Members of Lansing City Council  
Gentlemen:

As you know, a new street was recently installed, in accordance with the Development Plan for Urban Renewal Project No. 2, Mich. A-6, in Block 245, south of the City Market and east of the Riverfront Park. It is our desire to show a disposition of this urban renewal land by dedicating this new street to the City of Lansing.

I have been advised by the Planning Department that the Tri-County Regional Planning Commission has no objections (based upon duplication or sound-alikes) to naming this new street "Riverfront Drive." I also understand that a street name must be selected as a part of the dedication process.

It is my recommendation that the City proceed to accept the dedication of this new street by adoption of a resolution of retention.

Sincerely,

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

Referred to Committee on Ordinance and Contracts and City Affairs.

February 19, 1976

Honorable Mayor Gerald W. Graves  
and Members of the Lansing City Council  
Gentlemen:

Subject: Riverfront Park  
Phases IA and II  
Architectural Services

Attached hereto you will find a copy of a proposal our office has received from Robert L. O'Boyle Associates, Inc., for design work for additional phases of Riverfront Park. The cost of the construction and design work is budgeted in this year's Community Development budget.

The specific work involved in Phase IA is the renovation (painting and planking) of the railroad bridge crossing the Grand River in the middle of Riverfront Park, and certain additional master plan work items in the area immediately west and south of the Lansing City Market.

The specific work involved in Phase II includes tennis courts, deck tennis courts, a viewing platform and wharf, and additional riverwalk which will be 50% funded by a grant anticipated from the Bureau of Outdoor Recreation's Land and Water Conservation Fund through the Michigan Department of Natural Resources.

All costs associated with Phases IA and II, including local match requirements, are currently budgeted. It is my recommendation that the attached proposal be accepted and that the appropriate contract amendments be executed.

Sincerely,

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

Referred to Committee on Housing and Redevelopment and Human Resources, and Committee on Parks and Recreation.

February 17, 1976

Councilman Lucile Belen  
Chairman  
City Affairs Committee  
Lansing City Council  
Dear Councilman Belen:

Attached is an application for a parade permit for the Lansing Bicentennial Commission, scheduled for 10:00 A.M. on Saturday, July 3, 1976.

You will note, this has been approved by all necessary department heads.

Our Traffic Bureau estimates this parade will cost the City a total of \$1428.28, representing costs for 30 police officers, two sergeants, one lieutenant and 15 motorcycles, for a total of four hours.

This is being forwarded to your Committee for further action.

Respectfully yours,

THOMAS W. O'TOOLE,  
Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

## REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of Lansing Bicentennial Commission for permission to parade starting at 10 a.m. on July 3, 1976, on city streets as stated in application-permit, reports as follows:

The Committee recommends permission be granted the application having received the approval of the necessary department heads and the Committee recommends further that the parade be under supervision of the Lansing Police Department.

Signed:

LUCILE BELEN,  
RICHARD J. BAKER,  
JACK D. GUNTHER,  
Committee on Ordinance and  
Contracts and City Affairs.

By Councilman Baker—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

February 19, 1976

Councilman Lucile Belen

Chairman

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit for the Lions of Michigan, scheduled for 10:00 A.M. on Saturday, May 22, 1976, which has been approved by all necessary department heads.

Our Traffic Bureau estimates this will take two hours and will cost the City a total of \$416.28, representing one sergeant, 13 police officers and 14 motorcycles.

This application is being sent to your committee for final action.

Respectfully yours,

THOMAS W. O'TOOLE,  
Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of Lions of Michigan for permission to parade on city streets as outlined in the parade permit-application on May 22, 1976, scheduled for 10 a.m., reports as follows:

The Committee recommends permission be granted the application having received the approval of the necessary department heads and the Committee recommends further that the parade be under supervision of Lansing Police Department.

Signed:

LUCILE BELEN,  
RICHARD J. BAKER,  
JACK D. GUNTHER,  
Committee on Ordinance and  
Contracts and City Affairs.

By Councilman Baker—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

February 16, 1976

Honorable Mayor Gerald W. Graves and

Members of Lansing City Council

Tenth Floor, City Hall

Lansing, Michigan 48933

Dear Mayor and Council Members:

This letter is written to inform you of actions taken recently by the Human Resources Advisory Board at their regular meeting held on Thursday, February 12, 1976, in regard to the contract amendment for Health Services soon to come before the Council.

It is important for you all to realize that only six (6) members were present that evening and the City Attorney's office has ruled that there must be five (5) affirmative votes in order for us to have a motion passed.

The contract amendment in question is for a budget revision of approximately \$5,610.00 coming out of clerical personnel and being placed in professional services, and this is Community Development funds which are legally supposed to be expended in the C.D. target areas. Because of inadequate monthly reports with reference to where clients are being serviced, the first motion of the Board was not to approve the budget revision. This roll-call vote was split with three members, only, voting in the affirmative. Therefore, it did not pass.

The second motion made in this regard was for funding professional services in this amount but stipulating that the money be spent in the C.D. target areas. Mr. Horacio Vargas amended this motion that the money be used at the Cristo Rey clinic for an expansion of service due to the fact it was the only satellite clinic in the C.D. target area. Ms. Janine Johnson, Director for the Health Clinic, pointed out that even though illnesses were diagnosed at this satellite clinic in the C.D. target area, they were usually sent to the Medical Center West for treatment. The vote on the amendment was again a split vote. The roll-call vote on the original motion had only four (4) affirmative votes. Therefore, neither the amendment or the original motion had the necessary votes for passage.

A third motion was then introduced as follows:

"If the Human Resources Board is to consider funding for the Health Department in the future, the Clinic must show compliance with C.D. regulations by supplying the C.D. staff with data for us to

at least have some kind of idea on the target area people that are being served in what part of the City."

The above motion was passed by a unanimous roll-call vote. I trust that this information will help you in your decision-making with regard to the Health Services contract amendment.

Sincerely,

JOSEPH A. POPEVICH,  
Chairman,  
Human Resources Advisory  
Board.

Referred to Council's Housing Redevelopment and Human Resources (CD) Committee.

# **RESOLUTION BY THE BOARD OF POLICE COMMISSIONERS OF THE CITY OF LANSING**

Whereas, the City Council of the City of Lansing passed a Resolution on February 2, 1976, calling for all City departments to submit budget proposals which encompass two levels of funding: (A) Funding at Fiscal 1976 levels, and (B) Funding at 96% of Fiscal 1976 levels; and

Whereas, to meet funding level "B" would engender a reduction for the Police Department of \$186,000 necessitating the reduction of fifteen police officers or a combination of police officers and civilian personnel, reducing our manpower level to approximately that of 1970-71; and

Whereas, studies show this reduction would necessitate the following:

1. Removal of sworn personnel from field duties to fill support functions such as radio dispatching, jail operation and subpoena service;
2. Response time (amount of time it takes to get an officer to the scene of a reported crime) would be increased, causing calls to be stacked due to the lack of available field officers;
3. Removal of Training Transfer officers in the Investigations Division thereby increasing case loads by 33% as well as decreasing time available for follow-up case investigations;
4. Total elimination of ongoing manpower to actively surveil known criminals and make apprehensions in the act of criminal offenses;
5. Elimination of services such as House Checks, Animal Complaint Investigations, School Checks, Delivering Messages, Escorts, Building Tours, Providing Accident Reports, Miscellaneous Non-Criminal Calls for Service, Transportation of Non-Police Non-Emergency Persons, Accident Investigations Where Damage is Less Than \$200 and No Injury Occurs;

6. Elimination of our Crime Prevention Unit, Helicopter Patrol Unit and Investigations Coordination Unit as well as reduction of street patrol force, negating the current experienced decline in the overall crime rate;

7. Elimination of beatmen throughout the City, and

Whereas, Lansing has experienced an 18% decrease in crime rates since 1970-71 while the rest of the State and the Nation have experienced increases and it is our belief based on a recent study of conditions that we will join the rest of the State and Nation in an increase in crime rates and lose the decrease we have experienced if we should reduce our manpower; and

Whereas, our only alternative to avoid cutting field manpower would be the discontinuance of all school programs and crossing guards with the exception of one officer to teach school safety; and

Whereas, the police department, acting in good faith, has already attempted to limit the budget request to absolute necessities;

Therefore, Be It Resolved that the Board cannot in good conscience support a reduction of the police department budget.

Dated this 19th day of  
February, 1976.

RUSSEL A. LAWLER,  
Chairman of the Board.

Referred to Mayor and Committee of the Whole.

February 18, 1976

Honorable Mayor Gerald W. Graves

Mayor Pro-Tem Terry McKane, and

Members of the Lansing City Council

Lansing City Hall

Lansing, MI 48933

Dear Mayor Graves, Mayor Pro-Tem

McKane, and Council Members:

The Citizen's District Council No. 1 has been meeting during the past six weeks with the City Planning Department, Housing and Redevelopment Department, the Building Department, and the Office of Community Development to formulate a Neighborhood Development Plan for Neighborhood Development Area No. 1. The plan contains the physical projects for housing and public improvements, the time schedules for implementation, the estimated costs of the projects, and the responsibilities for implementation.

The Citizens' District Council No. 1 met for the first time on January 9, 1976, at which time we were informed that we had less than a month to present a comprehensive

sive plan to City Council. We do not know why elections were not held earlier or why there was such a long delay between elections and the first meeting. The result of this delayed start in our work has been that it prevented the Citizens' District Council from giving the various staff proposals the kind of searching and detailed analysis they needed and deserved.

Accordingly, Citizens' District Council No. 1 is making the required recommendations to City Council in order to avoid further delay in starting the program and in order to avoid loss of federal funds to the City, however, the Citizens' District Council No. 1, not having had the opportunity to fully consider and analyze all aspects of the plan, supports it in general, but wishes to reserve the right to make further recommendations and modifications in the plan from time to time.

The proposed plan consists of the following major components:

1. Housing Rehabilitation
  - a. Rehabilitation Standards
  - b. Acquisition Strategy
  - c. Code Enforcement
2. Loans and Grants
3. Public Improvements

The Mayor, Mayor Pro-Tem, and City Council are strongly urged to take appropriate action to implement the program immediately.

Respectfully submitted,

WALTER V. KRON,  
Chairman,  
Citizens' District Council  
No. 1.

Referred to Committee of the Whole and Community Development Committee.

February 19, 1976

P-1-76

Delaware Park No. 2—Preliminary Plat

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of February 17, 1976, approved and recommended to City Council that the preliminary plat of Delaware Park No. 2 Subdivision be given tentative approval subject to the following conditions:

- 1) That the final plat be developed with all public improvements as required by the Lansing Subdivision Regulations and the Michigan State Plat Act.
- 2) That all lots be graded so surface water will drain therefrom so as not to adversely affect adjacent properties.

- 3) That the developer utilize an underground electrical distribution system that is specified in Section 37-3.1 of the Lansing Subdivision Regulations.
- 4) That the necessary easements be provided for the installation of utilities.
- 5) That the requirements and recommendations of other city departments and public agencies be adhered to.

Approval of this plat will allow the development of the single family homes. Streets that are proposed would give access to this plat from the extension of Delaware Drive to a proposed north/south street which will add two stub streets to the unplatted land to the west for future development.

This recommendation was by 6 yeas, 0 nays vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

February 19, 1976

P-8-73C

Warwick Subdivision No. 3—Final Plat

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of February 17, 1976, approved and recommended to City Council that the final plat of Warwick Subdivision No. 3 be approved subject to the following conditions:

- 1) That either an Abstract of Title holds or an attorney's opinion as to the marketability of the land or a Certificate of Title Insurance be submitted to the City Clerk prior to the signing of the plat and the affixing of the Municipal Seal.
- 2) That financial security be posted in the amount specified by the Public Service Department prior to the signing of the plat and the affixing of the Municipal Seal.
- 3) That final approval be considered by the City Council only after the satisfactory arrangements are made for sanitary sewers for the plat.

This recommendation was by unanimous vote, 6 yeas, 0 nays.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

February 19, 1976

Honorable Mayor Gerald W. Graves and  
Members of the Lansing City Council  
City Hall

Lansing, Michigan 48933

Dear Mayor Graves and Council Members:

On Tuesday, February 17, 1976, the Planning Board reviewed and unanimously approved the Proposed Revision, Phase I of the Capital Improvements Program Planning and Budgeting Process. (See attachment.)

The purpose of the Revision is to provide continuity and specificity in the Process in order to achieve the objective: develop City-wide Goals, Objectives and Policies for Capital Improvements. The Phase I Revision provides the City Council and the Mayor with specific activities, products and target dates which were not detailed in the original Process document approved by the City Council on July 28, 1975. This approach is very similar to the process utilized by the City in developing the First Community Development Plan during the 1974-75 fiscal year.

The Planning Board recommends that you review, consider and adopt the Phase I Revision at your meeting on Monday, February 23, 1976. (See Joint Resolution submitted by the Planning and Finance Committees of the Council.)

If you have any questions regarding this proposed revision, please contact me at your convenience.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee of the Whole.

February 19, 1976

Honorable Mayor and  
Members of City Council:

The Planning Board has reviewed the Neighborhood Development Plan for Neighborhood Development Area No. 1. The Plan has been formulated in conjunction with the Citizens District Council No. 1 and included the participation of the Building Department, Housing and Redevelopment Department, and the office of Community Development.

The Neighborhood Development Plan contains a description of the rehabilitation activities for 225 structures, acquisition activities for 32 structures and six vacant parcels and the provision of various public improvements; such as, sidewalk repairs, separation of storm and sanitary sewers, streets resurfacing, provision of open space, and upgrading of the street lighting.

At its meeting of February 17, 1976, the Planning Board unanimously endorsed the

Neighborhood Plan for NDA No. 1. It is suggested that the Mayor and City Council set a public hearing on this plan as required by State of Michigan Act 344, P.A. of 1945, as amended, for March 30, 1976.

A copy of the Development Plan is attached. If you have any questions about the Development Plan, please contact the Planning Department.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Honorable Mayor Pro-Tem Terry J. McKane  
and Members of the Lansing City Council  
City Hall

Lansing, Michigan 48933

Dear Mayor Pro-Tem and  
Council Members:

On behalf of our Charter Commission let me take this opportunity to thank each of you for the interest and cooperation you have shown in assisting our Charter Commission.

We want to particularly thank the members of your Buildings and Properties Committee who, acting in your behalf, have arranged for our Commission to use Room G-36 on the first floor of City Hall. We feel this room will be ideal for our use and provide office space, meeting space, and be adequate for many of our smaller public hearings. It is readily identifiable and accessible to the public, which we feel is important in keeping with our efforts to hold open meetings with as much public input and participation as possible.

As many of you know, we are nearing the end of our first scheduled phase of work, the fact finding, or, information phase. In connection with this, we have met with many of you and hope to meet with the rest of you in the near future. We are also meeting with other City officials and members of the many Boards, Commissions, and Authorities connected with Lansing City Government.

With our present heavy work schedule (we are meeting two and three times a week) we hope soon to complete this first section and enter the second phase of our program. This will involve the initial drafting of some of the many sections of a proposed Charter and the holding of public hearings regarding these sections. We feel that the first floor space will be adequate for many of these sessions, but plan to hold the larger sessions (dealing with the major and more controversial issues) in your Council Chambers in order to more comfortably accommodate the larger number of folks we feel will be interested in these matters.

Your offer of the use of the Council Chambers for this purpose is very much appreciated and we will coordinate our schedule with you sufficiently in advance to avoid any conflict in schedules.

We will continue to keep you informed as to our progress.

Thank you again for your interest and cooperation.

Sincerely yours,

For the Charter Commission,  
THOMAS C. WALSH,  
Chairperson.

Received and placed on file.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

Whereas, the Local Service Clubs have indicated their desire to purchase and install 50 flags and poles from each of the States, and to display them on the Michigan Avenue Bridge, and

Whereas, the Lansing City Council has approved the location and installation procedure, now therefore be it resolved that

It is the intent of this Council to assume the maintenance costs for a trial period of one-year to ascertain the true costs which are estimated to be \$3,000 per year.

It is further the intent to display these flag continuously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the following Resolution adopted by the Council on February 2, 1976, be corrected to read, Maple Grove Subdivision No. 3 instead of Maple Grove Farm Subdivision No. 3.

Whereas, the City of Lansing City Council, pursuant to a petition resolved to vacate a portion of the Gilkey Drain in an area of Maple Grove Subdivision No. 3; and

Whereas, it appears Lots 146 through 155 and Lot 160 are currently being serviced by a newly constructed storm sewer in that area; now, therefore, be it

Resolved, the interest of the City of Lansing in the portion of the Gilkey Drain in the Maple Grove Subdivision No. 3 across the following lots; 160, 155, 154, 153, 152, 151, 150, 149, 148, 147 and 146 be and is hereby vacated; and be it further

Resolved, the City Clerk be directed to record a certified copy of this resolution with the Ingham County Register of Deeds.

Adopted by the following vote:

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

Whereas, the composition of the Tri-County Regional Planning Commission is composed of twelve members, (three) from each of Clinton, Eaton, and Ingham Counties and (three) from the City of Lansing; and,

Whereas, the purpose of this Regional Planning body is to conduct research, collect and analyze data, prepare maps, charts and tables and make plans for the development of the region; and,

Whereas, this regional planning body participates in the resource allocation processes particularly as these processes relate to the distribution of federal and/or state monies as formulated by the A-95 Review; and,

Whereas, the City of East Lansing had made application to this Tri-County Regional Planning Commission for membership on the Board of Commissioners; and,

Whereas, the Lansing City Council is totally supportive to the concept of proportional representation on such multi-governmental jurisdiction commission and/or boards; and,

Whereas, the population of East Lansing consists of an estimated 18% of Ingham County or 12% of the total population of the Tri-County area based on the 1970 census;

Now, Therefore, Be It Resolved that the City Council of the City of Lansing supports the proposal by the City Council of East Lansing that they be granted representation on the Tri-County Planning Commission; and,

Be It Finally Resolved that the Legislative Coordinator is directed to transmit this City of Lansing position in regard to the City of East Lansing's proposal for representation to the Tri-County Regional Planning Commission and to the respective su-

pervisors of the counties who serve as members on the Tri-County Regional Planning Commission.

Adopted by the following vote:

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas: The Legislature of the State of Michigan has provided for a Presidential Preferential Primary Election without accepting the responsibility for the required financing; and

Whereas: It appears that the will of the voters participating in this 1976 election, will have no significant impact on the selection of the presidential nominees, and any benefits of this election will accrue only to the political parties, State and National candidates; and

Whereas: The cost for this Presidential Preferential Primary Election may be three million dollars with the City of Lansing's share close to twenty thousand dollars if the Governor and Legislatures refuse to fund this election.

Therefore, Be It Resolved, that the Mayor and Lansing City Council with the Municipal County Clerks, and the many other cities, request that the State of Michigan defray this expense inasmuch as there is little, if any, justification for imposing on local governmental units the three million dollar cost of conducting the Presidential Primary Election.

Be It Further Resolved, that this resolution be forwarded to the Governor, our Legislatures and the news media so that the taxpayers can be fully aware of the responsibility for, and costs relative to this election.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Council in action on November 10, 1975, approved granting a lease to American Youth Hostels, and

Whereas, the Cooley family have communicated through their attorney their wish that the property be used as a public park, and that the \$5000 bequest in the will be used as provided to raze the building and maintain the property and that use of the property as a "youth hostel" does not appear to be in compliance with the will and that Mrs. Cooley does not consent to such use, and

Whereas, the Park Board has reviewed this request and recommended that the lease not be signed,

Now Therefore Be It Resolved, that the action approving the leasing of the Cooley house to American Youth Hostels be rescinded,

Be It Further Resolved, that the Purchasing Director and Director of Parks and Recreation be authorized and directed to proceed with demolition of the house and grading, seeding, and planting to prepare the site for conventional park purposes, and

Be It Further Resolved, that the costs involved shall be charged against the funds provided for the purposes and that any balance remaining be used for future improvements to the park site.

Adopted by the following vote:

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Department of Parks and Recreation has evaluated the summer playground program and has found that many of the objectives of that program are not being met by the current offering of activities, and

Whereas, a format known as Leisure Activity Centers has been studied by the department staff and has been recommended by the Park Board for implementation in 1976, and

Whereas, the existing playground, indoor swimming, tennis and other related programs will be incorporated into the Activity Centers with total operating costs not exceeding the current funding for those individual programs, and

Whereas, these centers will improve the quality of programs for Lansing youth through the use of well equipped facilities, experienced staff, and a wide diversity of activities, and,

Whereas, supplemental playground sites will be selected to serve areas isolated from the proposed Leisure Activity Centers so as not to reduce the level of neighborhood service in any part of Lansing, and

Whereas, the success of Activity Center programs will depend upon the availability of certain school facilities,

Now Therefore Be It Resolved, the City Council representatives on the City/School Liaison Committee are directed to formally request the cooperation of the Lansing School District in determining the availability of various school facilities for Leisure Activity Center programs, and

Be It Further Resolved, the Department of Parks and Recreation carry on specific negotiations with the School District as to potential sites and terms of usage, and following such research report their findings to the City Council for final approval and authorization.

By Councilman Baker—

That this resolution be referred back to the Committee on Parks and Recreation.

Carried.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Community Development Plan provides funds for planning, designing and constructing neighborhood Community Recreation Centers in the East, and Southwest areas of the City, and

Whereas, it is the best interest of the community to proceed promptly with implementation of these projects,

Now Therefore Be It Resolved, that the Model Cities FY76 Budget allocation of \$374,836 be utilized to plan, develop, and construct a community recreation building on the East side, and that the FY76 budget allocation of \$50,000 and FY77 budget allocation of \$500,000 be utilized to plan, design, and construct a community recreation building on the South West side, and

Be It Further Resolved, that the Director of Parks and Recreation and the Executive Assistant to the Mayor for Community Development be authorized and directed to proceed with the implementation of these projects through the necessary steps of citizen participation and technical staff planning.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing understands that the State of Michigan may be proposing to lease the Provincial House Hospital

on East Michigan Avenue and relocate to that facility mental patients now housed at the Riverside Center in Ionia, Michigan; and

Whereas, the City of Lansing has always responded positively to all requests by various agencies to locate half-way houses in residential areas of the City; and

Whereas, the City has supported the concept of mental health care being made available to residents in their home area; and

Whereas, the City Council of Lansing believes, however, that an urban residential area is not the proper location for a mental health institution of this type;

Now, Therefore, Be It Resolved that the Lansing City Council urges the State Mental Health Board not to proceed with the leasing of the Provincial House Hospital as the location for a mental health facility; and

Be It Further Resolved that the City of Lansing urges the State of Michigan to give us advance notification of the location of such proposed facilities within the corporate limits of Lansing so that we might have some input into the planning process and the areas in which such facilities are to be located; and

Be It Further Resolved that the City of Lansing encourages the development of regional mental health plans which assess the need for mental health facilities and recommends alternative programs to meet the need in terms of both types of facilities and their locations; and

Be It Finally Resolved that a copy of this resolution be sent to the State Department of Mental Health, Tri-County Mental Health, members of the Lansing Legislative Caucus, Senator Snyder, and Governor William Milliken.

By Councilman Hull—

That the resolution be amended by:

1. Strike the Be It Finally Resolved — paragraph in full and insert:

Be It Further Resolved that a copy of this resolution be sent to the State Department of Mental Health, Tri-County Mental Health, Provincial House, Senator Snyder, Governor Milliken and members of the Lansing Legislative Caucus; and

Be It Finally Resolved that the copy of the Lansing Legislative Caucus be hand delivered and that Mr. Richard Barry of 1228 Eureka St. be permitted to accompany the Council delegation delivering the resolution to the Lansing Legislative Caucus as evidence of the Council's extreme concern and strong support for the concerns of the Eureka Street neighborhood.

By Committees on Planning and Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council on July 28, 1975, formally adopted by Resolution the "New" Year Round Continuous Capital Improvements Program Planning and Budgeting Process as City Policy; and

Whereas, the Lansing Planning Board at their mid-month meeting, February 17, 1976, adopted the Revision of Phase I of the CIP Planning and Budgeting Process; and

Whereas, the Planning and Finance Committees of the City Council have reviewed and considered the Phase I — Revision of the CIP Planning and Budgeting Process;

Now, Therefore Be It Resolved that the City Council adopts the Proposed Phase I Revision of the Capital Improvements Program Planning and Budgeting Process as follows:

#### CIP PLANNING AND BUDGETING PROCESS REVISION — PHASE I

**Process Objectives:** Formulate, Adopt, and Articulate City Wide Capital Improvements Policies

#### Step Activity

- 1 The Planning Committee of the Council reviews the Planning and Budgeting Process that was approved by the City Council on July 28, 1975.

**Target Date:** February 1st through February 20th.

- 2 Review, amend, and approve Revision of Phase I of the CIP Process.

**Target Date:** February 1st through February 20th.

- 3 Steps 1 and 2 same for Finance Committee of the Council.

**Target Date:** February 1st through February 20th.

- 4 Planning and Finance Committees jointly submit to the City Council a resolution approving the Phase I Revision.

**Target Date:** Last week in February (February 23, 1976).

- 5 The Planning Board develops and adopts a listing of recommended City Wide Goals and submits to the City Council for their first meeting in March.

**Target Date:** First Planning Board.

- 6 Copies of City Wide Goals proposed by Planning Board will be sent to major interest groups including labor, neigh-

borhood groups, business, City departments, agencies, and boards, etc. Copies made available.

**Target Date:** City Council sets public hearing date(s).

- 7 The City Council will review and consider the recommended listing of City Wide Goals. Conduct at least one (1) public hearing in order to obtain citizen input as to the prioritization of those goals within one (1) month but not sooner than fifteen (15) days after public notice of the public hearing.

**Target Date:** First week in April.

- 8 The City Council within two (2) weeks following each public hearing reviews, amends, prioritizes, and approves City Wide Goals by resolution. Included in that resolution will be administrative directives for all CIP participants to comply with the process including data collection and preparation of needs assessments for their operational areas. The Planning Department will be the coordinator of this activity. Each department will be required to designate a staff person to work in conjunction with the Planning Department in collecting and analyzing data that relates to the adopted City Wide Goals.

**Target Date:** Two weeks later. Council decision.

- 9 All CIP participants, coordinated by the Planning Department, will collect and analyze data that relates to the City Wide Goals adopted by the City Council (prepared CIP Annual Report). Each department submits their Annual Report to the Planning Board on or before August 8, 1976.

**Target Date:** May 1st through second week in August.

- 10 The Planning Board, via Planning and Finance Departments' staff review, amends and approves the 1976 CIP Annual Report. Submit to the City Council and Mayor by September 23rd for Council agenda September 27, 1976 (develop Operational Objectives relating to the City Wide Goals).

**Target Date:** By mid-month Planning Board meeting in September.

- 11 The City Council reviews the 1976 CIP Annual Report based on original City Wide Goals adopted the first week in April. The City Council conducts hearings with CIP participants (City department agencies and Board).

**Target Date:** Last week in September.

- 12 City Council conducts committee meetings to reevaluate, revise, and prioritize City Wide Goals, operational objectives,

and timetables. The Council conducts a public hearing to elicit citizen input in assisting the City Council in formulating City Wide policies.

**Target Date:** Third week in October.

- 13 The City Council approves the Annual Report and City Wide policies (goals, objectives and timetables) via a resolution. The resolution would also direct all CIP participants to prepare their Six Year Capital Improvements Program based on the City wide policies adopted by the Mayor and City Council.

**Target Date:** Fourth week in October.

- 14 Begin Phase II of the CIP Planning and Budgeting Process (development of specific project and program proposals that reflect the City Wide policies adopted in Phase I).

**Target Date:** November 1 through December 31, 1976.

And, Be It Further Resolved, that the Planning Board prepare and submit to the City Council for their second meeting in March, 1976, a listing of recommended City Wide Goals for City Council review and approval.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Setting a date for public hearing for the purpose of adoption of a Neighborhood Development Plan for NDA No. 1, as required by Act 344, P.A. 1945, as amended.

Whereas the City of Lansing is considering the rehabilitation of a blighted area within the City of Lansing within the Neighborhood Development Area No. 1.

Whereas the City of Lansing has prepared a Master Plan which is sufficiently advanced to designate areas in need of rehabilitation; and

Whereas, pursuant to Act 344, P.A. 1945, the district area has been designated as the proposed development area and the Citizen's District Council has been organized for the district area; and

Whereas said Council and the City of Lansing have been acting in accordance with the requirements of Act 344, P.A. of 1945 as amended; and

Whereas the proposed project may be undertaken in accord with Act 344, P.A. 1945, and in cooperation with the Federal Government for financial assistance under the Housing and Community Development Act of 1974; and

Whereas the development plan has been prepared which included programs for the rehabilitation of residential structures, application of rehabilitation standards, acquisition and removal of selected residential structures, the relocation of families and individuals, the availability of loans and grants to property owners and the improvement of public facilities. And further the plan designates the location and extent of streets and other public improvements; designation of the location, character and extent of permitted public and private uses; designation of the location, character and extent and estimated costs of improvements for the areas; includes statistical data relating to numbers of persons residing within the areas, numbers to be displaced, and housing supply in Lansing, and demand for the housing capacities of public and private housing available to displaced persons; and

Whereas, pursuant to Act 344, P.A. 1945, a public hearing must be held on the development plan for the development area;

Now Therefore Be It Resolved, that a public hearing will be held on Tuesday, March 30, 1976, in the Sexton High School Auditorium at 7:30 p.m.; and

Be It Further Resolved, that notice of this hearing be published in local newspapers thirty (30) days prior to said hearing, mailed to the last known owner of each parcel within the District Area No. 1 twenty-five (25) days prior and distributed door-to-door to the residents of the District Area No. 1 twenty-five (25) days prior to said hearing, and that a second notice of the Public Hearing be distributed within District Area No. 1, five (5) days prior to said hearing, and that the Office of Community Development be responsible for all aforementioned public notification.

By Councilman Baker—

That the resolution be amended to read that the notice of public hearing be printed in the Lansing State Journal and Lansing Star.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas the City Council for the past several years has recognized the need to provide for halfway house facilities within the community; and

Whereas the Council, by ordinance, amended the City of Lansing Zoning Code in July of 1973 which provided for review

and approval by local authorities to allow halfway house facilities to be established within the City of Lansing; and

Whereas the Special Use Permit process has been utilized several times for considering halfway house facilities in the City; and

Whereas both the Planning Board and the City Council believe that the Special Use Permit process which is used provides for the necessary input by both the general public and public agencies to assure that the land is developed in the best interests of the City; and

Whereas the City Council, based on their experience and use of the Special Use Permit within the City of Lansing, would recommend the following:

- 1) That the State develop statewide guidelines which apportion the number of halfway houses to be located in a jurisdiction. These guidelines should limit the number of halfway houses to some ratio in relation to the total number of households in the jurisdiction.
- 2) That the State require every jurisdiction to adopt nondiscriminatory zoning procedures that provide for the locating of approved halfway houses.
- 3) That the City of Lansing's Special Use Permit Ordinance be cited as a model ordinance for jurisdictions falling under the law.
- 4) Where jurisdictions do not comply with the law and adopt such zoning procedures, then the provisions provided under House Bill 4893, 4894, and 4896 as well as the amendment to Act 287, P.A. 1972, Draft I and II shall come into effect.
- 5) If the policy of decreasing the number of people in the State institutions by sending them back to their regions and communities is continued, that the State should also provide monies to the Counties and Cities for their continued support.

Please find attached three different papers that have been developed indicating the City of Lansing's position regarding halfway houses.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council established a "Lansing 911 Implementation Committee" on December 23, 1974, composed of Mayor Gerald Graves, Councilman Terry J. McKane, Police Chief Thomas O'Toole, Fire Chief Carl Barratt, Director

of Emergency Operations James Holcomb and two Ingham County Commissioners; and,

Whereas, this Committee and staff personnel from several governmental entities have over the past year been exploring the most expeditious and efficient manner by which 911 service can be provided throughout the Tri-County area; and,

Whereas, an attempt was made to establish a "first phase" 911 System within an area encompassing the Townships of Water- town, DeWitt, Bath, Delta, Windsor, Delhi, Alaledon, Meridian and Lansing and the Cities of Lansing, East Lansing and De- Witt; and,

Whereas, the governing bodies of the City of East Lansing and the Township of Lansing have informed the Chairman of the Implementation Committee, Councilman Terry J. McKane, that they desire to participate in the establishment of a 911 Sys- tem; and,

Whereas, the Townships and cities enu- merated above, with the exception of East Lansing and Lansing Township, have for- mally or informally declared that they do not desire to enter into a contract with the City of Lansing for 911 answering and dispatch services; and,

Whereas, the Sheriffs of Ingham, Eaton and Clinton Counties, the MSU Safety Di- rector and the Michigan State Police were also solicited as to their interest in par- ticipating in or assisting in the development of a 911 System; and,

Whereas, the Sheriffs of Eaton and Clin- ton Counties have indicated that they do not desire to participate directly in the 911 System but support the concept; and,

Whereas, the Sheriff of Ingham County supports the 911 concept and is currently working with the Implementation Commit- tee to implement the 911 System throughout Ingham County; and,

Whereas, the "911" emergency telephone service will give the public access to an emergency answering center which will per- mit the expeditious provision of all emer- gency services to include, but not specifi- cally limited to police, fire and ambulance dispatch; and,

Whereas, the City Council of the City of Lansing is desirous of expeditiously provid- ing a 3-digit emergency telephone number for the City of Lansing;

Now, Therefore, Be It Resolved that the City Council intends to proceed with the establishment of a 911 answering and dis- patch center which will possess the capa- bility of providing answering and dispatch- ing service for the City of Lansing, the City of East Lansing and Lansing Town- ship; and,

Be It Further Resolved that the City Council directs the Chief of Police and the Fire Chief to establish a 911 answering and dispatch center with the capability for ex-

pansion to permit the provision of 911 an- swering and dispatch services to the City of E. Lansing and Lansing Twp. and sub- sequently the entire Tri-County region should they option, at some future time, to contract for 911 answering and dispatch services; and,

Be It Further resolved that the Mayor is directed to sign the appropriate contractual documents with the City of E. Lansing and Lansing Township; and,

Be It Further Resolved that the Chief of the Lansing Police Department is directed to:

- A. Continue liaison with the Ingham County Sheriff and the various cities and townships within Ingham County for the purpose of determining the procedures and contractual arrange- ments necessary to provide 911 an- swering and dispatch services to these governmental entities;
- B. Take the administrative action neces- sary to commence the alterations to the 5th Floor Communication Center and the procurement and installation of all equipment required;
- C. Plan to have a fully operational 911 answering and dispatch center by July 1, 1977;
- D. Make the necessary arrangements with Michigan Bell Telephone Company;
- E. Budget the necessary funds to cover the service charges which are es- timated to be \$14,000 per year for the City of Lansing; and

Be It Further Resolved that the initial Governing Board for the 911 System will consist of the following officials: Chief, Lansing Police Department; Chief, Lansing Fire Department; Chief, E. Lansing Police Department; Chief, E. Lansing Fire De- partment, the Public Safety Director, Lan- sing Township and a representative from the Tri-County Emergency Medical Services Council; By-laws will be developed by the members of this board and submitted to the respective legislative bodies of the vot- ing members, these By-laws will be written and adopted by the Board within ninety days of its first meeting; and,

Be It Further Resolved that the Board shall submit an annual report in January to each of its respective jurisdictions as to its operations, problems and other relevant information; and,

Be It Further Resolved that ex-officio membership to this board will be offered the Ingham County Sheriff, the MSU Director of Safety, the Michigan State Police and the Tri-County Planning Commission; and,

Be It Further Resolved that the Imple- mentation Committee established by City Council Resolution of December 23, 1974, is hereby dissolved and its functions and/or duties will be assumed by the 911 Govern- ing Board and the Departments of Lansing City Government as appropriate; and,

Be It Further Resolved that it is the Council's understanding that the basic equipment and installation costs are estimated to be \$46,548 and that this amount will be paid for from a grant to be provided by the Tri-County Emergency Medical Services and should the final cost be more than this estimate, that the participating entities will share such costs by a cost sharing formula as the Board may determine and that the equipment and installation costs that arise from governmental entities that subsequently contract for 911 answering and dispatch services will be paid for by these governmental entities; and,

Be It Finally Resolved that the City Council and the Mayor of Lansing wish to express their thanks to the members of the Implementation Committee and all personnel who participated in the planning for the development of the 911 system.

By Councilman Gunther—

That this resolution be referred to the "911" Committee to meet with Sheriff Preadmore and a new resolution be presented.

Carried.

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

Whereas, the City Council of the City of Lansing is supportive of the various crime prevention grants that are provided through the Law Enforcement Assistance Administration and administered by the State Office of Criminal Justice Planning; and,

Whereas, these LEAA funds have permitted the Tri-County region to develop various demonstration projects and/or programs which have assisted the Tri-County area in achieving a dramatic reduction in crime when related to comparable crime statistics of similar regions of the United States; and,

Whereas, the majority of the "demonstration" programs and/or projects that have been funded have proven to be effective and merit continuance; and,

Whereas, several of these crime prevention programs and projects are in their final year of funding and the cost of their continuance must now be borne by the respective governmental entities; and,

Whereas, the Michigan State Office of Criminal Justice Planning has established a policy that LEAA programs and projects will be funded fully or partially for only one, two or three years with the continuation funding to be absorbed totally by the sponsoring governmental entity; and,

Whereas, the cities, the townships and the counties that comprise this Tri-County region are experiencing budget deficits because of an abnormally high unemployment rate and a general business recession in the area; and,

Whereas, it appears that the City of Lansing and possibly other governmental entities who have undertaken various LEAA demonstration projects will be unable to continue these projects because of the limited dollars available; and,

Whereas, the City of Lansing is presently evaluating its capability to continue the Helicopter Unit, the Crime Prevention Unit and the Investigations Coordination Unit and may not be able to fund these units in light of budgetary constraints;

Now, Therefore, Be It Resolved that the City of Lansing requests that the Tri-County Planning Commission, the Criminal Justice Coordinating Council and other interested governmental entities or agencies make appropriate representation to the Governor, the State Legislature, the Bureau of Management and Budget and to the Office of Criminal Justice Programs recommending that the existing policy, as established by the Office of Criminal Justice Programs, be changed to permit an additional year of funding or as a minimum partial funding of the LEAA funded programs and/or projects which may terminate in FY76 or FY77; and,

Be It Further Resolved that Lansing's representative to the Tri-County Planning Commission and to the Criminal Justice Coordinating Council make known to these bodies that the City of Lansing has recommended to the Governor and to the State Legislature that the funding policies of the Office of Criminal Justice Programs be revised to permit an additional year of partial or full funding for current demonstration projects whose LEAA funding is about to terminate and that priority for FY77 funding be given to the continued funding for current projects and programs before consideration is given to the funding of new demonstration projects or programs; and,

Be It Finally Resolved that this Resolution be formally submitted to the Office of the Governor, the Lansing Legislative Caucus, the Office of Criminal Justice Programs and to the appropriate House and Senate Committees who relate to the Office of Criminal Justice Programs and the programs or projects that they sponsor.

## REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request from Frank G. DeLaCruz, Sr., and Rosa T. DeLaCruz for transfer ownership of 1974-12 months resort Class "C" license with Dance-Entertainment Permit from Helen M. Oade, and transfer location from escrow at 6359 W. Lake Lansing Dr., Haslett, Michigan, Meridian Township, Ingham County to 539 East Michigan Avenue, Lansing, Michigan, reports as follows:

That said request be approved having received the signatures of all department heads required.

Signed:

LUCILE BELEN,  
RICHARD J. BAKER,  
JACK D. GUNTHER,  
Committee on Ordinance and  
Contracts and City Affairs.

By Councilman Belen—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Human Resources Department and the County of Ingham have entered into a Contract effective from July 1, 1975 through June 30, 1976 for Two Hundred Thousand and 00/100 (\$200,000.00) Dollars to provide a Health Services Program (PN-217); and

Whereas, the County of Ingham had previously operated the walk-in clinic in cooperation with their venereal disease clinic thereby utilizing one staff for both clinics; and

Whereas, the walk-in clinic is a fee for service component while the County is mandated by State law to provide venereal disease services free of charge. The County has been advised that they cannot commingle services or staff of the two clinics; and

Whereas, the County of Ingham now finds it necessary to amend the Contract to include professional services (account Number 9101); and

Whereas, the City of Lansing, through the Human Resources Department, and the County of Ingham desire to amend said Contract budget according to the following revisions:

Management Personnel	\$ 44,016.00	\$ 43,008.00
Clerical Personnel	\$ 74,736.00	\$ 72,329.00
Service Personnel	\$ 64,388.00	\$ 62,143.00
Professional Services	—0—	\$ 5,610.00
Occupancy	\$ 16,910.00	\$ 16,910.00
	\$200,000.00	\$200,000.00 ;

and

Whereas, this revision requires no additional funds; now, therefore, be it

Resolved, that the Mayor and City Clerk are hereby directed to sign said proposed Contract Amendment on behalf of the City of Lansing, after approval as to form by the City Attorney and after certification as to availability of funds by the Finance Director of the City of Lansing.

Adopted by the following vote:

Unanimously.

# REPORTS OF CITY OFFICERS AND BOARDS

City Treasurer submits report on condition of funds in the treasury as of January 31, 1976.

Received and placed on file.

February 24, 1976

Honorable Mayor and Members

of the Lansing City Council

Re: Claim of Roger Stevens for damages to his property and expenses incurred by him as a result of snow accumulation in the alley providing access to his garage.

Dear Mayor and Council:

The above captioned claim was received by this office through a referral from the Mayor on February 9, 1976. The claim consists of a hodgepodge of expenses incurred by Mr. Stevens during the winter of 1975-76 connected with his driving his motor vehicles to and from his garage. The garage is located off an alley behind his residence. The claim includes the following:

Wrecker calls	\$43.00
Plowing	43.00
Damage to Ford Van	469.00
Damage to Garage	387.81
Parking Tickets	18.00
	<hr/>
	\$960.81

Notwithstanding the following analysis as to the City's lack of legal responsibility to pay such claim, it should be pointed out the claim for damage to the garage resulted from the claimant's own negligence in losing control of his vehicle due to conditions and his speed. In so doing, he struck his own garage with sufficient force that, in his own words, he "clipped the corner of the garage which broke the frame for the garage door, knocked the cement blocks out and damaged the wall of the garage."

With respect to liability generally, the City is not responsible to pay for the alleged damage due to governmental immunity. The Michigan Rule, dating back to 1908 and reaffirmed as recent as 1974, is "... a municipality is not liable for injuries caused by the usual and natural accumulation of snow and ice on its road." *Weckler v Berrien Co Rd Com*, 55 Michigan Appeals 7 (1974). In that case, the Court affirmed Berrien County could not be held liable for (1) not using reasonable means to inspect the road to ascertain when it was impassable because of an accumulation of snow; and (2) not removing the snow which had accumulated on the road.

Michigan is not alone in this immunity position. In McQuillin's treatise on municipal law, the rule is stated to be the same for other states in the snow belt area:

"In the absence of statute, a municipality is not required to remove from its streets ice or snow which results from natural causes, and is not liable for injuries resulting therefrom . . . [I]t is not the duty of municipalities to exercise ordinary care to keep the driveway of its streets, from curb to curb, free from snow and ice."

19 McQuillin, Municipal Corporations, (3d ed) §54.79, p 188

On the basis of the aforementioned law, it is my recommendation the claim be denied.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman McKane—

That we concur in the recommendation of the City Attorney and said claim be denied.

Carried.

February 25, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Lowell Daniels for damages to his automobile incurred as a result of snow accumulation in the alley providing access to his parking space.

Dear Mayor and Council:

The above captioned claim was referred to this office on February 19, 1976. The claim consists of damage Mr. Daniels incurred while driving his motor vehicle from his yard. The yard is located off an alley behind his residence and as he attempted to enter the alley, he lost control of his vehicle and hit a fence. Mr. Daniels alleges he would not have hit the fence but for the accumulation of snow in the alley. The claim consists of damage to his vehicle in the amount of \$134.36.

With respect to liability generally, the City is not responsible to pay for the alleged damage due to governmental immunity. The Michigan Rule respecting the duty to plow public ways dates back to 1908 and has been reaffirmed as recent as 1974. It is "... a municipality is not liable for injuries caused by the usual and natural accumulation of snow and ice on its road." *Weckler v Berrien Co Rd Comm*, 55 Michigan Appeals 7 (1974). In that case, the Court affirmed Berrien County could not be held liable for (1) not using reasonable means to inspect the road to ascertain when it was impassable because of an accumulation of snow; and (2) not removing the snow which had accumulated on the road.

Michigan is not alone in this immunity position. In McQuillin's treatise on municipal law, the rule is stated to be the same for other states in the snow belt area:

"In the absence of statute, a municipality is not required to remove from its streets ice or snow which results from natural causes, and is not liable for injuries resulting therefrom . . . [I]t is not the duty of municipalities to exercise ordinary care to keep the driveway of its streets, from curb to curb, free from snow and ice."

19 McQuillin, Municipal Corporations (3d ed) §54.79 p. 188.

On the basis of the aforesaid law, it is my recommendation that the claim be denied.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman McKane—

That we concur in the recommendation of the City Attorney and said claim be denied.

Honorable Mayor and Members  
of the Lansing City Council  
Lansing, Michigan

Re: Claim of Willis B. Taylor

Dear Mayor and Council Members:

The above captioned matter was referred to this office by the City Council on February 16, 1976. Mr. Taylor claims that certain articles were taken by the Lansing Police Department during an investigation of a breaking and entering at his home and were not returned.

I have been informed by Captain Wash that the missing item was an axe. Apparently through an administrative error the axe was released to the Lansing Parks Department as opposed to being returned to Mr. Taylor. Mr. Taylor was allowed to requisition an axe from the Parks Department and is satisfied.

No further action is necessary on your part.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Received and place don lle.

February 26, 1976

To the Honorable Mayor  
and Members of City Council  
Lansing, Michigan  
Gentlemen:

I herewith report that I have submitted to the City Assessor an itemized list of a tree cut and removed from private property in the amount of \$60.00, for the year 1976, for special assessment on Tax Roll T-35.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Received and placed on file.

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Board at its February 11, 1976 meeting reviewed a complaint that Fisher Body employees are parking on Memphis Street for longer than the one hour time limit. These employees usually leave the area between 2 and 2:30 A.M.

A survey of the residents in the area revealed that 3 of the 4 residents on Memphis Street between Shiawassee and South Genesee favored No Parking 12:01 A.M. to 6:00 A.M. on the east side of the street. The fourth resident had no opinion relative to this proposal. The present regulations for this section of Memphis Street are: "No Parking at Any Time" on the west side, and "1 Hour Parking 6 A.M. to 2 A.M." on the east side.

The Traffic Board, by a 7-0 vote, recommended for Council consideration that the regulations be changed to: "1 Hour Parking 6 A.M. to 12:01 A.M.," and "No

Parking 12:01 A.M. to 6 A.M." on the east side of Memphis Street from Shiawassee Street to South Genesee Street.

Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

February 26, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

On October 9, 1975, the "NO LEFT TURN" restriction from northbound Cedar Street to westbound Miller Road was removed for a 90 day trial period. An analysis of left turn volumes and traffic accidents caused by the left turn movement was completed during January 1976.

This left turn is the heaviest of the left turns at this intersection with from 60 to 100 vehicles turning left each hour. There has been no reported problem of interference between vehicles turning left onto Miller Road and vehicles turning left into Meijer's parking lot. Of the seven accidents which occurred during the 90 day period, only one involved a vehicle turning left onto westbound Miller Road. This one accident appears to have been the result of icy street conditions.

The Traffic Board recommended that the "No Left Turn" restriction from northbound Cedar Street to westbound Miller Road be removed permanently.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

#### To Whom It May Concern:

At a regular meeting of the Board of Water and Light of the City of Lansing, Michigan, held February 23, 1976, of which meeting proper notice was given, and at which meeting a quorum of members was present, the following action was adopted:

Your Ways and Means Committee recommends that the proposal of Michigan National Bank, dated February 18, 1976, regarding the borrowing of \$1,000,000 through the sale of a short term note in accordance with, and subject to the provisions of Act 182, Public Acts of Michigan, 1971, as amended, be accepted, as it was the lowest and best evaluated of bids received from Michigan National Bank, American Bank and Trust, Bank of Commerce of Lansing, and Bank of Lansing.

Also, it is recommended that the Board request City Council to adopt the necessary resolution to approve the sale to Michigan National Bank.

Further, that upon adoption by City Council of a resolution approving this sale, the General Manager be authorized to complete all necessary arrangements with Michigan National Bank regarding this borrowing.

Following is a brief summary of the Michigan National Bank proposal:

1. Will loan the entire \$1,000,000.
2. Complete the loan on March 1, 1976, or as soon thereafter as possible.
3. Interest rate and maturity date will be:

Amount	Date of Repayment	Interest Rate
\$1,000,000	4 years from Anniversary Date	4 $\frac{1}{4}$ %

4. The Note will be subordinate to all present Revenue Bonds and Revenue Notes.

Said action has not been since amended or rescinded.

Certified this 24th day of February, 1976.

BOARD OF WATER AND LIGHT  
Donna Smieska, Secretary.

Referred to Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the matter of the Board of Water and Light for the City of Lansing borrowing \$1,000,000.00 to finance part of a supplementary pollution control system for the Moores River Park Station and the Eckert Station pursuant to the provisions of 1971 PA 182, reports as follows:

That after reviewing the analysis of the bids received, a copy of which is appended hereto, the Council approve the bid of Michigan National Bank to loan \$1,000,000 to the Board of Water and Light at 4 $\frac{1}{4}$ % interest for a period of four years.

Signed:

LUCILE BELEN,  
RICHARD J. BAKER,

Resolved by the City Council of the City of Lansing:

Whereas, the Board of Water and Light of the City of Lansing ("Board") has recommended to the City Council of the City that it is necessary and advisable in order to provide adequate supply of electrical power to protect the public health, safety and welfare of the City and its residents and properly protect the environment, to purchase, acquire and construct improvements to the utility system of the City for furnishing water, electric light and power, steam and steam heat (the "System"), and that this will require the purchasing, acquiring and constructing of a supplementary control system for the Moores Park Station and the Eckert Station (the "Project"); and

Whereas, the Board has recommended that the City borrow One Million (\$1,000,000) Dollars to finance part of the Project, and issue its Notes therefor in the amount of \$1,000,000 (the "Notes"), in accordance with and subject to the provisions of Act 182 of Public Acts of Michigan, 1971, as amended ("Act 182"); and

Whereas, the City Council did on December 22, 1975, approve said borrowing and direct the Director of the Department of City Utilities to obtain proposals for the purchase thereof; and

Whereas, said proposals have been obtained and the Board has recommended, and this Council is of the opinion, that the offer of Michigan National Bank for the purchase of \$1,000,000 in Notes at 4¼ percent annual interest for four years is the lowest and most favorable offer of those received; now, therefore, be it

Resolved, that:

1. This Council authorize the borrowing of money and the issuance of a Note of the City of Lansing in the amount of \$1,000,000 at 4¼ percent annual interest for a term of four years to Michigan National Bank, City of Lansing, upon the terms and conditions submitted in the proposal of Michigan National Bank, dated February 18, 1976, and any extension thereto, a copy of which offer is attached to and made a part of this resolution.

2. The proceeds of said Note shall be used solely for the purpose of completing the Project as outlined, or as it may be

added to in the future. This note shall be repaid solely from revenue generated by the Board of Water and Light of the City of Lansing and shall not constitute a general obligation of the City of Lansing payable by the proceeds of the City's taxing power.

3. The Mayor and City Clerk are hereby authorized and specifically directed to execute said Note for and on behalf of the City upon the making of the loan herein authorized upon approval as to form by the City Attorney. The note shall in all manners conform with the specifications set forth in this resolution and in the Notes Resolution adopted by the City Council on December 22, 1975.

By Committees on Planning and Public Service and Highways—

Resolved by the City Council of the City of Lansing:

P-1-76

Delaware Park No. 2—Preliminary Plat

Whereas, the Preliminary Plat of Delaware Park No. 2 Subdivision has been submitted for tentative approval; and

Whereas, the Planning Board, pursuant to Act 285, P.A. 1931, has approved and recommended that the City Council tentatively approve the Preliminary Plat subject to the following conditions:

- 1) That the final plat be developed with all public improvements as required by the Lansing Subdivision Regulations and the Michigan State Plat Act.
- 2) That all lots be graded so surface water will drain therefrom so as not to adversely affect adjacent properties.
- 3) That the developer utilize an underground electrical distribution system as specified in Section 37-33.1 of the Lansing Subdivision Regulations.
- 4) That the necessary easements be provided for the installation of utilities.
- 5) That the requirements and recommendations of all other departments and public agencies be adhered to;

Whereas, the Planning Committee of Council reviewed the report of the Planning Board and concurred therewith;

Now, Therefore, Be It Resolved that the Preliminary Plat of Delaware Park Subdivision No. 2 is hereby tentatively approved subject to conditions 1-5 as set forth above; and

Be It Further Resolved that the City Clerk be, and as she is hereby directed, to attach this approval to the Plat and return it to the Proprietor.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Legislature of the State of Michigan has provided for a Presidential Preferential Election without accepting the responsibility for the required financing; and

Whereas, the cost for this Presidential Preferential Primary Election may be three million dollars with the City of Lansing's share close to twenty thousand dollars if the Governor and Legislature refuse to fund this election;

Therefore, Be It Resolved, that the Mayor and Lansing City Council with the Municipal County Clerks, and the many other cities, request that the State of Michigan defray this expense inasmuch as there is little, if any, justification for imposing on local governmental units the three million dollar cost of conducting the Presidential Primary Election, and

Be It Further Resolved, that this resolution be forwarded to the Governor, our Legislators, and the news media so that the taxpayers can be fully aware of the responsibility for, and costs relative to, this election.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Council has unofficially established an internal policy which requires all Mayoral appointees to be interviewed by interested Council members prior to a confirmation vote by the Council; and

Whereas, the Mayor is required by the City Charter to make a substantial number of appointments to City boards and commissions each June and replacement appointments throughout the year; and

Whereas, the Council is organized into eight standing committees plus the Housing, Redevelopment Human Resources (CD) Committee, which relate to most of the departments that have boards; and

Whereas, the Council desires to establish some policy guidance for the Mayor concerning the qualifications of future board appointees;

Now, Therefore, Be It Resolved, that the Council agrees that the committees listed below may interview all Mayoral appointees to their respective boards and shall make recommendations to the Council no more than two weeks after official notification of appointments by the Mayor on a Council agenda:

1. Public Safety Committee—Police Board, Fire Board, Traffic Board, Capital Area Transportation Authority Board of Directors,

2. Buildings and Properties Committee—Plumbing Board, Board of Appeals (Building Code), Civic Center Board, Board of Electrical Examiners, Housing Commission.
3. Planning Committee—Planning Board, Board of Appeals (Zoning Code), Waterfront Development Board, Economic Development Corporation, Downtown Development Authority.
4. Personnel Committee—Human Relations Committee.
5. Public Service and Highways Committee—Public Service Board, Air Pollution Board.
6. Finance Committee—Police and Fire Retirement Board, General Employees Retirement Board, Board of Review.
7. Parks and Recreation Committee—Park Board.
8. Ordinance and Contracts and City Affairs Committee—Board of Water and Light, TV Cable Advisory Committee.
9. Housing, Redevelopment and Human Resources (CD) Committee—Housing and Redevelopment Advisory Board, Human Resources Advisory Board, Citizen District Councils.

Be It Further Resolved, that the Council agrees that the committees listed above shall establish written criteria for qualifications and characteristics to be had by all future appointees to the appropriate boards as listed above and that these committees shall forward their recommendations for their respective boards to the Mayor Pro Tem no later than March 29, 1976, for compilation and submission to the Council for acceptance; and

Be It Further Resolved, that the Council Rules Committee is directed to prepare a basic written questionnaire which can be mailed to appointees by the appropriate Council committee prior to interviews and that the draft questionnaire be forwarded to the Mayor Pro Tem no later than March 29, 1976, for submission to the Council for acceptance.

By Councilman Gunther (Brenke):

This this resolution be tabled for one week.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the Property Management Division of the City of Lansing was directed to obtain certain proposals which were incidental to the acquisition of certain properties pertaining to the Kingsley Place Project; and

Whereas, the Property Management Division is now in receipt of these specific proposals; and

Whereas, the Buildings and Properties Committee has determined to accept in all instances the low bid submissions;

Now, Therefore, Be It Resolved, that the Mayor and City Clerk be directed to sign the following contracts after approval by the City Attorney as to form:

Joseph E. Moyer and Richard P. Binder, Jr.—Appraisal—\$4,640.00.

Lawyer's Title Insurance Corporation—Title Insurance—Cost not to exceed \$1,000.00.

Winegardner Realty Company—Acquisition of parcels—\$1,600.00.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council established a "Lansing 911 Implementation Committee" on December 23, 1974, composed of Mayor Gerald Graves, Councilman Terry J. McKane, Police Chief Thomas O'Toole, Fire Chief Carl Barratt, Director of Emergency Operations James Holcomb and two Ingham County Commissioners; and,

Whereas, this Committee and staff personnel from several governmental entities have over the past year been exploring the most expeditious and efficient manner by which 911 service can be provided throughout the Tri-County area; and,

Whereas, an attempt was made to establish a "first phase" 911 System within an area encompassing the Townships of Watertown, DeWitt, Bath, Delta, Windsor, Delhi, Alaledon, Meridian and Lansing and the Cities of Lansing, East Lansing and DeWitt; and,

Whereas, the governing bodies of the County of Ingham, the City of East Lansing and the Township of Lansing have informed the Chairman of the Implementation Committee, Councilman Terry J. McKane, that they desire to participate in the establishment of a 911 System; and,

Whereas, the Townships and cities enumerated above, with the exception of East Lansing and Lansing Township, have formally or informally declared that they do not desire to enter into a contract with the City of Lansing for 911 answering and dispatch services; and,

Whereas, the Sheriffs of Ingham, Eaton and Clinton Counties, the MSU Safety Director and the Michigan State Police were also solicited as to their interest in participating in or assisting in the development of a 911 System; and

Whereas, the Sheriffs of Eaton and Clinton Counties have indicated that they do not desire to participate directly in the 911 System but support the concept; and,

Whereas, the Sheriff of Ingham County and the Ingham County Board of Commissioners support the 911 concept and agree to implement the 911 System throughout Ingham County, by contract; and,

Whereas, the "911" emergency telephone service will give the public access to an emergency answering center which will permit the expeditious provision of all emergency services to include, but not specifically limited to police, fire and ambulance dispatch; and,

Whereas, the City Council of the City of Lansing is desirous of expeditiously providing a 3-digit emergency telephone number for the City of Lansing;

Now, Therefore, Be It Resolved that the City Council intends to proceed with the establishment of a 911 answering and dispatch center which will possess the capability of providing answering and dispatching service for the City of Lansing, the City of East Lansing, Lansing Township and the County of Ingham; and,

Be It Further Resolved that the City Council directs the Chief of Police and the Fire Chief to establish a 911 answering and dispatch center with the capability for expansion to permit the provision of 911 answering and dispatch services to the City of East Lansing, Lansing Township and Ingham County, and subsequently the entire Tri-County region should they option, at some future time, to contract for 911 answering and dispatch services; and,

Be It Further Resolved that the Mayor is directed to sign the appropriate contractual documents with the City of East Lansing, Lansing Township and County of Ingham; and,

Be It Further Resolved that the Chief of the Lansing Police Department is directed to:

A. Take the administrative action necessary to commence the alterations to the 5th Floor Communication Center and the procurement and installation of all equipment required;

B. Plan to have a fully operational 911 answering and dispatch center by July 1, 1977;

C. Make the necessary arrangements with Michigan Bell Telephone Company;

D. Budget the necessary funds to cover the service charges which are estimated to be \$14,000 per year for the City of Lansing; and,

Be It Further Resolved that the initial Governing Board for the 911 System will consist of the following officials: Chief, Lansing Police Department; Chief, Lansing Fire Department; Chief, East Lansing Police Department; Chief, East Lansing Fire Department; the Public Safety Director, Lansing Township; the Ingham County Sheriff and a representative from the Tri-County Emergency Medical Services Council; and,

Be It Further Resolved that By-laws and an operating procedure manual will be developed by the members of this board and submitted to the respective legislative bodies of the voting members. These By-laws and operating procedures will be written and adopted by the Board within ninety days of its first meeting; and,

Be It Further Resolved that the Board shall submit an annual report every January to each of its respective jurisdictions as to its operations, problems and other relevant information; and,

Be It Further Resolved that ex-officio membership to this board will be offered the MSU Director of Safety, the Michigan State Police and the Tri-County Planning Commission; and,

Be It Further Resolved that the Governing Board may add such additional voting or non-voting members as they may subsequently determine; and,

Be It Further Resolved that the Implementation Committee established by City Council Resolution of December 23, 1974, is hereby dissolved and its functions and/or duties will be assumed by the 911 Governing Board and the Departments of Lansing City Government as appropriate; and,

Be It Further Resolved that it is the Council's understanding that the basic equipment and installation costs are estimated to be \$46,548 and that this amount will be paid for from a grant to be provided by the Tri-County Emergency Medical Services and should the final cost be more than this estimate, that the participating entities will share such costs by a cost sharing formula as the Board may determine and that the equipment and installation costs that arise from governmental entities that subsequently contract for 911 answering and dispatch services will be paid for by these governmental entities; and,

Be It Finally Resolved that the City Council and the Mayor of Lansing wish to express their thanks to the members of the Implementation Committee and all per-

sonnel who participated in the planning for the development of the 911 system.

#### REPORTS OF CITY OFFICERS AND BOARDS

March 4, 1976

Honorable Mayor and Members  
of the Lansing City Council  
Lansing, Michigan

Re: Claim of James Dunlap for damage to car when he hit hole in roadway while driving on Jolly Road

Dear Mayor and Council Members:

The above cited claim came to the attention of this office on February 17, 1976.

The City of Lansing is not liable for the damages incurred by Mr. Dunlap. A city is immune from damages caused by defective highways unless it knew or should have known of the defect and had had a reasonable amount of time in which to repair the defect. MCLA 691.1403; MSA 3.996(103). The city did not have previous knowledge of the condition of the road prior to the time Mr. Dunlap struck the hole, nor has claimant shown that the city should have had prior knowledge of the situation.

On the basis of the facts so presented, this office is compelled to recommend that the claim be denied.

Respectfully submitted.

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney.

Carried.

March 4, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Letter from Carl L. Parks

Dear Mayor and Council:

An investigation by this office reveals the following:

- (a) Friendship Court is a dedicated street, but has not yet been platted.
- (b) The Traffic Board prohibited parking on Friendship Court pursuant to Lansing Code, §31-12 and authorized the placing of "No Parking" signs.
- (c) Friendship Court has not yet been listed in §31-180, which lists "No Parking" zones, due to the newness of the dedication.
- (d) The parking ticket received by Mr. Parks was not enforceable because of (c) above.

The officer who wrote the ticket could not reasonably be expected to know that final Council action had not yet been taken regarding Friendship Court and he reasonably relied on the "No Parking" signs as his authority to issue the ticket.

The ticket received by Mr. Parks was correctly released by this office. Mr. Parks' later inquiry regarding the correctness of the ticket revealed that Friendship Court was not listed in §31-180. Since his ticket was released and he was advised that Friendship Court is not yet covered by or-

dinance, it only remains that the Police Department be advised that the parking restrictions on Friendship Court not be enforced until appropriate Council action be taken.

Very truly yours,

PETER HOUK,  
City Attorney.

Referred to Committee on Ordinance and Contracts and City Affairs, and Police Department, and Traffic Department.

March 4, 1976

Honorable Mayor and Members  
of the Lansing City Council

Lansing, Michigan

Dear Mayor and Council:

Mr. Lewis L. Neuhauser is seeking a refund of the interest and penalty charged to him for failure to timely pay a special assessment of \$1,215.98. Mr. Neuhauser says, among other things, that:

"\* \* \* I am not saying the city did not send the billing they claim they did, all I am saying is that I did not receive it. My mailbox has been literally torn off its stand three times, and mail has been taken many times."

Mr. Neuhauser relates that he promptly paid the bill after notice to him that it was overdue. He further relates that he has always paid his bills promptly. The obligation of the Assessor, in cases of this nature, is to place the special assessment statement in the mail posted first class. It reliably appears that this was accomplished.

As is stated in the accompanying letter from Mr. Robert B. Black, Executive Assistant to the Mayor, there is no question as to the integrity or credibility of Mr. Neuhauser in this particular instance. However, there is no requirement that the interest and penalty be rebated by the city. Initially, this may seem a hardship, however, regardless of whether Mr. Neuhauser was aware of the fact that he owed the bill he had the obligation to pay the bill. While the bill remained unpaid he enjoyed the use of the \$1,215.98. Presumably, this money was in an interest bearing account. Mr. Neuhauser inquires as to why he should be punished "or penalized." The penalty involved here might be better called a late charge to defray administrative bookkeeping costs of handling late payments.

After discussing the matter with Mr. Creevy and Mr. Black, it appears to us that there is no justification for returning the interest that was paid.

Respectfully submitted,

PETER HOUK,  
City Attorney.

The Honorable Gerald W. Graves

Mayor, City of Lansing

Lansing City Council

Dear Mayor Graves and Council:

Please be advised that due to vandalism, the Forest View School Warning Siren has been placed out of commission. We are having a heavy gauge steel box installed, at the ten foot level of the pole, to house the siren control system, as we have done, in the past, at other siren locations, when confronted with this problem.

Please be further advised that, after a wait of nearly seven months for spare parts, the siren located at M-9 Market is back in commission.

Very respectfully yours,

JAMES A. HOLCOMB,  
Department of Emergency  
Operations.

Received and placed on file.

Chairman

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit for the Wolverine Boy's State, scheduled for Wednesday, June 23, 1976, 8:00 A.M., running from the Michigan State University campus to the State Capitol Building.

You will note this Application has been signed by all necessary department heads. Our Traffic Bureau estimates this parade will cost the City a total of \$268.18, representing eight police officers, one sergeant and nine motorcycles for two hours.

This is being forwarded to your Committee for final action.

Respectfully yours,

THOMAS W. O'TOOLE,  
Chief of Police,

RICHARD A. GLEASON,  
Assistant Chief of Police.

Referred to the Committee on Ordinance and Contracts and City Affairs.

## REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of the Wolverine Boy's State for permission to parade on June 23, 1976, on city streets as stated in application permit, reports as follows:

The Committee recommends permission be granted the application having received the approval of the necessary department heads and the Committee recommends further that the parade be under the supervision of the Lansing Police Department.

Signed:

LUCILE BELEN,  
RICHARD J. BAKER,  
JACK D. GUNTHER,  
Committee on Ordinance and  
Contracts and City Affairs.

The Honorable Mayor and

Members of the City Council

City Hall

Gentlemen:

I attach copy of the Michigan Civil Rights Commission Notice of Disposition, Complaint Number 27387 alleging sex discrimination in employment by the City of Lansing.

I am pleased to report that the Commission, after lengthy investigation, has informed the City of Lansing that the claimant, a man, submitted a written request that his complaint be withdrawn. With the Michigan Civil Rights acceptance of the claimant's request for withdrawal the complaint against the City has now been dropped.

Respectfully,

D. J. BODWIN,  
Personnel Director.

Mayor Graves and the City Council

City Hall

Lansing, Michigan

Dear Mayor Graves:

The Lansing Housing Commission at its regular meeting indicated a preference for Tempo, Incorporated, as the developer to build 100 units of housing for Senior Citizens and Handicapped individuals.

The site that this developer has proposed is Parcel 7, Project No. 2, Michigan A-6, of Urban Renewal land.

The Lansing Housing Commission can and has indicated a preference of developers but in the final analysis the Department of Housing and Urban Development, Detroit, will be the determiner as to whether any or all of the proposals comply with Federal Guidelines. The Detroit HUD Office will either concur with the preference of the Lansing Housing Commission, reject all proposals, or select a different developer if the Production Department is of the opinion that this should be done.

It is not known how long it will take for the Detroit HUD Office to make its evaluation and final determination in this matter.

Most cordially yours,

MARCEL B. ELLIOTT,  
Executive Director.

Referred to Planning Commission.

Re: Park and Recreation Fees and  
Charges

Gentlemen:

Attached are the Park Board's 1976-77 recommendations for Fees and Charges. Those proposed for change are in Script Type. Several require additional explanation to that provided in the schedule.

1. Being proposed are standard increases in the charge for Athletic League programs in accordance with the Park Board Policy relative to covering the cost of officials, etc.
2. Increases in the fees for Tennis and Volleyball Clubs are recommended in order to bring these programs under the same formula as athletic leagues.
3. Adjustments of the basic golf fees are proposed. The 1975 Annual Golf Report indicates revenues must be increased in order to continue the golf operation on a self-sustaining basis. In addition, increases are recommended in the Senior Citizen rates at Groesbeck, as well as the charge for School Coupons and childrens play. The amount of the basic increase proposed was based on needed revenue, while the special rates for seniors, etc., was determined on a percentage of the basic rate.
4. Golf tournament rates reflect the proposed increase in basic greens fees, plus the cost of awards.

Under study is the possible use of additional fees to finance long range Capital Improvement Projects in the Potter Park Zoo, and for certain athletic facilities. Recommendations on these may be forthcoming.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Referred to Committee on Parks and Recreation.

March 4, 1976

Honorable Mayor Gerald W. Graves  
and Members of the Lansing City Council

Gentlemen:

Subject: Agreement to Terminate Contract with 200 Washington Square, Ltd.

The Housing and Redevelopment Advisory Board, at its meeting held on February 24, 1976, recommended that the Lansing City Council authorize and direct the Mayor and City Clerk to execute an Agreement to Terminate the Contract for Sale of Land for Private Redevelopment by and between the City of Lansing and 200 Washington Square Limited, dated December 20, 1973, which provided for the redevelopment of Parcels 12A & 13 of Project No. 1, Mich. R-87. The Agreement to Terminate would nullify the existing contract and provide for the return of \$2,899.88 good faith deposit placed by the developer on this property.

In making this recommendation, the majority of the Board members present at the meeting felt that the above procedure would be a fair and equitable solution to a difficult situation. At about the time this developer was required to meet certain contract performance requirements, they were approached by Spira Mart, Inc., and asked to assign their interests in Parcels 12A & 13 to Spira Mart for its use as an alternate hotel site, due to alleged pollution problems that might exist on the 100 block property. Spira Mart, Inc. and 200 Washington Square, Ltd., did negotiate an assignment agreement, which was subsequently reviewed by the Urban Redevelopment Board at its meeting on July 9, 1974. Shortly thereafter, Spira Mart began defaulting on its own contract, and the assignment was never forwarded for City Council action, which would be required to make the assignment agreement valid.

Based on the above, and because it is desirable to remove any possible clouds to the title of the Parcels 12A & 13, City Council approval of the Board's recommendation set forth in the first paragraph of this letter will be appreciated.

Sincerely,

RONALD G. STONEHOUSE  
Housing and Redevelopment  
Director.

Concord Village Subdivision

Final Plat

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of March 2, 1976, recommended to City Council that they approve the final plat of Concord Village Subdivision No. 2 and No. 3, subject to the following:

- 1) That the Deed or Abstract of Title, accompanied by an attorney's opinion as to the marketability of the land, or a Certificate of Title Insurance be submitted to the City Clerk prior to the signing of the Plat and the affixing of the Municipal Seal.
- 2) That final security be posted in the amount specified by the Public Service Department and the Department of Parks and Recreation.
- 3) That final clearance from the Board of Water and Light for the development be obtained.

The recommendation was by unanimous, 6 yeas—0 nays, vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 4, 1976

SUP-1-76

1527 East Michigan Avenue

Honorable Mayor and

Members of the City Council:

The Planning Board, at their meeting of March 2, 1976, recommended that the request by Marlene Kent, Director of Resurrection Eastside Day Care Center, for a Special Use Permit for a Day Care Center at 1527 East Michigan Avenue, commonly known as the Resurrection Church, be approved.

This approval was given with the provision that all of the requirements of the Zoning Code and the Building Code be complied with. The Board found, based on testimony and evidence, that the facilities are adequate for a Day Care Center, providing the minimum requirements of the Code are satisfied.

The Board does not believe that the change will adversely affect adjacent properties and will be in keeping with the general intent of the Zoning Code.

This recommendation was by unanimous vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 4, 1976

Z-5-76

3400 block West Holmes Road

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of March 2, 1976, recommended that the petition by Bishop Coles to rezone property in the 3400 block of West Holmes Road from "A-1" Family Residential District to "B-1" Family Residential District be denied.

The Board believes that the change of zoning would promote overdevelopment of the site. Development of this site for church purposes would result in the re-

removal of the mature trees that now provide a buffer strip between the residential areas to the north and those fronting on Holmes Road. It would further expose adjacent residential development to open areas of parking and building sizes, which would be out of character with existing development.

Additional adverse influences that would result from the proposed change would be the increase of noise, traffic, and activity and the possibility of on-street parking throughout the single family neighborhood when church services were being held.

This recommendation was by unanimous, 6 yeas—0 nays, vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 4, 1976

Z-4-76

3000 block West Miller Road

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of March 2, 1976, recommended that the petition by Gary Julien, of PAR Investors, to rezone property in the 3000 block of West Miller Road from "A-1" Family Residential District to "DM-1" Multiple Dwelling District be denied.

The 1960-1980 Comprehensive Master Plan recommends that this area be developed with low density residential uses. The requested zoning change is contrary to the Master Plan for this area.

The Board believes that the change will also allow development out of character with the existing development that exists in this area and will further establish a precedent for future zoning cases on those lots that remain vacant in the vicinity.

This recommendation was by unanimous, 6 yeas, 0 nays, vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 4, 1976

Z-47-75

911 E. Mt. Hope Avenue

Honorable Mayor and

Members of the City Council:

The Planning Board, at their meeting of March 2, 1976, recommended that the petition by Provincial House, Incorporated to

rezone property at 911 E. Mt. Hope Avenue from D-1 Family Residential District to F-Commercial District be denied. The Board believes that the change in zoning would allow development on a scale with the needs of the community and would adversely affect several residential properties in the vicinity. The most serious effects would occur on the two individual parcels which would become isolated between the existing service station and the potential commercial development that would be established on the subject property.

The Board further believes that traffic flow to and from this site would be detrimental to the traffic flow that exists on both Mt. Hope and Pennsylvania.

There were objections to this request.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

February 28, 1976

Honorable Mayor Pro-Tem and Members

of the Lansing City Council

10th Floor, City Hall

Lansing, Michigan 48933

Dear Mayor Pro-Tem and

Council Members:

On Wednesday, February 25, you held a meeting relative to the recent Human Relations Survey. During that meeting, Human Relations Director, Richard Lett, made a strong point that Exit Interviews were necessary to determine why certain employees left their positions of employment with the City. It is through this system that each of us could be apprised as to accurate statistics and specifics. At the time, several Councilmen referred to it as "an administrative decision" and questioned why this hasn't been done.

That meeting only reaffirmed my belief that you as members of the Council have paid little attention to the details of the past and the recommendations you have before you. For example, on January 13, 1975, I forwarded to you this very recommendation in my State of the City Message, in addition to other information which you chose to ignore. An excerpt from that State of the City Message is as follows:

"In December of each year since 1969, it has become an accepted practice for the Human Relations Department to transmit its annual Employment Survey to each department of the City for completion. The apparent purpose for this exercise is to gather 'accurate data' on the number of minorities and women within City Hall employment during the past year. When compiled by the Human

Relations Director, the results of this survey are reported to the Mayor and City Council and used by the Director as a basis for reporting information to external agencies of the Federal and State government. I do not object in principle to this procedure as an acceptable method to profile the yearly status of these groups for the City. However, I have previously voiced strong criticism and serious reservations concerning the accuracy and scope of the information that this survey format has gathered, as has the Personnel Director and others. For example, one minority employed by the City Treasurer's Office was not allowed to be counted in that department's report because the individual had only been employed by the City for 11 months of the year. Further, the practice of using a yearly report based on the number of individuals in each employment category in December cannot accurately profile the ebb and flow of minority and women during the preceding 11 months. No effort is made to determine the number of individuals at any other time. Another case in point is the downplay of the City's excellent record under the Emergency Employment Act during 1973. The Human Relations Department survey showed 38% of the individuals hired under this program were minorities. It was obvious that no special efforts were exerted to show the outstanding results that this program had achieved.

More specifically in this regard, it should be noted that the Human Relations Department does not undertake an exit interview with minorities or women employees leaving City Hall to ascertain the exact reason for their departure. A statement was made in the summary for the 1973 Employment Survey provided by the Human Relations Committee that a reduction has occurred in the number of minorities and women in the lower classifications in City employment. While in a strictly numerical sense this may be true, it is a highly misleading statement. In an effort to satisfy my curiosity in this matter, my office undertook a survey of all City departments for the period of January 1969, through June of 1974, to determine the number of women and minorities leaving City employment and the reason, if known. While I cannot state that this survey is absolutely accurate, I do believe it gives an indication of the trend experienced by the City in this area.

The findings of our research indicates that 24% of the 294 women and minorities leaving City Hall did so to take a new job for an increase in salary or the possibility of eminent advancement. In addition, this same survey revealed that of these 294 persons, 243 or 83%, were women and 51 or 17% were minority males. Of the survey group, the second most frequently cited reason after salary increase for the severance of employment with the City of Lansing, was 16% simply desiring to resign. No further information is available on these individuals because of the difficulty in reconstructing their motives over this extensive period

of time. The third greatest reason was a projected move out of the City of Lansing for 12% of the survey group. However, for only minority males, the third most frequently cited factor was a discharge from employment. The results of this survey led me to conclude that the City of Lansing has experienced a large turnover with women and minorities, which is due in large part to the fact that we have become a training ground for their further advancement. To illustrate my point, the following examples are offered: One individual left to enter State government — at a salary increase; another left to re-join a former employer — at a salary increase; another left to join the Lansing School District — at a substantial salary increase; another left after receiving his degree to join Michigan State University in a field of his endeavor; a firefighter, who earned his degree in Law Enforcement, while a member of the Lansing Fire Department, chose not to join the Lansing Police Department, but instead selected employment with the Corrections Department of the State of Michigan; an accountant left to join State government — at a salary increase; and, so forth.

It is my recommendation, that you instruct the Personnel Department Director to establish a proper form for 'exit interviews' and require a response by each City department at the time an employee is leaving, such records to be retained by the Personnel Office. I am simply contending that information gathered through the present system of surveys is extremely limited and does not accurately reflect all the factors which should be considered."

Since the aforementioned was forwarded to you, several more employees have left for salary increases elsewhere, to "join husbands who have taken positions of employment in other areas" and for other reasons. For example, one minority police officer recently completed law school and left to join the staff of the Prosecuting Attorney, at a salary increase — on February 19, the Employees Retirement System had before it a request from a woman for immediate reimbursement of her retirement contributions, so that she might join her husband whose employment has taken him to Minnesota.

Furthermore, the attempt by some Councilmen to judge the City's minority employment record on the basis of a one year "survey," which in itself leaves some questions unanswered, is superficial. Therefore, I am requesting of the Human Relations Director an analysis of such employment covering the span I have held office. This in itself will tell the story as to progress versus non-progress. It will provide a more complete basis on which to judge.

In regard to complaints levied against the City of Lansing through the Michigan Civil Rights Commission, I wish to advise 9 major complaints were levied between early 1971 and mid-1974 — the record reveals that all 9 were dismissed by the Michigan Civil Rights Commission.

Now, as to females on city boards, I remind you of the past fiasco you helped to create through the efforts of one, Nancy Baker, who represented the so-called Sixth District Women's Political Caucus, when she requested that an ad-hoc committee on the status of women in city government be established. Upon that lady's request, you abided. What transpired? Meeting after meeting was held involving department heads, hundreds of hours of time were consumed, and before the study was completed Mrs. Baker took it upon herself to release an erroneous, misleading report, which resulted in a temporary "black eye" for the City of Lansing, and did not give credence to the 28 member organization she was representing. For your information, I quote from my communication to you of May 17, 1974:

"You named to the Committee a Nancy Baker, Department of Intergovernmental Relations, State of Michigan and a Patricia Curran, Office of Economic Opportunity, State of Michigan, both who were to represent the Sixth District Women's Political Caucus, in addition to one councilman, the directors of the departments of Public Service, Parks and Recreation, Human Relations and Personnel, plus the Chief of Police and a representative of my office. Meetings were basically held at 8:30 a.m. on various days.

Prior to the conclusion of the Committee's study, and contrary to the dictates of the formally adopted City Council Resolution, Nancy Baker took it upon herself to forward to you directly a report. The substance of the report is as follows:

"The Committee found that as of March 12, 1974:

There are 21 City Boards and Commissions.

There are 4 Boards and Commissions with NO women members.

Board of Electrical Examiners

Plumbing Board

Board of Trustees—Policemen's and Firemen's Retirement System

Airport Authority

There are 145 citizens now serving on Boards and Commissions, of that number 30 are women.

All Boards and Commissions have members whose terms expire in 1974.

36 appointments to Boards and Commissions must be made during 1974, of that number 10 are women who are currently serving and will complete their term during 1974.

The aforementioned was given coverage by The State Journal, WJIM-TV, and via radio. This is most unfortunate because the report was (a) not factual and it was presented without the approval of

the Committee, as you were led to believe by Nancy Baker; (b) it contains glaring errors and inferences, contrary to record of fact; and (c) it was contrary to the dictates of the Resolution. It leads me to question the motives of the Chairperson of the Committee, namely, Nancy Baker.

In regard to errors, or misinformation, presented to the public by Nancy Baker, I wish to point out that there are not 36 appointments coming up but more like 42 — there are not 10 women coming up for re-appointment but a minimum of 13, not including the two who were elected to serve as trustees on the Board of the Employees Retirement System. Nancy Baker inferred that the Mayor and City Council refused to appoint women to several Boards. One of these Boards is the Board of Electrical Examiners, another is the Plumbing Board, while still another is the Board of Trustees of the Policemen's and Firemen's Retirement System. The aforementioned have requirements completely different from general City Boards. For example, members of the Policemen's and Firemen's Retirement System are named in accordance with City Charter provisions and four are elected from the respective membership, while the City Charter requires a Councilman to be a member, the Mayor to be a member, the City Treasurer to be a member, while only one is to be named at large. And, that individual was serving even before I took office. The requirements for membership of the Board of Electrical Examiners and the Plumbing Board, as well as the Mechanical Board (erroneously forgotten by Nancy Baker) are established by City Ordinance and the requirements include "one of whom shall be an electrical contractor; one of whom shall be an electrical journeyman; one of whom shall be a representative of an electric utility; each of such members shall have had at least five (5) years of electrical experience in the group he represents", etc. The requirements of the other two Boards are similar, and only three persons of the total are based on a City-at-large selection.

In regard to the report of Nancy Baker, I personally appeared before the Ad-Hoc Committee at 8:30 a.m. on Tuesday, May 14. At the meeting I learned:

—The report forwarded to you by Nancy Baker on May 6, was the result of an April 9, meeting;

—Of the nine members making up the Board, my Executive Assistant was absent, due to a near death in the family, Councilman Jack Gunther was on vacation and Daniel Bodwin was on other City business; AND, there was NO vote on the report of Nancy Baker and her instructions by the Committee were to bring the report up for re-discussion, NOT to submit it to you for public consumption;

—The Committee members were perturbed not only by the action, but what was termed by one member as a "spin-

ning of wheels" insofar as the meetings were concerned.

At the time, I requested of Nancy Baker, and the Committee, by 10:00 a.m., Friday, May 17, the following:

- The names and backgrounds of women who would meet the legally established requirements to serve on the Electrical Board, Plumbing Board, etc.;
- The proposal of Nancy Baker to rid the elected policemen and firemen from the Policemen's and Firemen's Retirement System to achieve what she desired to achieve in the face of City Charter requirements; and
- A written expression as to whether or not they desired to remove from various City Boards dedicated individuals, some who have served for at least 12 years, so that Nancy Baker might have her way.

It is now beyond 10:00 a.m. on Friday as I write this communication to you. Nancy Baker has provided nothing in behalf of the Committee. In fact, I am advised that the Committee took no action whatsoever on my request.

What is the FACTUAL RECORD of having women appointments to Boards and Commissions since I became Mayor? The following recap clearly shows that record:

	Number	Percent increase from previous period
Women Board Appointees April, 1969	11	
Women Board Appointees June, 1972	22	100%
Women Board Appointees June, 1973	29	22%
Women Board Appointees May, 1974	41	41%
TOTAL PERCENT INCREASE OVER FIVE YEAR PERIOD		272%"

Since that report, I forwarded to you another dated June 9, 1975, which in part read as follows:

"And, what of the record of minorities and women since I took office? Prior to my taking office, minorities and women were in 26 board positions, and made up 20% of the total membership. To date, they are 51 in number and make up 31.8% of the boards. I see no reason to apologize to Mr. Ferguson concerning the circumstances."

As of that date, you should be interested in knowing that at least 5 more females have been appointed to City Boards, of which 3 were Senior Citizens, 2 more minorities have been appointed, AND, you rejected 1 female recommended for a Board appointment and 2 minorities.

The gloomy picture trying to be painted by some members of Council is obviously not the work of an artist, but that of politicians. The City of Lansing is legitimately striving to make headway in the overall field of bringing females into the mainstream of government. It is doing so at a pace far better than that of the past. In fact, the City of Lansing has most recently been commended by the United States Department of Labor for its "activities designed to equalize employment opportunities for women" and for its cooperative and voluntary efforts "to break down barriers to the advancement of women."

Sincerely,

GERALD W. GRAVES,  
Mayor.

By Councilman Gunther—

Resolved by the City Council of the City of Lansing:

Whereas, Everett High School has a group of entertainers who sing, dance and play musical instruments, known as the Everett Choral. They specialize in the more popular styles of music, dance and comedy.

Their songs include selections from the nostalgia of post World War II to current rock hits. Their dance routines range from tap dancing to modern jazz. Their comedy covers old-fashioned slapstick to satire on current events, all of which make the Everett Choral a total entertainment group; and

Whereas, the Choral will participate in an exchange with students from Stockholm, Sweden when they visit Sweden in April and Swedish students will visit Lansing next year. The multi-purpose of the trip is to celebrate our Bicentennial and demonstrate national pride, to share cultural aspects by living with Swedish families, to demonstrate the integration of the Arts, and to promote youth and good will throughout the world;

Now, Therefore, Be It Resolved that the Mayor and City Council of the City of Lansing congratulates all members of the Everett High School Everett Choral for their outstanding entertainment qualities which has brought them the honor of sharing their creative skills with the people of Stockholm, Sweden this April 1976; and

Be It Finally Resolved that the Mayor and City Council are proud to have the Everett Choral represent the City of Lansing, of the State of Michigan in this most rewarding occasion.

The members of the Citizens' District Council appointed by the Mayor of the City of Lansing shall be selected in a manner that insures that the Citizens' District Council is, to the maximum extent possible representative of the residents of the area and of other persons with a demonstrable and substantial interest in the area. The term of office on the Citizens' District Council shall be for three years.

The rights, duties and functions of the Citizens' District Council shall be the same as set forth in Act 189 of the Public Acts of 1968 and Act 173 of the Public Acts of 1969 of the State of Michigan, including other amendments to this Act as they may affect those rights, duties and functions.

All vacancies occurring for elected members of the Citizens' District Council shall be filled by the unsuccessful candidates in line of succession by the highest vote count received in the last election. If such successors are unavailable, the remaining members of the Committee, both elected and appointed, shall meet to elect, by a majority vote of the total membership of the Council, an individual for the position to serve through the duration of the unexpired term of office.

All vacancies occurring for appointed members shall be filled by reappointment by

the Mayor of the City of Lansing, in accordance with the same procedure used for the initial appointments.

**Sec. 36-105. Authorization to Elect Officers and Draft Bylaws, Etc.**

The Citizens' District Council, for the purposes of organizing and functioning, may elect officers, adopt any reasonable rules of procedure and draft bylaws, and do such acts as may be required for its organization and conduct of its business, insofar as they do not conflict with the provisions of Act 344 of the Public Acts of 1945, as amended, or the Charter of the City of Lansing.

Re: Claim of Lona J. Forsman for damage to basement due to water backing up when sewer line was plugged

Dear Mayor and Council:

The above referenced claim was referred to this office on February 18, 1976. Claimant seeks reimbursement of \$272.69 for moneys expended to clean her basement and hire a plumber, after her sanitary sewer backed up.

An investigation by our Public Service Department revealed that the claimant's sanitary drain tile deteriorated at the point where it enters the city line. This deterioration caused the tile to slide into the city sewer.

The delivery of sewer services is a governmental function and is covered by the doctrine of governmental immunity. I would recommend the denial of this claim.

Additionally, I note that, in checking this situation out, the Public Service Department repaired the defect in Ms. Forsman's line at no cost to her. Further, while the city is covered by the doctrine of governmental immunity, the additional defense exists that the defect was not in our sewer, but rather in claimant's drain tile.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney.

Carried.

Re: Claim of Mrs. Joe Robel for damage to residence by tree removing crew

Dear Mayor and Council:

The above captioned claim was referred to this office on March 1, 1976. Mrs. Robel states, and the Parks Department concurs, that on November 26, 1975 a limb from a city-owned tree, in the right-of-way, damaged a home at 309 Clifford Street when it fell from the tree after being cut by a city employee.

An exception to the governmental immunity statute is the maintenance of rights-of-way in a safe condition. The negligence in the maintenance of the right-of-way is not protected under governmental immunity.

Mr. Phillips, Superintendent of Forestry, states that the employee should have cut the limb in smaller pieces so he could control the direction in which it was to fall or else attach a rope to the limb so that it could be safely lowered to the ground. This was not done.

I recommend payment of the claim in the amount of \$15.00.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney and the City Clerk be and she is hereby directed to draw a warrant on the City Treasurer in the amount of \$15.00 payable to Mrs. Joe Robel, upon receipt of an appropriate release.

Carried.

Re: Claim of James Wresinski for the loss of his son's boots while skating at Quentin Park

Dear Mayor and Council:

The above captioned claim has been referred to this office for investigation and recommendation. Mr. Wresinski's son had checked his boots for a fee with the attendant at Quentin Park on January 19, 1976. When the son returned, after skating, to claim his boots, he found that they had been given to someone else. Mr. Wresinski filed a claim for the purchase of new boots to replace the pair lost.

A contract had arisen between the City and Mr. Wresinski's son, thus removing the City from its governmental immunity under MCLA 691.1407 et seq; MSA 3.996(107).

Davidson v. State, 42 Mich App 80, 201 NW2d 296 (1972). The City had a duty to return the boots which it failed to do. Therefore, it is recommended that the City reimburse Mr. Wresinski for the cost of the boots in the amount of \$19.33.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney and the City Clerk be and she is hereby directed to draw a warrant on the City Treasurer in the amount of \$19.33 payable to James Wresinski, upon receipt of an appropriate release.

Gentlemen:

I am attaching a letter of intent signed by Duane E. Page, an employee of the Microfilm Department of the City of Lansing to do business with the City of Lansing in accordance with Section 14.4 of the Lansing City Charter.

Very truly yours,

THEO FULTON,  
City Clerk.

Received and placed on file.

#### STATEMENT OF INTEREST

I, Duane E. Page, to comply with Section 14.4 of the Lansing City Charter, say that I am an employee of the City of Lansing, holding the position of Microfilm Manager, IIIA.

I further say that my wife, Ida Page, is manager of Page Office Machines, a local business engaged in sales and service of all types of small office machines in the City of Lansing and that in the past and may in the future have contracts for such services with the City of Lansing.

I further say that the provisions of such business transactions have not in the past and should not in the future be of such a nature that my position as Microfilm Manager IIIA would result in any conflict of interest.

DUANE E. PAGE.

Subscribed and sworn to before me this 5th day of March, 1976.

Re: Request to Amend Annual Contributions Contract No. C-3007 to comply with the Lansing Housing Commission Resolution No. 335.

Dear Mayor Graves:

The Lansing Housing Commission, via Resolution No. 335, eliminated what was formerly known as M58-13, which constituted the building of the last hundred units of a Program reservation which was for one thousand units.

Resolution 335 eliminates the old Annual Contributions Contract of \$186,496.00 per year in order to conform with the New Development Act, Section 8. The New Development Act, Section 8, will allow for greater Housing Assistance Payments to the owner of the building that is to be built. This new building will be built upon the prediction that the owner will receive the Fair Market Rents allowable in the area for each unit. The resident will pay 25% of his or her adjusted income and the difference to make the Fair Market Rent will come from Housing Assistance Payments which will be covered in a new ACC in the future.

I would call your attention to the Amendatory Agreement with Respect to Consolidated Annual Contributions Contract for Project Nos. MICH 58-1 through 12, Section 1, which deletes Project No. MICH 58-13, therefrom. All of the transaction before you is summed up in this one statement.

Your consideration of this Amendatory is requested and will be greatly appreciated.

Most cordially yours,

MARCEL B. ELLIOTT,  
Executive Director.

Referred to Committee of the Whole.

Honorable Mayor and

Members of City Council

City of Lansing

Gentlemen:

Attached is a copy of a request for a change order relative to the Kingsley Community Center as submitted by Haussman Construction Company, and upon the recommendation of Mayotte, Crouse and D'Haene Architects.

This change order will increase the amount of the contract by \$2,049.00 and is for the installation of a water line related to future park development. Installation at this time will save greater costs which would be incurred once the building construction is completed. Funds are currently available in the site development account therefore I recommend approval of this change order.

Respectfully submitted,

THEODORE J. HASKELL,  
Director of Parks and

Letter (a)

March 11, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Community Involvement Committee at Northwestern Elementary School requested that the Traffic Board investigate the intersection of Amherst Drive, East Lafayette Circle and Pino Drive. The committee is concerned for the safety of children crossing at this intersection.

A study of the intersection shows that visibility is not severely restricted and that vehicular volume is low. The peak 15 minute volume was 15 vehicles, or an average of 1 vehicle per minute thru the intersection. There have been no reported accidents at this intersection. Based on the above engineering data neither a STOP or a YIELD sign is warranted.

It was noted that most of the children crossing at this intersection do not use the sidewalk. The problem here appears to be not with vehicle traffic, but teaching the children respect for vehicles and for the street.

To assist in notifying the motorist that this is an unusual intersection and to attempt to reduce accident potential, the Traffic Board recommended for Council consideration erection of a YIELD sign on East Lafayette Circle at Amherst Drive. This recommendation was by a 5-0 vote.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

Letter (b)

March 11, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

At its March 10, 1976 meeting, the Traffic Board recommended by a 5-0 vote that one-hour metered parking be permitted on the west side of Capitol Avenue from Michigan Avenue to Allegan Street.

Parking is presently permitted on both sides of Capitol Avenue north of Michigan Avenue, and since Allegan Street is one-way east-bound the west curb lane on Capitol is not needed for traffic movement. There is ample room for eleven parking spaces and the necessary meters are in stock.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

Letter (c)

March 11, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

On April 1, 1976, the law permitting left and right turns after coming to a complete stop at a red light becomes effective. Such turns at a red light are permitted unless "prohibited by sign, signal, marking, light, or other traffic control device."

We have examined each signalized intersection in the city to determine whether turns against a red light should be prohibited. Intersections lying on state trunklines were reviewed with the State Traffic and Safety Engineer. Turns should be prohibited at the listed locations because of restricted sight distance, multiple turn lanes, or multiple phasing of the traffic signal.

The Traffic Board, by a 5-0 vote, recommended for Council consideration that no person shall make any turn when facing

a steady red signal at the following intersections:

South on Capitol Avenue to Main Street

West on Michigan Avenue to Capitol Avenue

North on Grand Avenue to Washtenaw Street

Northwest on River Street to Washtenaw Street or Grand Avenue

East on Baker Street to Cedar Street

South on Pennsylvania Avenue to Oakland Avenue

North on Grand Avenue to Saginaw Street

from Cedar Street to Jolly Road

from Jolly Road to Cedar Street

from Logan Street to Jolly Road

from Jolly Road to Logan Street

from Logan Street to Holmes Road

from Holmes Road to Logan Street

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

March 10, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Board at their November 5, 1975 meeting considered a proposal to prohibit parking on both sides of Friendship Circle and the street that will be named Riverfront Drive. The Board recommended by a 5-0 vote that parking be prohibited at all times on both sides of both of these streets.

Friendship Circle is a narrow 26 foot wide dead end street serving an apartment complex on the east edge of Lansing. Parking on one side of a 26 foot street hinders two-way traffic movement on the street. Since this is a dead end street it must be kept open at all times for emergency vehicle access.

Riverfront Drive is the new street providing access to the City Market and the new park. It is 36 feet wide at Cedar Street but narrows as it proceeds south. Heavy truck traffic to the City Market and the narrowing of the street at the south

end make it necessary to prohibit parking to ensure efficient traffic flow and increase safety.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

Letter (d)

March 11, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Board reviewed a request to allow all day parking on a portion of Bank Street west of Washington Avenue. Presently parking is restricted to 1 hour from Washington Avenue to Coleman Street. This is angle parking on the south side of the street, and seldom are more than one-third of the 41 spaces available utilized.

The Board recommended that the restriction be changed to "One hour parking on the south side of Bank Street from Washington Avenue to 300 feet west." This will allow unrestricted parking in the westerly 20 spaces. The recommendation was by a 5-0 vote.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

March 11, 1976

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The petition filed by residents of Warwick Drive and Pompton Circle relative to parking on their streets by patrons of Rocky's Lounge was reviewed by the Traffic Board on March 10, 1976. Mr. Timothy Totten, 1210 Warwick Drive, discussed the problems that have been occurring over the past 2-3 years.

Patrons of Rocky's Lounge overflow the parking lot and park on Warwick Drive and Pompton Circle in violation of the No Parking at Any Time signs. They also block driveways and a fire hydrant. The Police Department has been contacted by the residents, and tickets for violations have been issued and several vehicles towed

away. This has not alleviated the problem and the management of Rocky's Lounge has been very uncooperative.

The Traffic Board recommended that Mr. Totten contact the City Attorney for advice on a permanent solution to the problem.

Respectfully submitted,

LANSING TRAFFIC BOARD  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

DATE: March 3, 1976

TO: Terry McKane, Chairman,  
Finance Committee

FROM: James R. Giddings, District Judge

SUBJECT: McKelvy v. 54-A District Court

In 1975 the Plaintiffs brought an action against our Court based on the adoption by the Judges of the 54-A District Court of Administrative Order No. 2-1975. A copy of this Order is attached hereto. This Order granted exclusive responsibility for service of process in landlord-tenant matters to Deputy Sheriff Don Boone. This was done by our Judges in an attempt to gain control over the problem of serving process in landlord-tenant cases. It has been our experience that when several different people are responsible for serving process, in many instances, the papers either are not served as claimed by the process server or the return of service is not in the court file when the hearing is scheduled. To avoid future problems, the decision was made to delegate to one person the responsibility for service of landlord-tenant process, including the manner and efficiency of process.

Certain attorneys were of the opinion that they had a right to select their own process server and they brought an action on behalf of Ray Totte asking that the Court's Administrative Order be enjoined. When the law suit was commenced, I discussed this matter with City Councilman, John Anas, then Chairman of the Finance Committee, and advised him of our concern with protecting our right to retain control over the landlord tenant. I told him that we wanted to retain former City Attorney Oskar Hornbach to represent us in the matter. He indicated to me that he had discussed the matter with several of the Councilmen and that they concurred in our hiring Mr. Hornbach. After several court hearings, at which Mr. Hornbach and myself appeared, as well as lengthy arguments, Circuit Court Judge Kallman ruled that our Administrative Order was invalid and enjoined its future enforcement. However, he did indicate that the responsibility for appointing process servers in landlord-tenant cases was within the discretion of

the District Court Judges. It was, of course, this latter holding which we argued to preserve. Of course, we also believe that we have the right to give exclusive responsibility to one person. However, Judge Kallman ruled against us on that point and the Judges decided that an appeal would be unwarranted in terms of time and expense to the city taxpayers. I have attached a copy of the Court's final order as well as a copy of the bill submitted to the Court by Mr. Hornbach for his services in the matter.

I would appreciate your taking steps, through your Committee and the City Council to appropriate funds necessary to enable the Court to discharge this obligation. If there are any questions about the law suit or my discussions with Councilman Anas, please let me know.

JAMES R. GIDDINGS,  
District Judge.

Referred to Committee on Finance.

Lansing City Council

10th Floor

City Hall

Dear Councilman Hull:

On March 5, 1976, a meeting was held in the Office of the Traffic Engineer to discuss the possibility of hiring an adult crossing guard for the corner of Eureka and Bingham streets. Present at this meeting were Mr. Severy, Traffic Engineer, Mr. William Webb, Representative for the Lansing School District, and myself, School Safety Officer for the City of Lansing.

Enclosed please find copies of vehicle and pedestrian counts taken by the Traffic Engineer Department on November 17, 1975, and November 18, 1975. Also enclosed is a copy of a survey taken by Officer Louis Mills of the School Safety Bureau on September 11, 1975.

It is the opinion of Mr. Severy, Mr. Webb, and myself that because of the number of students and vehicles using this intersection a school crossing guard is definitely needed.

Please be advised that we have had one child struck at this corner during the present school year. This was a personal injury accident. Fortunately the child was not seriously hurt.

Thank you for your consideration in this matter.

Sincerely yours,

SGT. GEORGE MONROE,  
School Safety Bureau,  
Uniform Division.

A copy of my Charge to both the Lansing Downtown Development Authority and the Lansing Economic Development Corporation is attached.

I am pleased to also advise that both units have scheduled their First Regular Meeting, at which time permanent officers will be elected, operational rules established and regular meeting dates set. The aforementioned will be filed with the City Clerk.

Another matter of importance at the meeting was a presentation made by one, David P. Dunbar, Knox Development Corporation, in behalf of Bellefonte Glass Corporation. His appearance resulted from discussions I had with him in my office on February 20, and of his continuing interest in the City of Lansing expressed thereafter. Mr. Dunbar advised of the desire of Bellefonte Glass Corporation to locate in the City of Lansing, and preferably in the John Bean building. He advised that it was their hope that financing could be arranged with the Economic Development Administration of the U. S. Commerce Department to initially provide the City of Lansing with 368 positions of employment, with the maximum number of job positions reaching 1,100 positions of employment in 3-5 years. Mr. Dunbar was in need of a decision on the part of the City of Lansing concerning the John Bean building and this was relayed in a special meeting of the Buildings and Properties Committee of the City Council, held in my office on Thursday morning, March 11.

Following a presentation by Mr. Dunbar, the Council Members of the Committee on Buildings and Properties are proceeding with a course of action. The Chairman is being provided with a Pro Forma Proposal of Bellefonte Glass Corporation, identical to the one submitted to the members of the Lansing Economic Development Corporation Wednesday evening. In the meantime, Mr. Dunbar is preparing his pre-application proposal for submission to the U. S. Commerce Department for Federal assistance and training funds.

I will keep you apprised of any further development on this matter.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

**THE PUBLIC MAY NOW ADDRESS THE CITY COUNCIL ON ANY OF THE FOLLOWING RESOLUTIONS. YOU MAY SPEAK ONLY FOR 3-MINUTES ON ANY ONE RESOLUTION. (1 through 17).**

No persons spoke.

#### RESOLUTIONS

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the low bid of Charles E. Woods Construction Company for the Sidewalk—Coachlight Commons—PS 74044 in the amount of \$2,781.40 be accepted.

An additional 15% in the amount of \$417.21 is hereby authorized to be encumbered by the Controller for contingencies, making the total encumbered amount under this contract, \$3,198.61.

After the award, the successful bidder shall be required to execute the Contract as specified, within ten days after the prescribed forms are presented to him for signature as stipulated in Instruction to Bidders of the contract.

Be It Further Resolved, that the Mayor and City Clerk be directed to execute a contract with the said Charles E. Woods Construction Company on behalf of the City of Lansing according to the said bid presented and the Specifications on file, upon the approval of the contract, and of the bonds and insurance policies by the City Attorney, and upon certification of the City Controller as to the availability of funds.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the low bid of R. J. Fox Construction Company for the Repair of South Pennsylvania Ave. Bridge Crossing the Penn Central Railroad, P.S. 57039, in the amount of \$86,791.40, plus Alternate "A" in the amount of \$27,075.00, making the total amount of \$113,866.40, be accepted.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, M58-13 was granted an ACC of \$186,496.00, and

Whereas, there was a freeze on increasing ACCs shortly after the above ACC was received, and

Whereas, the 1974 New Development Act eliminated all Section 23 ACCs, and included elimination of M58-13, and

Whereas, Amendment No. 10 of Contract C-3007 eliminates M58-13 in order to allow a new Amendatory to be established under Section 8,

Let It Therefore Be Resolved, that Amendment No. 10 of Contract C-3007 be approved by the Lansing City Council with the authorization granted to the Mayor and City Clerk to initiate it.

Adopted by the following vote:

Unanimously.

By Councilman Gunther—

Resolved by the City Council of the City of Lansing:

Whereas, The City of Lansing and the Lansing Tri-County Regional Manpower Consortium have entered into an agreement to provide for the planning and delivery of manpower services pursuant to the Comprehensive Employment and Training Act of 1973, Title VI "Emergency Jobs Act," (Contract No. 894.05); and

Whereas, The Lansing Tri-County Regional Manpower Consortium Administrative Board at their March 3, 1976 meeting voted unanimously to impose a hiring freeze for all CETA Title VI job slots effective March 4, 1976, in order to provide an escrow of funds to insure that the City of Lansing incurs no financial liability for unemployment insurance; and

Whereas, The Lansing Tri-County Regional Manpower Consortium Administrative Board also voted to allow local governmental Review Boards, composed of their appointed Directors, to make exceptions to the hiring freeze on CETA Title VI job slots;

Now, Therefore, Be It Resolved, that the City Council approve the hiring freeze for all CETA Title VI job slots and direct the Mayor and other City officials to impose said hiring freeze, with the Review Board having the power to act as resolved by the Manpower Board.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, on September 2, 1975, the City Council established a Special Committee for Housing and Redevelopment, and Human Resources to consist of three members; and

Whereas, this Council desires instead to create a Committee on Community Development to serve as a liaison between the Council and Community Development Departments and the current members of the Human Resources and Housing Redevelopment Committee, to serve as members of the Community Development Committee.

Resolved, that the Special Committee for Housing and Redevelopment, and Human Resources is abolished and is replaced by the now established Community Development Committee.

Adopted by the following vote:

Unanimously.

By Committees on Finance and  
Public Safety—

Resolved by the City Council of the City  
of Lansing:

Whereas, the Lansing City Council concurs in the desirability of continuing the Crime Prevention Unit, Helicopter Unit and the Investigations Coordination Unit through June 30, 1976; and

Whereas, all reports reflect the urgency of maintaining these units, which prove to be most beneficial to the City of Lansing in the reduction of crime and protection of its citizens; and

Whereas, these programs are presently being funded by Federal Grants through March 31, 1976, at which time additional funding will be necessary to continue said programs;

Now, Therefore, Be It Resolved, that the budget for the Crime Prevention Unit shall be increased in the amount of \$16,760, the Helicopter Unit in the amount of \$10,877, and the Investigations Coordination Unit in the amount of \$25,718, which will allow these to be continued through the balance of Fiscal Year 1975-76; and

Be It Finally Resolved, that these monies, a total of \$53,358, shall be transferred to these respective accounts from the Council's Reserve for Emergencies Fund account number 101-941-000-963.

By Councilman Baker (Hull)—

That the resolution be amended as follows:

Be It Finally Resolved, that these monies, a total of \$53,358, shall be transferred to these respective accounts, \$15,358 from the Council's Reserve for Emergencies Fund account number 101-941-000-963 and \$38,000 from Police Salaries Account number 101-316-000-702.000.

Lost by the following vote:

Yeas: Councilmen Adado, Baker, Gunther, Hull—4.

Nays: Councilmen Belen, Blair, Brenke, McKane—4.

The original resolution was adopted by the following vote:

Yeas: Councilmen Adado, Baker, Belen, Brenke, Gunther, Hull, McKane—7.

Nays: Councilman Blair—1.

By Buildings and Properties Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has established that a requirement exists for a new police facility; and

Whereas, the justification for this need and proposals for fulfillment of this need have been determined by various space and site studies that have been completed since 1967, these studies currently totaling the number of eight; and

Whereas, it has been brought to the attention of the City Council of the City of Lansing that the main Post Office Building, located in the City of Lansing has been reported as excess to the U. S. Post Service; and

Whereas, there is a possibility that this building could be offered to the City of Lansing; and

Whereas, the building may be suitable with minor modifications as a Police Facility; and

Whereas, the City Police Department has indicated a space requirement of 92,378 sq. ft. which would be sufficient to meet any growth requirements through the year 2000; and

Whereas, the Post Office Building contains 95,500 sq. ft. plus a basement;

Now, Therefore, Be It Resolved that a Committee consisting of the following individuals is hereby established and will be the single representative of the City of Lansing for all contacts, liaison incidental to the efforts of the City of Lansing's interest in the Post Office site for the Lansing Police Department:

Councilman Robert Hull, Chairman

Peter Houk, City Attorney

Richard Gleason, Chief of Police

Sam Clay, Property Management Officer

George S. Lokken, Program Coordinator

By Councilman Belen—

That Mayor Graves be added to the Committee.

Carried.

The resolution as amended was adopted by the following vote:

Yeas: Councilmen Adado, Baker, Belen, Blair, Gunther, Hull, McKane—7.

Nays: Councilman Brenke—1.

By Committee on Housing and Redevelopment and Human Resources—

Resolved by the City Council of the City of Lansing:

That the Mayor and City Clerk be and are hereby authorized and directed to execute an Agreement to Terminate the Contract for Sale of Land for Private Redevelopment by and between the City of Lansing and 200 Washington Square, Ltd., dated December 20, 1973, and

That the Housing and Redevelopment Director be and is hereby authorized and directed to refund the good faith deposit of \$2,899.88 to 200 Washington Square, Ltd., upon their execution of said Agreement to Terminate.

Adopted by the following vote:

Unanimously.

By Committee on Housing and Redevelopment and Human Resources and

Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, City Council on December 15, 1975, authorized the submission of a grant application for Phase II of Riverfront Park to the Michigan Department of Natural Resources; and

Whereas, the City of Lansing has now received notification that the Michigan Department of Natural Resources has approved this grant for \$60,000; and

Whereas, the total Phase II project cost will be \$120,000, with the remaining \$60,000 to be provided from Community Development Urgent Needs funds and these funds have been appropriated and allocated;

Now, Therefore, Be It Resolved that the Mayor and City Clerk be and are hereby authorized and directed to execute all contractual documents in regard to this Department of Natural Resources grant and that the Program Coordinator is directed to submit these documents to the Michigan Department of Natural Resources after approval as to form by the City Attorney and certification as to the availability of the Community Development Urgent Needs funds by the Finance Director.

Adopted by the following vote:

Unanimously.

By Committee on Housing and Redevelopment and Human Resources and

Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

That the Mayor and City Clerk be and are hereby authorized and directed to execute a Contract for Professional and Technical Services with Robert L. O'Boyle Associates, Inc., for services required for the design and development of Phase II of Riverfront Park, pursuant to the terms and conditions of the Project Agreement therefor with the Michigan Department of Natural Resources, after approval as to form by the City Attorney and certification as to the availability of funds by the Finance Director.

Adopted by the following vote:

Unanimously.

By Committees on Planning and Public Service and Highways—

Resolved by the City Council of the City of Lansing:

P-3-75

Final Plat of Concord Village

Subdivision No. 2 and No. 3

Whereas, the final plats of Concord Village Subdivisions Number 2 and 3 have been submitted for approval, and

Whereas, the Planning Board pursuant to Act 285, Public Acts of 1931, as amended, has recommended to City Council that they approve the final plats subject to the following conditions:

1. That a deed or abstract of title accompanied by the Attorney's opinion as to the marketability of the land or a certificate of title insurance be submitted to the City Clerk prior to the signing of the plat and the affixing of the municipal seal.
2. That final security be posted in the amount specified by the Public Service Department and the Department of Parks and Recreation.
3. That final clearance from the Board of Water and Light for the development be obtained.

Whereas, the Planning Committee of City Council and the Public Service and Highways Committee of City Council have reviewed the report of the Planning Board and concurred therewith:

Now, Therefore, Be It Resolved that the final plats of Concord Village Number 2 and 3 is hereby approved, subject to the conditions outlined above and all conditions of previous approval, and

Be It Further Resolved that the City Clerk is directed to transcribe the certificate of approval on the final plats of Concord Village Number 2 and 3.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Council has unofficially established an internal policy which requires Mayoral appointees to be interviewed by interested Council members prior to a confirmation vote by the Council; and

Whereas, the Mayor is required by the City Charter to make a substantial number of appointments to City boards and commissions each June and replacement appointments throughout the year; and

Whereas, the Council is organized into eight standing committees plus the Community Development Committee, which relate to most of the departments that have boards; and

Whereas, the Council desires to establish some policy guidance for the Mayor concerning the qualifications of future board appointees;

Now, Therefore, Be It Resolved that the Council agrees that the committee listed below may interview all Mayoral appointees to their respective boards and shall make recommendations to the Council no more than two weeks after official notification of appointments by the Mayor on a Council agenda:

1. Public Safety Committee—Police Board, Fire Board, Traffic Board, Capital Area Transportation Authority Board of Directors.
2. Buildings and Properties Committee—Plumbing Board, Board of Appeals (Building Code), Civic Center Board, Board of Electrical Examiners, Housing Commission.
3. Planning Committee—Planning Board, Board of Appeals (Zoning Code), Waterfront Development Board, Economic Development Corporation, Downtown Development Authority.
4. Personnel Committee—Human Relations Committee.
5. Public Service and Highways Committee—Public Service Board, Air Pollution Board.
6. Finance Committee—Police and Fire Retirement Board, General Employees Retirement Board, Board of Review
7. Parks and Recreation Committee—Park Board.
8. Ordinance and Contracts and City Affairs Committee—Board of Water and Light, TV Cable Advisory Committee.
9. Community Development Committee—Housing and Redevelopment Advisory

Board, Human Resources Advisory Board; Citizen District Councils.

Be It Further Resolved that the Council agrees that the committees listed above shall establish written criteria for qualifications and characteristics to be had by all future appointees to the appropriate boards as listed above and that these committees shall forward their recommendations for their respective boards to the Mayor Pro-Tem no later than April 12, 1976, for compilation and submission to the Council for acceptance; and

Be It Further Resolved that the Council Rules Committee is directed to prepare a basic written questionnaire which can be mailed to appointees by the appropriate Council committees prior to interviews and that the draft questionnaire be forwarded to the Mayor Pro-Tem no later than April 12, 1976, for submission to the Council for acceptance.

By Councilman Adado (Belen)—

That paragraph four (4) and the last two (2) "Be It Further Resolved" paragraphs be deleted from the resolution.

After much discussion it was moved that debate on the issued be closed.

Carried.

The amendment was adopted by the following vote:

Yeas: Councilmen Adado, Belen, Brenke, Gunther, McKane—5.

#### ORDINANCE NO. 418

AN ORDINANCE OF THE CITY OF LANSING, MICHIGAN, PROVIDING THAT THE CODE OF ORDINANCES, CITY OF LANSING, MICHIGAN, BE AMENDED BY ADDING A NEW SECTION TO BE NUMBERED 9C-18A TO SAID CODE.

The City of Lansing Ordains:

Section 1. That the Code of Ordinances of the City of Lansing, Michigan, be amended by adding a new Section 9C-18A to read as follows:

Sec. 9C-18A. Changes in Uniform Plumbing Code. The Uniform Plumbing Code, adopted by Section 9C-1 of this Chapter, is hereby amended to read as follows:

(A) Section 310(c), Prohibited Fittings and Practices, is hereby amended to read:

"No waste connection shall be made to a closet bend 4" or less or stub of a water closet or similar fixture without venting."

(B) Section 401(a), Materials, is hereby amended to read as follows:

"Drainage pipe shall be cast iron, galvanized steel, galvanized wrought iron, lead, copper, brass, ABS, PVC or other approved materials having a smooth and uniform bore, except that no galvanized wrought iron or galvanized steel pipe shall be used underground and shall be kept at least six (6) inches above ground.

(C) Section 501, Vents Required, shall be

amended by adding a new paragraph to read as follows:

"Any fixture branch shall be vented if it is connected within three (3) feet of a waste stack base, and above which, into the stack, other fixtures with a combined discharge of four (4) fixture units or more are connected."

(D) Section 613, Vertical Wet Venting, is amended by deleting subsections (a), (b), and (c) and adding the following:

"Any combination of fixtures with ratings of three (3) fixture units or less may be connected to waste stacks at different floor levels without reventing, not to exceed the following schedule:

1½" waste stack—2 fixture units

2" waste stack—4 fixture units

3" waste stack—8 fixture units

4" waste stack—36 fixture units."

(E) Section 702, Traps Protected by Vent Pipes, is amended by deleting subsection (b) and Table 7-1 and adding the following:

"Single fixtures which are within eight (8) feet in developed length from the seal of the trap to a main vented line, may be installed without additional venting, providing the vertical drop does not exceed three (3) feet."

(F) Section 704, Traps Prohibited, is amended to read as follows:

"No form of trap which depends for its seal upon the action of movable parts or concealed interior partitions shall be used. Bell traps are prohibited. Crown-vented traps are prohibited. No fixture shall be double trapped."

(G) Section 806(a), Drainage System, is hereby amended to read as follows:

"Any fitting or connection which has an enlargement, chamber or recess with a ledge, shoulder or reduction of pipe area, that offers an obstruction to flow through the drain is prohibited, except that specifically designed stack fittings may be used upon approval as to safety by the Building Official."

(H) Appendix H, Battery Drainage System, is hereby amended to read as follows:

"Any horizontal branch, soil or waste pipe, to which two (2) or more fixtures (except blowout type water closets), are connected in a battery, may be vented by a circuit or loop vent.

"The circuit or loop vent of a battery drainage system shall be installed vertically in front of the last upstream fixture. In addition, lower floor branches serving more than three (3) water closets shall be provided with a relief vent taken off vertically in front of the first fixture connection.

"No more than eight (8) water closets may be connected to a battery drainage system. The fixture unit value for all fixtures shall be as listed in Tables 4-1 and 4-2. The horizontal branch for its full length to the furthest fixture shall be uniformly sized as listed in Table 4-3, based on the total number of fixtures.

"The vent of a battery drainage system shall be sized for the fixture unit demand of the battery system according to Table 4-3, based on the total number of fixtures. The relief vent may be wet

vented with a fixture drained vertically into the battery drainage system, such vent shall be the same size as the circuit vent it intersects.

"All vents shall rise vertically to six (6) inches above the flood level of the highest fixture on the system."

Section 2. All ordinances or parts of ordinances inconsistent with the provisions hereof are hereby repealed.

Section 3. This ordinance shall become effective sixty (60) days after the date of passage.

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

That the rule prescribed in Sec. 5.5 (g) of the Charter relative to considering business not on the agenda, be waived.

Members of the Lansing City Council

Re: Appointment to the Capital Area Rail Council

Dear Council Members:

I would like to place before the Council the name of Eugene W. Barnes, 3106 Alden Drive, to fill the unexpired term of Roger Elliott who recently resigned from the Capital Area Rail Council.

Since 1951 Mr. Barnes has been employed by the Michigan Highway Department Maintenance Division where he is Manager of the Utilities Section. Before going to work for the Highway Department, Mr. Barnes worked for the New York Central Railroad for two years. He has been interested in rail service in the Lansing area for any years. Mr. Barnes also worked as a Traffic Controller at Diamond Reo.

Mr. Barnes has been active in civic affairs in Lansing for many years. He is a member of the Mount Hope Methodist Church and past President of the Methodist Mens Club. He is a member of the Old Newsboys Association and past Treasurer and Scoutmaster of Troop 131.

Mr. Barnes is married and the father of two children. Both children attend Lansing Community College.

Your quick consideration in this matter will be appreciated.

Sincerely,

JAMES D. BLAIR,  
Lansing City Councilman.

Referred to Committee of the Whole.

#### REPORTS OF CITY OFFICERS AND BOARDS

March 15, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Cindy Hufnagel for damages in the amount of \$68.37 to her car when it struck a manhole cover standing up out of the manhole in the 800 block of Larch Street

Dear Mayor and Council:

The above cited claim was referred to this office March 2, 1976. After researching the matter on the facts presented, it is my determination that the City is not liable for the damage incurred to Ms. Hufnagel's vehicle. The City is protected by its governmental immunity because it did not have notice of the dislocation of the manhole cover; nor did Ms. Hufnagel present any facts to establish that the manhole cover had been dislocated for a period of thirty (30) days or more. MCLA 691.1403; MSA 3.996(103).

In conclusion, this office recommends that Ms. Hufnagel not be reimbursed because of the City's governmental immunity.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney.

Re: Complaint of Raymond A. Laws  
for removal of tree by City

Dear Mayor and Council:

Mr. Raymond A. Laws has made a complaint to this office regarding the removal of a tree on property owned by him at 2104 S. Lyons Street and his subsequent assessment of \$406.00. Mr. Laws had never received the notice sent to him by the Building Department regarding the dangerous condition of the tree since the notice had been sent to the mortgage company holding the mortgage in California. His tax bills had been sent to him at his residence in Lansing. He also alleges that his son, the occupant of the house at 2104 S. Lyons had never received notice regarding the condition of the tree.

Moreover, Mr. Holliday, the individual in the Department of Parks and Recreation who had investigated the tree before it was removed, had recommended that merely the dead sections of the tree be removed, and not the entire tree. Also, the tree was not a potential hazard to the public since it was a distance from any public sidewalk or street.

Mr. Thomas Hay, Mr. Laws' attorney, has indicated to this office that Mr. Laws would be willing to pay half the assessment cost since he would have expended some of his personal funds for the removal of the dead sections of the tree if he had been so notified. In view of the circumstances, I recommend that the assessed amount be reduced by fifty percent (50%).

Very truly yours,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney.

Re: Claim of Officer Frank Elliott for watch demolished during an on-duty accident on July 10, 1975

Dear Mayor and Council:

The above captioned claim in the amount of \$88.35, was referred to this office from the City Council on February 19, 1976. The accident occurred while Officer Elliott was performing his duties as a police officer. A city lacks the authority to pay gratuities to its employees. Kane v. City of Flint, 342 Mich 74; 69 NW2d 156 (1955). How-

ever, it may reimburse them for their reasonable and proper expenses incurred in fulfilling their bona fide duties as public employees. Ware v. Battle Creek, 201 Mich 468; 167 NW 891 (1918). Also see United States v. Flanders, 112 US 88; 5 S Ct 67; 28 LEd 630 (1884) for a similar outcome with respect to the expenses of a tax collector.

The Police Department has been reimbursing officers for losses, such as Officer Elliott's, for the past twenty-five (25) years with the money being deducted from its operating and supplies account. This office recommends that such procedure be continued in the future with the money being deducted from the appropriate Police Department line item account.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Re: Consumers Power Easement for  
Riverside Park

Gentlemen:

The Park Board at their March 17, 1976 meeting received a request from Consumers Power Company for an easement and rights for installation of a Gas Regulator Pit at Riverside Park.

There are currently several such structures in the park areas and the Board feels these have not detracted from the intended use of the property. Furthermore, Consumers Power has agreed to screen the Regulator Pit with shrubs, etc., in accordance with Park and Recreation Department specifications.

I would appreciate City Council's concurrence in the Park Board recommendation and authorize the Mayor and City Clerk to sign the required easement documents on behalf of the City of Lansing.

Thank you.

Director of Parks and  
Recreation.

Re: School/City related Kingsley  
Project cost.

Gentlemen:

The City of Lansing, and the Lansing School District have independently contracted with Grables, Mills and Young, Landscape Architects, for preparation of plans for the development of the outdoor area in the Kingsley Court project. Amongst the Architect's responsibilities are the development of cost estimates for the various features to be developed in the school/park site. The estimates for the features in the city portion of the project have been submitted and are being reviewed by the Parks and Recreation Department.

There is currently one major element of the project which involves both the city and the schools.

Part of the approved Master Plan calls for the development of an Activity Corridor which runs between the two project areas in the area that is now Washtenaw. Estimated cost of construction for this corridor is approximately \$138,000. There has been a purely informal understanding that those features that will serve both the city and the school (such as this Activity Corridor) will be jointly financed by the two agencies. In order to continue with the implementation of the Kingsley project a formal determination along the lines of financial responsibility is necessary.

I would appreciate at the City Council's earliest convenience that these matters be discussed and subsequent recommendations be forwarded to the City/School liaison committee.

Thank you.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Re: Reconsideration of Certain Fees  
and Charges

Gentlemen:

The City Council Committee on Parks and Recreation at their meeting of March 11, 1976, requested the Park Board reconsider the charges recommended for ballfield rentals, picnic and pavilion rentals, and the charges for use of community halls. It was the intent of the Committee to have these charges up-dated more frequently than our current cycle in order to assure that City subsidy for these services is minimized or eliminated.

Following the Department's evaluation, the Park Board at the March 17 meeting concurred that no adjustment to the rates previously recommended are warranted for the use of community halls, picnic tables, and with one exception picnic pavilions.

Increases have been recommended for the use of Grand Woods Picnic Pavilion and for use of softball and baseball fields.

The Park Board has recommended that in accordance with the Park committee's directive, the fee for the Grand Woods pavilion be established at \$30 per session (basically two per day) with a double session rate of \$50. These rates were determined as the actual cost of providing the watchman services, as well as custodial, and utilities charges. The rate recommended for Grand Woods is consistent with that used for the rental of the complete Potter Park, or Frances Park pavilions.

Increases are recommended in the rental of ballfields as outlined below.

### PROPOSED RENTAL FIELDS

#### UNLIGHTED FIELD

#### LIGHTED FIELDS

Elm	Saturday	35	70	45
Ranney	Sunday	35	70	50
	Holiday	35	70	55

By making this recommendation, the Board is eliminating the difference between the present Non-Profit rate and the Commercial rate. By doing this, all subsidies are eliminated and the proposed fee would

cover the actual cost of providing the facility whether it be on a weekday, weekend, or holiday. This new fee may require periodical adjustments as there are increases in labor costs.

If there are additional questions on behalf of the Council, or the Parks and Recreation Committee, we will be glad to provide additional information.

Thank you.

Director of Parks and

March 15, 1976

Honorable Mayor and  
Members of City Council  
City of Lansing, Michigan

Gentlemen:

The western side of Waverly Golf Course currently drains into the Briggs and Banks drain system. We have been informed by a Mr. Frank Fitzgerald, Lansing Township Supervisor, that the Eaton and Ingham County Drain Commissioners, along with Delta and Lansing Townships are interested in signing an inter-county drain petition for the refurbishing and possible enlargement of this Briggs and Banks Drain.

In 1973, City Council authorized the firm of Fishbeck, Thompson, and Carr Engineers to prepare study plans for better drainage of Waverly Golf Course. The portion of the course which would drain into the Banks system was projected to cost the city \$70,000. This amount has been placed in the six year Capital Improvement Budget request for 1978-79.

Mr. Fitzgerald has informed us that if we wish to participate in this project, City Council should confirm their intent at this time. The Park Board has reviewed this matter, and has recommended that City Council so inform the participating agencies and make plans for appropriation of that amount when a final date for the project is set.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Honorable Gerald Graves, Mayor  
City of Lansing and  
Lansing City Council Members

Dear Mayor and Council Members:

The Charter Commission has an opportunity to employ a student, Diane Adams,

through the student work-study program sponsored by Michigan State University. This is a similar program to that currently contracted with Michigan State University by the Planning Department.

Total cost to the Charter Commission would be less than \$80.00. Student would be hired at \$2.20 per hour, 15 hour work week, lasting 12 weeks. Her total wages would not exceed \$400.00 for the 12 week period. Of this amount 20 per cent, or \$80.00, would be from the Charter Commission's consulting services account. The other 80 per cent would be reimbursed by Michigan State University through its Federal College Work-Study account.

We request your permission to proceed with the contract with Michigan State University to employ an honor student in urban affairs, Diane Adams, as a research assistant for the Charter Commission.

Respectfully,

FOR THE CHARTER  
COMMISSION,  
Thomas C. Walsh, Chairman

Referred to Committee on Finance.

#### REPORT OF COMMITTEE

The Committee on FINANCE, to whom was referred the Charter Commission request to contract with Michigan State University for a work-study program student, reports as follows:

That the Charter Commission be allowed to expend an amount not to exceed \$80.00 to employ a work-study student at \$2.20 per hour, 15 hours per week for 12 weeks. The balance of the wages being paid by Michigan State University through its Federal College Work-Study account.

SUP-2-76

S.W. Corner Grand River/Marshall

Honorable Mayor and Members  
of City Council:

The Planning Board, at their meeting of March 16, 1976, recommended that the Special Use Permit by the City of Lansing Fire Department to allow the construction of a new fire station on the southwest corner of the intersection of Grand River Avenue and Marshall Street be approved.

This approval was given on the basis of the final site plan being submitted to and approved by the Planning Department and the Traffic Engineer prior to the issuance of any Building Permit. The Board found, based on testimony and evidence, that the establishment of a fire station at this location would meet the needs of the community without seriously affecting adjacent land development.

There were two people who spoke on this matter and expressed their interest regarding the removal of parkland from this area with the establishment of a new fire station.

This recommendation was by 6-0 vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 18, 1976

Z-7-76

2521 East Michigan Avenue

Honorable Mayor and Members  
of City Council:

The Planning Board, at their meeting of March 16, 1976, recommended that the petition by J. H. Alexanian to rezone property at 2521 East Michigan Avenue from "A-1" Family Residential District to "F-1" Commercial District be approved.

This approval was recommended on the basis of the fencing, screening, and parking plan being submitted to and approved by the Planning Department at the time of issuance of Building Permits for the proposed expansion.

The Board believes that this change of zoning will allow reasonable expansion of the existing commercial use without seriously affecting adjacent residential properties, providing the necessary parking improvements are made and fencing and screening is made adequate along the residential property line. Jerry Lawler, of the Eastside Neighborhood Association, spoke regarding this request and indicated that the individuals from the Association had reviewed the matter and had no objection providing screening and fencing improvements were made to the property. One other individual that lives in the immediate neighborhood called regarding this request and indicated that he had no objections, providing that the new addition would go to the west of the existing storage building.

This recommendation was by a 6 to 0 vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

March 18, 1976

Z-6-76

3704 Aurelius Road

Honorable Mayor and Members  
of the City Council:

The Planning Board, at their meeting of March 16, 1976, recommended that the petition by Harold Taylor to rezone property at 3704 Aurelius Road from "A-1" Family Residential District to "F" Commercial District be approved.

This recommendation was made with the understanding that the screening, fencing, and parking plan would be submitted to and approved by the Planning Department prior to the issuance of any Building Permit or other alterations to the existing building.

The Board found, based on testimony and evidence, that the existing commercial building on the site was a non-conforming use and was being used as a small sign shop and storage for heat duct equipment.

It is understood that any change or major improvement to the building was limited because of the non-conforming status. The Board felt that a favorable recommendation on this rezoning change would stimulate improvements to the property to where it would be more of an asset to the area.

The Board further emphasized that this recommendation in favor of this request was based on the fact that an existing commercial building was established on the site and that they did not want this change to be interpreted as establishing a precedent for other properties in the area that may be requested for commercial development. It is further pointed out that the Forest View Citizens Association considered this request at their meeting of March 10, 1976, and recommended that the Planning Board approve the zoning change providing that the adjacent residential areas are screened properly, and that parking is provided and improved in accord with the Zoning Code. It was further suggested that the Traffic Engineer review circulation plans for this site. The Forest View Association also indicated that they did not want this change to establish a precedent for other scattered commercial uses within the Forest View area.

There were three people speaking with these concerns at the public hearing of March 2, 1976. This recommendation was by a 6-0 vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Honorable Mayor and Members

of the City Council

Gentlemen:

The Planning Board will hold a public hearing on Tuesday, April 6, 1976, at 7:30 p.m. in the Lansing City Council Chambers, 10th Floor, City Hall, on the amendment to the Zoning Code providing for the regulating of fencing, walls, hedges and similar structures. Proposed amendment to the Code of Ordinances will add a new sub-section to be numbered 36-1 (50) and by adding a new Article to Chapter 36 to be numbered Article IX and by adding sub-sections numbered 36-90 to 36-95, inclusive. The proposed amendments are as follows:

AN ORDINANCE OF THE CITY OF LANSING, MICHIGAN, PROVIDING THAT THE CODE OF ORDINANCES, CITY OF LANSING, MICHIGAN, BE AMENDED BY ADDING A NEW SECTION TO BE NUMBERED 36-1 (50) AND

BY ADDING A NEW ARTICLE TO CHAPTER 36 TO BE NUMBERED ARTICLE IX AND BY ADDING SECTIONS NUMBERED 36-90 TO 36-95, INCLUSIVE, PROVIDING FOR THE REGULATION OF FENCES, WALLS, HEDGES AND SIMILAR STRUCTURES.

The City of Lansing Ordains:

Section 1. That the Code of Ordinances of Lansing, Michigan, is hereby amended by adding a new section to be numbered 36-1 (50) and by adding a new Article to Chapter 36 to be numbered Article IX and by adding sections numbered 36-90 to 36-95, inclusive, which said sections read as follows:

Sec. 36-1 (50). Fence means any fence, wall (except a retaining wall), sign, screen, partition or similar structure erected or modified on any yard and any hedge, shrub, or other planting grown or maintained on any yard intended to or having the effect of enclosing land, dividing land into distinct portions, separating contiguous properties, obstructing the passage of light or air to adjacent land or obstructing the vision of motorists on or near public roads.

Article IX. Fences and Hedges.

Sec. 36-90. Regulation of Fences; Purpose.

In order to protect the use and enjoyment of property by providing for the passage of air and light; and in order to protect the public welfare and safety by providing for the safe movement of motor vehicles and pedestrians; and in order to promote more effective police and fire fighting services, it shall be unlawful for any person to erect, modify, maintain or allow to grow any fence, as herein defined and located in those districts described in Article II of this Chapter and delineated upon the District Map established pursuant to Section 36-4 of this Code, in violation of this Article.

Sec. 36-91. Height Limits; Obstructing Motorists' Vision.

No fence shall be erected or maintained so as to materially obstruct the vision of motorists on adjacent streets or entering onto adjacent streets.

(1) Corner lots. No fence shall be erected or maintained at any height above three (3) feet within the triangular area bounded by the street lines of the corner lot and a line joining points on the street lines fifty (50) feet from the point of intersection. The height limit for this subsection shall be measured from the lowest centerline elevation within fifty (50) feet of the intersection.

(2) Driveways. No fence shall be erected or maintained at any height above three

(3) feet within either of the triangular areas bounded by the street line, the side line of a driveway abutting the street, and a straight line joining a point on the street line fifty (50) feet from the driveway side line and a point on the driveway side line twenty (20) feet from the street line.

(3) **Exceptions.** Any fence within any of the triangular areas established in subsections 36-91 (1) and 36-92 (2) above may be erected or maintained at a height above three (3) feet if the fence meets all of the following requirements:

(a) The fence within the triangular area consists of at least 75% open spaces uniformly distributed along its surface above a height of three (3) feet;

(b) Vision through the fence is not materially obstructed from any angle so as to obstruct the view of traffic on adjacent roads or of pedestrian traffic on adjacent sidewalks; and

(c) The fence does not exceed the height limitations established in Section 36-92 below, if applicable.

#### **Sec. 36-92. Residential fences; height limits.**

The limitations in this section are applicable to all fences located only in those districts described in Sections 36-43 through 36-47.1, inclusive ("A-1" one family districts through "D-1" professional office districts), and delineated on the District Map established pursuant to Section 36-4.

(1) **Side and Rear Yards.** No fence within the limits of any required side yard or rear yard shall exceed six (6) feet in height.

#### **(2) Front Yards.**

(a) No fence within the limits of any required front yard shall exceed three (3) feet in height.

(b) A fence enclosing a swimming pool as required by Section 9-94 of this Code which must necessarily intrude into a required front yard may exceed three (3) feet in height but shall not exceed six (6) feet in height.

**Sec. 36-93. Barbed Wire; Electric Fences.** No fence shall contain barbed wire or carry any electrical current; however, the owner or occupant of property used for commercial purposes may petition the Building Commissioner for permission to erect fences partially constructed of barbed wire and the Building Commissioner is hereby authorized to grant such permission so long as the use of barbed wire in such fences will not create a hazard to the public safety.

**Sec. 36-94. Maintenance of Fences.** It shall be unlawful for any owner, occupant

or agent in charge to keep or maintain any fence which is unsafe or dangerous as those conditions are defined in Sec. 203 of the Uniform Building Code as amended in Sec. 9-3 of this Code or as hereafter amended. Either the Zoning Administrator or the Building Commissioner may institute the proceedings provided for in Sec. 203 of the Uniform Building Code as amended in Sec. 9-3 of this Code or as hereafter amended to protect the public from unsafe or dangerous fences.

**Sec. 36-95. Other Code Provisions.** All ordinances or parts of ordinances in this Code which require fences inconsistent with this Article remain effective and nothing in this Article shall be construed to limit the authority or power granted elsewhere in this Code to any City department, board or commission to require fences in appropriate circumstances which deviate from the requirements of this Article.

Sincerely,

ALAN E. TUBBS,  
Director,

Lansing City Treasurer submits condition of funds in the treasury as of February 29, 1976.

Received and placed on file.

March 18, 1976

Honorable Mayor and Members  
of the Lansing City Council

Dear Mr. Mayor and Council Members:

Please be advised that in accordance with provisions of State Law, the office of the treasurer has closed and balanced the 1975 Property Tax Rolls. Presently Data Processing is preparing the permanent December Tax Roll and Delinquent Return Roll, for delivery and settlement by this office, with the County Treasurers of Ingham, Eaton and Clinton Counties, hopefully by April 1st. Formerly the Delinquent Return Roll was manually prepared by employees of the treasurer's office, however, for the first time this year, the computerized tax accounting program is expected to perform that function.

A summary of Real and Personal Property taxes levied, collected, delinquent and percentages is as follows:

#### **REAL PROPERTY—**

Total Spread	\$33,778,709.90
Taxes Collected thru 3-5-76	31,435,327.56

Delinquency at Closing	2,343,382.34
Percent of Total Collected	93.1%

## PERSONAL PROPERTY—

Total Spread	\$11,714,486.91
Taxes Collected thru 3-5-76	11,608,956.06
Delinquency at Closing	105,530.85
Percent of Total Collected	99.1%

## TOTALS—

Total Spread	\$45,493,196.81
Taxes Collected thru 3-5-76	43,044,283.62
Delinquency at Closing	2,448,913.19
Percent of Total Collected	94.7%

The real property delinquency referred to above represents a decrease of \$15,888 or 6/10 of 1% from the \$2,359,270 real property delinquency of a year ago. While this delinquency reduction is minimal, it is gratifying in view of the fact that the total 1975 tax levy of \$45.4 million dollars is \$3.5 million dollars (8%) greater than the \$41.9 million dollar levy of a year earlier. Recently enacted State Legislation increasing the interest rate on delinquent taxes from  $\frac{1}{2}$  of 1% per month to  $\frac{3}{4}$  of 1% per month should tend to reduce both the number and dollar amount of delinquent real property taxes and taxpayers in the years ahead.

The personal property delinquency stated above represents a decrease of \$224,354 or 68% from the \$329,885 delinquency of a year ago, and was owing from 177 businesses as of March 5, 1976. Last year at the closing of the personal tax rolls, 195 businesses were delinquent. It should be remembered that a year ago the personal property delinquency included \$230,372 owing from Diamond Reo, which, incidentally, remains unpaid as of this date. Last year's delinquency, not including Diamond Reo, was \$99,512. An upturn in the number of business bankruptcies during the past year is illustrated by the fact that out of 177 businesses owing \$105,530 as of March 5, 1976, 6 of them, owing \$38,529, are bankruptcies over which this office can exercise no control other than to file a claim with the bankruptcy court.

Vigorous collection efforts by the personal tax collector and a cashier in this office during the past two weeks have further reduced the personal property tax delinquency to \$86,499 owing by 122 businesses.

Attached is a listing of businesses delinquent in the payment of 1975 Personal Property Taxes, as well as updated listings of delinquent 1974 and 1973 Personal Property Taxes. This listing is being submitted to all Department Heads to accommodate City Charter provisions which prevent the

City from making a contract with anyone delinquent in the payment of taxes.

Personal Property Taxes paid in the period since March 15th—to date—have been crossed from the listing.

Feel free to contact me should you desire further clarification of the above.

Respectfully submitted,

HUGO J. HUFNAGEL,  
City Treasurer.

Received and placed on file.

Honorable Mayor Pro-Tem and Members

of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

In accordance with the provisions of Section 8.2 of the City Charter, I am herewith submitting my Seventh Annual Recommended Budget, which is for the Fiscal Year 1976-77, commencing July 1. The detail and supporting schedules covering recommended expenditures and revenues are attached to and are part of the basic document, as filed in the Office of the City Clerk.

This Seventh Annual Recommended Budget is forwarded to you following the most detailed hearings and reviews of departmental requests possible in the several months allotted. Also studied and considered were:

- The detrimental effects of the failure of the U. S. Congress to act on Federal Revenue Sharing in time to be legally incorporated into this Recommended Budget, for the last six months of the Fiscal Year—the loss approximates \$1.4 million, or what equates to a tax increase of \$1.75 per one thousand dollars of assessed valuation!!
- The added costs to local governments resulting from thousands of dollars in Federal and State grants being closed-out, on one hand, and additional expenditures resulting from Federal and State actions, on the other, including anticipated payments to the Unemployment Benefit Fund, and continuing increases in the City's share of social security and retirement systems contributions, these latter being significantly increased each year.
- The added costs, in salaries and fringe benefits, resulting from past, and present, agreements, coupled with inflationary jumps, which have seen costs sky-rocket

from 16% to 143% in supplies, materials and equipment—of the many, one extensive increase in employee fringe benefits is the 35% jump in Blue Cross premiums, while another shows food allowance granted firemen, to be up from a total of \$34,811 to \$58,250, in a one year period.

- The substantial increase of \$433,000 granted by City Council to various departments in Fiscal Year 1975-76 over that I recommended—those, minus the \$87,000 in revenues and expenses originally expected from the Grant's Building rental space, equates to a tax increase of 44 cents per one thousand dollars of assessed valuation.

- The large, built-in new or expanding costs, which will result in Fiscal Year 1976-77, for the Kingsley Place, the Riverfront Park, Benjamin Davis Park, Dodge Mansion, Civic Center, District Court, State Owned-Leased Housing, and the CATA subsidy will exceed another \$375,000, or an approximate tax increase of 47 cents per one thousand dollars of assessed valuation.

- The rapid depletion by the Council of the Police Building-Capital Improvement Building Fund, \$500,000 which was provided in my Annual Recommended Budget in Fiscal Year 1973-74, and \$500,000 in Fiscal Year 1974-75, for a total of \$1,000,000. Funds were transferred out as follows:

By Council resolution on February 24, 1975, for the acquisition of property at 313 N. Larch St. known as the Superior Beverage property for use as a City warehouse \$ 84,500

By Council resolution on March 24, 1975, for renovation costs with respect to the Superior Beverage property 15,000

By Council resolution on April 28, 1975, toward acquisition of the Grant's Building—down payment and first year's land contract payment 236,800

By Council resolution of April 21, 1975, for surveying and title insurance costs relative to the acquisition of the Grant's Building 1,200

By Council resolution April 28, 1975, for renovation of the Grant's Building 200,000

By Council resolution August 25, 1975, for matching grant funds for the Tennis-Ice Complex 68,100

By Council resolution November 17, 1975, for Grant's renovation 50,000

By Council resolution December 29, 1975, for Mill St. property 75,000

**TOTAL** **\$730,600**

Balance of the Capital Improvement Building Fund account No. 101-936-020-975 as of March 15, 1976 \$269,400

- In addition to the payments noted above for the W. T. Grant Building, you agreed to pay 8% of the land contract payments, which totals must be budgeted in the City's future Capital Improvements program, including that for Fiscal Year 1976-77 in the amount of \$126,000. For the 3 years then to follow, payments must be budgeted in the amounts of \$117,800 for Fiscal Year 1977-78, \$110,200 for 1978-79 and \$102,600 for 1979-80.

- The need to continue, hopefully under 701 Planning Funds, the study of City departments commenced in 1975, to determine more fully the cost-benefit ratio of programs, tax dollars expended, projections for future years, etc. The system is already starting to provide a keen insight into operations and, in the final analysis, will provide an overview with detail for both future budgets, and better general policy decisions on the part of City Council.

- The results of the estimated small increase in State equalized valuation (2.5%) for 1976-77, which is 2% below the average annual increase experienced by the City over the past several years, according to the Finance Director.

- The overall financial picture of the City of Lansing for Fiscal Years 1976-77 and 1977-78, and now the need to face up to the results of the combination of the see-sawing of inflation, increased employee costs, newly handed down programs, and the loss of revenues in relation thereto.

As a result of the aforementioned, my Seventh Annual Recommended Budget, for the Fiscal Year 1976-77, provides for a property tax rate of \$13.23, including voted debt. This represents an increase of \$1.90 per one thousand dollars of assessed valuation, which is only 43 cents above the rate of 1971-72. The increase equates to just over 35 cents per week for the average property, which the City Assessor assesses at \$9,700, or which has a value of \$19,400. Considering an adjusted assessment for the average property for the inflationary years of 1972-73, 1973-74, 1974-75, 1975-76 and 1976-77, and the tax decreases and increases during this period, the overall annual, net tax payment increase, for City purposes, is approximately \$6.00. This cannot be said for the other taxing units, which have consistently increased the numbers of property tax dollars taken during the period.

For the average home, the total annual tax, for City purposes, will amount to ap-

proximately \$128—why then the complaint regarding property taxes? The following

will give you a keener insight as to what has and is transpiring.

#### TAX LEVIES

Fiscal Year Ended June 30	City	Counties	School	Community College	Total
1972	\$8,508,779	\$6,629,510	\$21,575,744	\$ 864,173	\$37,578,206
1973	8,605,479	6,844,290	22,222,939	1,557,239	39,229,947
1974	7,536,466	7,059,140	23,485,252	1,598,857	39,679,715
1975	7,875,534	7,314,118	23,939,207	1,663,632	40,792,491
1976	8,851,608	8,452,540	25,317,449*	1,766,112	44,387,709

\*(To the above must be added \$741,879 for Outer Area School Districts)

Please note that while the numbers of dollars taken for City General Operations have remained fairly constant, and even decreasing at times, those dollars taken by the other governmental units have jumped substantially. Under the category listed as "Counties," you should note that the bulk goes to Ingham and it approximates what the City taxpayers pay to the City of Lansing. Lansing too is by State law required to collect taxes, with no financial reimbursement, for the other governmental units. In short, of every property tax dollar paid by Lansing industries, businesses, professions and general property owners, the City retains only 19%, while the Counties receive 19%, Lansing Public Schools receives 56%, Community College 4% and Outer School Districts receive the remaining 2%. To the taxpayer it may seem like the City of Lansing retains the great share of property tax dollars, but that is not fact.

I am recommending to you a balanced budget for General City Operations of \$24,553,949, before City Supported Activities amounting to \$1,555,540. I am, also, recommending \$431,000 for General Fund supported Capital Improvements, an increase of \$68,760 over your 1975-76 Adjusted Budget, and an Emergency Fund of \$300,000, up \$50,000 over the present budget. To meet accrued voted debts of the past, an additional \$1,345,552 is provided.

I have, also, provided for an estimated fund balance of approximately \$3,011,600, which at first glance seems substantial. I remind you, however, that with the loss of Federal Sharing, continued inflation, the severity of the recession in Michigan, the probable loss of Comprehensive Employment and Training Act (CETA) after June 30, 1976, and the now unknown level of agreements to be reached this year between the City and Firemen, Policemen and General Employees, the City can conceivably be positioned for Fiscal Year 1977-78

in an operating deficit of \$5.4 million dollars. Therefore, I caution you that long term financial planning is the key to stability of the City in the years ahead. For you to expend these funds in Fiscal Year 1976-77 would be fiscally irresponsible.

More than ever, the tremendously great effect that Federal Revenue Sharing plays on our City, and for that matter every other city, is clearly demonstrated by the aforementioned.

The General Fund Budget reflects a decrease of more than \$800,000 from departmental requests. In fact, 23 of the 40 departments were decreased for Fiscal Year 1976-77, from what you provided for Fiscal Year 1975-76. Not funded at all from the General Fund, under City Supported Activities, was the \$52,500 request for Tri-County Regional Planning—The City of Lansing presently pays in excess of \$8.3 million annually in Ad Valorem Taxes to Ingham County, or 41.9% of the total property levies of the County, with smaller payments being made to Eaton and Clinton. To me the additional request of \$52,500 is unwarranted.

Decreases were funded for the Lansing Convention Bureau, down to \$13,800 from \$20,000; Capital Area Rail Council down to \$4,800 from \$4,920; and the Greater Lansing Safety Council, down to \$10,000 from \$15,000. Funded at the same level as for Fiscal Year 1975-76 are the Lansing Metropolitan Development Authority at \$13,155; the Garbage and Rubbish Collection Program at \$240,000; and the Waterfront Development Board at \$400. Increased funding is provided for the Lansing Tri-County Aging Consortium (Senior Citizens Subsidy) at \$40,318 from \$39,345, plus \$12,300 in office space, accounting service, legal, etc.; Capital Area Transportation Authority at \$280,000 from \$232,203; the Lansing District Court at \$641,095 from \$627,916.

Regarding the Capital Area Transportation Authority, the funding request was for \$370,694 or \$138,491 more than was funded from the City's General Fund for Fiscal Year 1975-76. Without the substantial increase, a threat of a cut-in-service was given.

Regarding the Lansing District Court increase of \$13,179, I once again plead with you to meet with the District Judges in an effort to resolve the problems within that court level. One of the problems is the apparent disbursing of revenues, which is having a detrimental effect upon the City's General Fund. The following operating costs and revenues are provided for your information.

Fiscal Year	Operating Expenses	Revenues
1971-72	\$374,638	\$686,982
1972-73	459,210	657,613
1973-74	526,654	600,474
1974-75	591,628	521,633
1975-76	627,916	546,500
1976-77	641,095	?

Herein lies a major problem which must be resolved. Fines for tickets "gone to warrant" are levied, but apparently the costs are not—as a result, the City Taxpayers are subsidizing the costs of violators. The City Auditor advises:

"At the time the computerized parking tickets, warrants and complaints were designed, the scheduled fines were reviewed. It was agreed that 'the greater length of time before the violation was paid, the greater the cost to the City'. The unit price of tickets, final notices, warrants, complaints, data processing, labor and machine costs, plus court costs were all determined and justified before the judges were asked to approve the fine schedule.

"One of the most important concepts was that 'every parking ticket that progressed to the warrant and complaint stage was very costly to the City'. Because of this accumulation of expenses, the judges agreed to levy a cost of \$10.00 for each individual warrant charged against a violator. Currently this procedure is not being followed by judges."

In short, violators should finance the costs incurred by the City due to the negligence on their own part, not the reverse.

I am, also, advised that a past audit revealed that "rubber" checks given to the Court were not followed by bench warrants, but instead were placed in a drawer, or file. This should be a part of the discussion to determine if the practice is completely corrected. Too, the relatively

low fines and bonds given for soliciting should be an item for the Agenda, as should a most recent problem which may void hundreds of warrants due to an incorrect procedure.

In addition to the necessary subsidy for the District Courts, \$71,090 has been provided to the Probation Office—this amount is down from the \$73,068 provided by you for Fiscal Year 1975-76, but up \$28,285 from what I recommended to you one year ago.

A subsidy of great concern to me is that provided for the Lansing Civic Center for operational losses—it amounts to \$213,151, compared to that of \$134,050 provided in the present Fiscal Year. The increase is reflective of increased costs of operation with no increase in estimated revenues. The revenue short-fall exists in the months of June, July, August and part of September for the lack of air-conditioning and general renovation—simultaneously, a full crew of employees are on hand during that same period at a burdensome cost. The conditions are not compatible. However, there is currently considerable interest being generated in the matter of air-conditioning and renovating not only to improve the quality of civic activities, but also to make the Civic Center compatible with the promotion of Lansing as a convention city. Depending upon your policy decision, the goal can be reached in several ways, two of which I present for your consideration.

It is generally agreed that the Lansing Civic Center can be modernized for \$2,000,000. This cost may be met through (a) Public Works Program, or (b) Full Faith Building Authority Bonds. In regard to proposal "a", there is Public Works Legislation pending before the U. S. Congress, which could provide up to \$1.5 million to the City of Lansing for such projects as the Civic Center—if approved, these funds could be supplemented by the \$500,000 I recommended to you two years ago for the Civic Center. In regard to proposal "b", the bonds in question could be subject to approval in early 1977, with Debt Service to begin in Fiscal Year 1977-78. The annual Debt Service on 15 year bonds is estimated at \$206,000, which equates to 26 cents per thousand and on 10 year bonds at \$266,000, which equates to 33 cents per thousand—my Recommended Budget provides for final payments of Debt Service on the following General Obligation Bonds: Grade Separations at \$90,000; Police Building at \$25,000; Fire Station at \$25,000 and the Civic Center itself, at \$200,000. This will wipe out debt which equates to 43 cents per one thousand dollars, or 10 cents to 17 cents more than the obligation needed to update the Civic Center.

In my State of the City Message, I pointed out that Lansing was an exception in the United States in regard to crime—while the National crime picture showed

great increases, the percentage of change for the 5 year period of 1971-75 for Lansing showed a decrease of 18 percent. Innovative programs have contributed to the safety of our people. My Recommended Budget, therefore, reflects an increase of \$243,752 to continue three of the programs, namely, the Investigation Coordination Unit, for which I have provided \$102,317; the Crime Prevention Unit, for which I have provided \$72,178; and, the Helicopter Program, for which \$69,259 has been provided.

It is recommended that the Parks Department should maintain the grounds around the City Market; \$73,973 has been provided for full year operating of Kingsley Place, plus \$5,300 has been provided to maintain Kingsley Place Park for the 6 month period following completion of this facility; \$52,258 has been provided for the full year operating of the Artificial Ice Rink; \$31,900 has been provided to maintain Riverfront Park; \$20,000 has been provided to maintain Benjamin Davis Park for the 6 month period following the end of the Title X Grant; and, \$6,750 has been provided to maintain the grounds at the Dodge Mansion, plus utilities.

I have included in the Public Service Department budget \$10,000 to repair the City Hall roof, \$50,000 to operate the Washington Square Annex (estimated revenues from Community Development Grant is \$60,000) and \$7,000 for snowplowing of alleys. From Act 51 funds, \$250,000 is provided to match the \$250,000 of one year ago, as the City's share of a new \$2 million Kalamazoo Street Bridge, hopefully to be started in 18 months.

Capital Improvements in the amount of \$431,000 include \$27,000 to replace Ambulance No. 41 in the event a Federal Grant cannot be secured; \$83,000 to replace Pumping Engine No. 7; \$45,000 for an Emergency Power Generator; \$16,000 for expansion of the Dictaphone Recorder in the Police Department, as well as \$45,000 for Automated Criminal Identification; \$23,000 to complete the basic improvements to Potter Park; \$50,000 to take care of the financial short-fall in the City's share of petitioned storm sewers; \$126,000 to meet the land contract and interest payment on the Grant's Building; and \$40,000 for radio separation equipment.

The aforementioned highlights some of my Recommended Budget for Fiscal Year 1976-77.

Sincerely,

GERALD W. GRAVES,  
Mayor.

## **RESOLUTIONS**

By Committee on Public Service  
and Highways—

Resolved by the City Council of the City  
of Lansing:

That the proposed Contract between the Michigan State Highway Commission and the City of Lansing for the bituminous resurfacing of Highway I-96 (Cedar Street) from approximately 300 feet south of Mt. Hope northerly to Christiancy Street, at a cost to the City of Lansing approximately \$20,000.00, be approved, and

That the Mayor and City Clerk be authorized to sign this Agreement upon certification of the City Controller as to the availability of funds, and after approval as to form by the City Attorney.

Adopted by the following vote:

Unanimously.

By Committee on Public Service  
and Highways—

Resolved by the City Council of the City  
of Lansing:

That the low bid of Grunwell-Cashero of Lansing, Inc., for the Shiawassee Street Bridge Repair, P.S. 36135, in the amount of \$32,577.68 be accepted.

An additional 15% in the amount of \$4,886.65 is hereby authorized to be encumbered by the Controller for contingencies, making the total encumbered amount under this Contract \$37,464.33.

After the award, the successful bidder shall be required to execute the contract as specified within ten days after the prescribed forms are presented to him for signature, as stipulated in Instruction to Bidders of the Contract.

Be It Further Resolved that the Mayor and City Clerk be directed to execute a contract with the said Grunwell-Cashero of Lansing, Inc., on behalf of the City of Lansing according to the said bid presented and the specifications on file, upon approval of the contract, and of the bonds and insurance policies by the City Attorney, and upon certification of the City Controller as to the availability of funds.

Adopted by the following vote:

Unanimously.

## By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the Committee on Finance has approved the request of the Charter Commission to employ a work-study program student pursuant to the terms outlined in its report of this date,

Now, Therefore, Be It Resolved that the Mayor and City Clerk are hereby authorized and directed to execute said contract upon the approval of the City Attorney as to form, the certification of availability of funds by the City Controller, and approval by Personnel Director that hiring policy is consistent with the City of Lansing's policy.

Adopted by the following vote:

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the United States Department of Housing and Urban Development has indicated that certain funds will be made available to the City of Lansing under the Comprehensive Planning Assistance (701) Program; and,

Whereas, these funds will be utilized by the Finance and Planning Departments to assist in providing current and reliable data to assist elected officials in their decision making process as pertains to the management and planning functions, and their related housing and land use components, as performed by the City of Lansing; and,

Whereas, the estimated costs of this application total \$122,478 of which the federal share is \$81,652 and the required City share totals \$40,826 of in-kind staff services to be provided by the staffs of the Finance and Planning Departments; and,

Whereas, it is the desire of the City of Lansing to complete our management and planning information system;

Now, Therefore, Be It Resolved that the Mayor is directed to sign this grant application and all subsequent contractual documents upon approval of the City Attorney as to form; and,

Be It Further Resolved that the Program Coordinator is authorized to submit this application and all subsequent documents to the Department of Housing and Urban Development.

Adopted by the following vote:

Unanimously.

By Community Development Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the United States of America have entered into an Agreement providing the City of Lansing with a Grant to plan and develop a comprehensive Community Development Program; and

Whereas, the City of Lansing through the Human Resources Department and the Community Mental Health Board have entered into a Contract effective from August 1, 1975 through June 30, 1976 to provide a Comprehensive Substance Abuse Program (PN-118); and

Whereas, the City of Lansing, through the Human Resources Department and the Comprehensive Substance Abuse Program desire to amend said Contract to reflect a

change within the scope of services in order to facilitate monitoring of activities and to protect the confidentiality of related information; now, therefore, be it

Resolved, that the Mayor and City Clerk are hereby directed to sign said proposed Contract Amendment on behalf of the City of Lansing, after approval as to form by the City Attorney, and certification by the Fiscal Director as to availability of funds.

Adopted by the following vote:

Unanimously.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has continuously entered into Contracts to procure certain services from contractual agencies to develop and implement its Community Development Program pursuant to Title I of the Housing and Community Development Act of 1974; and

Whereas, the City Council of the City of Lansing desires to adopt an administrative procedure which will more efficiently and expeditiously process contractual budget revisions that become necessary because of requested changes in line item budgetary allocations comprising the total approved appropriation for the contractual agency; and

Whereas, the current procedure requiring City Council approval for each revision has proven to be time consuming and costly because many contract budgetary revisions are transfers of funds between line item within the appropriation for the total contract budget as approved by the City Council; now, therefore, be it

Resolved, that the City Council hereby establishes the administrative procedure described in Attachment A hereto to dispose of contract revisions pursuant to the following stipulations:

1. The administrative Board, which will be known as Contractual Budget Review Board, shall be composed of the Mayor or his designee; the City Controller, or his designee; and the Director of the Department which is managing the contractual agency, or his/her designee.

2. The Board shall have the authority to approve budgetary revisions within the total contract allocation according to the procedures established in Attachment A at regular quarterly meetings, or more often if necessary, pursuant to the limitations defined below:

- (a) The Board shall have the power to approve a transfer of funds not to exceed One Thousand and 00/100 Dollars

(\$1,000.00) between detailed line items of an approved and executed contract, but this power shall not apply to budgetary line items for personnel or equipment.

(b) If increases in the personnel or equipment line items of a contract are proposed, the Board will only make a recommendation to the City Council for a formal Contract Amendment under Case 2 in Attachment A.

3. If any member of the Board disagrees with the proposed budgetary revision proposed in Case 1, it will be necessary for the Lansing City Council to take action under the procedures outlined in Case 2 of Attachment A.

4. No change in the Scopes of Services Section of any contract may be made without approval by the Lansing City Council as outlined in the procedures of Case 2.

5. The Board's power to approve budget revisions for an individual contract shall cease when the aggregate of these transfers reach Two Thousand Five Hundred and 00/100 Dollars (\$2,500.00) during any three month period of the contract from its effective date.

6. The Board shall prepare detailed rules and procedures not inconsistent with this resolution to implement the policy direction contained herein, subject to approval by the City Attorney.

7. After its regular quarterly meeting the Board shall notify the Mayor, City Council and City Attorney of any approved budget revisions under Case 1.

Adopted by the following vote:

Unanimously.

## REPORTS OF CITY OFFICERS AND BOARDS

March 23, 1976

Honorable Mayor and Members

of the Lansing City Council

Lansing, Michigan

Re: Claim of William and Margaret Stump for damage to basement walls allegedly caused by heavy equipment digging city drain

Dear Mayor and Council:

The above captioned claim was referred to this office on March 2, 1976. The claim is for damage to basement walls allegedly cracked by vibration caused by heavy equipment being used to dig the Hector Drain in the area of Holmes and Palmer. Such equipment was owned and operated by an excavating company doing contract work for the City. It is my opinion this claim is covered by the concept of governmental immunity and the City has no legal responsibility to pay it.

Although the City of Lansing enjoys governmental immunity, a company which contracts with the City to do construction work is not immune from liability. To protect the public, the City of Lansing requires such contractors to carry public liability insurance. It is suggested Mr. and Mrs. Stump contact the contractor: Ayala's Con-

crete & Excavating Company and Kenneth Noyce, Contractor, 2736 S. Deerfield Street, Lansing, Michigan. They should request the contractor submit the claim to its insurance carrier with a request for payment. It will probably be necessary for the Stumps to be prepared to prove the cause of the basement deterioration.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney.

Carried.

March 24, 1976

Honorable Mayor and Members

of the Lansing City Council

Re: City of Lansing v Administrative Board, et al

Dear Mayor and Council:

By letter dated March 11, 1976 the Honorable Jack W. Warren, Circuit Judge informed counsel for both parties in the above captioned matter that he was concerned about promptly disposing of this matter. He inquired as to whether we wished a hearing on the matter or whether it had been resolved. The Attorney General has prepared an Order of Dismissal without prejudice in the above captioned matter which in my opinion provides the City with substantially all of the goals that it sought when this lawsuit was instituted. That Order provides that the principal office of the Bureau of Workmen's Compensation will be located within the corporate limits of the City of Lansing. It further recognizes that the state has altered its intention to remove the Director of the Department of Labor and the Workmen's Compensation Appeal Board beyond the limits of the City of Lansing. Should either of these actions take place in the future, the City's action to reinstitute the litigation would not be prejudiced.

You are all aware of the effort on the part of the Mayor's office, the Governor, the Lansing Legislative Caucus and members of this Council to cooperate for an amicable resolution of this matter. It appears to me that such a resolution has been reached and in furtherance of that objective, it is my recommendation that this suit be dismissed without prejudice as provided for in the attached Order.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Referred to Committee of the Whole.

March 25, 1976

Honorable Mayor and Members

of the Lansing City Council

Dear Mayor and Council:

The Ingham County Health Department has requested the City of Lansing to pass a resolution for the implementation of the Ingham County Sanitary Code for the entire City, including those parts of Lansing outside of Ingham County. The purpose for such an action is apparent—to make uniform the health laws throughout the City of Lansing.

After researching the matter, it appears that there are two avenues open for extending the health jurisdiction of Ingham County into those portions of Lansing not within Ingham County. The boundary of Ingham County could be extended to include all of the City of Lansing. This procedure is set forth below. There are two major problems with this method: the expense involved and the problem that Lansing itself will be growing with future annexations, thus defeating the purpose of extending the boundaries of Ingham County. The second and much simpler approach would be the contracting for the performance of health services by Ingham County in the City of Lansing.

The first approach, i.e., the extending of the Ingham County boundary to encompass all of Lansing, is provided for by State law. MCLA 45.101 et seq; MSA 5.310(1) et seq.

The city by resolution or by petition of 10% of its registered electors or 10,000 registered electors, whichever is the smaller, may have the question of extending the boundary of Ingham County so as to include all of Lansing placed on the ballot of the next general election held no earlier than ninety (90) days from the certification of such resolution or receipt of such petition by the City Clerk. To pass, the question must be approved by a majority of the qualified electors voting thereon of each county affected.

If the City Council wishes the uniform application of not only the Ingham County Sanitary Code but other codes of Ingham County to apply uniformly throughout Lansing, then the mechanism of extending the boundary of Ingham County so as to include all of Lansing may be put into motion.

The simpler method, i.e., a contract between the City of Lansing and Ingham County, is also provided for by State law. MCLA 327.205a; MSA 14.165(1). The contract would be for the purpose of Ingham County assuming the health jurisdiction of Lansing. Attached please find a proposed contract. Presently the Health Officer for the City of Lansing is the Health Officer of the Ingham County Health Department, Lansing ordinances, ch 17, §17-15. Mr. Peter Doren, an attorney for Ingham

County, and Mr. John Ruskin, Ingham County Health Department, believe it inadvisable for the County to charge the City for assuming its health jurisdiction for the reason that the area of Lansing outside of Ingham County is too small to make it worthwhile to charge. Those citizens of Lansing living in Ingham County already pay through their taxes for the performance of the service. Moreover, Mr. Doren and Mr. Ruskin believe that there will be enough revenue for licenses and services in the area of Lansing outside of Ingham County so as to justify not charging the City of Lansing for that area.

The proposed contract has already been approved by the Ingham County Health Board and will be sent to the Ingham County Commissioners for approval on April 13, 1976. A resolution for a contract to be entered into is attached.

I trust this answers any question you may have regarding this subject.

Respectfully submitted,  
PETER HOUK,  
City Attorney.

Dear Sir:

The Lansing Housing Commission will be advertising for the sale of project notes on April 6, 1976, closing date May 18, 1976, maturity date May 13, 1977, for the amount of \$3,514,000.00.

The above transaction is not an unusual transaction for the Housing Commission, and will continue until such time that the project notes are transferred into bonds which are permanent financing.

The above is merely a point of information for your office.

March 24, 1976

The Honorable Gerald W. Graves,

The Honorable City Council

Dear Mayor Graves and Council:

The Federal Communications Commission, in a ruling dated February 12, 1976, Docket No. 19723 entitled Radio Amateur Radio Service, determined that all Civil Defense (Emergency Operations) communications using Amateur Frequencies, must be in the control of a licensed amateur at all times. This ruling causes us to revise our operations during severe weather emergencies.

We must now remote control all radio transmission from the weather bureau to a repeater location located at Ingham Medical Hospital. The repeater station is in control of licensed amateurs twenty four hours a day.

It will cost \$3,350 to alter our operations. This amount includes transmission lines, transceiver, remote control console. The installation and alterations will be accomplished by volunteer personnel.

It is requested that this letter be received and referred to the Committee on Public Safety for consideration.

It is further requested that this communication be referred also to the Committee on Finance.

Very respectfully submitted,  
JAMES A. HOLCOMB,  
Executive Director,  
Department of Emergency  
Operations.

Buildings and Properties Committee

Dear Committee Members,

The members of the Ethnic Festival Committee request that permission be granted to close off Shiawassee Street from Grand Avenue to Cedar Street for pedestrian traffic during our upcoming Ethnic Festival activities scheduled for Saturday, July 3 and Sunday, July 4 from 12:00 noon until 9:00 p.m. each day.

In this Bicentennial year, we are planning many activities that will encompass the efforts of many groups and organizations throughout the Lansing area. The closing of Shiawassee Street, as indicated, will serve to eliminate any auto/pedestrian problems that may be incurred, due to anticipated congestion in that given area. Point of clarification. We have no intention of interfering with access to the Fire Department.

As Chairman of the Ethnic Festival Committee, I am anxious to meet with members of your committee to discuss the feasibility of closing off Shiawassee Street from Grand Avenue to Cedar Street, at your convenience.

Thanking you in advance for your consideration in this regard, I await your early reply.

Respectfully submitted,

RICHARD D. LETTS,  
Chairman,  
Ethnic Festival Committee.

Referred to Committee on Buildings and Properties and Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on BUILDINGS AND PROPERTIES and Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS,

to whom was referred the request of the Ethnic Festival Committee for permission to close off Shiawassee Street from Grand Avenue to Cedar Street for pedestrian traffic during the Ethnic Festival Activities on July 3 and 4, 1976, from 12 noon until 9 p.m. each day, reports as follows:

The Committees recommend permission be granted EXCEPT that one-lane of traffic must be kept open for the Fire Department and other emergency vehicles to reach Cedar Street. By copy of this Committee Report, Traffic Engineer, Public Service Department, Fire and Police Departments, and Office of Emergency Operations be so informed, and it is further directed that the barricades be manned by the Lansing Police Department.

Re: Senior Citizen Golf Card

Gentlemen:

The Park Board at the March meeting received a report on the ages established by local agencies for special "Senior Citizen" discounts. This matter was discussed relative to reconsideration of the City Senior Citizen Golf Policy.

The report indicated that those agencies of a social service nature, or those related to "retiree" benefits, use the age of 60 as a guideline. Other local agencies as well as state and federal governmental units use ages in the range of 62 to 65 for benefits of discounted prices on various services.

The Board, by a three to two vote, approved the age of 60 for determining eligibility for a Senior Citizen Golf Card. Other requirements on residency, property ownership and/or payment of taxes remained the same.

Because this reduction in the age requirement may create a decrease in previously projected revenue Mr. English, Park Board Chairman, has asked this matter be forwarded to City Council.

Thank you.

Respectfully submitted,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Subject: B-76-513 Liquid Chlorine

Gentlemen:

Two bids were received for Liquid Chlorine for the Wastewater Treatment Plant, which were opened at 3:00 P.M., E.S.T. on Tuesday, March 16, 1976.

After making adjustments for the various freight factors, it was determined that

the Allied Chemical Corporation bid is \$7.40 per cwt. and Pennwalt's bid is \$7.44 per cwt.; neither bidder quoted firm prices for the year.

We would like to recommend that the bid submitted by Pennwalt be considered as our chlorine supplier this year for the following reasons:

1. Allied Chemical has been our supplier for some time. Last year shortly after being awarded the bid they raised their price and again later in the year for a total increase of \$1.25 per cwt. Their bid this year is back close to last year's initial bid, and we fear they may start raising prices again which would soon make them higher than Pennwalt.

2. The other reason we would like to change is that we have been experiencing plugged lines at the Wastewater Treatment Plant, which we feel is caused by the chlorine we are using at the present time.

Subject: Physical Development Plan  
Neighborhood Development  
Area No. 1

The Housing and Redevelopment Advisory Board, at its meeting held on March 23, 1976, recommended that the Lansing City Council adopt the Physical Development Plan for Neighborhood Development Area No. 1 (Westside).

In making this recommendation, the board expressed concern over several aspects of the Plan, but felt that, on the whole, the Plan should be adopted, so that implementation of the Community Development housing program can finally be commenced. The Board also recognized that the Plan may need amendments in the future.

Sincerely,

HOUSING AND REDEVELOPMENT  
ADVISORY BOARD

Ronald G. Stonehouse,  
Secretary.

Referred to Committee on Community Development.

March 25, 1976

Honorable Mayor Gerald W. Graves and  
Members of Lansing City Council  
Gentlemen:

Subject: Redevelopment Proposal received from Telephone Communications, Inc.

The Housing and Redevelopment Advisory Board, at its meeting held on March 23, 1976, recommended that the Lansing City Council accept the proposal to purchase and redevelop Parcel 7 of Urban Renewal Project No. 1, Michigan R-87, recently submitted by Telephone Communications, Inc., of Lansing. This recommendation for acceptance was subject to the following conditions, which should be met by Telephone Communications, Inc., prior to the issuance of a deed for this property by the City of Lansing:

1. Submission of Audited Financial Statements of Telephone Communications, Inc., in accordance with HUD requirements.
2. Review and approval of final architectural working drawings and specifications by the City of Lansing.

The Board further recommended that the Housing and Redevelopment Director be authorized and directed to negotiate the terms and conditions of a Contract for Sale of Land for Private Redevelopment with Telephone Communications, Inc.

A review of the proposal submitted indicates that Telephone Communications, Inc., proposes to construct a two-story building, containing roughly 13,200 square feet, to house the operations of their firm. The building would be of block and brick construction, with an exterior of face brick and bronze colored windows and doors. The balance of the site would be developed to provide customer parking.

Inasmuch as Telephone Communications, Inc., has already obtained a mortgage loan commitment and desires to commence construction in the very near future, your prompt consideration of these recommendations will be appreciated.

Sincerely,

HOUSING AND REDEVELOPMENT  
ADVISORY BOARD

Ronald G. Stonehouse,  
Secretary.

Referred to Committee on Community Development.

## RESOLUTIONS

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That the City Assessor be, and he is hereby directed to spread on the July 1976 tax rolls, the cost of correcting the hazardous and unsanitary conditions of properties in the year 1976, as reported this date by the Building Commissioner, and as per the attached list.

Adopted by the following vote:

Unanimously.

By Committee on Community Development—

Resolved by the City Council of the City of Lansing:

Setting a date for public hearing for the purpose of adoption of a Neighborhood Development Plan for NDA No. 1, as required by Act 344, P.A. 1945, as amended.

Whereas, the City of Lansing is considering the rehabilitation of a blighted area within the City of Lansing within the Neighborhood Development Area No. 1. Whereas, the City of Lansing has prepared a Master Plan which is sufficiently advanced to designate areas in need of rehabilitation; and

Whereas, pursuant to Act 344, P.A. 1945, the district area has been designated as the proposed development area and the Citizens' District Council has been organized for the district area; and

Whereas, said Council and the City of Lansing have been acting in accordance with the requirements of Act 344, P.A. of 1945 as amended; and

Whereas, the proposed project may be undertaken in accord with Act 344, P.A. 1945 and in cooperation with the Federal Government for financial assistance under the Housing and Community Development Act of 1974; and

Whereas, the development plan has been prepared which included programs for the rehabilitation of residential structures, application of rehabilitation standards, acquisition and removal of selected residential structures, the relocation of families and

individuals, the availability of loans and grants to property owners and the improvement of public facilities. And further the plan designates the location and extent of streets and other public improvements; designation of the location and character and extent of permitted public and private uses; designation of the location, character and extent and estimated costs of improvements for the areas; includes statistical data relating to numbers of persons residing within the areas, numbers to be displaced, and housing supply in Lansing, and demand for the housing capacities of public and private housing available to displaced persons; and

Whereas, pursuant to Act 344, P.A. 1945, a public hearing must be held on the development plan for the development area;

Now, Therefore, Be It Resolved, that a public hearing will be held on Monday, May 3, 1976, in the City Council Chambers, 10th Floor, Lansing City Hall, 7:30 p.m.; and

Be It Further Resolved, that notice of this hearing be published in local newspapers thirty (30) days prior to said hearing, mailed to the last known owner of each parcel within the District Area No. 1 twenty-five (25) days prior and distributed door-to-door to the residents of the District Area No. 1 twenty-five (25) days prior to said hearing, and that a second notice of the Public Hearing be distributed within District Area No. 1, five (5) days prior to said hearing, and that the Office of Community Development be responsible for all aforementioned public notification.

Adopted by the following vote:

Unanimously.

By Committee on Community Development—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the United States of America have entered into an Agreement providing the City of Lansing with a Grant to plan and develop a comprehensive Community Development Program; and

Whereas, the Lansing Community Development plan provides for the development of Crime Prevention Programs; and

Whereas, the City of Lansing, through the Lansing City Demonstration Agency entered into a twelve (12) month Contract with New Way In, Incorporated, effective from April 1, 1975 through March 31, 1976, to provide an Adult Ex-Offender Rehabilitation Program; and

Whereas, the City of Lansing, through the Human Resources Department, desires to enter into a new three (3) month Contract with New Way In, Incorporated, and

has allocated Thirty-Four Thousand, Eight hundred Thirty-Six and 00/100 (\$34,836.00) Dollars of Community Development first year funds, Account No. 255-430-000-969 to continue to operate the New Way In program for the period from April 1, 1976 through June 30, 1976; now, therefore be it

Resolved, that the Mayor and the City Clerk are hereby directed to sign said proposed Contract on behalf of the City of Lansing, after approval as to form by the City Attorney and after certification as to availability of funds by the Director of Finance and the C.D. Fiscal Officer.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council appoints Lansing's five representatives to the Capital Area Rail Council; and

Whereas, their terms of office of the City's representatives to the Capital Area Rail Council end this month; and

Whereas, Roland T. Rhead has been elected chairman of the Capital Area Rail Council for the coming year;

Now, Therefore, Be It Resolved that the Public Safety Committee is directed to interview for re-appointment or appointment the following persons and report to the Council within two weeks:

1. Roland T. Rhead, 512 W. Saginaw (re-appointment)
2. Eva Evans, 434 S. Verlinden (re-appointment)
3. Eugene W. Barnes, 3106 Alden Dr.
4. Bruce E. McComb, 920 S. Washington Avenue.

Adopted by the following vote:

Unanimously.

By Council Members Baker and Hull—

Resolved by the City Council of the City of Lansing:

Whereas, the citizens of Lansing have for years protested the perceived inequities of the present parking system; and

Whereas, the merchants in the Central Business District have testified on numerous occasions that the present parking system discourages and even penalizes residents who desire to shop, do business or

come into the Central Business District for various other reasons; and

Whereas, the students and faculty of L.C.C. and Cooley Law School, because of inadequate off-street parking, are required to use on-street metered parking and, as a result, oftentimes receive tickets that many feel have been unavoidable; and

Whereas, many neighborhood shopping centers, such as those in the north end, east, west and south sides have metered parking lots that encourage residents to utilize the shopping malls outside the City, thus causing a continuing loss of business for the business people and a loss of tax revenues for the City; and

Whereas, there is no need to force parking turnover to occur in these neighborhood shopping centers; and

Whereas, many of the present parking meters do not give 15 minutes for \$.05 (or similar increments) but rather only increase the time up to the nearest 15 minute increment and thus do not give full value to persons who put money in the meters; and

Whereas, the S. Washington Mall is closed to through traffic and does not permit people to gain easy access to stores and businesses and the one-way street system exacerbates this problem; and

Whereas, there is a need for short-term free parking for visitors, shoppers, etc., in the CBD area; and

Whereas, the meters in the ramps are unsightly; and

Whereas, there is no need to encourage parking turnover in the ramps; and

Whereas, there is a need for long-term parking in the ramps for people without penalizing them for overstaying their meter time; and

Whereas, many residential areas of the City do not have adequate off-street parking due to outmoded zoning and platting activities of many years past; and

Whereas, many residents wish to have on-street overnite parking, alternating on odd and even days on their specific streets; and

Whereas, many cities throughout the United States permit such on-street parking with no discernable detrimental effects in efficiency of City services or the environment; and

Whereas, the parking system has been studied ad-nauseam and yet continues to be a major detriment to the economic viability of the City; and

Whereas, the City Council of Lansing is sympathetic and responsive to these problems and inequities and wishes to move in a forthright and positive manner to correct

the problems, remove the inequities and implement programs which are responsive to the needs of residents and businesses;

Now, Therefore, Be It Resolved that the City Council of Lansing directs that the following actions be implemented:

1. Parking meters are to be immediately adjusted so that the persons using them receive the full increment of time that their money entitles them to receive;
2. Develop an implementative plan for removing the parking booths on S. Washington Avenue, installing 1- or 2-hour meters on Washington Avenue for angle or parallel parking and making S. Washington Avenue a through-street. This plan to be presented to the Public Safety Committee, Building and Properties Committee with attendant costs, if any, recommendations for sources of funds and a timetable for implementation by May 1, 1976;
3. Develop a parking sticker program for LCC and Cooley Law School students and staff whereby they can prepay parking meter costs for a term at a time. Stickers should be available for morning classes only, afternoon classes only, and classes all-day with costs of the stickers varying accordingly. Cars should be required to park in defined meter areas during classes without feeding the meters or getting a ticket unless they parked at the wrong time and/or place. A plan for implementing this program including where the stickers would be purchased, sticker parking areas, proposed sticker costs, costs of implementing the program and proposed sources of revenue to cover any anticipated losses of meter/fine revenues is to be submitted to the Public Safety Committee and Building and Properties Committee by May 15, 1976;
4. A program for removing all parking meters from neighborhood shopping center parking lots, including a timetable for implementation, anticipated costs of removal, costs in terms of anticipated losses in meter/fine revenues and suggestions for sources of funds to replace those losses of revenue. The plan is to be presented to the Public Safety and Building and Properties Committees by May 15, 1976.
5. An implementation plan that will provide CBD visitors/customers patrons with three hours of free parking in the City-owned ramps, that will remove all meters from the ramps, that will install an attendant at each ramp to collect parking charges (persons staying over three hours could be charged retroactively for the three hours of free time). This plan should include a timetable for implementation, estimated costs for removing the meters, estimated net losses in revenue from meters/fines/if any, and suggested sources of revenue to cover these losses. The plan is to be submitted

to the Public Safety and Building and Properties Committees by June 1, 1976.

6. An implementation plan that will permit persons receiving parking tickets at lot and street meters to pay a nominal fine (perhaps 25¢ or 50¢) for the ticket if it is paid immediately (say within 2 or 3 hours of receiving the ticket). A timetable for implementation, costs, if any, of implementing the plan and suggested sources of revenue to cover these possible costs should be included. The plan should be presented to the Public Safety and Building and Properties Committees by May 1, 1976.
7. Prepare an implementation plan for opposite side on-street overnight parking on a street by street basis where the residents of the area petition for such parking. The plan should include an administrative approval process calling for City Council review only in cases of appeals from the administrative decision. The plan should include a timetable for implementation, any anticipated costs and sources of funds to pay for the costs. The plan should be presented to the Public Safety Committee by June 15, 1976;

And Be It Further Resolved that since the Traffic Department has the requisite expertise to carry out the work required by this resolution, it is hereby directed to carry out the directives of this resolution; and

Be It Further Resolved that such other City officers and departments which may be called upon from time to time by the Traffic Department for advice, information and assistance, are hereby directed to provide such assistance as they can render; and

Be It Finally Resolved, the Mayor as Chief Executive Officer of the City is hereby requested to assist, coordinate and direct these efforts so as to insure that they are completed in an efficient and expeditious manner.

By Councilman McKane—

That paragraphs 6, 9, 13, and 14 beginning with "Whereas" and paragraphs 1 and 7 under "Now, Therefore, Be It Resolved" be deleted.

By Councilman Baker—

That paragraph 7 under "Now, Therefore, Be It Resolved" be voted on separately.

Approved:

TERRY J. McKANE,  
JAMES D. BLAIR,  
WILLIAM A. BRENKE,  
Committee on Finance.

By Councilman McKane—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

SUP-1-76

1527 East Michigan Avenue

More particularly described as:

Lots 1, 2, 3, 4, 6, 7, and 8 and also commencing in the southwest corner of Lot 8, thence east 198 feet, south 8.25 feet, east 66.75 feet, south 8.25 feet, west 264.75 feet, north 16.5 feet to beginning, Block 2, Gansly's Addition, City of Lansing, Ingham County, Michigan.

Whereas, pursuant to Section 36-42 (11) of the Zoning Code, an application was filed by Marlene Kent, Director of the Resurrection Eastside Day Care Center, for approval of a child Day Care Center upon the above described premises; and

Whereas, the Planning Board held a public hearing on March 2, 1976, and following the public hearing recommended approval for the Special Use Permit; and

Whereas, the Planning Committee of Council, to whom was referred the report of the Planning Board, concurred therewith; and further recommended that the operation of the Day Care Center be limited to not more than 47 children;

Now, Therefore, Be It Resolved that the Council of the City of Lansing hereby authorizes issuance of a Special Use Permit for the operation of a Day Care Center on the above described property, pursuant to Section 36-42 (11) of the Zoning Code with

the condition that the total number of children at this center be limited to forty-seven (47). And further, that the development of the Day Care Center meet all the requirements of the Building and Fire Code.

Adopted by the following vote:

Unanimously.

By Councilman Baker—

Whereas, by petition duly filed in the 9th day of February, 1976, this Council was petitioned to change the following described property from "A" One Family Residence District to "DM-1" Multiple Family Dwelling District, all as set forth in the Zoning Code of this city, and

Whereas, due notice as required by law has been given for a public hearing on said petition, and

Whereas, at such hearing held on the 29th day of March, 1976, all parties interested therein were heard and given due consideration, and

Whereas, the property involved is described as:

Z-4-76—3000 block West Miller Road  
(north side),

more particularly described as:

Beginning on the south line of Section 6, T3N, R2W, City of Lansing, Ingham County, Michigan, at a point 247.5 feet east of the south  $\frac{1}{4}$  post of Section 6; thence east 165 feet; thence north parallel to the north and south  $\frac{1}{4}$  line 330 feet; thence west 165 feet; thence south 330 feet to beginning, City of Lansing, Ingham County, Michigan,

from "A1." Family Residential District to "D-M:1" Multiple Dwelling District.

Whereas, pursuant to Act 207, P.A. 1921, the Planning Board advised the City Council to deny this request; and

Whereas, the Planning Committee of Council, to whom was referred the report of the Planning Board, did not concur therewith, but recommends that the property be rezoned from "A-1" Family Residential District to "C-2" Family Residential District;

Now, Therefore, Be It Resolved that the Council of the City of Lansing ordains that the petition to rezone the above described property from "A-1" Family Residential District to "D-M:1" Multiple Dwelling District be denied; and

Be It Further Resolved, that the above described property be rezoned from "A-1" Family Residential District to "C-2" Family Residential District.

Adopted by the following vote:

Unanimously.

By Councilman McKane—

Resolved by the City Council of the City of Lansing:

That the attached vouchers as presented by the City Controller be allowed and the City Clerk be and she is hereby authorized to draw orders on the City Treasurer for the amount allowed each claimant in the amount of \$1,440,718.69.

Signed:

TERRY J. MCKANE,

#### REPORTS OF CITY OFFICERS AND BOARDS

March 31, 1976

Honorable Mayor and Members

of the Lansing City Council

Re: Claim of Darwin Colby, Jr., for damages to his car due to street conditions.

Dear Mayor and Council:

The claim in the amount of \$357.52 for damages incurred to the car of Darwin Colby, Jr., was received by the City Council on March 22, 1976.

Mr. Colby has alleged that his car was damaged due to holes three to five feet deep on Star Avenue. Mr. Colby reports that he drove his car into one of these holes. The Public Service Department was unable to find such holes. However, Public Service did find that the street was rutted due to the rain. Public Service reports that it did not have notice of the ruts prior to the incident. Under state law a governmental unit is immune from liability due to defective road conditions unless it knew or should have known of the defect. Knowledge of the defect is conclusively presumed if it has been readily apparent to an ordinary person for a period of thirty (30) days or more prior to the injury. MCLA 691.1403; MSA 3.996(103). It has not been shown whether the City should have had knowledge.

Under the circumstances, it is my recommendation that Mr. Colby's claim be denied.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney and said claim be denied.

Carried.

Re: Earl Drake v City of Lansing  
Michigan Civil Rights Commission  
Complaint No. 25234-EI-X

Dear Mayor and Council:

Over a year ago the claimant in the above captioned matter named the City of Lansing as a respondent in a Michigan Civil Rights Commission action charging that the City unlawfully discriminated against him in failing to allow him to construct a cable television system in the City. The claimant, Mr. Drake, did not desire to operate a cable television system, but did wish to be a sub-contractor for purposes of "stringing" cable. Mr. Drake's qualifications were reviewed by Continental Cablevision, Inc., the franchisee for the City of Lansing, and it was determined that he was not qualified to perform this task.

After repeated meetings with the Civil Rights Commission at which the City was represented by this office and Mr. Letts, the Commission reached the conclusion that:

"The respondent had nothing to do with the decision to eliminate the claimant from bidding because that decision was the responsibility of Continental Cablevision."

The Civil Rights Commission further found no evidence of wrongdoing on the part of Continental Cablevision.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Received and placed on file.

March 29, 1976

Honorable Mayor and Members

of the Lansing City Council

Dear Mayor and Council:

You have asked me to respond to the problem of discrimination in the delivery of city services which is based on the sex and/or age of the recipient. As a matter of law, such distinctions are limited by the constitutional prohibitions against denying any citizen the equal protection of the law. US Const, Am 14, §1; Mich Const, Art I, §2. The equal protection doctrine does not flatly prohibit the City of Lansing from classifying recipients of its services on the basis of sex or age. Rather, the doctrine establishes the standards for determining the constitutionality of such classifications.

Each actual classification must be judged against the constitutional standard individually since no simple, general rule exists. To evaluate any classification, it is necessary to consider the governmental purpose sought to be advanced, the basis of the classification, the importance of any rights infringed upon, and the relationship between the classification and the governmental purpose. At a minimum, any distinctions between citizens for the delivery of services must bear a reasonable relationship to a legitimate governmental purpose. *Manistee Bank v McGowan*, 394 Mich 655 (1975).

Classification by Sex. Although the Equal Rights Amendment to the US Constitution has not yet been ratified, it is nonetheless apparent that any governmental classification based on sex must be carefully scrutinized. *Reed v Reed*, 404 US 71, 42 S Ct 251, 30 L Ed 2d 255 (1971). A fee structure which provides lower golf fees to women at any earlier age than to men does not seem to have any apparent rational basis for its existence. If no justification can be articulated for this benefit to women (and discrimination against men), the fee structure must be changed to eliminate any distinctions based on sex of the golfer.

Age discrimination. Discrimination based on age is more and more becoming the object of legislation. Legislation which prohibits age discrimination in employment is now found at both the state and federal

levels. MCLA 423.301 et seq; MSA 17.458 (1) et seq; 29 USCS 621 et seq. However, each of these legislative efforts clearly establishes age-based classifications related to retirement age. The Michigan Fair Employment Practices Act prohibits age discrimination only against those between the ages of 18 and 60. MCLA 423.303(a); MSA 17.458(3a). The Age Discrimination in Employment Act of 1967 protects only those individuals between 40 and 65 years of age. 29 USCS 631.

Reduced golf fees to retired citizens is easily justified as a way of recognizing the reduced income of retirees and the increased need for regular physical activity after retirement. This legitimate public purpose of encouraging the health of our senior citizens can be accomplished by establishing a particular age at which reduced fees will be available.

If, indeed, it is determined that it is desirable to provide reduced golf fees either to children or to senior citizens, it remains only to establish the particular cut-off ages. However, this office sees no legal difficulty with a recreational fee schedule which treats individuals under 18 years of age and/or individuals over 55 years of age different from those between the ages of 18 and 55.

In addition, there is nothing to prevent the Council from requiring strict equality of treatment for all ages in fee schedules if it determines that such action is wise.

Respectfully submitted,

PETER HOUK,  
City Attorney,

To the Honorable Mayor and  
Members of the City Council  
Lansing, MI

Gentlemen:

I herewith report that I have submitted to the City Assessor an itemized list of a tree cut and removed from private property in the amount of \$290.00, for the year 1976, for special assessment on Tax Roll 35-T.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Received and placed on file.

March 26, 1976

The Honorable Mayor and  
Members of the City Council  
City Hall

Gentlemen:

I attach copies of Michigan Civil Rights Commission Notices of Disposition Com-

plaint Numbers 25206, 25259, 26906, and 27311. These complaints alleged two violations because of sex and two because of sex and National Origin by the City of Lansing.

I am pleased to report that the Commission, after lengthy investigations, has ordered all four complaints against the City be dismissed.

Respectfully,

D. J. BODWIN,  
Personnel Director.

Received and placed on file.

March 31, 1976

Councilman Louis Adado and Members

Public Safety Committee

Lansing City Council

Gentlemen:

As the present lease for the hangar and office utilized by our Helicopter Patrol Unit expires at midnight on March 31, 1976, it was necessary to renegotiate for new quarters.

Attached is a lease which becomes effective April 1, 1976, and was written for a three-month period, expiring June 30, 1976, the period for which the Unit has been refunded.

We are requesting that your body approve this lease and forward it to the Mayor and City Clerk for their signatures.

Please note this represents a reduction of approximately \$338 per month over the former rental rate.

Any consideration you may give this request will be greatly appreciated.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee on Buildings and Properties.

March 31, 1976

Councilman Lucile Belen

Chairman

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit from the Baptist State Convention of Michigan, scheduled for Saturday, May 8, 1976, beginning at 4:00 P.M.

You will note this application has been approved by all necessary department heads. Our Traffic Bureau estimates this parade

will cost the City a total of \$245.56, which represents ten police officers, one sergeant and eleven motorcycles for 1½ hours.

This is being forwarded to your committee for final action.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee of the Whole.

#### REPORT OF COMMITTEE

The Committee of the WHOLE, to whom was referred the request for permission to parade from the Baptist State Convention of Michigan on May 8, 1976, reports as follows:

The Committee recommends permission be granted inasmuch as the application has been approved by all necessary department heads, and the Committee recommends further that the parade be under supervision of the Lansing Police Department.

Signed:

TERRY J. McKANE,  
ROBERT J. HULL,  
WILLIAM A. BRENKE,  
LOUIS F. ADADO,  
RICHARD J. BAKER,  
Committee of the Whole.

By Councilman McKane—

That the report of the Committee be adopted.

Subject: B-76-529 Clay Sewer Pipe

Gentlemen:

Attached is the tabulation of two bids for the purchase of clay sewer pipe for the 1976 Construction Season, which were opened at 3:00 P.M., E.S.T. on Tuesday, March 30, 1976.

Two bids were received for clay tile. The low bidder, Grand Ledge Clay Product Company, was restrictive in that we would be required to take a 24,000 lb. minimum delivery load. Our requirements for clay tile are less each year, so it is our recommendation based on usage to award the bid to Darling Builders Supply to pick up the few items we need locally from them.

Respectfully submitted,

VAUGHAN L. McKINCH,  
Purchasing Director,

ROBERT R. BACKUS,  
Public Service Director.

Referred to Committee on Public Service and Highways.

#### REPORT OF COMMITTEE

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the recommendation of the Purchasing Director and the Director of Public Service that the bid be awarded to Darling Builders Supply for the purchase of clay sewer pipe for the 1976 Construction Season, reports as follows:

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

Attached is a telegram from David P. Dunbar, for the Incorporators of Bellefonte

Glass Corporation, which was received by my office on Thursday, April 1. Basically, the matter sought in this telegram is based on your upcoming decision pertaining to the John Bean Building, so I am forwarding the matter to you for reply.

In regard to the last paragraph of the telegram, I will forward the assessment procedure used by the City of Lansing, as based upon State law, and the anticipated millage rate, after the school millage vote is determined on April 13.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Buildings and Properties.

**THE PUBLIC MAY NOW ADDRESS THE CITY COUNCIL ON ANY OF THE FOLLOWING RESOLUTIONS. YOU MAY SPEAK ONLY FOR 3-MINUTES ON ANY ONE RESOLUTION. (1 through 13).**

No persons spoke.

#### RESOLUTIONS

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the proposed Contract Agreement between Consumers Power Company and the City of Lansing for furnishing natural gas to the Wastewater Treatment Plant for a period of one year, and thereafter from month to month in accordance with the terms of the Contract, be approved, and

That the Mayor and City Clerk be authorized to sign this Agreement upon certification of the City Controller as to the availability of funds, and after approval as to form by the City Attorney.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

Whereas the Michigan Department of Natural Resources has given notice of a proposed wastewater facilities plan of study area for the City of Lansing and vicinity and suggested that governmental units within the proposed study area review and comment upon the map; and

Whereas only one Step 1 facilities planning grant will be made for the area, and

Whereas after review, it seems logical that the City of Lansing being more involved with potential problems should be designated as the lead applicant for the Step 1 grant,

Now Therefore be it resolved that the City Council of the City of Lansing requests the designation of the City of Lansing as the Step 1 grant recipient for this study area and also concurs with the limits of the study area as shown on the map.

Be It Further Resolved that said City Council of the City of Lansing agrees to pay the local costs from the Waste Water Treatment Fund Balance, required to prepare the proposed Step 1 wastewater facilities plan.

Be It Further Resolved that the Director of Public Service is and has been authorized to file all of the necessary application data for the Step 1 facilities planning grant, and

Be It Further Resolved that the Program Coordinator be requested to assist the Director of Public Service in the preparation of this Grant application.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

That the appointment of Argelio B. Perez to the Advisory Board of Continental Cablevision of Lansing, Inc., be confirmed.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing lies within Ingham and Eaton Counties; and

Whereas, the major portion of the City of Lansing lies within Ingham County; and

Whereas, the Ingham County Health Department wishes to extend its jurisdiction throughout all of Lansing; and

Whereas, the extending of the jurisdiction of the Ingham County Health Department throughout the City of Lansing would make more uniform the application of the health laws; and

Whereas, the City of Lansing has statutory authority under 1927 PA 306 being MCLA 327.205a; MSA 14.165(1) to contract with Ingham County for Ingham County to

assume the health jurisdiction of the City of Lansing; now, therefore,

Be It Resolved that the City of Lansing enter into a contract with Ingham County whereby Ingham County would assume the health jurisdiction of the City of Lansing, and be it further

Resolved that the Mayor and City Clerk are hereby directed to sign said proposed contract on behalf of the City of Lansing after the contract is signed by the Chairman of the Ingham County Board of Commissioners and by the Ingham County Clerk.

Adopted by the following vote:

Unanimously.

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

Whereas, the Council has officially established an internal policy which requires that all concerned Council members be provided the opportunity to interview all prospective board and commission appointees, prior to a confirmation vote by the Council; and,

Whereas, the Mayor is required by the City Charter to make a substantial number of appointments to city boards and commissions;

Now, Therefore, Be It Resolved that the attached "Board Questionnaire" be required to be completed by each and every citizen who may appear before the committee of Council, and Council members for interview prior to appointment and/or confirmation to city boards or commissions.

By Councilman McKane—

That the resolution be tabled for one week.

Lost by the following vote:

Yeas: Councilmen Adado, Blair, Brenke, McKane—4.

Nays: Councilmen Baker, Hull—2.

By Councilman Baker—

That the resolution be amended by inserting the word MAY after "Board Questionnaire."

Carried.

The resolution as amended lost by the following vote:

Yeas: Councilmen Baker, Blair, Hull, McKane—4.

Nays: Councilmen Adado, Brenke—2.

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

Whereas, the Council has officially established an internal policy which requires that all concerned Council members be provided the opportunity to interview all prospective board and commission appointees, prior to a confirmation vote by the Council; and,

Whereas, the Mayor is required by the City Charter to make a substantial number of appointments to city boards and commissions;

Now, Therefore, Be It Resolved that the attached "Policy Guidelines," numbers 1-18, being extracted verbatim from the City Charter, and numbers 19-22, are adopted as Council policy in regards to the selection and appointment of Lansing citizens to all boards or commissions appointed by the mayor and confirmed by Council.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Hull, McKane—4.

Nays: Councilmen Adado, Brenke—2.

By Committee on Public Safety—

Resolved by the City Council of the City of Lansing:

Whereas, the original construction of the Lansing City Hall and Police Building did not provide for an audible alarm system to facilitate emergency evacuation of these buildings; and

Whereas, the lack of an audible alarm system for the evacuation of the City Hall and Police Building in case of fire or other emergency poses a serious threat to the safety and well-being of employees and the general public; and

Whereas, the Fire Prevention Code of the City of Lansing and the Michigan Occupational Safety and Health Act both require buildings of the design and occupancy of the City Hall and Police Building to be equipped with an audible alarm for the purpose of evacuating the building in case of fire or other emergency;

Now, Therefore, Be It Resolved that the Purchasing Director, with the cooperation of the Fire Marshal, the Safety Director, and the Director of Public Service, prepare specifications and request proposals for the acquisition and installation of an appropriate audible alarm system for the City Hall and Police Building; and

Be It Further Resolved that the Fire Marshal and the Safety Director conduct periodic system tests and fire drills and furnish instruction and educational materials to employees regarding the proper procedures for emergency evacuation of the City Hall and Police Building.

And Be It Finally Resolved That this be referred to the Committee on Buildings and Properties with the requesting that committee to make a affirmative report to the City Council within one week.

Adopted by the following vote:

Unanimously.

# REPORTS OF CITY OFFICERS AND BOARDS

April 5, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Robert J. Williams when police damaged door when forcibly entering a dwelling to serve a warrant

Dear Mayor and Council:

The above referenced claim was received by this office March 9, 1976.

On February 26, 1976, two Lansing police officers, Donald Dunham and Richard Shuler, went to 1316½ Case Street to serve a warrant. Officer Shuler had probable cause to believe that the subject of the warrant was residing at that address. Further, he had heard a voice within the apartment so he knew it was occupied at that time. The officers knocked upon the door and identified themselves. When no one answered them, the apartment was forcibly entered, causing \$22.00 in damages to the door. They searched the premises for the subject of the warrant but were unable to find her; the occupant of the apartment informed them that she was in the hospital.

The forcible entry was lawful under Michigan law. MCLA 764.21; MSA 28.880. Similar cases of forcible entry have been upheld. United States v Alexander, 346 F 2d 561 (C.A. 6, 1975); cert den, 382 US 993; 86 S Ct 575; 15 L Ed 2d 480 (1966); United States v Wood, 341 F 2d 103 (C.A. 6, 1975).

Therefore, it is the recommendation of this office that the claim be denied.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney.

Re: Claim of Herman Hills for return of \$40.00 bond

Dear Mayor and Council:

Mr. Herman Hills has sued the City of Lansing for the return of a forty dollar (\$40.00) bond allegedly posted by him on November 29, 1975, to ensure his appearance in the District Court. Mr. Hills has a receipt for the bond issued to him by the Lansing Police Department, a copy of which is attached. Also, the records of the Court show that he did appear on the charge within the allotted time.

Therefore, it is the recommendation of this office that Mr. Hills be reimbursed the \$40.00 upon receipt from him of a stipulation to dismiss his suit.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney and the City Clerk be authorized to draw a warrant on the City Treasurer in the amount of \$40.00 payable to Herman Hills upon receipt from him of a stipulation to dismiss his suit.

Carried.

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit for the Liturgical Commission —

Diocese of Lansing, scheduled for 6:30 P.M. on Saturday, May 1, 1976.

You will note this application has been approved by all necessary department heads. Our Traffic Bureau estimates it will cost the City a total of \$297.80, representing nine police officers, one sergeant and ten motorcycles for two hours.

This is being forwarded to your Committee for final action.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request for permission to parade from Liturgical Commission — Diocese of Lansing, starting 6:30 p.m., on May 1, 1976, reports as follows:

The Committee recommends permission be granted the application having received the approval of the necessary department heads, and the Committee recommends that the parade be under supervision of the Lansing Police Department.

\* Re: Repair Sewage Lift Stations

Gentlemen:

The dual lift pumps at our Potter Park Pavilion Sewage lift station have ceased to operate. They are in need of overhaul and repair.

The Public Service Department makes weekly inspections of our three separate installations in the park. Robert Corbit has informed us that his personnel could pull the pumps, make the repair and bill

us, but they could not furnish us with an estimate. He recommended R. S. Bennett Company, a representative of Smith and Loveless to pull, inspect and provide us with an estimate of cost.

A purchase order for \$100 was processed to R. S. Bennett Company to inspect and they have determined the cost will be \$350 per unit or a total of \$700.

The only available Potter Park account where this charge can be made is in the Operating Supplies Account. This account will have only \$1,400 for supply needs until June 30, 1976.

I am requesting transfer of \$700 to cover the costs of this repair. Our only alternative will be to close the rest rooms in the Pavilion.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation Department.

Re: Softball Umpiring

Gentlemen:

With the continuing increase in the number of softball teams (over 300 in 1976) the Department of Parks and Recreation has considered many approaches for improving efficiency in the scheduling of games, umpires, fields, etc. After study of other cities' methods I have proposed to the Park Board a system of contracting with an incorporated agency for the umpiring of league games.

Advantages include a saving to the city in the direct payment of social security taxes; a reduction in the number of umpires which should result in an improvement in the quality of officiating; and most important, the continued availability of umpires who would have previously been terminated in compliance with the City Council Policy on Unemployment.

Overall cost of the program, including payment to the agency, will not exceed the current budget appropriations for softball officiating.

I would appreciate your prompt examination and approval of this proposal.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation Department.

Re: Kingsley Park Development

Gentlemen:

Grables, Mills and Young, (GMY) Landscape Architects were contracted by the city in February, 1976, for updating the Kingsley Park Master plan; and for providing a detailed breakdown of anticipated costs. This has now been completed.

Funds for the first phase of improvements are available in various Kingsley Development accounts. Planned are general grading, the entrance drive and parking lot, walkways, lighting, and seeding lawn areas.

I would appreciate authorization to prepare a contract with GMY for the development of specification drawings and documents. This will include the inspection of all work done by contractors. Fees for this service are based on a percentage, and are in accordance with standard schedules for landscape architects.

I would appreciate authorization to proceed with the development of the required contracts.

Sincerely,

Gentlemen:

Attached is the tabulation of two bids for bituminous aggregate and bituminous concrete, which were opened at 3:00 P.M., E.S.T. on Tuesday, April 6, 1976.

In as much as we purchase these products only when our own asphalt plant is not operating, we would like the latitude of being able to purchase material from either Rieth-Riley Construction or Spartan Asphalt Paving. The advantages of this would be the job site in relation to the closest asphalt plant. The reduction in travel time would offset the highest bids over the lowest.

Z-8-76  
 3315 South Cedar Street  
 Honorable Mayor and Members  
 of City Council

The Planning Board at their meeting of April 6, 1976, recommended that the peti-

tion by Darrol G. Meese to rezone property at 3315 South Cedar Street from "E-1" Drive In Shop District to "F" Commercial District be approved, providing that a fencing and screening plan is submitted to, and approved by, the Planning Department where the property abuts residential uses.

The Board found that the change is in conformance with the Master Plan and is located within the existing strip commercial development along South Cedar Street. The change will merely allow an expansion of commercial development, which is similar to other development in the vicinity.

This recommendation was by unanimous vote (6 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Z-9-76

1215 West Holmes Road

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of April 6, 1976, recommended that the petition by John O. Dykstra of Jack Dykstra Ford, Incorporated, to rezone property at 1215 West Holmes Road from "A-1" Family Residential, "J" Parking, and "E-2" Drive In Shop districts to "F" Commercial District be approved.

This recommendation of approval is subject to review and approval of the site plan by the Planning Department. Said site plan shall include landscape, screening and fencing and review of ingress and egress to the site by the Traffic Engineer. And, further, review of drainage plans by the City Engineer.

The Board found that this change of zoning is in conformance with the South Logan Street Land Use Policy Plan, and believes that if proper steps are taken to screen the property from the adjacent residential development that any adverse affects will be minimal.

This recommendation was by unanimous (6 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

1800 East Grand River Avenue

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of April 6, 1976, recommended that the petition by the Mid-Michigan Chapter of the American Red Cross to rezone property at 1800 East Grand River Avenue from "D" Apartment and "J" Parking districts to "D-1" Professional Office District be approved.

This recommendation of approval was subject to site plan review by the Planning Department, which shall include an adequate landscape, screening, and fencing plan for the entire site.

The Board found, based on testimony and evidence, that the requested change of zoning is in keeping with the overall zoning pattern of the immediate vicinity and would allow reasonable expansion of an existing use.

This recommendation was by unanimous (6 yeas, 0 nays) vote.

The Planning Board, at their meeting of April 6, 1976, recommended that the petition by John and Joseph Polack to rezone property at 5301 and 5311 South Pennsylvania Avenue from "J" Parking and "F" Commercial districts to "G-2" Wholesale District be approved.

This approval was given subject to a screening plan for the easterly property line being submitted to, and approved by, the Planning Department. The Board believes that the proposed change will allow reasonable expansion of an existing use without seriously affecting adjacent residential development.

This recommendation was by unanimous (6 yeas, 0 nays) vote.

Honorable Mayor and

Members of the City Council:

As you are aware, there is a resolution on the agenda from Mr. Ed Vogt, the Chairman of Economic Development Corporation, expressing the intent of EDC with regard to the John Bean property.

To insure that each member of the City Council and the public at large are fully aware of the steps that have been taken up to this point by both EDC and the Council's Committee on Buildings and Properties, I am attaching to this letter for your information a copy of a draft resolution which reports some of the thoughts of our committee with regard to John Bean property.

It is being submitted at this time as a matter of information so that you may have an opportunity to review the events and to discuss them with your colleagues and the public in general and to be fully informed of the events as it is anticipated that Council action will be required in the near future.

Very truly yours,

April 12, 1976

Fellow Members of the City Council:

For the past year and a half I have represented the City of Lansing on the Tri-

County Regional Planning Commission. During this period I have carefully and, I hope, judiciously attempted to always equate Lansing's interest in relationship to the Region.

However, recently because of the turbulence within the present administration of TCRPC I consider my effectiveness to have been appreciably reduced as a result of that turbulence and what appears to me to be a lack of responsiveness by the administration to my requests to the administration as a commissioner.

I presently serve as treasurer and chairman of the finance committee. In validation of my lack of confidence in the TCRPC administration, I provide the following example. Last month the Commission received an audit report, with exceptions, from the accounting firm of Layton and Richardson. This audit report was not forwarded to the treasurer or to the chairman of the finance committee or to any other member of the finance committee until the very evening of the Commission meeting when the report was to be acted upon. However, the commission staff had possession of this audit report at least two weeks prior. This last minute action request is symbolic of administrative procedure by the Director and his administrative staff.

Another example is that the 1976 Overall Work Program had as a top priority item the coordination of three Lansing LEAA police program grants and the 911 emergency telephone system in this region. Up to this point I am unaware of any efforts on the part of the Tri-County Director or his staff to effect regional cooperation, adaptation and/or expansion of these grants to broaden and utilize them throughout the Tri-County area. The aforementioned examples of noncooperative support to commission members and a lack of responsiveness to commissioner concerns do not permit me as an elected official to provide that degree of overview necessary to insure that the most effective use is made of the extensive federal and state dollars managed by the Director and his staff.

I hereby officially tender my resignation as the City of Lansing representative to the Regional County Planning Commission, this resignation is effective this date, however, I will continue to serve until City Council determines my replacement.

I further recommend that in the City Council's deliberation on the TCRPC request for funding that Council require that TCRPC implement whatever administrative changes are necessary to bring about a more cooperative and responsive administration.

Sincerely,

JAMES D. BLAIR,  
Councilman-at-Large.

Referred to Committee of the Whole.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
Tenth Floor—City Hall  
Lansing, Michigan 48933  
Dear Mr. Mayor Pro-Tem and  
Council Members:

On March 29, 1976, the Contractual Budget Review Board met to discuss the resolution which created this Board. During this meeting, the issue of the dollar limitations of the Board was raised. Three major points have been identified for your consideration:

- (1) Reductions of an agency's overall budget, through a drawback of over \$2,500 or \$1,000 for any line item requires action by the Council. I recommend that the Board be allowed to approve any drawbacks regardless of amount.
- (2) The \$2,500 overall and \$1,000 line item units allow only minimal latitude in the Board's authority. Larger contracts will result in minor line item changes having to still run through the contract amendment process. I am recommending that the limit be raised to \$5,000, with the following provisions:
  - a. The Board, on smaller contracts, will determine the impact of requested changes under \$5,000; in those cases where a major impact is determined, the Board will refer to the amendment to Council for action.
  - b. Personnel will not be allowed to increase without Council approval. Equipment will not be allowed to increase without Council approval.

I strongly feel that the Board should be composed of five members, instead of the three designated in the resolution. I propose a Board of the following individuals:

- a. Mayor (or his representative)—Chairman
- b. Executive Assistant to the Mayor for Community Development — Vice Chairman
- c. The City Controller (or his representative)—Recording Secretary.
- d. The Director of the Human Resources Department—Member
- e. The Director of the Housing and Redevelopment Department—Member

I request your immediate consideration of these suggested changes. Mr. Orrin Sharp, Executive Assistant to the Mayor for Community Development, Mrs. Jacqueline Warr, Director for Human Resources, Mr. Ronald

Stonehouse, Director for Housing and Redevelopment, and Mr. James Olson, Community Development Fiscal Officer, are all in concurrence with these recommendations. We feel that your timely adoptions would benefit all.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Finance.

April 6, 1976

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
Tenth Floor—City Hall  
Lansing, Michigan  
Dear Mr. Mayor Pro-Tem and  
Council Members:

The following is an excerpt from my State of the City Message, date of January 13, 1975:

"Over a decade ago, the State of Michigan initiated plans for an aggressive building program in the heart of downtown Lansing to consolidate its numerous offices and departments into a single State governmental complex, capped by a new State Capitol Building. During this time frame it has been represented by concerned individuals on the State level that all principal State offices would eventually be located in this downtown complex. A Secondary Complex, being developed outside of the City of Lansing, would then be utilized only for warehousing and certain other supportive facilities which were not suited for a downtown location. To that end, the State purchased approximately 55 acres directly west of Lansing's Central Business District to locate these contemplated State buildings. The last building was completed in 1968, and as of this date, 44 acres remain vacant with no construction or development of these parcels realistically foreseen in the coming years. Conversely, approximately 4,000 State employees will shortly be working in the Secondary Complex and housed in new buildings thereby depriving the City of desperately needed income tax revenues from these individuals. This vacant land is valued at approximately \$5.7 million and it has left an unsightly scar in the heart of our City. Moreover, contrary to City ordinance which the State has not seen fit to comply with, blocks of this land have been turned into gravel parking lots and left unpaved in opposition to normal requirements followed by property owners within the City. Not only has the situation created an unsightly geographical location for adjacent property owners, it has also deprived the Central City area of the thousands of displaced residents, the property taxes they would pay and

the accompanying potential for future growth and development.

I am of the opinion that this state of affairs cannot be allowed to persist and generate further intensified development in the suburban areas, with shallow promises for the Central City. The State of Michigan has a Constitutional obligation, and indeed a moral one, to locate State agencies within the City of Lansing. This inaction and procrastination should be challenged by the City through a law suit requesting judicial assistance in ordering the State to locate new construction in the complex area and decrease future development in the Secondary Complex area. The City Council should move forthwith to direct the City Attorney to explore the legal ramifications of such a course of action."

Eventually, you instructed the City Attorney to abide by my recommendation and the City of Lansing proceeded into Circuit Court. In the matter of the City of Lansing v Administrative Board, et al, the City of Lansing did fairly well. Unfortunately, you did, upon the recommendation of the City Attorney, two weeks ago, recommend to the Circuit Court that the suit be dismissed "without prejudice." Regarding this matter, a copy of the communication to you from City Attorney is attached.

The City Attorney has now discovered, and this has been confirmed to me by a representative of the State of Michigan, that the Bureau of Workmen's Compensation has moved out of the City and is holding hearings in the Secondary Complex. Michigan Compiled Laws Annotated clearly requires this governmental agency to be located "in Lansing." Therefore, I am recommending that you immediately instruct the City Attorney to return to Circuit Court in behalf of the City of Lansing in opposition of the move on the part of Workmen's Compensation and in behalf of the requirements of law.

Be further advised, that the Governor's Ad Hoc Committee on State Buildings and Offices Location, also, opposed Workmen's Compensation leaving the City of Lansing. That Committee has submitted a final report to Governor William G. Milliken, of which I was privileged to help draft.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Dear Mayor Pro-Tem and  
Council Members:

In the past, I advised you that a Federal Grand Jury had indicted former Model Cities employee Morris Kinsey. One of the matters involved, centered around church pews, which were purchased by the so called "Dr." Morris Kinsey through Model Cities, using federally allocated funds.

Regarding this matter, the following is an excerpt from a recent communication from Thomas W. Dawson, Assistant United States Attorney, United States Department of Justice:

"... Please be advised that the jury returned a verdict of guilty on all counts against Morris Kinsey on December 16, 1975. Subsequently, Mr. Kinsey was sentenced to a term of nine months to be served in a federal institution, followed by two years of supervised probation."

The aforementioned is forwarded to you for informational purposes.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

I am in receipt of a letter from the Tri-County Emergency Medical Service Council dated March 24, 1976 informing this office that their Council Board of Directors has allocated \$43,700.00 from the Robert Wood Johnson Foundation to assist in the conversion and installation costs for the tri-county 911 system.

The above allocation is in response to a proposal submitted to them by the City of Lansing requesting \$47,271.00 for conversion and installation costs. The Council felt that they could not allocate more than \$43,700.00 at this time but that additional funds might become available and consideration could be given to funding an additional amount.

The Council will reimburse the governing board for documented expenditures as they are incurred for conversion and installation costs of the 911 system not to exceed \$43,700.00.

Mr. Edward B. McRee, Chairman, expressed the appreciation of the members of

the Council for work done by the City of Lansing for the input and advances toward the 911 system.

A copy of the letter from Mr. McRee is being forwarded to Mr. George Lokken and to Chief Gleason of the Police Department for action.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Chief of Police.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

A few weeks ago two City Council members indicated that Community Development (C.D.) citizen participation activities for the entire City of Detroit were handled by one Citizen Participation Coordinator. Since City of Detroit has been selected as a comparison to C.D. operations in the City of Lansing, I asked the Office of Community Development to investigate the City of Detroit's Community Development Program to determine what their citizen participation support activities actually entailed. A copy of a report prepared by Mr. John Whitworth of the Office of Community Development is enclosed as ATTACHMENT 1.

An analysis of the O.C.D. report clearly points out the following:

a. The City of Detroit's Development Division which is responsible for citizen participation activities, has eight full time employees whose salaries range from \$24,000 to \$26,000 per year. Six of these individuals are project coordinators responsible for coordinating all of the activities of the various Citizen District Councils (C.D.C.s).

b. There are a total of seventeen C.D.C.s presently operating in the City of Detroit, with more to be added at a later date. Each C.D.C. has its own operating budget, ranging from \$20,000 to \$103,000 per year. Each C.D.C. is provided with a full time staff, totaling sixty-eight individuals in support of all seventeen C.D.C.s.

c. Citizen participation activities are allocated 3.48% of their total Community Development Block Grant funds for administrative and operational purposes.

For months now the Office of Community Development has been registering its concern about insufficient staff to support citizen participation activities. It is incomprehensible that anyone could even suggest

that one individual is sufficient to support the entire citizen participation activities for the City of Lansing's Community Development Program.

In time, we will have a total of four Citizen District Council and one Citizen Coordinating Council. Two Citizen District Councils are currently operating, on the Eastside and the Westside. The Eastside Citizen District Council has requested that appropriate action be taken to activate the Citizen Coordinating Council as soon as possible now that there are two Citizen District Council in operation. This is not to mention the various neighborhood organization meetings that should be attended by a representative of the Citizen Participation Division of the Office of Community Development. If Citizen Participation is to be taken seriously by the City of Lansing, then it is incumbent upon City Council to recognize the need now and take immediate steps to provide adequate staff to the Office of Community Development.

If the City of Lansing were to approximate the Detroit allocation of funds for citizen participation, at 8% of our grant allocation for FY 77 this amount would be \$203,440.

You will find at ATTACHMENT B a copy of the basic areas of responsibilities and duties of the Citizen Participation Division of the Office of Community Development.

I recommend that immediate action to expand the Citizen Participation Division of the Office of Community Development as shown in the proposed organization chart enclosed as ATTACHMENT C. City Council may decide that additional staff provided should be obtained through interoffice transfers from other C.D. funded department employees. Should this be the case, your recommendation will be needed as to where such individuals could be transferred from. If this method is used the Office of Community Development should have the prerogative of interviewing individuals recommended for transfers to determine if they are qualified to accomplish the tasks they will have to perform. If qualified personnel are not available, then additional personnel should be authorized to be brought on board. Personnel selected must be qualified to perform immediately, there is no time to train individuals over a six month period, as suggested by one Councilman, without continuing to jeopardize the Community Development Program. Should we have to bring new people in, the cost would be \$42,856 for wages plus \$7,694 for fringes. One of the general Clerk IB positions showing on the chart is currently a CETA employee. In checking with the City's Manpower Office, both CETA Title II and Title VI Programs have been frozen. No further hiring under CETA can be accomplished at this time.

Since citizen participation activities are at their maximum during the formulation of each new Citizen District Council in their formulation of their Physical Development Plans, and the establishment of the Citizen Coordinating Council is required at

this time, it is important that these individuals be provided without delay to assist with the present work load the Office of Community Development is now facing.

I remind you that at the time the organization structure for the Office of Community Development was approved, the Office of Community Development staff did not exist and therefore, was unable to represent its needs at that time. No doubt the balance of staff structure as provided under the Community Development ordinance is not apportioned properly. There may also be some duplication of effort. I will be making recommendations to you in the near future concerning the revision of the present Community Development ordinance. In the meantime, we cannot afford to allow our citizen participation activities to suffer from lack of adequate support.

Your cooperation and early action in this matter will be appreciated.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
Tenth Floor—City Hall  
Lansing, Michigan

Dear Mr. Mayor Pro-Tem and  
Members of the Council:

On Monday, April 5, 1976, you had before you a Resolution from the Committee on Personnel, recommending that you concur in the filling of certain positions, previously kept unfilled by the Job Moratorium Committee. The Resolution dealt with positions in the Parks Department and the Police Department. During your deliberations, it was moved that there be a division of the vote, separating the vote on the positions for the Parks Department from those of the Police Department. In accordance with Council Rule 38, such as permitted. After an affirmative vote to fill the Parks Department positions, Councilman Baker then moved to table the balance of the Resolution. As Mayor, I ruled that the move to table would also include the rest of the Resolution. The City Attorney advised that the Mayor was "wrong" and you proceeded to table what I referred to as "a one-half Resolution."

Contrary to the snap judgment of the City Attorney, please be advised that I based my decision, which was accurate, on the following:

(City Council Rule 33)

"A decision to lay upon the table shall

carry with it all the questions to which it is attached . . ."

(Mason Manual of Legislation Procedure)

(Matters adhering to questions when laid on the table. Section 388)

"1. When a question is layed on the table, the principal motion, together with all of the incidental and subsidiary motions connected with or adhering to it, are laid on the table with it."

In short, and as I ruled on Monday night, the total Resolution from the Personnel Committee has been tabled.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

Please be advised that I have recently received a communication from Mrs. Rose

Hourani, a member of the Planning Board, stating that she must resign as a member of this Board due to ill health. Therefore, I am submitting the name of Esther Canja for your consideration and confirmation to fill the vacancy for the term ending June 30, 1976.

Mrs. Canja was graduated from the University of Michigan with a BA Degree in Journalism, and attended graduate school at both the University of Michigan and Michigan State University. She is employed as Coordinator of the Lansing Education Center for the Area Agencies on Aging Association. Mrs. Canja is a Consumer Member of the Physical Health Committee of CACHPA; an elected board member of the Mid-South Michigan Health Systems Agency; a member of the Citizens Advisory Council for the Tri-County Regional Planning Commission and their representative to A-95; a member of the County Board of the Office for Young Children, Urban League Guild, and the Northeast Neighborhood Association. She is a past member of the School District Instructional Council for the Family Child Service Board.

Mrs. Canja resides with her husband, Alex, and their three children at 1401 N. Fairview.

Trusting this recommendation meets your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Planning.

#### RESOLUTIONS

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That the lease between the City of Lansing and Vector Construction, Inc., for hangar and office space to be utilized by the Helicopter Patrol Unit, effective April 1, 1976, for a 3-month period expiring June 30, 1976, at a rental of \$370.00 per month for said term, be approved, and

Further that the Mayor and City Clerk be directed to execute said lease on behalf of the City of Lansing upon approval by the City Controller as to availability of

funds. Said lease has been approved by the City Attorney as to form.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That it is hereby determined to be a matter of public health and necessity to construct storm sewer, sanitary sewer leads, curb and gutter, and sidewalks in those areas where these improvements do not already exist, on S. Washington Avenue from approximately 500 ft. north of Miller Road to approximately 500 feet south of Miller Road, and that the construction of these improvements is hereby ordered.

And Further, that the cost of this construction which will be part of the project known as the Miller Road Widening, Phase I, Section II, PS 76076, be assessed to the benefited property owners and that the City's portion to be financed from Act 51 and the Urban-Systems funds.

The Department of Public Service is hereby directed to prepare as far as necessary, plans and specifications for this project and it is further directed to estimate in detail the cost of said project and furnish said information to the City Council.

Adopted by the following vote:

Unanimously.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Lansing City Demonstration Agency and its successor, the Human Resources Department, and Lansing Senior Citizens, Incorporated, a non-profit corporation, entered into a Contract on October 8, 1975, effective from October 1, 1975 through October 31, 1975; and

Whereas, the City of Lansing, through the Lansing City Demonstration Agency and its successor, the Human Resources Department, and Lansing Senior Citizens, Incorporated, amended and extended said Contract on October 31, 1975, through November 19, 1975; and

Whereas, Layton & Richardson, P.C., Certified Public Accountants, have determined that although total expenditures did not exceed the total Contract budget allocation certain line item expenditures were in excess of line item budget provisions; and

Whereas, Layton & Richardson, P.C., Certified Public Accountants, have deter-

mined that unless ratified by the City Council of the City of Lansing certain line item expenditures should be considered ineligible costs because they were in excess of those provided in the Contract budget, now, therefore, be it

Subject: B-76-533 S. Penn. Ave. & Other  
Sewer Construction

Gentlemen:

Eight bids for the construction of the South Pennsylvania Avenue and Other Sewers, PS 67034, were opened at 3:00 P.M., E.S.T. on Tuesday, April 6, 1976.

We recommend acceptance of the low bid submitted by the Glen Mauldon Construction Company in the amount of \$59,079.00 and an additional 15% for contingencies in the amount of \$8,861.85, making the total amount authorized \$67,940.85.

Respectfully submitted,

VAUGHAN L. McKINCH,  
Purchasing Director,

ROBERT R. BACKUS,  
Public Service Director.

Referred to Committee on Public Service and Highways.

April 14, 1976

Honorable Mayor  
and City Council  
City Hall  
Lansing, Michigan

Subject: B-76-512 Ferric Chloride

Gentlemen:

Two bids for the purchase of ferric chloride were opened at 3:00 P.M., E.S.T. on Tuesday, March 16, 1976.

We recommend the low bidder, Pennwalt Corporation, at \$100.00 per ton plus freight of .35 per cwt. in 60,000 lb. loads. The other bid was from Ashland Chemical at \$118.10 per ton; this figure includes the freight and was only firm until March 30, 1976. We have delayed awarding this bid because once the new equipment is operational at the Wastewater Treatment Plant we may change to a different chemical process. However, due to delays we will

need to purchase ferric chloride for some period of time. Terms are Net 30 Days.

Respectfully submitted,

VAUGHAN L. McKINCH,  
Purchasing Director,

ROBERT R. BACKUS,  
Public Service Director.

Referred to Committee on Public Service and Highways.

#### REPORT OF COMMITTEE

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the recommendation of the Purchasing Agent and the Director of Public Service that the low bid submitted by Pennwalt Corporation for the purchase of Ferric Chloride at \$100.00 per ton plus freight of .35/cwt in 60,000 lb loads, be accepted, reports as follows:

The Committee concurs in the recommendation of the Purchasing Director and the Director of Public Service.

Signed:

Honorable Mayor Gerald W. Graves and  
Members of the Lansing City Council  
Gentlemen:

Subject: Proposal for Short-term Lease  
received from Harold Davenport

Attached you will find a copy of a proposal we have received from Harold Davenport. In summary, Mr. Davenport has requested that the City of Lansing lease him six hundred (600) square feet of land located at the northeast corner of the intersection of Ottawa Street and the Washington Square Mall so that he could operate a portable fast food concession stand. Please refer to his proposal for additional details.

Also attached you will find the following items:

1. The comments of Alan Tubbs, Planning Director, regarding this proposal.

2. A draft of a lease agreement that could be used between the City and Mr. Davenport.

Please note that this proposal is acceptable to this department only if it is clearly understood that this is a temporary usage, subject to termination on ten (10) days written notice if the operation creates problems of litter or trash.

Elsewhere on the City Council agenda you should find the recommendation of the Washington Mall Advisory Board regarding this proposal.

Sincerely,

RONALD G. STONEHOUSE,  
Housing and Redevelopment  
Director.

March 15, 1976

Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

The Michigan Department of Highways and Transportation has adopted "Uniform Criteria for Major Streets," and has requested that each city prepare a plan to meet the criteria in an orderly fashion. Act 51 of the Public Acts of 1951, as amended, provides that the State Highway Commission "shall approve such part of (the) system of major streets as complies with uniform standards and specifications adopted and established . . . and shall reject and delete any part that does not so comply. . . ."

Attached is a list of revisions to existing parking regulations necessary to bring Lansing's major street system in compliance with the uniform criteria. Items 24 and 25 are the policy the Traffic Department will follow in relation to parking adjacent to intersections and in relation to existing angle parking on Lansing streets.

The Traffic Board voted 7-0 to recommend to City Council that a resolution be passed concurring with these revisions, and setting the date of December 1978 for completion of the required revisions.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severly,  
Secretary.

April 9, 1976

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

Late last year, the City Council had an opportunity to reduce the administrative costs of the Community Development Program by terminating the BILD Corporation contract and assuming its responsibilities by designating the Housing and Redevelopment Department as the City agency to continue the program until completed. Had that course of action been taken a considerable amount of administrative funds could have been saved. The acquisition and demolition of properties in the Capitol Commons area continues. However, no proposals have been received by me indicating that any positive action has been taking place to sell those properties purchased by the City of Lansing for redevelopment purposes.

Now, the City Council Committee for Community Development is reviewing the possibilities for bringing activities of the Housing Assistance Foundation into the City's Community Development structure. Services now being provided by the Housing Assistance Foundation could be provided by the Housing and Redevelopment Department and the Human Resources Department with slight increases in each of those staffs. Additionally, it would not be necessary to pay the high salaries which are now being paid to some staff members of the Housing Assistance Foundation.

If City Council is truly interested in decreasing the administrative costs of the Community Development Program, I suggest that you take a very close look at the various projects that are being proposed for refunding. Hard decisions have to be made now, or the cost of administration will never be reduced until a matter of absolute necessity. The Community Development Program will require, by fund limitations in future years, that services be cut. Trimming back should be a gradual process to avoid undue hardships upon employees of the program.

Sincerely,

GERALD W. GRAVES,  
Mayor.

April 13, 1976

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

I have been informed that some members of the City Council have been approached to support the addition of new Human Resources projects to the Community Development Program. These new proposals have been brought to the attention of the Human Resources Advisory Board during its last board meeting. These new proposals were ranked as follows:

a. Health—High

- (1) National Board of Alcoholism Project
- (2) Mental Health proposal from the Latino community

b. Recreation—medium

- (1) Bootstrap International, Inc., for Preserve our Parks
- (2) Boys Club proposal

c. Education—medium

- (1) Request for summer of 1976 classes for children at Woldumar Nature Center.
- (2) Cultural proposal from the Boarshead Players in the Fines Arts Center.

d. Crime Prevention—low

Probation expansion proposal from District Court 54 A

## e. Counseling—low

## Women Referral Center—O.E.O.

There are several points that I would like to bring to your attention. First, Human services activities have been increased in the past by increasing the number of projects through the use of residual funds left over from other human services projects. As each of these new project's contracts expired it then became necessary for City Council to decide whether or not these projects would be continued. City Council should be very cautious about adding new projects to the program knowing full well that we will have a problem in the years ahead when attempting to gear down the program.

Secondly, Community Development funds are currently being used to deliver services outside areas where physical activities are going on. This could well be in violation of the Federal Regulation after Fiscal Year 1976. It will be necessary to pull back our services and provide them to clients only in the areas where Community Development physical activities are being conducted, or will be conducted. The fact that the Human Resources Department currently has had difficulty in pulling back their services and adapting them only to the approved Community Development areas, indicates that we may already be over funded in human services for activities to be conducted in approved areas. Further, since a properly constructed survey has not been completed by the Planning Department, appropriate human services needs have not been identified

in any of the C.D. areas where physical activities are taking place, or will take place. It is possible that it may be necessary to increase services in those areas not yet properly surveyed, if so where do these funds come from? It also would be appropriate to know just exactly what the needs are in each of the target areas identified in the Community Development Program. It appears that all of the Neighborhood District Areas are not being completely served at this time and that it may be necessary to expand services on the East, North, and South sides of the City.

Thirdly, once the needs have been identified, it is appropriate to go out with a public announcement on the needs that have been identified, and ask for a Request for Proposal for services to be provided on a competitive basis from individuals, or organizations, that are qualified to perform these services. It is incumbent upon the policy makers and administrators of the City of Lansing to get the maximum amount of services for the funds available, and the best way to do that is to use the competitive Request for Proposals process as required in Federal Management Circular 74-7, Attachment 0.

Fourthly, the City Council Committee for Community Development recently took funds from Public Improvement projects to finance the continuation of the Northside Athletic Recreation Club, Y.W.C.A., Girl Scouts. The Human Resources Department claimed that they had enough residual funds

in the FY 76 program to finance the aforementioned projects. The only problem was that they did not know exactly how much, therefore the C.D. Committee decided not to leave these projects hanging and wanted to fund them immediately. Indications at that time were that, when the residual amounts became known, funds would be put back into the project from where they were taken. That situation remains to be resolved. Officially, whenever a project has funds which become excess, they are normally placed back into the total program in the contingency account. The same should apply to Human Resources Department excess funds, they should be placed back into the General Program accounts and not automatically reprogrammed into current human services newly devised projects.

Federal Regulations require that when new and different projects are offered, a mid-program year amendment must be prepared and submitted to HUD. We are now faced with the prospect that the emphasis of the Community Development Program housing strategy has changed from one of rehabilitation to acquisition. This may be entirely undesirable just as it might be undesirable to change the program from one of housing and redevelopment to one of human services. The possibility exist that with the addition of more projects, it may be necessary to increase City staff administrative costs.

It is my belief that we should not increase human services anymore than they already are unless we have an opportunity to make a small in-kind contribution to obtain other additional funds from outside sources.

Another fact that must be considered is that the Citizens' District Councils have not had an opportunity to express their desires. The Physical Development Plan for Neighborhood Development Area No. 1 should be completed on, or about, May 3, 1976. Shortly thereafter the Citizens' District Council No. 1 will be faced with the problem of determining what human services they believe are necessary to support the physical activities going on in their neighborhood. Where will these funds come from? I suggest to you that human services residuals, or excess funds, should be retained for that purpose.

Before any additional funding is given to the Human Resources Department for new projects, I recommend that the Human Resources Department Director be asked to prepare a report, after making some real value judgments, on the merits of some of the existing projects. Evaluation reports indicate that some projects have a great deal of adjusting to do in providing clients services in Community Development areas where physical activities are going on according to the percentage of Community Development funds provided for those particular areas.

Therefore, before City Council is stampeded into making some irrational decisions concerning the expansion of human services activities in the City of Lansing, I recommend that a very definitive determination of the needs be achieved prior to any de-

cision making on the Council's part. Also, City Council should take a very good look at the apportionment of services that are being provided with C.D. funds in the four neighborhood district areas. Further, extreme caution should be exercised not to expand human services activities just for the sake of spending funds when in the near future it will be necessary for the Human Resources Department and the City Council to start cutting back on services to stay within the Federal allocation of our Community Development Program. Those hard decisions will be coming in the near future and I hope that we can start trimming back soon over a long period of time to avoid bringing any unnecessary hardship to bear upon individuals that are currently employed under the program.

Sincerely,

GERALD W. GRAVES,  
Mayor.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, Mrs. Vivian Eisele of Lansing Chapter Eight was recently elected Michigan's first woman commander to head activities for the Department of Michigan, Disabled American Veterans; and

Whereas, Commander Eisele joined the Women's Army Corps (WAC) in October 1944, assigned to the Army Air Force's first WAC Training Center at Fort Des Moines, Iowa, and later transferred to Atlantic City and Bowman Field, and

Whereas, while at Bowman Field, Louisville, Kentucky, Commander Eisele was made adjutant of headquarters and became one of only two WACs to receive the Commendation Ribbon from that command; and

Whereas, Commander Eisele was transferred from Bowman Field to Mitchell Field, New York; she volunteered to go overseas and was assigned to occupation duty in Japan at the 8000th Detachment in Yokohama; and

Whereas, due to medical reasons, Commander Eisele returned to the United States in 1947 where, after being hospitalized, she was awarded the World War II Victory Medal, the Good Conduct Medal, a Commendation Ribbon, Army of Occupation Ribbon for Japan, and the American Theatre Ribbon; and

Whereas, Commander Eisele joined the Disabled American Veterans in 1947 while a patient at Percy Jones Hospital in Battle Creek. In 1954 she was elected the first woman chapter commander in the State. She was advanced in rank until she took

over top command as leader of the State of Michigan;

Now, Therefore, Be It Resolved that the Mayor and City Council of the City of Lansing, Michigan, join the citizens of Lansing and the State of Michigan in according the highest praise and congratulations to Mrs. Vivian Eisele upon being elected Commander of the Department of Michigan of the Disabled American Veterans; and

Be It Further Resolved that copies of this resolution be transmitted to Commander Eisele, her family, and the Disabled American Veterans in testimony thereof.

Honorable Mayor and Members  
of the Lansing City Council  
Lansing, Michigan

Re: Baker v City of Lansing et al  
Docket #76-18744-CZ

Dear Mayor and Council:

On April 15, 1976, plaintiff in the above captioned matter instituted suit against the City of Lansing and certain other named officers and members of the Lansing City Council alleging that the City acting through said officers and officials wrongfully terminated his employment with the City.

The plaintiff in this matter is presently a member of the Lansing City Council. Lansing Charter, ch 7, §7.7(a) provides that the Department of Law shall be directly responsible to the City Council. Inasmuch as both the plaintiff and certain defendants are members of the City Council, a conflict of interest would arise as a result of the foregoing in the event that I or any member of my staff were to defend this matter.

Therefore, it is the recommendation of this office that Mr. Dan E. Hankins be retained to defend this matter at a rate of \$40.00 per hour. This amount represents the average hourly rate which is charged by the local legal community. Further, our public officers' liability insurance carrier has been advised of the

above case, and we will seek reimbursement from the carrier for any attorney fees incurred in this matter which exceed the \$5,000 policy deductible.

Trusting the foregoing recommendation for outside counsel meets with your approval, I remain

Respectfully yours,  
PETER HOUK,  
City Attorney.

By Councilman Blair—

That Councilman Baker be excused from voting.

Carried.

By Councilman Blair—

That we concur in the recommendation of the City Attorney.

Re: Ice/Tennis Complex Change Order

Gentlemen:

The South Washington Park Ice/Tennis Complex is approximately 50% completed with opening anticipated some time early this summer.

In order to continue with orderly construction I am requesting approval of a contract change order with Granger Construction Company. This would authorize ten minor construction modifications as recommended by the architect. Several of

these were requested by the Building Department, while others reflect desired changes in materials.

The total increased cost is \$1,207.55. Appropriations in the 170-699-000-818 Ice Rink Development account have been retained for contingencies of this type.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks

Re: Park Naming

Gentlemen:

In March the North Lansing Community Association requested that the Park Board consider naming the recently acquired North Lansing Dam site after John Burchard. Mr. Burchard was a pioneer of Lansing who built the areas first log cabin at a site near the present dam.

In compliance with this request, and being consistent with established practice for naming parks, the Board did approve this name designation.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks  
and Recreation.

Re: Canoe Concession.

Gentlemen:

The Park Board has reviewed a proposal to grant concession privileges for Canoe Livery at Potter, Moores and Riverfront Parks in 1976. At the April 21, 1976 regular meeting the Board endorsed the concept and recommended its approval to the City Council.

A contract would be prepared covering liability insurance, maintenance, hours, safety, cost to the public, etc. For authorization of this service the city will be guaranteed \$200 or 12% of gross sales, whichever is greater.

I would appreciate your approval of this concession service, and the authorization to draft with the City Attorney the appropriate contract documents.

Sincerely,

Re: Trash receptacles on golf courses.

Gentlemen:

The Park Board, at the April 21, 1976 meeting, authorized the installation of trash receptacles on the Golf Tees at the four city courses. These receptacles are being supplied, and will be maintained by AD-PAK of Michigan. There is no cost to city for these containers.

Attached to each receptacle, along with a diagram of the hole and related golf information is a 4" x 5" space for advertising. AD-PAK will sell this space to local merchants.

Installation is scheduled to start in May.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Re: May Planning Board Meeting.

The Planning Board members agreed, at their April 20, 1976 meeting, to alter the date of the regular May meeting. The date has been changed to one week later, Tuesday, May 25, 1976.

The Committees of the Board will hold meetings on the following dates:

Zoning and Ordinance Committee —  
Thursday, April 29 at 5:15 p.m.

Urban Development Committee —  
Tuesday, May 18, 1976 at 7:30 p.m.

These meetings will be held in the Planning Conference Room, Second Floor, Washington Square Annex.

Sincerely,

ALAN E. TUBBS,  
Secretary  
Lansing Planning Board.

P-2-76

Provincial House Subdivision

Preliminary Plat

Honorable Mayor and Members of  
City Council:

The Planning Board, at their meeting of April 20, 1976, approved and recom-

mended to City Council that the preliminary plat of Provincial House Subdivision be given tentative approval subject to the following conditions:

1) That the final plat be developed with all public improvements required by the Lansing Subdivision Regulations and the Michigan State Plat Act.

2) That the easterly lot lines of Lots 1, 2, 5 and 6 be brought into conformity with the zoning of the site.

3) That lots 1 and 2 be re-oriented with the proposed street of Provincial House Drive and that there be recorded on the face of the final plat a restriction prohibiting vehicular access to Aurelius Road from Lots 1 and 5.

4) That the street name be cleared with the Tri-County Regional Planning Commission.

5) Subject to approval a blanket landscaping and buffering plan to be submitted by the developer.

6) That the developer utilize an underground electrical distribution system, as specified in Section 37-33 of the Lansing Subdivision Regulations.

7) That the necessary easements be provided for the installation of utilities.

8) Subject to the approval of a storm drainage plan by the Public Service Department.

9) That this tentative approval of the preliminary plat is valid for a period of one year from the time of the final approval being given by the Lansing City Council.

Approval of this plat will allow for the development of office buildings on Lots 1, 2, 5 and 6, and residential development on Lots 3 and 4 and a Nursing Home on Lot 7.

There were four persons at the April 20, 1976 public hearing who expressed concern with screening and drainage of the area.

This recommendation is made with a 6 yeas, 1 nay vote.

Sincerely,

ALAN E. TUBBS,  
Secretary  
Lansing Planning Board.

Referred to Committee on Planning.

April 22, 1976

Dear Mayor Graves and Members  
of the City Council:

The Planning Board, pursuant to your resolution of February 23, 1976, Revision of Phase I of the CIP Planning and Bud-

getting Process (see attachment), has formulated a set of City Wide Goal Statements and corresponding Developmental Objectives for your review and consideration. According to the above mentioned resolution, items number six (6) and seven (7), the City Council must conduct at least one (1) Public Hearing within one month but not sooner than fifteen (15) days after public notice of the Public Hearing. In order to facilitate and expedite the CIP Planning and Budgeting Process, the Planning Board recommends Monday, May 24, 1976, as the Public Hearing Date.

During the time period April 26 to May 24, 1976, the City Council via its committees will examine and evaluate the attached Goals and Developmental Objectives. In addition, see item six (6) of the above mentioned resolution, the Planning Board will send copies of the Goals and Developmental Objectives to all City Departments, Agencies, and Boards, and to major interest groups in the community including labor, neighborhood groups, business and industry. The purpose of this activity is to solicit public comments prior to the Public Hearing and/or request the Public's presence at the Public Hearing.

Once the Public Hearing has been conducted, the City Council will consider all public and departmental comments concerning the proposed Goals and Developmental Objectives, then formally adopt those Goals and Objectives as amended within two (2) weeks from the date of that Public Hearing.

Subsequent to the adoption of those Goals and Objectives, the Council by resolution will direct those appropriate City Departments, Agencies and Boards to collect and analyze data that is pertinent to those Goals and Objectives (see items eight (8) and nine (9) of the attached resolution).

The Planning Board considers the attached Goals and Developmental Objectives a good basis from which to proceed with Phase I of the CIP Planning and Budgeting Process as revised. The Planning Board therefore requests the City Council to act on the following items as soon as possible:

(1) Set a Public Hearing Date.

(2) Decide on the manner in which you will review the Goals and Developmental Objectives between April 26 and the Public Hearing date you set.

Your immediate attention on this matter is essential to the implementation of a responsive Capital Improvements Program to meet the needs of the City of Lansing.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Dear Mayor Graves and Members  
of the City Council:

Pursuant to the purpose and functions of the Capital Improvements Program Planning and Budgeting Process and in response to the City Council resolution concerning the proposed Public Works Legislation, the Capital Improvements Program Technical Coordinating Committee (CIP-TCC) on March 25, 1976, formulated a recommended Public Works Shopping List of CIP projects. This Shopping List was transmitted to the Planning and Public Service and Highways Committees of Council, Mr. George S. Lokken and the Planning Board on March 30, 1976.

The Planning Board, on April 20, 1976, unanimously approved the Public Works Shopping List (attached) with one concern. Project Number 11, Board of Water and Light Generator—\$500,000. This project requires the purchase of equipment. It is the opinion of the Board, based on the information available at this time, that equipment is not an eligible expenditure under the proposed legislation.

The Planning Board commends the CIP-TCC for its diligence in expediting the development of the Public Works Shopping List and hopes this type teamwork and coordination will continue to improve the CIP Planning and Budgeting Process.

The Planning Board remains available to assist you at your convenience.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Honorable Mayor Graves and

Members of City Council

City Hall

Lansing, Michigan 48933

Dear Honorable Mayor and Members of  
City Council:

At its meeting of April 20, 1976, the Lansing Planning Board considered proposed state legislation which would regulate the placement of residential facilities, licensed by the State of Michigan, within cities, villages, counties and townships. Specifically, the Board considered Substitute House Bills 4896, 4893 and 4894, and House Bills 6094 and 6095 which, if enacted would diminish the city's authority to regulate the placement of residential facilities, licensed by the State, within the City. Currently this placement requires a Special Use Permit.

These bills have passed successfully out of the House Committee on Towns and Counties and are scheduled for second order special reading before the House on April 29, 1976. Rep. Hollister (D-57th District) estimates that these bills have a 40% chance of achieving final passage.

The purpose of the bills in the 48 series is to prohibit discrimination against persons needing adult and youth community residential care (foster care). The bills provide that a residential facility licensed by the State which provides supervision, care or both to six (6) or less persons shall be considered a residential use and shall not be subject to a Special Use Permit.

The 48 series of bills does not become effective until H.B.'s 6094 and 6095 become law. These bills provide that a City can file, with the Director of the Michigan Department of Social Services (DSS), a complaint calling for suspension, denial or revocation of a residential facility's license if (1) it violates the provisions of the licensing acts (PA's 116 and 287), (2) two facilities are located within a 1200 foot radius of one another, or, (3) it violates a local ordinance (e.g. building codes, fire codes, etc.).

It must be stressed that these bills apply only to the Michigan Department of Social Services licensed facilities for children and adults which house six or less persons. They do not apply to DSS licensed facilities which house more than six persons nor do they apply to facilities not licensed by DSS (e.g. facilities for ex-offenders and substance abusers). The special use permit process of the city would still apply in these latter two instances.

The proposed bills do overcome some of the shortcomings noted by the City of Lansing in previous versions of the legislation. It must be stressed, however, the local control is severely diluted by these bills. While the bills provide that no two DSS licensed homes can be within a 1200 foot radius of one another there is no prohibition against locating one DSS licensed home within a 1200 foot radius of a non-licensed halfway facility. In other words, the problem of concentration of residential facilities within a small area is not necessarily overcome by the legislation. Of major significance is the fact that the legislation fails completely to create a forum through which the residents who will potentially live in the area surrounding a licensed residential facility can officially air their opinions regarding the placement of the facility. Our past experience with the citizenry indicates that such a forum is essential.

It is highly probable that following after the passage of this legislation further bills will be introduced which create the same licensing approach for other types of residential facilities, eventually making the SUP go out of existence.

For the reasons stated above, it is our opinion that the City should oppose passage

of this legislation and communicate this opposition to the legislature.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Legislative Coordinator, Legislative Liaison Committee and Committee on Planning.

April 26, 1976

To the People of the City of Lansing:

In accordance with the provisions of Section 8.3 of the City Charter, the City Council has reviewed and analyzed the Mayor's recommended budget for the fiscal year 1976-77. After more than sixty hours of review over the past five weeks, the City Council submits the attached budget with supporting schedules and information to you for your review and comment.

The proposed budget and supporting documents will be available as a public record for your inspection in the office of the City Clerk on the ninth floor of City Hall, in the Lansing Public Library at 401 S. Capitol Avenue and at the Jolly-Cedar

Branch of the Public Library at 5132 S. Cedar Street.

The public hearing for this proposed budget will take place at the beginning of the regular Council meeting at 7:30 p.m., on Monday, May 10, 1976, in the Council Chamber on the tenth floor of City Hall. The Council will approve the final budget for the fiscal year 1976-77 at its regular meeting on Monday, May 17, 1976.

Since the Mayor made his budget recommendations to the Council on March 22, 1976, the Council has been informed of a \$33,000 reduction in State Equalized Valuation (S.E.V.) revenue and a \$118,384 reduction in our Federal Revenue Sharing funds for the 7th Entitlement Period (six months ending 12-31-76). The Council has made several modifications to the Mayor's budget which allow us to recommend to you the same tax increase as suggested by the Mayor in spite of the above-mentioned reductions in revenues and in spite of the replacement of some items which the Mayor recommended be deleted.

The Council proposes to you a budget requiring a tax levy of \$13.23 per thousand dollars of assessed valuation. \$11.75 per thousand is required for carrying out normal City operations, and the remaining \$1.48 per thousand is for the retirement of debts incurred as the result of bond issues voted by the citizens. This represents a recommended increase of \$1.90 per thousand dollars of assessed valuation. Such an increase will represent a partial reinstatement of the \$2.01 per thousand decrease in the 1973-74 fiscal year and only a \$.43 per thousand increase over the 1971-72 rate.

It should be noted here that the total projected General Fund revenues (excluding debt service and Revenue Sharing) for the 1976-77 fiscal year is \$25,223,667 and that the projected General Fund expenditures (excluding debt service and Revenue Sharing) for the same year is \$26,840,489, thereby requiring that \$1,616,822 be transferred from the Fund Balance in order to balance the 1976-77 budget. This transfer will leave \$2,977,923 in the Fund Balance on July 1, 1976.

Projecting an estimated \$5,450,665 excess of expenditures over revenues in 1977-78, we face the possibility of another \$1.50 per thousand increase that year with a zero level Fund Balance; therefore, the Council commits itself to the following actions for the 1976-77 fiscal year:

1. Continued control and restraint in the purchase of maintenance and operating supplies.
2. Continued strict personnel hiring moratorium controls.
3. Continued strict purchasing moratorium controls.
4. Continued efforts to utilize Federal and State funding wherever possible.
5. Continued efforts to establish work

standards criteria for our various departments through the Council's Internal Auditor.

6. Continued efforts to establish program budgeting procedures within our departments in order to be able to relate programs and expenditures to one another in a more direct and accurate manner, the Fire Department's proposed budget being a good example.
7. Investigating the advisability of changing the Council's vehicle policy in order to reduce the size of the City's automobile fleet.
8. Investigating the advisability of consolidating most or all of the City's maintenance personnel and functions.

Your City Council recommends a General Fund Budget for the 1976-77 fiscal year as follows:

1. General Operations .....	\$26,174,104
2. Capital Improvements (General Fund) .....	394,000
3. Emergency Fund .....	272,385
Total General Fund .....	\$26,840,489

In reviewing the Mayor's proposals for the General Fund, the Council recommends almost one hundred adjustments. Many are minor in nature and in amount. Others are worthy of mention here. The Council is adding \$10,000 to the Mayor's office in order to consolidate under the administrative control of the Mayor all conference and workshop requests by most departments. \$12,194 is added to the Assessor's office in order to reinstate a residential assessor position. \$70,000 is added to the Parks Department's budget so that a summer playground program may be provided in some form for the children and youth of Lansing. \$20,000 is added to the Police Department's budget to bring the account for overtime into line with past usage.

The decreases include \$9,542 from the Personnel Department with the deletion of one clerk position, \$60,930 from the Public Service Department with the deletion of one clerk, one office manager, one civil engineer, and two surveyor positions, \$34,157 from the Police Department with the deletion of the ICU Clerk, the CPU Clerk, a fingerprinting clerk, and the Legal Adviser (CETA), \$8,603 from the Building Department with the deletion of one clerk position, \$7,814 from the Parks Department with the deletion of the new assistant golf supervisor position, \$8,707 from the Data Processing Division with the deletion of one keypunch operator position, \$21,400 from the Central Garage account with a reduction in gasoline for the Police Department, and \$17,284 from the Parks Department with a reduction in the provision of neighborhood youth centers.

The Council concurs in providing operat-

ing funds for the new Kingsley Place Community Center and the new outdoor artificial ice rink at S. Washington Park and in providing groundskeeping money for the new Riverfront Park, the revitalized Benjamin Davis Park, and the Dodge Mansion Park.

In the City Supported Activities account, the Council recommends an appropriation of \$40,000 to the Tri-County Regional Planning Commission to allow Lansing's membership for all of the next fiscal year based on the "one-man, one-vote" concept of representation. The Council also recommends a \$4,000 appropriation to the Council on Alcoholism and a \$90,000 addition to the Mayor's recommendation for the Capital Area Transportation Authority (CATA) to bring Lansing's subsidy up to CATA's original request. The Council recommends a \$10,000 reduction in the proposed solid waste subsidy based on current usage.

In Capital Improvements, the Council recommends \$126,000 toward the acquisition of our new Washington Square Annex, \$83,000 to replace the Fire Department's twenty-one year old Pumping Engine #7, \$27,000 to replace an obsolete Fire Department ambulance, \$20,000 to provide a Park Department field office in the southern portion of the City for significant monetary savings in travel times for Park Department employees, \$23,000 for the completion of the Potter Park Zoo improvements, \$45,000 for the purchase of an emergency generator for the Police Building, \$25,000 for the City share of petitioned storm sewers, and \$45,000 for the purchase of fingerprint identification equipment for the Police Department. This represents a \$37,000 reduction from the Mayor's recommendations.

The Council recommends a \$272,385 Emergency Fund instead of the Mayor's proposed \$300,000 in order to stay within the Mayor's recommended tax increase. In the Non-General Fund budget, the Council's recommendations are almost precisely the same as the Mayor's.

In conclusion, your Mayor and your Council have spent hundreds of hours separately and together on this proposed budget and agree substantially on the need for a property tax increase of \$1.90 per thousand. Obviously, we would prefer not to recommend any tax increase, but fiscal prudence requires it, given spiraling costs and only slightly increasing revenues. Your Council pledges to all of the residents of Lansing our determination to do all in our power to bring costs down as much as possible and to find ways to increase revenues wherever and however possible.

Your Council expresses its sincere thanks to the Mayor and his Budget Review Committee, the Council staff, the department heads and their staffs, and all board and commission members who played a part in the preparation of this Budget. We feel that the long deliberations have produced a fiscal document which represents sensible progress for the City and which will serve the best interests of the people of Lansing.

Respectfully submitted,

Gentlemen:

Be advised that in accordance with Chapter 8, Section 8.3 of the City Charter the recommended budget of the Mayor together with his supporting schedules and the recommendations of the Council for the fiscal year of 1976-77 will become a public record in my office as of this date.

April 22, 1976

Honorable Mayor Pro-Tem and Members

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and Council Members:

Attached is the most recent communication from the U.S. Department of Housing and Urban Development advising that in excess of \$1,000,000 for social programs under the Human Resources Department are ineligible for funding, commencing July 1, 1976. Also, determined to be ineligible by HUD are the Commercial Rehab Loans and Grants in the amount of \$150,000 and the East Side Fire Station in the amount of \$60,000. Another \$20,000 for Code Enforcement may be declared ineligible. The basic reason for the decision by HUD is that the programs as submitted do not meet the necessary or appropriate provisions of the Eligible Activities Regulations of the Federal government. Too, public improvements and services must be included, besides social programs, and they must be of a nature which will arrest the decline of the areas involved.

Be further advised that a meeting has been scheduled for early next week with appropriate officials of the U.S. Depart-

ment of Housing and Urban Development to discuss the overall matter and to seek methods of re-submitting a re-programmed application. The major obstacle is one of time, inasmuch as the re-programming must be completed, re-submitted, reviewed and approved by HUD, within several weeks in order to receive funding effective July 1.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

April 22, 1976

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and Council Members:

On March 22, 1976, you directed me to sign a Grant Application (Comprehensive Planning Assistance 701 Program) in the amount of \$122,478 of which the Federal share was to be \$81,652, and the required City share totals \$40,826 of in-kind staff services to be provided by the staffs of the Finance and Planning departments. The Grant Application was apparently brought together by Program Coordinator, George Lokken, who was authorized to submit it, and all subsequent documents, to the Department of Housing and Urban Development.

Attached is a copy of a communication dated April 12, 1976, from the U. S. Department of Housing and Urban Development advising:

- That the funding level for Fiscal Year 1976 Comprehensive Planning Assistance has been cut back substantially from the Fiscal Year 1975 funding level.
- That the City Has been unable to achieve major objectives of its 701 assisted work programs during previous grant periods.
- That the National funding level does not permit realistic consideration of a request of the magnitude you approved and had submitted by George Lokken.
- That the activities you proposed for 701 funding does not fall within the scope of priority activities for which the Department may provide 701 assistance for Fiscal Year 1976.

The communication further advises that HUD has determined not to provide 701 assistance to support the City's proposed work program. HUD recommends a different approach which is contained in the last two paragraphs.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

Re: Carrousel Request  
Hal's Chuck Wagon Request.

Gentlemen:

The members of the Washington Square Mall Advisory Board reviewed the request of Larry Dodds to place an antique carrousel on the south-west corner of the 100 blk. of North Washington Avenue (Michi-

gan and Washington), and the request of Harold B. Davenport to place a fast food concession on the north-west corner (Ottawa and Washington).

There was considerable discussion involving effects of such use of the abutting properties on the use and maintenance of the Washington Square Mall. There was also concern that the food concession would be in competition with new and established food serving establishments.

It is the position and recommendation of the Board at this time, that such business activities have a place in supporting specific recreational, educational and cultural events on the Mall or in the immediate area, but that the Board does not feel that rental of the areas requested is in the best interest of the Mall for extended periods of time.

I am sure the members would be willing to discuss further details with you at your convenience.

Respectfully submitted,

THEODORE J. HASKELL,  
Chairman, Washington Square  
Mall Advisory Board.

Referred to Committee on Parks and Recreation.

The Committee on PARKS & RECREATION—to whom was referred the request of Larry Dodds to place an antique carousel on the 100 Blk. of North Washington, reports as follows:

The Committee concurs with the recommendation of the Washington Square Mall Advisory Board that such business activities are best in supporting specific recreational, educational, and cultural events on the Mall or in the immediate area and does not recommend rental of an area for an extended period of time.

Signed:

TERRY J. McKANE,  
JAMES D. BLAIR,

Re: Improvement of 100 block  
Parking Area.

Gentlemen:

At their meeting of April 13, 1976 the Washington Square Mall Advisory Board considered the following motion.

By Mr. Vlahakis:

"That the Washington Square Mall Advisory Board request the City Council to appropriate funds for the improvement of the block formerly known as the SPIRA MART block, the improvements to consist of resurfacing the parking area and appropriate landscaping."

1. To make a more attractive parking lot.
2. To make the whole Mall area more attractive by eliminating mud, dirt, and related problems that result from the unimproved condition of the lot.

Approved unanimously.

Your attention to this matter is requested.

Respectfully submitted,

Re: Request for use of Mall for  
lemonade stands.

Gentlemen:

The Washington Square Mall Advisory Board has reviewed the request of the 57th District Community Service and Referral Service to place lemonade stands in the 100 and 300 blocks of the Mall on three Fridays May 7, 14, 21st, for purpose of fund raising to finance distribution of information to public.

The Board recommends that City Council approve this request subject to city regulations on sale of food in public places and that suitable assurances be obtained that the areas would be cleaned up each day to prevent extra maintenance.

Respectfully submitted,

THEODORE J. HASKELL,  
Chairman, Washington Square  
Mall Advisory Board.

Referred to Committee on Ordinance and Contracts and City Affairs.

## REPORT OF COMMITTEE

Resolved by the City Council of the City of Lansing:

That the attached contract between the City of Lansing and Community Design Center be and is hereby approved.

That the Mayor and City Clerk be and are hereby authorized and directed to execute said contract, after approval as to its form by the City Attorney, and certification as to availability of funds by the City Controller.

Adopted by the following vote:

Yeas: Councilmen Adado, Baker, Belen, Brenke, Gunther, Hull, McKane—7.

Nays: Councilman Blair—1.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Human Resources Department, and the Youth Development Corporation, Inc. entered into a Contract effective from July 1, 1975 through July 31, 1975; and

Whereas, the City of Lansing, through the Human Resources Department, and the Youth Development Corporation, Inc. mutually agreed to amend and extend said Contract through August 31, 1975; and

Whereas, Layton and Richardson, P.C., Certified Public Accountants, have determined that, although total expenditures did not exceed the total budget allocation, certain line item expenditures were in excess of line item budget provisions; and

Whereas, Layton and Richardson, P.C., Certified Public Accountants, have determined that, unless ratified by the City Council of the City of Lansing, certain line item expenditures should be considered ineligible costs because they were in excess of those provided in the Contract budget; now, therefore, be it

Resolved, that the Contract budget be amended as follows:

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the Lansing Tri-County Regional Manpower Consortium have entered into an agreement to provide for the planning and delivery of manpower services pursuant to the Comprehensive Employment and Training Act of 1973, as amended, under Title VI, "Emergency Jobs Act," Contract No. 894.05; and

Whereas, the City of Lansing and the Lansing Housing Commission, Contract No. 894.051; Lansing School District, Contract No. 894.052; Capital Area Transportation Authority, Contract No. 894.053; Board of Water and Light, Contract No. 894.054; Lansing Community College, Contract No. 894.055; Greater Lansing Urban League, Contract No. 894.056; Safety Council of Greater Lansing, Contract No. 894.057; Community Design Center, Contract No. 894.058; Suitcase Theatre, Contract No. 894.059; Lansing Community Art Gallery, Contract No. 894.0510; Michigan Department of Natural Resources, Contract No. 894.0511; Center for the Arts, Inc., Con-

tract No. 894.0512; hereinafter referred to as subcontractors, have entered into an agreement to provide for the planning and delivery of manpower services pursuant to the Comprehensive Employment and Training Act of 1973, as amended, under Title VI, "Emergency Jobs Act;" and

Whereas, the City of Lansing has modified its Title VI contract, effective May 1, 1976, with the Lansing Tri-County Regional Manpower Consortium to recapture and reallocate residual monies; and

Whereas, the City of Lansing has modified its contracts, effective May 1, 1976, with the above named subcontractors to recapture and reallocate residual monies;

Now Therefore Be It Resolved, that the City Council approve said modifications and direct the Mayor and other City Officials to sign said modified contracts.

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the Lansing Tri-County Regional Manpower Consortium have entered into an agreement to provide for the planning and delivery of manpower services pursuant to the Comprehensive Employment and Training Act of 1973, Title II, Contract No. 878; and

Whereas, the City of Lansing and the Lansing Tri-County Regional Manpower Consortium have modified said Contract, effective May 1, 1976, to recapture and reallocate residual monies;

Now Therefore Be It Resolved, that the City Council approve said modification and direct the Mayor and other City Officials to sign said modified contract.

Resolved by the City Council of the City of Lansing:

Whereas, on April 19, 1976, the City Council passed a resolution to impose a hiring freeze on CETA, Title II positions, in order to provide an escrow of funds to insure that the City of Lansing incurs no financial liability for unemployment insurance; and

Whereas, the effective date of this freeze is April 8, 1976;

Now Therefore Be It Resolved, that the resolution be amended to include the following:

Any CETA, Title II positions vacant prior to April 8, 1976, are exempt from the freeze and may be filled.

Be It Further resolved, that the City Council approve the above stated amendment and authorize the Mayor and other City officials to sign said amended resolution.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has received notification from HUD that certain discretionary funds are available for Innovative Projects; and,

Whereas, one category of these Innovative Fund Projects has been identified as government productivity improvement grants under Title V of the Housing and Urban Development of 1970; and,

Whereas, \$1,000,000 has been allocated nationwide to provide 100% funding for approximately 10 projects which will demonstrate innovative methods for improving productivity in the delivery of public services; and,

Whereas, the City of Lansing believes that a study could be executed to evaluate the 54th District Court procedures to procedures to improve the quality of human services and refine the processing of court cases; and,

Whereas, it is believed that the results of such a study could result in improving the 54th District Court's ability to provide service to the City of Lansing; and,

Whereas, the judges and administrators of the 54th District Court have agreed unanimously to participate in such a study;

Now, Therefore, Be It Resolved that the Mayor of Lansing and the City Clerk are directed to submit an Innovative Projects Grant to HUD after approval by the City Attorney as to form; and,

Be It Further Resolved that should this grant be approved by HUD, the Mayor and Finance Director are authorized to sign any subsequent contract documents after approval by the City Attorney as to form; and,

Be It Finally Resolved that the Program Coordinator is authorized to transmit the initial grant and the subsequent contract to the appropriate HUD offices.

Adopted by the following vote:

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Tri-County Regional Planning Commission is currently discussing a revision to the bylaws of the Commission as pertains to representation and financial support; and,

Whereas, certain governmental entities have petitioned the Tri-County Planning Commission for voting membership; and,

Whereas, the total population of the Tri-County Region as of 1970 Census was 48,492 for Clinton and 68,892 for Eaton and 261,039 for Ingham for a total Tri-County population of 378,423; and,

Whereas, the current voting membership of Tri-County Regional Planning Commission consists of three votes each for Eaton, Clinton and Ingham Counties and the City of Lansing; and,

Whereas, Ingham County contains 70% of the total population of the Tri-County Region, however, Ingham County, to include the City of Lansing, are authorized only 50% of the total vote; and,

Whereas, the percentage of the vote processed by Ingham County and the City of Lansing is not a proportional representation of Ingham County and the City of Lansing, in relation to the entire region; and,

Whereas, the desired proportional vote held for Eaton and Clinton County would appear to violate and be in conflict of the "one man—one vote" or "taxation without representation" concept;

Now, Therefore, Be It Resolved that the City Council of the City of Lansing empowers the Lansing Representatives on the Tri-County Planning Commission to propose and support amendments to the current bylaws which will bring about a more equitable approach to proportional representation and proportional financial support for the Tri-County Planning Commission.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City Council did adopt a City of Lansing travel reimbursement policy on 3-11-74, and

Whereas, it is deemed desirable to revise the travel reimbursement policy to reflect the effect of inflation on travel costs.

Now Therefore Be It Resolved, that the City of Lansing travel reimbursement policy be amended to read as follows:

An employee shall not receive reimbursement for more than the amount expended.

All expenditures submitted for reimbursement shall be supported by receipts except where receipts cannot be reasonably obtained.

Expenditures not supported by receipts may be disallowed for reimbursement at the discretion of the Finance Director.

Mileage reimbursement shall be made at the rate of 15¢ per mile for both in the city and inter city driving.

Reimbursement for individual meals shall be allowed to a maximum limit within the state of \$2.50 for breakfast, \$4.00 for lunch and \$8.00 for dinner, and for Detroit and out of state of \$3.00 for breakfast, \$4.50 for lunch and \$9.00 for dinner.

The maximum daily food allowance of \$14.50 within the state and \$16.50 for Detroit and out of state may be utilized by the employee in any combination of meals, however, receipts must support the reimbursement requested.

Lodging shall be allowed to a maximum of \$22.00 per day in state and \$29.00 per day in Detroit and out of state.

Higher accommodation rates may be reimbursed with the prior approval of the Finance Director.

Air travel shall be reimbursed at the air coach rate.

No reimbursement shall be made for liquor, toilet articles, valet, reading material or other personal items purchased while traveling on city business as determined by the Finance Director.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing Negotiating Committee and the Negotiating Committee of Local No. 421 of the International Association of Fire Fighters, AFL-CIO, have completed good faith collective bargaining, and;

Whereas, the fruits of collective bargaining are specifically encompassed within the terms of a new two year contract between the parties, said contract having been ratified by a majority vote of the membership of Local No. 421 on April 19, 1976.

Now, Therefore Be It Resolved, that, the Mayor and City Clerk of the City of Lansing, Michigan, be, and they are hereby directed to affix their signatures to three

copies of said contract in the manner prescribed by provisions of the City Charter, as soon as printed documents are provided.

Adopted by the following vote:

Unanimously.

The following statement was given by Council Member Baker—

I will vote Aye on the Firefighter's Local 421 Contract renewal before us tonight. This contract has been ratified by the Firefighters Union and the City's negotiating team. As a member of City Council I feel obligated to vote for a contract which was ratified by these two groups. I will honor that commitment.

However, I am concerned about some of the contract provisions:

1. Retirement at age 50 after 25 years of service is a good and correct provision. Firefighters have one of the highest accident and mortality rates of any occupation. As these men age their susceptibility to disabling injuries and even death from heart attacks rises dramatically. I am in accord with contract provisions which recognize this and attempt to forestall this tragedy. However, to negotiate earlier retirement, to save lives, without requiring periodical medical and physical fitness tests other than at promotions, is playing Russian Roulette with a gun that's still loaded. For the safety of their fellow firefighters, the citizens of Lansing and the welfare of the firefighters' families, both the union and the city should have and must in the future insist on periodic medical exams and physical fitness tests to ensure that our firefighters live long enough to enjoy their pensions.

2. There continues to be no requirement that all firefighters attend and participate in ongoing training to ensure that their skills are constantly upgraded. Currently training is haphazard, honored more in breach than in actuality. Skill and knowledge are two of the firefighters most important protections in this dangerous and heroic profession. Yet the contract is silent on this.

3. I am completely dismayed by the revision of the promotion system for one which recognized not only seniority but also the qualifications, training and ability. The return to seniority as the only basis for promotion is not only ridiculous in the extreme, it is particularly dangerous to life, limb and property. It rewards, not hard work, not training, not skill, not individual initiative, but instead rewards being able to hang in there. The firefighters union states it has tried to work with a so called merit system for four years and in their estimation it hasn't worked. The Fire Board has not made any comments as to its workability although, it is evident from other sources that they realize it needs improvements.

What I find appalling is that rather than

try to correct a promotional system that had some problems, the entire system was scrapped.

This new system is bad for the fire-fighters, the city and the citizens of Lansing.

—It is discriminatory and negates any affirmative action program.

—No attempt was made to bring the fire board into the negotiations, yet they are by charter, in charge of Fire Department operations.

—No attempt was made to work out a modification of the present system.

—Lives and property may be endangered in the future.

So while I have misgivings about this contract I will vote aye tonight. I recognize to do otherwise would be a breach of ethics.

### CITY COUNCIL ROOMS

Lansing, Michigan

May 3, 1976

The City Council of the City of Lansing, Michigan, met in regular session and was called to order by Mayor Graves.

Present: Councilmen Adado, Baker, Belen, Blair, Brenke, Gunther, Hull, McKane—8.

Absent: None.

The Clerk announced that a quorum of the Council was present.

Invocation was given by Councilman Belen.

Pledge of Allegiance was given by Teresa Ann and Jeffrey Martin Campbell.

The record of the previous session was approved as printed.

City Clerk Fulton: This is the time set for the public hearing on the Proposed Physical Development Plan for the Westside Neighborhood Development Area No. 1. This hearing is to consider the Development Plan prepared pursuant to the requirements of 1945 Public Acts 344, as amended. The boundaries of the project are as follows:

Mayor Graves: It will be considered read if there are no objections.

City Clerk Fulton: The Proposed Plan contains provisions for the acquisition of 29 residential structures, 1 commercial structure and 6 vacant parcels. There will also be approximately 27 families relocated through the Housing and Redevelopment Department. The Plan also proposes the rehabilitation of 222 homes in the area, using a system of loans and grants to the homeowners. Public improvements will be done and they will include: street resurfacing and widening; sidewalk, curb and gutter repair; sewer separation and repair; tree planting, stump removal and infestation control.

Mayor Graves: Mr. Sharp, the Executive Assistant for Community development, will

now proceed with the introduction of exhibits.

Mr. Sharp: Thank you. This public hearing is being held in accordance with Act 344, Public Acts of 1945, as amended. It is known as the Blighted Areas Act. For the purposes of the record, I would like to introduce the following exhibits:

On Tuesday, March 30, 1976, a Preliminary Public hearing was held at Sexton High School. This hearing was given for the purpose of allowing the residents of the area a chance to comment on the Proposed Plan.

EXHIBIT No. 1 — is two sworn statements from Mr. Michael J. Smith and Mr. Randolph Hughes of the State Journal. These statements indicated that notice of preliminary public hearing was published once on Sunday, February 29, 1976, and again on Monday, March 1, 1976.

EXHIBIT No. 2—is the transcript of the preliminary public hearing and an affidavit signed by Miss Diane Belgard of the Office of Community Development stating that it is a true and correct copy.

EXHIBIT No. 3—is a sworn statement from Mr. Michael J. Smith in which he certifies that notice of this final public hearing was published in the State Journal on March 31, 1976.

EXHIBIT No. 4—is two affidavits from Miss Diane Belgard of the Office of Community Development which states that notice of this final public hearing was mailed to the residents and the last known property owners as shown by the records of the City Assessor's Office. The first mailing was done on April 5, 1976, and the second on April 28, 1976.

EXHIBIT No. 6—is an affidavit from Mr. John Whitworth of the Office of Community Development in which he states that he delivered copies of the Proposed Physical Development Plan to both City Public Libraries, the Gier Park Facility and the Humpty Dumpty Nursery. This was done to give residents and other interested parties a chance to review the plan prior to attending this Public Hearing.

EXHIBIT No. 7—is the approved minutes of the Citizen's District Council for NDA No. 1, which are certified as having been on file in the Office of the Lansing City Clerk. Attached to the minutes of the meeting held on February 17, 1976, is a letter from the Citizen's District Council to the members of the Lansing City Council in which they give tentative approval to the Proposed Development Plan.

EXHIBIT No. 8—is a certified copy of the boundaries of the District and Development areas for NDA No. 1 that have been on file at the City Clerk's Office.

\*(Give Entire Package to the City Clerk.)

I would now like to introduce Mr. James Spackman, Deputy Director of the Plan-

ning Department who will submit exhibits relating to the Plan.

(Mr. Spackman's Presentation)

Mayor Graves: If anyone in the audience would like to comment on the Plan, please step to the microphone and state your name and address. Please limit your comments to 5 minutes so that others wishing to be heard may do so.

The following persons spoke on the proposed physical development plan for the Westside Neighborhood Development Area No. 1.

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

On this date, Mr. Leonard Sawisch, representing the handicappers in our area, came to this office to advise they had a march scheduled down Michigan Avenue from East Lansing to the Capitol Building on Wednesday, May 5th. They have been advised by the State Highway Department that if they obtained a resolution from Council and hand carried it to the State Office in Jackson, they would receive State approval to travel down those portions of Michigan designated as State Trunklines.

To comply with City of Lansing requirements, attached is an application for a parade permit.

The handicappers are requesting your approval on Monday, May 3rd, so they may go to Jackson the next morning.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police,

ROBERT W. TUCKER,  
Assistant Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of Mr. Leonard Sawisch, representing the handicappers in this area, for permission to parade from East Lansing down Michigan Avenue to the Capitol Building on May 5, reports as follows:

The Committee recommends permission be granted with the understanding that the State Office of Michigan State Highway Department in Jackson, Michigan, will approve the parade on the State trunkline portion upon approval of this Committee Report by the City Council.

 Members of the Lansing City Council  
 Tenth Floor, City Hall  
 Lansing, Michigan 48933  
 Dear Mayor Graves, Mayor Pro-Tem  
 McKane and Council Members:

I hereby certify that the Amendment of the Contract between the Youth Development Corporation, Incorporated, and the City of Lansing (PN 131) effective from August 1, 1975, through June 30, 1976, has been properly submitted to you in conformance with Section 2A-11 of the Community Development Ordinance.

The modifications are both to the Scope of Services and budget. Most of the Scope of Services changes are to better define the desired services except for the part pertaining to the Youth Conservation Corps Program (YCCP). The YCCP is a new service and \$15,139.00 has been provided in the budget to match the grant from the State. The budget revision results in a reduction of \$1,317.00 from the original budget of \$181,374 to \$180,057.

The Contract Amendment does meet with the requirements set forth for certification pursuant to the above sighted Section.

Respectfully submitted,

ORRIN E. SHARP,  
 Executive Assistant to the  
 Mayor for Community  
 Development.

Referred to Committee on Finance.

 Dear Mayor Graves, Mayor Pro-Tem  
 McKane and Council Members:

I hereby certify that the Amendment of the Contract between Lansing School District and the City of Lansing (Teacher Corp—PN 25) effective from July 1, 1975 through June 30, 1976, has been properly submitted to you in conformance with Section 2A-11 of the Community Development Ordinance.

The modifications in the Scope of Services reflect negotiated changes in the HEW

grant that our money was matching. The budget will not be effected by these changes.

The Contract Amendment does meet with the requirements set forth for certification pursuant to the above sighted Section.

Respectfully submitted,

ORRIN E. SHARP,

April 23, 1976

The Honorable Mayor and  
 Members of the City Council  
 City of Lansing  
 City Hall  
 Gentlemen:

I make reference to H. R. 13040, second session, 94th Congress, in the House of Representatives introduced April 5, 1976, and referred to the Committee on Education and Labor. The proposed Act is cited as the "Public Service Employees Income Security Act of 1976," purports to provide for pension reforms for State and local public service employees and aims for an adoption date of January 1, 1977. Due to rather heavy constraints upon my available time now and probably for at least the near future, I am only able to briefly examine and hurriedly comment upon the proposed legislation. I feel that it would be in order for you to request a more detailed analysis of the Act from the Finance Director, Legislative Coordinator, City Attorney and perhaps knowledgeable officials of the National League of Cities prior to deciding what action, if any, the City of Lansing should take. I understand that copies of H. R. 13040 are available from the Finance Director.

My own recommendation is that the City of Lansing should go on record as opposing the proposed Act well in advance of the scheduled January 1, 1977, date of adoption by the Congress for the following reasons:

I — The short title of the Act is cited as the "Public Service Employees Income Retirement Income Security Act of 1976," and indeed, in voluminous detail, the body of the Act does embrace certain constraints upon Public Employee pension systems. However, under Definitions, Section 3, for purposes of this Act: the subsections plunge into a wide variety of "employee welfare benefit plans" including such divergent matters as, (A) medical, surgical, or hospital care or benefits, or benefits in the event of sickness, accident, disability, death or unemployment, or vacation benefits, Apprenticeship or other training programs, or day care centers, scholarship funds or prepaid legal services, or (B) any benefit described in Section 302 (c) of the

Labor Management Relations Act 1947 (other than pensions on retirement or death, and insurance to provide such pensions). In short, what purports to be a Pension Reform Act quickly becomes an omnibus Control Act covering apparently nearly all local public employee benefits excepting wages. I believe that, in this regard, the proposed Act covers even more areas than the existing ERISSA Act which has caused so much havoc in the private sector of employment during the past two years.

II — Under Section 2. (a) the Congress goes to great lengths to establish that employee benefit plans in the public sector "have become an important factor in commerce because of the interstate character of their activities and of the activities of their participants and the employers, employee organizations, and other entities by which they are established or maintained; that a large volume of the activities of such plans is carried on by means of the mails and instrumentalities of interstate commerce; that many such plans have increasingly relied on Federal funds to meet the costs of such plans." I have added the emphasis to the above quotes of the Act with a sense of amazement but in full realization of the authors' desperate attempts to establish an unrealistic aura of "interstate commerce" and "federal funding" in order to hopefully foreclose future legal challenge to the constitutionality of the intents and purposes of the entire Act.

III — Under Section 3, sub. 28, I quote the following wisdom, "The terminal funding cost method and the current funding (pay-as-you-go) cost method are not acceptable actuarial cost methods. The Secretary may issue regulations to further define acceptable actuarial cost methods." While the above is subject to interpretation, I believe it would make a lot more sense if we knew now what the Secretary's further definition of actuarial cost methods are, specifically.

IV — Under Section 103, sub. 3-H, "For purposes of the preceding sentence, the term "reportable transaction" means a transaction to which the plan is a party if such transaction is —

- (i) a transaction involving an amount in excess of 3 percent of the current value of the assets of the plan;
- (ii) any transaction (other than a transaction respecting a security) which is part of a series of transactions with or in conjunction with a person in a plan year, if the aggregate amount of such transaction exceeds 3 per cent of the current value of the assets of the plan;
- (iii) a transaction which is part of a series of transactions respecting one or more securities of the same issues, if the aggregate amount of such transactions in the plan year exceeds 3 per cent of the current value of the assets of the plan; or
- (iv) a transaction with or in conjunction with a person respecting a security, if any other transaction with or in con-

junction with such person in the plan year respecting a security is required to be reported by reason of clause (i)."

I regret that I am unable to translate Section 103 into a meaningful requirement of the Act which the City may sensibly respond to.

The foregoing represents a very brief synopsis of my partial analysis of some 87 pages of the proposed Act. As stated earlier, I believe the City should now initiate actions leading to a comprehensive analysis of the Act and seek the reactions of individuals possessing more expertise than I in order to develop an official pro or con reaction to the entire Act.

Respectfully,

D. J. BODWIN,  
Trustee, Employees Retirement  
System.

Honorable Mayor Gerald W. Graves and

Members of the Lansing City Council

Gentlemen:

Subject: Redevelopment Proposal received from FSB Development Company

The Housing and Redevelopment Advisory Board, at its meeting held on April 27, 1976, unanimously recommended that the Lansing City Council accept the proposal to purchase and redevelop Parcel 5 of Urban Renewal Project No. 2, Mich. A-6, recently submitted by FSB Development Company, of Lansing. This recommendation for acceptance was subject to the following conditions, which should be met by FSB Development Company prior to the issuance of a deed for this property by the City of Lansing:

1. Review and approval of site plan revisions requested by and acceptable to the Planning and Traffic Departments of the City of Lansing.
2. Review and approval of final architectural working drawings and specifications by the City of Lansing.

In addition, the Board recommended that City Council acceptance of this proposal be contingent upon the granting of waivers to certain portions of the City's somewhat outdated Zoning Code by the Board of Zoning Appeals.

The Board further recommended that the Housing and Redevelopment Director be authorized and directed to negotiate the terms and conditions of a Contract for Sale of Land for Private Redevelopment with FSB Development Company.

A review of the proposal submitted in-

dicates that FSB Development Company proposes to construct three free standing buildings, to be used as a drive-in banking facility, a professional office facility, and a commercial services building. Construction would be masonry-bearing, with structural steel roofs with built-up roofing, with an exterior of face brick and metal panels at the mansard roof. The balance of the site will be developed to provide customer parking.

Your prompt attention to these recommendations will be appreciated.

Sincerely,

HOUSING AND  
REDEVELOPMENT  
ADVISORY BOARD,  
Ronald G. Stonehouse,  
Secretary.

Honorable Mayor and

Members of City Council

Re: Planning for the Area between  
Riddle and Logan

Gentlemen:

The Kingsley Center Advisory Board is in the final stages of planning for the opening of Kingsley Center. We are concerned about the plans for the land east of our project between Riddle Street and Logan between Kalamazoo and Allegan.

The Community Development Council for Area I has plans for the south side of Kalamazoo Street but does not cover the area between Kalamazoo, Allegan, Logan and Riddle. We believe this area needs immediate attention if all of the other city activities in the area are to succeed.

As a community group we are willing to participate in any planning activities that must take place in developing a plan for improving the area.

We sincerely hope that you will share our concern.

Sincerely,

HILDA PATRICIA CURRAN,  
Vice-Chairperson,  
Kingsley Center Advisory  
Board,

IMOGENE RUFFIN,  
WILLIAM H. SMITH,  
WILLIAM UPDYKE.

## RESOLUTIONS

By Committee on Buildings and  
Properties—

Resolved by the City Council of the City  
of Lansing:

Whereas, the City of Lansing did lease the premises located in the County of Ingham, State of Michigan to Wit: That part of Lots 1 and 2, West of New York Central Railroad Right of Way, Block 23, Original Plat, Lansing, Michigan, to the Lansing Ice and Fuel Company, with their address at 911 Center Street, Lansing, Michigan, on May 15, 1975; and

Whereas, the Lease Agreement by and between the City of Lansing and Lansing Ice and Fuel Company, was for a term of one (1) year; and

Whereas, the term of the lease will expire May 14, 1976; and

Whereas, the Lansing Ice and Fuel Company has requested that the City of Lansing grant an extension of subject lease for one (1) additional year; and

Whereas, it has been determined that subject property will not be required for use by the City for the additional term,

Now, Therefore, Be It Resolved that upon approval of the Lease Agreement by the City Attorney, the Mayor and City Clerk will hereby be authorized and directed to sign the Lease Agreement by and between the City of Lansing and the Lansing Ice and Fuel Company.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and  
Highways—

Resolved by the City Council of the City  
of Lansing:

That the City Assessor be, and he is hereby directed, to spread on the December, 1976 tax rolls, the cost of correcting the hazardous and unsanitary conditions of properties in the year 1976, in the amount of \$375.00 as reported this date by the Building Commissioner, and as per attached list.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That the legal owner, Mrs. Lillian D. Hinds, legal owner of record, of the property located at:

6824 Richard Rd., described as:

Lot 30, except N. 16.28 ft., Supervisor's Plat of Elmview Subd., City of Lansing,

did submit a written request to the Building Commissioner to demolish and remove the one (1) family, fire damaged residence, fill and grade the site, and that all costs be applied to the property tax roll.

That the Building Commissioner be authorized to proceed with the demolition of said structure and the Purchasing Agent to proceed with obtaining quotations for same.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Moores Park Canoe Portage and Launch Facility have been approved by City Council and funds appropriated, and

Whereas, the City Purchasing Agent has advertised for bids and the Director of Parks and Recreation and Purchasing Agent have recommended acceptance of the low bid submitted by the Charles Featherly Construction Company in the amount of \$17,500. This cost is to be shared with the Department of Natural Resources on a 90-10 basis,

Now Therefore Be It Resolved, that the City Council approve the acceptance of the bid by Charles Featherly Construction Company, and

Be It Further Resolved that upon approval of the contract by the City Attorney, that the Mayor and City Clerk be authorized and directed to sign on behalf of the City.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Park Board has reviewed and approved a proposal to grant concession privileges for a Canoe Livery at Potter, Moores and Riverfront Parks in 1976; and

Whereas, such a service would increase the recreational opportunities available to the public and is in accordance with overall plans for developing recreational use of our rivers;

Now, Therefore, Be It Resolved that the City Council approves the proposal submitted by John C. Chamberlain of the Sunshine Recreation Corporation to operate a canoe livery in Lansing parks named above, subject to drafting by the City Attorney of a suitable agreement covering rates, insurance, equipment and guarantees, in the amount of \$200 or 12% whichever is greater, and that said contract be personally guaranteed by the majority shareholders of Sunshine Recreation Corporation; and

Be It Further Resolved that upon approval of the Concession Agreement by the City Attorney, the Mayor and City Clerk are authorized and directed to sign on behalf of the City.

Adopted by the following vote:

Unanimously.

By Committee on Public Safety—

Resolved by the City Council of the City of Lansing:

Whereas, since the 1st day of January, 1958, the County of Ingham and the City of Lansing have had a contract concerning the boarding and transportation costs of prisoners between the County Jail and the Ingham County Circuit Court in Lansing and for the maintenance of radio equipment for the Ingham County Sheriff; and

Whereas, since the 23rd day of December, 1958, the County of Ingham and the City of Lansing have had a contract providing for the cost of maintaining County prisoners in the City-owned jail; and

Whereas, these contracts have been under review by the parties for nearly one year; and

Whereas, no mutually agreeable formula has yet been reached by the parties; and

Whereas the parties will meet in a liaison meeting during the month of June, 1976;

Now, Therefore, Be It Resolved that the City Attorney be directed to serve notice of termination of the contracts by May 10, 1976, effective August 10, 1976, and that the City Attorney be further directed to inform the appropriate County officials that said notice will be voided and held to be of no effect if, at the June liaison meeting, a firm agreement is reached.

Adopted by the following vote:

Unanimously.

By Committee on Ordinances and Contracts—

Resolved by the City Council of the City of Lansing:

#### RESOLUTION OF RETENTION

Whereas, the City of Lansing (hereinafter called "Agency") in furtherance of the objectives of the URBAN RENEWAL PLAN or DEVELOPMENT PLAN has undertaken a program for the clearance and reconstruction or rehabilitation of slum and blighted areas and in this connection is engaged in carrying out an Urban Renewal Project known as the PROJECT NO. 2, MICH. A-6 (hereinafter called "Project") in an area (hereinafter called "Project Area") located in LANSING, MICHIGAN; and

Whereas, as of the date of the adoption of this Resolution, there has been prepared and approved by the Agency, an Urban Renewal Plan for the Project consisting of the Urban Renewal Plan, approved by the Agency on April 21, 1969 and as subsequently amended and approved by the Agency (which Plan, as so amended, and as it may hereafter be further amended from time to time pursuant to law, and as so constituted from time to time, is, unless otherwise indicated by the context, hereinafter called "Urban Renewal Plan"); and a copy of the Urban Renewal Plan, as constituted on the date of this Resolution, has been recorded among the land records for the place in which the Project Area is situate, namely, in the office of the REGISTER OF DEEDS for the County of INGHAM and the State of MICHIGAN in Liber 1152 at Pages 339-433, inclusive, INGHAM County Records; and

Whereas, in order to enable the Agency to achieve the objectives of the Urban Renewal Plan and particularly to make land in the Project Area available for use as a PUBLIC STREET RIGHT OF WAY (including curb, gutter and walk) and in accordance with the Urban Renewal Plan, both the Federal Government and the Agency have undertaken to provide, and have provided substantial aid and assistance to the Agency through a Contract for Loan and Grant (Funding Agreement and Master Agreement) with an effective date of July 1, 1971, and as extended and/or amended to March 31, 1976.

Now, Therefore, Be It Resolved, by the Lansing City Council as follows:

(1) Subject to all the terms, covenants, and conditions of this Resolution and the said Funding and Master Agreement, the Agency will retain the following described property in the Project Area for use as PUBLIC STREET RIGHT OF WAY (including Curb, Gutter and Walks):

The following described Parcels for PUBLIC STREET RIGHT OF WAY (including curb, gutter and walk):

That part of Block 245, Plat of the TOWN OF MICHIGAN, lying on the Northeast  $\frac{1}{4}$  of Section 16, T4N, R2W,

More commonly to be known as "Riverfront Drive."

(2) Construction Required. The Agency has caused to be redeveloped the Property by the Construction of PUBLIC STREET RIGHT OF WAY (includes Curb, Gutter and Walk) (hereinafter called the "Improvements") and all plans and specifications and all work by the Agency with respect to such redevelopment of the Property and the construction and making of other improvements thereon, if any, is in conformity with the Urban Renewal Plan, and all applicable State and Local Laws.

(3) Restrictions on Land Use. The Agency agrees for itself, its successors and assigns, and every successor in interest to the Property or any part thereof shall contain covenants on the part of the Agency for itself, and successors and assigns, that the Agency, and such successors and assigns shall:

(a) Devote the Property to PUBLIC STREET RIGHT OF WAY (Includes Curb, Gutter and Walk) in accordance with the Urban Renewal Plan, as amended, and as the same may be hereafter amended and extended from time to time;

(b) Not discriminate upon the basis of race, color, religion, sex or national origin in the use of the Property or any improvements erected or to be erected thereon, or any part thereof.

(4) Effect of Covenants: Period of Duration. It is intended and resolved that the conditions and covenants provided in Section 3 hereof, shall be covenants running with the land and that they shall, in any event, and without regard to technical classification or designation, legal or otherwise, and except only as otherwise specifically provided in this Resolution be, to the fullest

extent permitted by Law and equity, binding for the benefit and in favor of, and enforceable by, the Agency, its successors and assigns, and the United States (in the case of the covenant provided in subdivision (b) of Section of this Resolution) against the Agency, its successors and assigns, and every successor in interest to the Property or any part thereof or any interest therein, and any party in possession or occupancy of the Property or any part thereof. It is further intended and resolved that the conditions and covenants provided (a) in subdivision (a) of Section 3 of this Resolution shall remain in effect until April 21, 1989, (at which time such condition and covenant shall terminate), and (b) in subdivision (b) of such Section 3 shall remain in effect without limitation as to time.

(5) Enforceability by the Agency and United States. In amplification, and not in restriction, of the provisions of Section 4 of this Resolution, it is intended and resolved that the Agency shall be deemed a beneficiary of the conditions and covenants provided in Section 3 herein, and the United States shall be deemed a beneficiary of the covenant provided in subdivision (b) of Section 3, both for and in their or its own right and also for the purposes of protecting the interest of the community and the other parties, public or private, in whose favor or for whose benefit such conditions and covenants have been provided. Such conditions and covenants shall run in favor of the Agency and the United States for the entire period during which such conditions and covenants shall be in force, without regard to whether the Agency or the United States is or has been an owner of any land or interest therein to, or in favor of, which such conditions and covenants relate. The agency shall have the rights, in the event of any breach of any such conditions or covenants, and the United States shall have the right, in the event of any breach of the covenant provided in said subdivision (b) of Section 3, to exercise all the rights and remedies, and to maintain any actions or suits at law or in equity or other proper proceedings to enforce the curing of such breach of condition or covenant, to which it or any other beneficiaries of such condition or covenant may be entitled.

(6) Conflict of Interest. No member, official or employee of the Agency shall have any personal interest, direct or indirect, in any construction contract awarded pursuant to this Resolution, nor shall any such member, official, or employee participate in any contract relating to this Resolution which affects his personal interests or the interests of any corporation, partnership, or association in which he is, directly or indirectly interested.

(7) Equal Opportunity in Construction Employment. The Agency, for itself, and its successors and assigns, agrees that it will include the following provisions of this Section 7 in every Contract or purchase order which may hereafter be entered into between the Agency and any party (hereinafter in this section called "Contractor") for or in connection with

the construction of the Improvements, or any part thereof, provided for in this Resolution unless such contract or purchase order is exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965 as amended by Executive Order 11375 dated October 13, 1967;

Equal Employment Opportunity. The Redeveloper, for itself and its successors and assigns, agrees that during the construction of the Improvements provided for in the Agreement agrees with the Agency as follows:

(a) The Redeveloper will not discriminate against any employee or applicant for employment because of race, color, religion, sex or national origin. The Redeveloper will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex or national origin. Such action shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Redeveloper agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Agency setting forth the provisions of this nondiscrimination clause.

(b) The Redeveloper will, in all solicitations or advertisements for employees placed by or on behalf of the Redeveloper, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex or national origin.

(c) The redeveloper will send to each labor union or representative of workers with which the Redeveloper has a collective bargaining agreement or other contract or understanding, a notice, to be provided, advising the labor union or workers' representative of the Redeveloper's commitments under Section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Redeveloper will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(e) The Redeveloper will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor or the Secretary of Housing and Urban Development pursuant thereto, and will permit access to the Redeveloper's books, records, and accounts by the Agency, the Secretary of Housing and Urban Development, and the Secretary of Labor for purposes of investigating to ascertain compliance with such rules, regulations, and orders.

(f) In the event of the Redeveloper's noncompliance with the nondiscrimination clauses of this Section, or with any of said rules, regulations, or orders, the Agreement may be canceled, terminated, or suspended in whole or in part and the Redeveloper may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(g) The Redeveloper will include the provisions of Paragraph (a) through (g) of this Section in every contract or purchase order, and will require the inclusion of these provisions in every subcontract entered into by any of its contractors, of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each such contractor, subcontractor, or vendor, as the case may be. The Redeveloper will take such action with respect to any construction contract, subcontract, or purchase order as the Agency of the Department of Housing and Urban Development may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, However, That in the event the Redeveloper becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Agency or the Department of Housing and Urban Development, the Redeveloper may request the United States to enter into such litigation to protect the interests of the United States. For the purpose of including such provisions in any construction contract, subcontract, or purchase order, as required hereby, the first three lines of this Section shall be changed to read "During the performance of this Contract, the Contractor agrees as follows:; "and the term 'Redeveloper' shall be changed to 'Contractor'."

(h) The Redeveloper will include the provisions of Paragraphs (a), (b), and (h) in every contract, and will require the inclusion of these provisions in every subcontract entered into by any of its contractors, so that such provisions will be binding upon each such contractor or subcontractor, as the case may be. For the purpose of including such provisions in any construction contract or subcontract, as required hereby, the term "Redeveloper" and the term "Agency" may be changed to reflect appropriately the name or designation of the parties to such contract or subcontract.

(1) This Resolution is adopted for the purpose of inducing the Secretary of Housing and Urban Development to issue his approval of the retention of the said Property for the intended purpose and for the purpose of creating the covenants running with the land as set forth in Section 4. The proper officers of the Agency are hereby authorized, empowered and directed to cause a properly certified copy of this Reso-

lution to be recorded among the land records in the office of INGHAM County, and to furnish the Department of Housing and Urban Development with properly certified copies of this Resolution bearing evidence of such recordation.

By Community Development Committee—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Human Resources Department and the Lansing School District entered into a Contract effective from July 1, 1975 through June 30, 1976 to operate a Teacher Corps project (PN-25) in the amount of Thirteen Thousand and 00/100 (\$13,000.00) Dollars; and

Whereas, negotiations between the Lansing School District and the Department of Health Education and Welfare had not been finalized at the time the City of Lansing entered into said Contract with the Lansing School District; and

Whereas, upon completion of negotiations between the Lansing School District and the Department of Health Education and Welfare, the number of schools involved in the Teacher Corps project was decreased from four (4) schools to one (1) school; and

Whereas, said reduction requires a reduction in the quantifiable objectives to reflect said decrease; and

Whereas, the Lansing School District has formally requested through the Human Resources Department, an amendment to Teacher Corps (PN-25) to reflect said changes, and

Whereas, no additional monies will be required in this amendment; and

Whereas, the City of Lansing through the Human Resources Department and the Lansing School District, do mutually agree to amend said Contract; now, therefore, be it

Resolved, that the proposed Amendment of said Contract is hereby approved by the City Council of the City of Lansing; and be it further

Resolved, that the Mayor and the City Clerk are hereby directed to sign said Contract Amendment, after approval as to form by the City Attorney of the City of Lansing, and certification by the Fiscal Director as to the availability of funds.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, by petition duly filed on February 25, 1976, this council was petitioned to establish a Lansing Plant Rehabilitation District No. 3 pursuant to Act 198, 1974, being Sections 207.551 to 207.571, M.C.L., and

Whereas, due notice have been given for a public hearing on said petition, and

Whereas, at such hearing held on the 12th day of April, 1976, all parties interested therein were heard and given due consideration, and

Whereas, the property involved is commonly known as:

1800 W. Willow Street,

more particularly described as:

"Outlot 'A' as Assessor's Plat No. 11 on NW  $\frac{1}{4}$  of Section 8, T4N,R2W, City of Lansing, Ingham County, Michigan, except that parcel described as:

Beginning at the SW corner of said Outlot 'A,' thence East 386.55 ft., thence N 192 ft., thence W 386.20 ft., thence S 192 ft. to the point of beginning."

Petitioner: Universal Steel Warehouse Company.

Whereas, after considering all the testimony presented to the Council, this Council has determined that within the District there is property which comprises 50% or more of the S.E.V. which is obsolete,

Now, Therefore, Be It Resolved that the Council of the City of Lansing ordains that

the petition to establish a Lansing Plant Rehabilitation District No. 3 to the above described property be approved.

Adopted by the following vote:

Unanimously.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing Planning Department has been authorized to conduct a study of the transportation needs of the elderly, handicapped and low income population of the Tri-County Region, under a contract with the Tri-County Regional Planning Commission; and

Whereas, the "Transportation Services Integration Project" has evaluated the existing transportation services in the Tri-County Region, designed alternative methods of improving the delivery system, and evaluated them for cost effectiveness; and

Whereas, the Committee on Planning has reviewed the findings and evaluations of the alternatives, summarized in Transportation Services Integration Project Evaluation of Alternatives (February, 1976), and recommends that the City of Lansing endorse the attached policy statement;

Now, Therefore, Be It Resolved that the Mayor and City Council concur in the recommendation of the Committee on Planning and transmit to the Lansing Planning Department, as Project Administrator, this resolution and the attached statement of policy with the intent that the Planning Department fully consider the City's position in future planning efforts to meet the transportation needs of the elderly, handicapped and low income populations.

## SIDEWALK RESOLUTION

Lansing, Mich.

April 29, 1976

By Committee on Public Service and Highways and Councilman Blair—

Resolved by the City Council of the City of Lansing:

That it is a necessary public improvement and it is hereby determined that a new concrete sidewalk shall be built in front of 2420 S. Pennsylvania Ave., 3301-27-159-031 1, owned by Maxim Bruziensky.

Also at 2500 S. Pennsylvania Ave., 3301-27-159-021 2, owned by Root Doyle.

And that the owners of said above described lands be and are hereby required to build the same and in accordance with the specifications on file in the office of the City Engineer on or before the 3rd day of June, 1976.

That the Director of Public Service is authorized and directed to proceed to construct such concrete walk in front of above described premises after the expiration of said date. Upon the failure of the owner or owners of the parcels herein described to construct the same as hereby required and that the expense of constructing the same shall be paid out of the contingent fund, and the city assessor is hereby directed to assess the expenses of constructing the same against said described land as provided by Section 28-27, Chapter 28 of the Code of Ordinances.

The City Clerk is directed to give due notice hereof by publication of a notice of this resolution as provided by Section 28-41, Chapter 28 of the Code of Ordinances.

Adopted by the following vote:

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, upon the passage of 1974 PA 338, commonly known as the Economic Development Corporations Act, the City of Lansing possesses the ability to provide the means for the encouragement and retention of industrial and commercial enterprises locating or expanding in the City, which provide needed services and facilities for its residents; and

Whereas, the City of Lansing, by and through its City Council, received an application in writing dated December 29, 1975, for authorization to incorporate a non-profit economic development corporation pursuant to Act 338 of the Public Acts of 1974, and said corporation, known as the Economic Development Corporation of the City of Lansing, was subsequently formed on February 6, 1976; and

Whereas, public notice of said application was given in accordance with Act 338 of the Public Acts of 1974, and, after due notice, public hearing on the merits of said application was held on December 9, 1975, and competing applications were invited and the City of Lansing being advised in the premises; and

Whereas, the City Council finds that there exists in the City of Lansing a continuing need to implement programs designed to alleviate and prevent conditions of unemployment and to assist local industries and commercial enterprises in their attempt to strengthen and revitalize the City's economy; and

Whereas, pursuant to this Act, the Michigan Legislature has prescribed various powers and duties to provide the authority for an Economic Development Corporation to issue notes and other evidences of indebtedness; to provide property tax exemptions; to condemn, lease or purchase real and personal property; and to undertake other projects relative to economic development within a defined "project area" as established through the procedures of this Act; now, therefore, be it

Resolved, that pursuant to Section 8 of Act 338 of the Public Acts of 1974, the Lansing City Council will conduct a public hearing on the Ordinance certifying the designation of the project area, known as the John Bean property, proposed by the Economic Development Corporation for the City of Lansing, more specifically described as follows:

#### SITE DESCRIPTION

The industrial building and its adjacent parking lots lying to the south of the Michigan Central Railroad right of way, extending from Cedar Street to the north line of Assessors Plat No. 20 east of Cedar Street, north of Christianity Street, except Lots 48 and 49 of Rollin H. Person Addition, and lying north of an east-west line adjacent to

the northerly ends of both Linval Street and Lyons Ave. The project area also includes the parking area located at the end of Bailey Street, described as: the north 132 feet of vacated Bailey Street and Lots 28 through 33 inclusive, Block 1, Assessor's Plat No. 20, City of Lansing.

and be it

Further Resolved, that this public hearing is hereby set for June 1, 1976 at 7:30 p.m. in the City Council Chambers, 10th Floor, City Hall, Lansing, Michigan, at which time the City Council invites a full and complete discussion of this proposed Ordinance; and be it

Finally Resolved, that the City Clerk is hereby directed to prepare an appropriate notice stating the time, purpose and location of the public hearing on June 1, 1976 by two publications in a newspaper of general circulation, the first of which shall not be less than twenty days before the date set for the hearing.

May 2, 1976

Mayor Graves and Members

of the Lansing City Council

Dear Colleagues:

The City of Lansing has been expending efforts and funds toward the celebration of our country's 200th birthday. We are encouraging others to come and be a part of our celebration in the downtown of Lansing. But, aside from the new Riverside Park which we have developed with Federal funds, what have we actually done to upgrade the downtown area and encourage people to come down town?

I have been thinking about this for some time and after doing some checking, I have come up with a few suggestions which I would like to recommend to you and, for which, there are presently funds available.

First, we have approximately \$197,000 in the parking fund, in the depreciation account. This fund has been accumulated because of the requirement of the bonding ordinance for the parking ramps on South Capitol and South Grand.

I suggest we do the following: first, direct the Parking Division to come up with

the cost of necessary, immediate improvement in the South Grand Ramp. (I believe Mr. Dallman is already working on these figures.) Secondly, use \$30,000 of this account, which is the amount needed to change the South Grand Ramp from meter to attendant operated. (Figures from Traffic Dept. with Traffic Board's knowledge.)

Thirdly, and this suggestion comes from one of you, have the attendants wear a uniform that looks authoritative. This would give the people more confidence when parking in the ramp. Also, put the same type of uniforms on the meter checkers, and have them circle through this ramp every time they go East on Allegan or North on South Grand. This would give parkers a more secure feeling to know someone was going through the ramp.

Also, since the South Washington Parking Mall is our largest revenue producer, I suggest we put some of that revenue back into the Malls and upgrade them. Have massive colorful plantings put in the planters, and maybe rearrange them or cluster the planters to create a massed effect. I have suggested to Mr. Haskell that they should contact the MSU Horticulture Department or some specialist as to the type of plants to use. The scrawny little petunia plants we have used in the past, do not even start to make a token showing before mid-August, because they need several pinchings to set them to branch out and produce.

The maintenance of these planters could be handled through YDC with a part-time supervisor from the Parks Department. This way these young people would be learning something worthwhile while drawing their checks from YDC.

With respect to the North Washington Mall. Have any of you actually walked around our parking lot in the 100 block of North Washington? It is a disgrace. I know that many of you do not wish to spend the \$30,000 necessary to hard surface the lot, but what about a five or six foot border of sod with evergreen plants around the perimeter of the parking lot. This is the minimum we would expect of a citizen who wanted a parking lot. Mr. Haskell has indicated he might have some shrubs we could use, and perhaps YDC could also help with the planting and care.

The planters in the North Washington Mall should also be planted with mass plantings. We received a lot of Federal dollars to construct this mall, but we have done little to keep it a show place for downtown Lansing.

With regards to the Civic Center, I am fearful if we do not go ahead and put the air conditioning in at once, we will lose many of the conventions and trade groups who have been coming here. Once they start using the new facilities in some of our neighboring towns, they might not come back. We have funds we can transfer to do the air conditioning job immediately. If we wait to bond, it will be more than a year before we can complete the job. Let's

keep the groups here that we have and get going on this at once.

I sincerely hope the various Council Committees will seriously consider these suggestions and come out with reports quickly so that we can accomplish all of this by July 1st. It is possible if we start at once.

Sincerely,  
LUCILE BELEN.

P.S. After LCC opens their ramp, we may need to consider some new type of operation in the North Capitol Ramp and the experience we gain with a new operation of South Grand might prove most helpful.

Mrs. Grace Ansley, 2034 W. Lenawee St., spoke relative to the placing of "No Parking" signs in the 800 blk. of W. Hillsdale St. Her mother lives at 809 W. Hillsdale St. She made a survey and found persons in that block did not want the signs.

Geo. T. Davis, 829 W. Hillsdale St., spoke also opposing the "No Parking" signs in 800 blk. W. Hillsdale St.

Mrs. Ernestine McMullen, 411 S. Butler Blvd., spoke of her concerns relative to the Butler and Hillsdale area.

Larry Benson, 1225 W. Kalamazoo St., spoke relative to no jobs for the young blacks. Also relative to the article in the State Journal which was derogatory toward the young people in the area of W. Hillsdale and 500 blk. S. Butler Blvd.

Robert Nicholson, 816 Buffalo St., spoke relative to the West Side area.

Anthony Shano, 2520 Wilson, spoke saying that when Model Cities started he made the proposal that the Builders be hired to remodel the houses on the West side and hire the young men in the area and train them as to building, plumbing, electrical work, etc., but nothing was done about it. He still thinks this would be a good idea.

Council adjourned at 11:00 P.M.

#### PUBLIC HEARING

In accordance with Chapter 8, Section 8.4 of the City Charter this is the time set for the hearing on the recommended budget of the Mayor, together with his supporting schedules and the recommendations of the Council which has been advertised and on file for three weeks in advance thereof.

Mayor Graves asked if there was anyone in the audience who wished to be heard.

Bogdan Rentea read and presented the following statement:

In addressing myself on tonight's issue, I would like to read the following statement which was prepared jointly by Steve Sandstedt and myself.

We are both MSU students. Steve a Sociology major, and myself, a Political Science major.

Given the opportunity by our departments to do field work, and supplement our

traditional "book learning," we separately chose the City Council, in order to observe from an educational perspective, the workings of a local government.

Our involvement to this date has been work on the proposed City Budget, and we feel it is our responsibility now to share with the council and the members of the public some of our views on the subject.

Our qualifications, for expressing the following statements, arise out of a thorough analysis of each department's budget request, regular attendance of the budget hearings, and general observations of the attitudes of councilmen and department heads.

To develop a better understanding of the budget, its two parts must be identified.

The Budget consists of:

(1) The policies and guidelines set by the City Council in order to give the individual departments direction in preparing their budget requests.

(2) The total dollar amount representing each department's operating budget request.

Both parts are of equal importance, and must be analyzed accordingly, yet the excessive controversy that arose over part one, in this year's budget proceedings, has determined us to make it the topic of this presentation.

On November 14, 1975, Mr. Dowsett, Director of Finance, submitted to all departments a memorandum outlining detailed instructions for the preparation of their 1976-77 operating budgets.

He also made them aware that by December 12, 1975, they would receive policy guidelines as determined by the City Council, regarding their budget preparation.

The Council met on December 30, 1975, and on January 7, 1976. Mr. Dowsett sent a memorandum to the departments stating the decisions of the Council. All departments were to submit an alternative General Fund Budget, representative of a 4% reduction of the existing level of the salary and wage accounts. Because of some misunderstanding by the departments, two days later on January 9, 1976, Mr. Dowsett submitted a letter of clarification to his previous memorandum, explaining that the alternative budget should represent a reduction in any area or line item by 4% of the existing salary and wage line item account. This reduction was to be subtracted from their regular budget. (The regular budget was to represent the total dollar amount requested to maintain services for the 1976-1977 Fiscal Year.)

In addition, the alternative budget was to be submitted with an explanation of its impact on city operations, in view of the reduction. According to those new policy guidelines (from the old council)

the departments were now to prepare and submit their budget requests to the Director of Finance no later than February 2, 1976.

It is our understanding that the old council's intent for providing budgetary guidelines to the department was to establish some control over excessive requests.

Yet formulating regulations for the preparation of the alternative budget only provided the departments with the opportunity to submit a regular budget in excess of their needs, and still remain within the guidelines of the council.

To alleviate this problem, the new council submitted a new budget policy resolution on February 2, 1976. Parts 1 and 2 of that resolution which are relevant to our presentation read as follows:

(1) "All City departments shall submit budget proposals which encompass two levels of funding: (A) Funding at F '76 levels and, (B) Funding at 96% of F '76 levels.

Where departments request budgeting over and above F '76 funding, these requests should be submitted as an addendum to their budgets.

(2) All departmental budgets shall be submitted with written justification for each program and with the priority of each program in relation to all of the other programs in their respective budgets.

The instructions were simple, we feel the intent genuine, yet the misunderstanding and ensuing controversy enormous.

Departmental non-conformity resulted, and this can be attributed to several factors:

(1) The instructions came after the departments were supposed to have had their requests completed and submitted to the Director of Finance.

Yet, why didn't they send immediate additions?

The council didn't start its departmental hearings for a whole month after the initial introduction of their new budget policy resolution.

(2) There was apparent misunderstanding of the intent of the instructions, and consequential fear that they had to stay at the F '76 level.

(3) On the part of the departments, excessive interest and concern in providing quality services to the city, but neglect to consider savings to the taxpayers.

The two are compatible.

(4) A considerable lack of communication exists between the council and the individual departments.

If properly understood today, the council's controversial budget policy, can be most relevant and helpful for future proceedings. Some of its positive considerations and benefits would be as follows:

(1) The council requested departments to submit budgets at F '76 and 96% of F '76 levels.

This would permit the council to compare areas where cuts could have been made last year, to potential areas for cuts this year.

It was by no means an attempt to keep departments at last year's levels.

(2) The council also requested departments to submit written justification for each program and the priority of those programs in relation to all other programs within the department.

This would enable the council to better distribute the city's scarce resources, obtain a clear understanding of each department, and improve the communications between themselves and all departments.

(3) The budget is extremely complex and hard to understand. In view of that consideration, the council's budget policy resolution would give them clearer guidelines in preparing their own recommendations, additions would be easier understood by the taxpayers, and any cuts would be more fair to the individual departments.

In conclusion: The council's attempt this year was to gain a better understanding of individual departments, their programs, their overall relation to the budget, and a consequential effort to decrease the proposed mileage increase.

Their failure to achieve the latter should not be the sole measure of their effectiveness.

The council made over 100 adjustments within the overall budget, and this redistribution of resources should be regarded as a positive and beneficial result of their hard work.

It should also be regarded as the first step in future proceedings in which the understanding of departmental operations gained this year will enable the council to offer positive alternatives that could result in potential tax decreases without jeopardizing city services.

Respectfully,

BOGDAN RENTEA,  
STEVE SANDSTEDT.

Beth Shapiro, 2110 Ray St. asked the following:

#### REPORTS OF CITY OFFICERS AND BOARDS

May 5, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Bob Cooley for damages  
incurred when his car was hauled  
away under authority of City and  
crushed

Dear Mayor and Council:

Recently Bob Cooley, through his attorney John Hays, filed a claim with the City in the amount of \$200.00 for the removal by the City and destruction of his vehicle from 200 E. Miller Road under the auspices that such vehicle constituted an attractive nuisance. The taking of the vehicle cannot be justified on this basis since it was taken from an enclosed garage. Nor is there any other legal justification for the taking. The City is not immune from liability for the taking of property without due process of law. MCLA 691.1401 et seq; MSA 3.996 (101) et seq. The car had been removed upon request of Mrs. Cooley who has also filed for divorce against Mr. Cooley.

Mr. Cooley has offered to settle for \$150.00. It is the recommendation of this office that Mr. Cooley be paid \$150.00 upon receipt of a waiver of liability from him.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman McKane—

That we concur in the recommendation of the City Attorney and that the City Clerk be and she is hereby directed to draw a warrant on the City Treasurer in the amount of \$150.00 payable to Bob Cooley upon a receipt of a waiver of liability from him.

Adopted by the following vote:

Yeas: Councilmen Baker, Belen, Blair,  
Brenke, Gunther, Hull, McKane—7.

Nay: Councilman Adado—1.

April 29, 1976

To the Honorable Mayor and  
Members of the City Council  
Lansing, Michigan

Gentlemen:

I herewith report that I have given to the City Assessor an itemized list of private properties which had trash and debris removed by the City of Lansing, in the amount of \$405.00, to be assessed on the December, 1976, tax rolls.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Received and placed on file.

May 6, 1976

Honorable Mayor and  
Members of the City Council  
City Hall

Lansing, Michigan

Gentlemen:

I am attaching a letter of intent signed by Gordon Cornwell a member of the Planning Board to do business with the City of Lansing in accordance with Section 14.4 of the Lansing City Charter.

Very truly yours,

THEO FULTON,  
City Clerk.

Received and placed on file.

May 4, 1976

Ms. Theo Fulton

City Clerk

City of Lansing

Lansing, Michigan 48933

Dear Ms. Fulton:

This letter is to indicate my interest in conducting business with the City of Lansing. I currently serve on the Lansing Planning Board.

Public Data Associates is in the computer services business and I will be discussing with the City the possibility of doing business along this line.

It has no relationship to my serving on

the Planning Board, nor is there any information of a proprietary nature being used that I may have acquired while serving as a Planning Board member.

Sincerely,

GORDON CORNWELL,  
Public Data Associates.

May 5, 1976

Mayor and City Council

Lansing City Hall

Lansing, Michigan

Dear Sir:

As has been the case in the past, the Department of Housing and Urban Development has provided funds for Modernization and Repair of projects when such Modernization could save the Commission money in operation, cut the cost of utilities and/or make the projects safer for human habitation.

The Commission approved, through Resolution 342, such a program. In this program of Modernization, \$210,000.00 will be given to the Lansing Housing Commission by HUD to carry out the intent of Resolution 342.

One of the requirements for receiving Modernization money is that the City Council reaffirm the terms of the Cooperation Agreement entered into in 1965 by the Department of Housing and Urban Development, and the City of Lansing by and through the Lansing Housing Commission.

Enclosed you will find a resolution that needs passage by the Council in order to expedite this Modernization program in late spring and early summer. There are no City funds involved.

Most cordially yours,

MARCEL B. ELLIOTT,  
Executive Director.

Referred to Committee of the Whole and Committee on Buildings and Properties with copy to City Assessor.

Subject: Q-76-551 Weed Cutting

Gentlemen:

Three bids were received for the cutting of weeds for the Building Dept. at 3:00

P.M., E.S.T. on Thursday, April 22, 1976. The bids submitted by the May Weed Company and Orby's Weed Cutting were identical at \$10.00 per hour; and, the third bid by Windy Willow Landscaping was \$16.00 per hour.

We recommend that the bid be awarded to both the May Weed Company and Orby's Weed Cutting. Orby will be awarded the work West of Washington Avenue, and May the work East of Washington Avenue. We had this arrangement last year and it worked very well.

Respectfully submitted,

VAUGHAN L. MCKINCH,  
Purchasing Director,

JAMES W. KZESKI,  
Building Commissioner.

Referred to Committee on Public Service and Highways.

#### REPORT OF COMMITTEE

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the recommendation of the Purchasing Director and the Building Commissioner that the two identical low bids from May Weed Company and Orby's Weed Cutting at \$10.00 per hour for cutting weeds within the City, (Orby to be awarded the work West of Washington Avenue and May the work east of Washington Avenue) be accepted, reports as follows:

The Committee concurs in the recommendation of the Purchasing Director and the Building Commissioner.

Signed:

WILLIAM A. BRENKE,  
ROBERT J. HULL,  
LOUIS F. ADADO,  
Committee on Public Service  
and Highways.

By Councilman Brenke—

That the report of the Committee be adopted.

Subject: B-76-550 Sand

Gentlemen:

Attached is the tabulation of four bids for the purchase of sand for the 1976 Construction Season, which were opened at 3:00 P.M., E.D.T. on Tuesday, April 27, 1976.

We recommend acceptance of the low bid submitted by Ray's Aggregate Co. for a total delivered price of \$1.49 per ton for 3CS Sand and \$1.49 per ton for 2NS Sand. Terms are "Net 10th."

Respectfully submitted,

VAUGHAN L. MCKINCH,  
Purchasing Director,

ROBERT R. BACKUS,  
Public Service Director.

Referred to Committee on Public Service and Highways.

#### REPORT OF COMMITTEE

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the recommendation of the Purchasing Director and the Director of Public Service that the low bid submitted by Ray's Aggregate Co. for a total delivered price of \$1.49 per ton for 3CS Sand and \$1.49 per ton for 2NS Sand, be accepted, reports as follows:

The Committee concurs in the recommendation of the Purchasing Director and the Director of Public Service.

Signed:

WILLIAM A. BRENKE,  
ROBERT J. HULL,  
LOUIS F. ADADO,

Lansing, Michigan

Gentlemen:

The Board of Public Service to whom was referred the preliminary plat of Provincial House, Inc., recommends approval subject to the approval of the Board of Water & Light for the temporary drainage plan and inclusion of the immediate Aurelius Road area as proposed, and subject to the required easements for the drainage ditch and retention pond.

Respectfully submitted,

BARBARA GARLOCK,  
Secretary.

Referred to Committee on Public Service and Highways and Committee on Planning.

May 6, 1976

ROW-2-76

1200 block North Washington Avenue

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, recommended that the request

by the Estes Furniture Company to vacate an alley running east from the 1200 block of North Washington Avenue to the Grand River, lying to the rear of those properties located in the 100 block of Grand River Avenue, be denied.

The Board found that most all of the public agencies to whom were referred this request indicated the need for easements for their utility services through this area. The Fire Marshal indicated the need to preserve this area for a fire lane so that he could provide service to existing buildings.

Based on these reports the Board felt that it would be in the best interests of the City to retain this as a public alley.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-12-76

5200 block South Cedar Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, considered the petition by Mr. William G. Martin to rezone property at 5200 South Cedar Street, more particularly described as Lot 10 of Jolly/Cedar Plaza Subdivision from "J" Parking to "F" Commercial District and recommended approval; providing that (1) the adequacy of parking be reassessed prior to the issuance of Building Permits for any additional commercial buildings, (2) the adequacy of parking be reassessed prior to the change in use of any present non-retail establishments to retail, and (3) that the Traffic Engineer review any change of plans as they relate to ingress and egress to the site.

The Board found that the change of zoning is in conformance with development in the vicinity and will, therefore, not seriously affect any adjoining properties or their general welfare.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Z-13-76

5910 South Cedar Street

Honorable Mayor and

Members of the City Council:

The Planning Board, at their meeting of May 4, 1976, recommended that the petition by Mr. Maurer to rezone the property located at 5910 South Cedar Street from "E-2" Drive In Shop District to "F" Commercial District be approved, providing that the site is completely developed within the requirements of the Building and Zoning Codes.

The Board found that the change of zoning would allow development consistent with development in the vicinity and would promote upgrading of the site.

This recommendation was made by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-16-76

229 West Grand River Avenue

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, recommended that the petition by William E. Gerlach to rezone the property at 229 West Grand River Avenue from "E-1" Drive In Shop District to "F" Commercial District be approved, providing that; (1) that a parking plan is submitted to and approved by the Planning Department prior to the issuance of Occupancy Permits, (2) that adequate screening be provided to protect the residents adjacent to the east and south, with said screening leaving adequate visibility in the front yards of West Grand River and Seymour Street.

The Board believes that this change of zoning will facilitate the improvement of the commercial property that has remained vacant for quite some time and has had the affect of a blighting influence on the neighborhood.

This recommendation is made by a unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-18-76

907 Bement Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, did not recommend a change of zoning for the property at 907 Bement Street by DeMarco Brothers, Incorporated. The Zoning and Ordinance Committee recommended that this request be approved providing that the following conditions were met; (1) that the lot be hard surfaced, (2) that not less than two-tenths lumen of light per square foot be provided during hours of darkness, so directed upon the parking area so as not to affect adjacent properties, (3) that a 5 foot 6 inch redwood or cedar fence with boards running perpendicular to the ground shall be located along the west and north property line. Said fence shall not extend beyond the setback line on Bement Street, and (4) that wheel stops of a permanent nature be placed around the perimeter for the safety of other property owners and pedestrians.

The Committee felt that the change would allow reasonable expansion of the existing parking facilities without seriously affecting the adjoining properties.

There were four (4) votes in favor of the Committee report and three (3) votes in opposition. Those voting in opposition to the Committee report felt that this change would promote further intrusion into the existing residential development.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-59-75

3124 Forest Road

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, recommended that the request by Geert Mulder to revise the approved Community Unit Plan for a parcel of land located in the 3100 block of Forest Road be approved. The Board found that the proposed change would modify Phase III of the Tammany Hills development which would allow twenty (20) fourplex units, totaling 80 units to be developed, in place of sixteen (16) fiveplex and two fourplex units, totaling 88 units.

The Board found, based on testimony and

evidence, that the plan change would allow each fourplex unit to be developed independently on its own lot with related parking and would better facilitate the sale of these units. It was also found that within the change there are four (4) parking spaces per unit proposed. The petitioner explained that since he was going to develop four bedroom units, that the four parking spaces per unit would provide for the needed parking in the case where any units were rented to unrelated individuals, such as MSU students.

The Board further recommended that all public agencies, to whom were referred this request and submitted their requirements for development, be complied with.

This recommendation was by a 6 yeas, 1 nay vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-14-76

1114-1116 Eureka Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of May 4, 1976, recommended that the request by Linn Camera Shop, Incorporated, to rezone property at 1114 and 1116 Eureka Street from "D-M" Multiple Dwelling District to "J" Parking District be denied.

The Board found that; (1) the rezoning is not in accord with the Master Land Use Plan, which indicates this area to be developed in a residential nature, (2) the rezoning would create a spot zone which would allow development that would be detrimental to the existing residential neighborhood, (3) the rezoning would encourage further encroachment by commercial uses into the residential area, and (4) the Board found that there are adequate recreational facilities in the area adjacent to the Birmingham Street School.

There were five (5) persons present at this public hearing expressing their opposition to this request.

This recommendation was made by a unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Z-15-76

426 East Northrup

Honorable Mayor and

Members of City Council:

The Planning Board, at their May 4, 1976 meeting, recommended that the request by Donovan Enterprises, Incorporated to rezone property at 426 East Northrup from "A-1" Family Residential District to "F" Commercial District be denied.

The Board recognized that this was one of the last parcels in the immediate vicinity with frontage on South Cedar Street that was not zoned in a commercial nature. However, the Board gave further review to the topographical features of the land and found that in that sense it was isolated from Cedar Street and had its primary access to Northrup, which they believe to be a street which is residential in nature.

The Board felt that if this change of zoning were approved that it would further expose the residential homes on Northrup Street to additional traffic and activity from the proposed commercial use and that this would adversely affect the residential area.

The Board further felt that the initial traffic generated by commercial use at this intersection would not be in the best interests of the City.

There were three people present at this public hearing expressing opposition to this rezoning. This recommendation is made by a unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

May 6, 1976

Fellow Members of City Council:

During the past winter, a source of continuing irritation, controversy and even danger, were the piles of snow along curb lines in certain public areas.

1. Parking meters. The virtual impossibility of getting to parking meters without mountain climbing equipment, created many complaints as well as media comment. Oft-times, people who couldn't get to the meters, found later that the meter checkers were able to get to their cars.

I would request the Council through the appropriate Committee (Public Service?) to develop the means and policy which will ensure that street metered

areas in the CBD and other neighborhood areas will be cleared of accumulated snowpiles in the coming winter. I request that such a policy and plan be reported back to Council within 30 days or as appropriate.

2. Bus Stops. Many of the users of CATA are not able to climb up and over snowpiles. I propose that CATA and our local CATA board members be contacted to develop a means by which bus stops can be cleared so as to assure that bus patrons can safely get on and off the buses. Given the funding level of CATA, I would suggest that they should have the means to achieve this reasonable request. The Public Safety Committee appears to be the appropriate vehicle to accomplish this.

I feel that both of these areas are in need of change and that now is the time to develop solutions to these problems. Your assent and assistance would be appreciated.

Respectfully,

RICHARD J. BAKER,  
Councilman-at-Large.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

The Internal Audit and Evaluation Office has highlighted some areas of concern pertaining to agencies under contract with the Human Resources Department which may result in audit exceptions for this or subsequent fiscal years. A majority of the concerns center around individual projects that are not now serving a high enough percentage of Community Development clients to the total percentage of funding furnished by Community Development contracts. H.U.D. officials have discussed this matter with various City representatives and indicate that the requirements to serve Community Development clients with Community Development funds will be enforced. The possible result of noncompliance could be audit exceptions and the extreme consequences could be forfeiture of some funds. As to how close compliance will be and the results can only be speculative at this time. I do, however, feel that the City should be prepared for the worse.

We do not know if Urgent Needs Funds must comply with this requirement, but it is a possibility.

Projects funded under Model Cities Continuation are waived for the 1976 Fiscal Year, but are included in the second group of agencies, as shown in paragraph b below, to alert you of possible problems this year.

Further, I point out that some agencies in groups a and b below are experiencing some difficulty in achieving their objectives. These are also listed to alert you to some delivery of services problems that may exist. In most cases the problems are minor.

It should be noted that Mrs. Warr is aware of these problems and has been working with various agencies to address these concerns.

The information in paragraphs a, b and c below has been compiled by Mr. Davidson of the Internal Audit and Evaluation Office for your information.

a. The following projects which are funded from C.D. funds or from C.D. and Urgent Needs Funds are currently deficient in the areas indicated. These indicate possible problem areas which should be corrected to prevent audit exceptions at the conclusion of the current contract.

Honorable Mayor Pro-Tem and

Members of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

In a communication to you dated April 22, 1976, I advised that the U. S. Department of Housing and Urban Development had ruled ineligible in excess of \$1,000,000 for social programs under the Human Resources Department, plus other matters.

The U. S. Department of Housing and Urban Development has since forwarded another communication dated April 30, 1976, advising, as a follow up to their last communication of April 20, that the \$500,000 for the Community Center has also been declared ineligible, according to the Community Development Block Grant Eligible Activities Regulations. Part of the communication, which I am attaching, reads as follows:

"Therefore, until such time as the City can meet the above-stated criteria in totality, we must determine that this activity is ineligible . . . As mentioned in our April 20, 1976, letter, you may reprogram the \$500,000 for this activity into other eligible activities presently included in this application or include a new activity. . . ."

Please be advised that if new activities are to be included, the City Council must comply with Citizen Participation and A-95 review requirements.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Honorable Mayor Pro-Tem and

Members of the Lansing City Council

City Hall

Lansing, Michigan

Mayor Pro-Tem and Council Members:

One of the most major problems facing society today is that of crime. It affects everyone of us daily. Between 1969 and 1974, overall crime in the United States rose 38%, crimes of violence rose 47%. In 1974, a violent crime was committed against a citizen in our Nation every 33 seconds (F.B.I. Uniform Crime Reports, 1974)

The tremendous growth of crime in our Nation, dove-tails with the use of imprisonment. For example:

In 1960—3,553,000 serious crimes were reported in the United States

213,000 convicts were held in State and Federal penitentiaries

In 1972—8,173,000 serious crimes were committed, or more than double the number of 1960

197,000 convicts were held in State and Federal penitentiaries, a decrease of 7%. (National Observer, January 4, 1975)

The excessive use of probation is costly to the law abiding citizenry, is creating an unsafe society, created a loss of certain punishment, and it is putting law enforcement agencies through a "revolving door" process. In 1963, the State of California sent almost 40% of those convicted of homicide, robbery and burglary to the State penitentiary—36% of the people convicted were placed on probation. However, only 16.8% of the people convicted of those same crimes by 1972 went to prison and 69.8% were placed on probation. Of the one million reported crimes in our own State of Michigan in 1974, felonies accounted for 482,000 and those involving violence accounted for 60,000—of the 60,000 violent crimes, 21,000 resulted in arrests and 1,900 persons went to prison, with more than that being put on probation. (Detroit Free Press, citing M.C.C. data, February 15, 1976) Yet, National figures show that 65% of those arrested for felonies are repeat

offenders. While this system of turning criminals on society continues, the estimated cost of crime in the United States has increased from \$51 billion in 1970 to \$97 billion in 1976. Crime costs each man, woman and child \$451 in the United States annually. (U.S. News and World Report, February 9, 1976)

Today, in Michigan alone, there are more than 700 law enforcement agencies in the cities, counties and townships. Each is being put through the "revolving door" process of re-arresting the same criminals repeatedly, some who are on probation, others out on low bonds or who have forfeited bonds by not showing up in Court, others who are waiting sentence on a previous crime and still others who served a minimum sentence instead of a maximum one. Our own Police Department, unfortunately, is caught in this same "revolving door" process, and it is not only financially expensive for the taxpayer, but it jeopardizes their safety and their personal belongings as well, and it is having a detrimental affect upon our own Police officers. Increasingly, our officers are faced with physical abuse, damaged equipment and personal injuries of a very serious nature.

I for one, am tired of the process. I know our Police officers are tired of it and I am confident that the law abiding citizens of this City hold the same view. The most recent physical pounding received by one of our Police officers, and one of the inmates, during the early hours of May 5, 1976, from one of the individuals being held in one of our jail cells, clearly points out the major problem. The inmate was knocked unconscious by another individual being held, while the Police officer in question was severely beaten, with severe damage being inflicted to his face, neck and back. And, this is not the first such incident.

Thus far in 1976, one officer had a leg injured when a car door was slammed on him while making an arrest; another was hit while making an arrest for disorderly resulting in his nose being broken, glasses smashed and equipment damaged; another was bit in the hand while making a felony warrant arrest; another had equipment destroyed; and in another incident an individual kicked out the windows of a patrol car, only to be released by a District Judge under a questionable procedure.

A summary of the reports for 1975 shows that 3 officers were assaulted with a gun, one of those persons arrested was then released on a \$2,500 bond, or what amounts to \$250. Eight reports show assaults by a dangerous weapon, including a tire iron, hammer, poker and a knife. One of those arrested was committed to Riverside as a mental, 4 demanded examination and were released on bonds ranging from \$2,000 to \$3,500, or a cash outlay of \$200 to \$350, while one was a juvenile and other received a 26 day sentence. Seventy-eight reports show resisting by hands, fists and biting. Of this number, 35 were released on bonds ranging from personal recognizance to \$2,000, or a cash outlay of \$200. Some of the accused are unknown, 2 were

mentals and 4 were juveniles. Fifteen sentences were for 5 to 30 days, while still others received fines ranging from personal recognizance to \$104. What of the most recent assault that did great bodily harm on a Police officer? The individual charged has spent time at Jackson between May 4, 1971 and May 4, 1973, in addition to having other convictions since that time. Prior to his most recent arrest, he was arrested on January 26, 1975, and was released on \$25.00 bond by a District Judge—the individual forfeited the \$25.00 bond by not showing up in Court, and as far as I can determine no bench warrant was issued by the Judge. The net result is that an excellent Police officer, as I have already mentioned, has been physically beaten and is now undergoing medical treatment.

I know that we do not have the authority to change the present judicial system, or the correctional system, including probation. However, I have on several occasions requested that you meet with the District Judges and our law enforcement officials to resolve some of the problems taking place. This has not been done, so I am re-requesting that you do so.

Further, I am requesting your official support for the following:

- That the Attorney assigned to the Police Department be given the blanket permission to sue for recovery in behalf of the City any assailant for Police Department out-of-pocket costs, such as damaged uniforms and other equipment;
- That he be given the authority on behalf of the City to recoup through suit, medical costs, disability costs, etc.; and
- That he be given the authority to simultaneously file on behalf of a Police officer assaulted for lost wages, pain and suffering and other losses. (This would not preclude the right of an officer to seek outside counsel if he so desired.)

Much has been said about the civil rights of persons charged, of prisoners rights to television, music, libraries, excellent food, etc., but very little has been said in behalf of the very persons—the law enforcement officers—who works for a governmental agency, and whose difficult job it is to protect the law abiding society. I think it is time we spoke up.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Public Safety and City Attorney.

Council Members  
City Hall  
Lansing, Michigan

## Mayor Pro-Tem and Council Members:

In the recent past, and while the City Council was reviewing my Budget Recommendations for Fiscal Year 1976-77, two Councilmen brought up the suggestion that the vehicles to be purchased for the Lansing Police Department should be compact cars, rather than Oldsmobiles. I am not opposed to compact vehicles for use by some City employees, since we have, in the past, purchased vehicles for some employees of smaller size than the Oldsmobiles. However, I am opposed to the thought, at this time, that compact cars rather than Oldsmobiles be purchased for general use by the Police Department.

To begin with, Oldsmobile Division is our biggest employer, and thousands of employees rely on Oldsmobile for their livelihood and for the support of their families. Directly, Oldsmobile is our biggest taxpayer, and in property taxes alone that firm pays one-fifth of our City, County, School and Community College taxes. Further, Oldsmobile, and its thousands of employees, are the City's largest contributors of income taxes. The fact that Oldsmobile Division is located in the City of Lansing creates a tremendously large, beneficial spin-off factor, including the employment of hundreds of employees by other firms which which supply necessary parts and equipment to Oldsmobile. For the Lansing Police Department to buy compact cars instead of Oldsmobiles would be an affront to those employers and to those employees.

The driving of Oldsmobiles by our Police Department provides greater visibility of our home town product to not only those people who reside in the Greater Lansing Area, but to the thousands upon thousands who come here to visit, to do business or to attend conventions, governmental meetings, etc.

And, what of compact cars for law enforcement agencies? The attached news clip, Detroit Free Press, Friday, April 23, 1976, advises as follows:

- That most policemen are too large for compacts;
- That the above is especially true "under emergency conditions";
- The cramped space may result in decreased comfort and productivity;
- That it is "very difficult to place a prisoner with his hand handcuffed behind him into a compact car."

This is not to say that smaller type vehicles will not some day be designed by Oldsmobile, which could be used by the Lansing Police Department. This is not to say that a smaller vehicle will not some day be designed specially for law enforcement officers. However, this is not the time to be considering compact cars for our Police Department.

Presently on our force our men range in height from approximately 5 ft. 10 in. to

well over 6 ft. 6 in. Some of our men weigh between 220 and 280 pounds. I have very serious reservations about them functioning well in compact cars. Therefore, I urge that you dispel the thought of using compact cars for the Lansing Police Department and retain our commitment to the use of Oldsmobiles.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

You have been advised this date, that Ms. Esther Canja no longer desires to be considered for appointment to the Lansing Planning Board. Therefore, I am submitting to you for your consideration and confirmation, the name of Charles F. Lyons, to fill this vacancy for the term ending June 30, 1976.

Mr. Lyons is a graduate of Mason High School and attended the Grand Rapids School of Bible and Music Study for three years. He served as a Corrections Officer at Jackson State Prison for three years and has been employed by the Oldsmobile Division of General Motors for the past 16 years. He is Senior Clerk of Experimental Records in the Experimental Engineering Department. Mr. Lyons is Vice-President of the East Lansing Chapter of Full Gospel Businessmen's Fellowship, a member of the Spirit of Christ Fellowship Church and attends Communications and Business Management classes at Lansing Community College.

He and his wife, Marilyn, have five children and reside at 1224 E. Kalamazoo in the City of Lansing.

Trusting this recommendation meets your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Planning.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

A short time ago, Mayor Pro-Tem Terry McKane requested that the Office of Community Development prepare its recommendations concerning the revision of the City Ordinance on Community Development. In order to accomplish this request, it appeared to me that the entire City structure needed to be taken into consideration to determine what role Community Development activities would play. Therefore, I instructed the Office of Community Development to make recommendations to me concerning a proposed organization for the City of Lansing governmental structure in total. A copy of this proposal is attached. I am forwarding it to you for your information and comment as you deem necessary. A copy of this proposal is also being sent to the members of the Charter Revision Commission.

In my original State of the City Message, I recommended that the City of Lansing employ the Citizen's Research Council of Michigan to study our system of government and to make recommendations. That organization has participated in State reorganization, that of City's courts and other units. However, as far as I am aware, the City Council made no attempt to implement that recommendation. It still is a valid one.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Dear Mayor Pro-Tem and  
Council Members:

On April 8, 1976, I submitted to you the name of Esther Canja to fill a vacancy on the Planning Board, which appointment is still before you for consideration and confirmation.

I have now received notice from Ms. Canja advising that she no longer desires to be considered for the appointment. Therefore, I am withdrawing this nomination and will shortly recommend another individual to fill the vacancy on this most important City Board.

Sincerely,

GERALD W. GRAVES,  
Mayor.

### RESOLUTIONS

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing did lease the premises described as Suite "I" in the North Capitol Avenue Parking Ramp, more commonly known as 316 North Capitol Avenue, which contains approximately 2,944 square feet, to Gibson Bookstores, Inc., whose address is 128 West Grand River Avenue, East Lansing, Michigan; and

Whereas, the Lease Agreement by and between the City of Lansing and Gibson Bookstores, Inc., has expired; and

Whereas, Gibson Bookstores, Inc., has requested an extension of the lease for a three (3) year term; and

Whereas, a new Lease Agreement has been prepared at an increased rental rate and said Agreement is determined to be satisfactory;

Now, Therefore, Be It Resolved that upon approval of the Lease Agreement by the City Attorney, the Mayor and City Clerk will hereby be authorized and directed to sign the Lease Agreement by and between the City of Lansing and Gibson Bookstores, Inc.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing does own the property legally described as follows, to-wit:

Lot No. 8, except the Northwesterly 15 feet, Block 132, Original Plg, City of Lansing, Michigan.

Whereas, the Nehi Beverages, Inc. and the City of Lansing did enter into a Lease Agreement on subject property; and

Whereas, said Lease Agreement has expired; and

Whereas, a Lease Agreement by and between the City of Lansing and Nehi Beverages, Inc., has been prepared; and

Whereas, the Lease Agreement calls for a monthly rental payment of \$240.00 per month and is a month to month lease;

Now, Therefore, Be It Resolved that upon approval of the Lease Agreement by the City Attorney, the Mayor and City Clerk will be authorized and directed to sign the Lease Agreement by and between the City of Lansing and Nehi Beverages, Inc.

Adopted by the following vote:

Yeas: Councilmen Adado, Baker, Belen, Blair, Brenke, Gunther, Hull, McKane—8.

Nays: None.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the City Council has approved the concept of Kingsley Place Park and Community Center and has approved contracts for the construction and development of the project; and

Whereas, Grables, Mills, and Young, Landscape Architects, were contracted by the City to update the Kingsley Place Master Plan and provide breakdown of estimated costs, and have completed this work; and

Whereas, funds for the first phase of these improvements are available, in the amount of \$150,000.00; and

Whereas, Grables, Mills, and Young have submitted a proposal to prepare specification drawings and related documents, and to inspect all work done by contractors. The fee for this service to be 7.8%, not to exceed \$11,700.00; and

Whereas, the Parks and Recreation Committee desires to implement the development of the Kingsley Place Project including full cooperation and personal participation in the completion, furnishing and dedication of the community center building;

Now, Therefore, Be It Resolved, that the proposal of Grables, Mills and Young, Landscape Architects, be accepted for a fee of 7.8%, amount not to exceed \$11,700.00, which ever is less,

Be It Further Resolved that upon approval of the contract by the City Attorney that the Mayor and City Clerk be authorized to sign on behalf of the City, and

Be It Further Resolved that provision be

made by the Parks and Recreation Department in the plans for completion, furnishing and dedication of the Center, for personal participation by members of the Park and Recreation Committee appropriate to their role in City Government.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That the City Assessor be, and he is hereby directed to spread on the December, 1976, tax rolls, the cost of correcting the hazardous and unsanitary conditions of properties in the year 1976, as reported this date by the Building Commissioner, and as per attached list.

By Councilman Elair—

Resolved by the City Council of the City of Lansing:

Whereas the City of Lansing, acting by and through the Housing Commission, requested from the Public Housing Administration, a program reservation for units of low rent housing to be developed and located within the corporate limits of the municipality, a Resolution of Cooperation between the City of Lansing, by and through the Lansing Housing Commission, and the Department of Housing and Urban Development was entered into, and

Whereas, the Department of Housing and Urban Development requests that the original Cooperation Agreement between a municipality and itself be reaffirmed before Modernization funds can be made available to the local Housing Commission for Modernization purposes,

Therefore, Let It Be Resolved that the City of Lansing reaffirms its Resolution of Cooperation with the Department of Housing and Urban Development, entered into on November 15, 1965, therefore complying with the requirements of the Department of Housing and Urban Development that such a reaffirmation be made by the municipality before funds could be made available to upgrade and modernize public housing within the corporate limits of the City.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the municipal government, in order to best serve the needs of the citizenry, must be operated with efficiency and in an orderly manner; and

Whereas, the efficiency and order with which government carries out its public functions is strongly reliant on procedures and records; and

Whereas, the Municipal Clerks administer the procedures and keep the records; and

Whereas, the organized source of knowledge about a community and its government activities is vital to the smooth governing of that municipality; and

Whereas, the Lansing City Clerk does provide and maintain such a body of knowledge; and

Whereas, the strength of local government depends upon the citizens' opinion of it, and such opinion is formed largely by the image set forth by the municipal government employees; and

Whereas, Theo Fulton is a municipal official in close daily contact with the citizens of Lansing, and therefore is in a key position to mold sound public opinion; and

Whereas, during our Bicentennial observance, we give special recognition to Theo Fulton for her dedication toward establish-

ing and maintaining a positive public image of the City of Lansing through the office of the City Clerk;

Now, Therefore, Be It Resolved that we acknowledge the week of May 10 through May 14, 1976, as Municipal Clerk's Week by rendering special tribute to Theo Fulton, City Clerk of the City of Lansing.

Adopted by the following vote:

Unanimously.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Honorable Mayor and Members of  
the Lansing City Council

Dear Mayor and Council:

Recently, several Lansing Police Officers have been subjected to unnecessary physical abuse by individuals arrested for criminal violations. This results in financial loss for the Lansing Police Department and City of Lansing, as well as unwarranted physical suffering on the part of our officers.

We feel this type of abuse to be totally

unjustified. To deter this abuse in the future, as well as recoup our financial losses, we are seeking Council authorization to bring civil actions against these defendants who have assaulted our officers. At this point we have one suit prepared for filing.

#### Injury to Officer Billy Bob McClain

On March 30, 1976, Officer McClain was on duty on the afternoon shift. At approximately 4:50 P.M., he observed Jodi Lu Trenthan, who he knew had a felony warrant outstanding for her arrest. He stopped the vehicle she was in and requested positive identification. At this point he told her she was under arrest and asked her to get out of the vehicle. She refused, and Officer McClain attempted to get her out of the vehicle. At this point she called Officer McClain a "God damn Nigger" and bit his hand. The bite punctured his hand necessitating treatment at St. Lawrence hospital.

The Police Department and City has suffered monetary damages in respect to hospital and medical expenses, as well as two (2) days wages for this on-duty injury.

Based upon the nature of this case, the Police Department recommends that the City Council authorizes the institution of a civil suit in District Court seeking recovery of our loss.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police,

ROBERT W. TUCKER,  
Assistant Chief of Police.

Referred to City Attorney with reply back to Council.

James Ellerson, 407 S. Clemens Ave., spoke relative to his property that was on the agenda referred by the County Treasurer that is up for Tax Sale.

Richard Laipen, 329½ S. Washington Ave., spoke relative the principles of economics and finances.

Council adjourned at 11:10 P.M.

Re: Council Approval of the Council Proceedings

Dear Mayor and Council:

A question has been raised as to whether or not the Council must approve the record of its sessions prior to its publication by the City Clerk.

Section 3 (m) of the Home Rule Cities Act, being MCLA 117.3 (m); MSA 5.2073 (m) requires that each charter provide for the keeping of a written or printed journal of each session of the local legislative body.

Lansing charter, ch 5, §5.5(f) comports with the foregoing statutory requirement by providing in relevant part:

"The Council . . . shall keep a journal, in the English language, of all its proceedings, which journal shall be signed by the Clerk, after approval thereof by the Council."

The approval requirement of §5.5 (f) apparently grows out of the inherent right of a legislative body to correct its own journal. Masons Legislative Manual (1962), Journals & Records, §700 p 492.

Here since the signing of the Council Proceedings (journal) by the Clerk is a prerequisite to the publication thereof, it is readily apparent from the plain words of the charter set forth in the preceding paragraph that the Council must approve the record of its proceedings prior to publication by the City Clerk.

In closing however it should be noted that the failure to approve the Council Proceedings prior to publication is of little legal significance inasmuch as all resolutions, ordinances and the like of a municipality may be admitted into evidence in all courts either from a record kept by the Clerk, from a printed copy published in a newspaper, or from any volume or codification of ordinances. Such records, volumes, or certified copies thereof are prima facie evidence of their validity without any further proof. MCLA 600.2116; MSA 27A. 2116.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Referred to Committee of the Whole and Council Rules Committee.

Honorable Mayor and City Council

City Hall

Lansing, Michigan

Gentlemen:

Attached is our proposed Municipal Maintenance Contract between the City of Lansing and the Department of State Highways for the period July 1, 1976 to June 30, 1977.

This is submitted for your review and approval.

Respectfully submitted,

ROBERT R. BACKUS,  
Director of Public Service.

Referred to Committee on Public Service and Highways.

May 7, 1976

Councilman Lucile Belen

Chairman

City Affairs Committee

Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit for the Mayor's Parade Committee, scheduled for Saturday, May 29th, beginning at 10:00 A.M., which has been approved by all necessary department heads.

Our Traffic Bureau estimates this parade will cost the City a total of \$434.44, which represents eleven police officers, one sergeant, ten motorcycles and one patrol car, each for two hours.

This is being submitted to your committee for final action.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

**REPORT OF COMMITTEE**

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request for permission to parade on May 29, 1976, from the Mayor's Parade Committee, reports as follows:

The Committee recommends permission be granted inasmuch as the application received the approval of all necessary department heads, and the Committee recommends further that the parade be under the supervision of the Lansing Police Department.

Signed:

LUCILE BELEN,  
JACK D. GUNTHER,  
RICHARD J. BAKER,

Subject: B-76-535 Kingsley Place Project,  
PS-35025

Gentlemen:

Eleven bids for the construction of a sewer at the Kingsley Place Project, PS-35025, were opened at 3:00 P.M., E.S.T. on Tuesday, April 13, 1976.

The low bidder was B & B Materials with a bid in the amount of \$177,192.14. In this instance we feel it would not be in the best interests of the City to award the bid to B & B Materials based on information received from our consulting engineer, Snell Environmental Group, which reasons include, but are not limited to the fact that this Contractor has never been responsible for the construction of a project of this magnitude, and is not presently a licensed drainlayer in Lansing. Additionally, it should be noted that the Contractor has not qualified under a HUD approved Affirmative Action Plan. Time is of the essence for this project, and we believe that the City should employ a contractor on this project who is presently qualified in both of the last mentioned areas. We, therefore, recommend the next low bidder, Rumsey Construction, Inc., be awarded the bid at \$189,000.00 plus an additional 15% for contingencies in the amount of \$28,350.00, making the total amount authorized \$217,350.00.

Subject to approval of said bidder by the Equal Opportunity Division of the Detroit Area Office of the Department of Housing and Redevelopment (HUD); provided that failure of HUD to respond to the request for approval within fifteen (15) working days shall be considered approval.

Respectfully submitted,

VAUGHAN L. McKINCH,  
Purchasing Director,

ROBERT R. BACKUS,  
Public Service Director.

Referred to Committee on Public Service and Highways.

**REPORT OF COMMITTEE**

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the recommendation of the Director of Public Service and the Purchasing Director to award the Kingsley Place Project, P.S. 35025 to the Rumsey Construction Company reports as follows:

We concur with the recommendation of the Director of Public Service and the Purchasing Director in awarding the Kingsley Place Project to the Rumsey Construction Company.

Letter (a)

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The Traffic Department Staff has completed a survey of the residents in the area surrounding the South Cedar Street Post Office. A questionnaire was mailed to each of 322 residents in the area during March, 1976. The questionnaire explained the influence the post office has had on the parking in the past. It also requested if the residents wanted a change in these parking restrictions.

The results in this questionnaire showed that the majority of the residents in the area preferred that the one hour parking

restriction be removed and unlimited parking allowed. Most of the replies received wished to have parking restricted on one side of the street and unrestricted on the other side.

The Traffic Board at its May 12, 1976 meeting reviewed the survey. The attached list of parking revisions was approved by the Traffic Board by a 7-0 vote. The proposed parking revisions are submitted to City Council for your consideration.

Sincerely,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

Honorable Mayor Graves and

Members of City Council

Gentlemen:

The construction of the Kingsley Place Project requires that Washtenaw Street from Vivian Riddle Court to Huron Street be closed. When Washtenaw Street is closed both Kalamazoo Street and the remaining sections of Washtenaw Street west of Logan St. must become two-way streets. The Traffic Board recommends that Washtenaw St. be closed from Vivian Riddle Court to Huron St. and that Washtenaw St. west of Logan and Kalamazoo St. west of Logan become two-way streets after the reconstruction of Huron St. has been completed. This recommendation was approved by a 7-0 vote.

Sincerely,

LANSING TRAFFIC BOARD,

Letter (c)

Honorable Mayor Graves and

Members of City Council

Gentlemen:

A review of the accident patterns at the intersection of Tecumseh River Road and N. Grand River Avenue reveals a heavy incident of left turn accidents. A total of twenty-three accidents have occurred at this intersection since 1972. Twenty of these accidents can be directly attributable to a left turn maneuver. Twelve have directly involved left turning vehicles; Five have been rear end accidents; Three have been

sideswipe accidents. All these accidents involved turns from Grand River to Tecumseh.

The Traffic Board recommends for City Council's consideration that the left turn from eastbound Grand River to northbound Tecumseh be prohibited. This recommendation was by a 7-0 vote. The Michigan State Highways Department concurs with this recommendation.

This eastbound to northbound left turn can be accomplished one block west of Tecumseh at Greenoak.

Sincerely,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Members of City Council

Gentlemen:

The Lansing Traffic Board at its May 12, 1976 meeting reviewed a request for unlimited parking on the east side of Linval Street from Baker Street north to the John Bean property. Since the Christiancy School is no longer there and the John Bean factory is closed, the Traffic Board recommends for Council's consideration that parking be permitted on the east side of Linval Street from Baker north to the John Bean property. This recommendation was by a 7-0 vote.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

This is to advise that Bellefonte Glass Corporation has officially filed with the Regional Office of the Economic Development Administration of the U. S. Commerce Department for a Loan Guarantee in the amount of \$2,650,000, for the purpose of establishing in the City of Lansing a hand-

blown and machine pressed crystal and glassware industry. The request for financial assistance was submitted on Wednesday, May 12. The request was accompanied by a work-force projection of 342 persons in the first year of operation, and escalating to 880 over the following three fiscal operating years.

The request of Bellefonte Glass Corporation equates to 27% of the total project cost of \$9,803,000 (excluding working capital). Once Bellefonte Glass Corporation is in operation, it anticipates a payroll between \$3.5 million and \$15.6 million. It is the intent of Bellefonte Glass Corporation to use the John Bean Building for its operation.

In addition to providing a valuable diversification from the largely automotive oriented economy of our area, Bellefonte Glass Corporation advises that it "expects to generate substantial peripheral and subsidiary employment, both for profit and in public service, through supportive enterprises, in the nature of arts and crafts, special packaging and direct mailing . . . it is planned that such undertakings will be for the benefit of full and part-time usefulness of the handicapped, special individuals, Senior Citizens, youth, housewives . . ." Direct and secondary employment policies of Bellefonte Glass Corporation, however, will be to utilize an experienced cadre of professionals, technicians and skilled craftsmen in general productive capacities, but to instruct and train members of the locally available workforce in both glasshouse specialties and the basics of relative operation.

I will keep you advised of progress on this matter with the passing of time.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Buildings and Properties and Economic Development Corporation.

#### RESOLUTIONS

By Committee on Public Service and Highways—

Resolved, That the Purchasing Director be and he is hereby directed to advertise, as provided by law, for sealed proposals for 1976 Curb and Gutter Construction, PS 75088, in accordance with the plans and specifications on file in the office of the

City Engineer. Proposals to be received up to 3:00 P.M., Local Time, Tuesday, June 15th, 1976.

Each proposal to be accompanied with a certified check or bidders bond in the sum of 5% of the proposal.

Right is hereby reserved to accept any proposal, to reject any or all proposals and to waive defects in proposals.

No bids may be withdrawn after the above date and time for receiving bids for a period of forty-five (45) days.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That the second low bid of Rumsey Construction, Inc., for the Kingsley Place Project, storm and sanitary sewers, curb and gutter and sidewalks, P.S. 35025, in the amount of \$189,000.00, and additional 15% in the amount of \$28,350.00 is hereby authorized to be encumbered by the Controller for contingencies, making the total encumbered amount under this contract, \$217,350.00, be accepted, subject to approval of the Equal Opportunity Division of the Detroit Area Office of the Department of Housing and Urban Development (HUD), however, failure by HUD to respond to the request for approval within fifteen (15) days shall be considered as approval.

After the award the successful bidder shall be required to execute the contract as specified within ten (10) days after the prescribed forms are presented to him for signature as stipulated in Instruction to Bidders of the contract.

Be It Further Resolved That the Mayor and City Clerk be directed to execute a contract with the said Rumsey Construction, Inc., on behalf of the City of Lansing according to the said bid presented and the specifications on file, upon approval of the contract, and of the bonds and insurance policies by the City Attorney, and upon certification of the City Controller as to the availability of funds.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That portions of the street improvements of the Kingsley Place Project, PS 35025, which includes storm and sanitary sewers,

curb and gutter, grade and garvel and sidewalk construction, shall be assessed to the benefited property owners.

And Further, that the City Assessor be and is directed to make a special assessment roll, based on the bids already received and other related costs of construction, and return same to the City Council.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

The Committee on Public Service and Highways offered the following resolution and moved for its adoption.

Be It Resolved That the Municipal Maintenance Contract between the Michigan State Highway Commission and the City of Lansing for the period July 1, 1976 to June 30, 1977, is hereby accepted and, Robert R. Backus is designated as Maintenance Superintendent on sections of State Trunk Line Highways as shown on the Municipal Maintenance Map and Budget Sheets.

The following City official, Mayor Gerald W. Graves, is authorized to sign the said Maintenance Contract.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

That it is hereby determined to be a matter of public health and necessity to construct curb and gutter in Oakpark Village Subdivision as follows: In Beaugardin Dr. from the East plat line of Beaugardin Subdivision No. 3 east approximately 150 feet to Oakbrook Dr. and on Oakbrook Dr. from Beaugardin Dr. South to the existing curb and gutter, and that the construction of this improvement is hereby ordered.

And Further that the cost of this construction is to be taken from the Irrevocable Letter of Credit No. X42176 which covers improvements to be installed in Oakbrook Village Subdivision and is on file with the City Controller.

The Department of Public Service is hereby directed to prepare as far as necessary, plans and specifications for the project and it is further directed to estimate in detail the cost of said project and to furnish said information to the City Council.

By Councilman Baker—

That we reconsider the resolution as adopted.

Carried.

By Councilman Baker—

That in line 2 delete the word "Oakpark" and insert the word "Oakbrook".

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing supports the concept of Regional Planning; and

Whereas, in compliance with federal guidelines which outline the criteria for membership in Regional Planning Agencies, it is necessary that the TCRPC By-Laws be amended to provide for more open membership; and,

Whereas, the City of Lansing supports the Blair/Benjamin Membership Plan as amended; and,

Whereas, the Blair/Benjamin Membership Plan proposes that the TCRPC shall be composed of twenty members; five from Clinton, Eaton and Ingham Counties and five from the City of Lansing; and,

Whereas, the amendment to the Blair/Benjamin Membership requires that in the event that Ingham County's membership on the TCRPC should fall below three representatives, two of the City of Lansing's five representatives will be Ingham County Commissioners who reside within the corporate boundaries of the City of Lansing; and,

Whereas, in the event of the preceding occurrence, the Ingham County Commissioners will be selected by the Chairman of the Ingham County Board of Commissioners with concurrence being provided by the Lansing City Council;

Now, Therefore, Be It Resolved that the City of Lansing supports the Blair/Benjamin Membership Plan as amended with selection of commissioners and confirmation as outlined above.

By Committee on Finance—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing, through the Lansing City Demonstration Agency, on May 20, 1975 entered into a Contract with New Way Inn, Incorporated, effective from April 1, 1975 through March 31, 1976, to provide an adult ex-offender rehabilitation program in the amount of Sixty-Eight Thousand, Nine Hundred Sixty-Eight and 00/100 (\$68,968.00) Dollars; and

Whereas, On December 22, 1975, the City of Lansing, through the Lansing City Demonstration Agency, and New Way Inn, Incorporated mutually agreed to amend said Contract; and

Whereas, on January 12, 1976, the City of Lansing, through the Lansing City Demonstration Agency, and New Way Inn, Incorporated mutually agreed to again amend said Contract; and

Whereas, on February 16, 1976, the City of Lansing, through the Lansing City Dem-

onstration Agency, and New Way Inn, Incorporated mutually agreed to again amend said Contract; and

Whereas, on March 10, 1976 the City of Lansing, through the Lansing City Demonstration Agency, and New Way Inn, Incorporated mutually agreed to again amend said contract; and

Whereas, Layton & Richardson, P.C., Certified Public Accountants, have determined that, although total expenditures did not exceed the total budget allocation, certain line item expenditures were in excess of line item budget provisions; and

Whereas, Layton & Richardson, P.C., Certified Public Accountants, have determined that unless ratified by the City Council of the City of Lansing, certain line item expenditures should be considered ineligible costs because they were in excess of those provided in the Contract budgets; now, therefore, be it

Resolved, that the Contract budget be amended as follows:

Whereas, the City of Lansing through the Lansing City Demonstration Agency and the Department of Parks and Recreation entered into a Cooperative Agreement on July 20, 1974 to provide a Basic Parks Program (PN-56); and

Whereas, the City of Lansing through the Human Resources Department and the Department of Parks and Recreation entered into a new Cooperative Agreement on

July 30, 1975, for the amount of Twenty Thousand, Eight Hundred Eight-Six and 00/100 (\$20,886.00) Dollars, effective from October 1, 1974 through October 31, 1975; and

Whereas, the City of Lansing and the Department of Parks and Recreation mutually agreed to again amend and extend said Cooperative Agreement effective from November 1, 1975, through February 28, 1976; and

Whereas, the Department of Parks and Recreation was unable to complete a Basic Parks Program within the prescribed time; and

Whereas, said expenditures would be declared ineligible unless approved by the City Council of the City of Lansing, it is necessary to allocate funds in the following manner to cover costs incurred after the termination date:

	From	To
Personnel .....	\$ 2,606.00	\$ 3,800.00
Occupancy .....	2,418.00	5,300.00
Equipment .....	15,862.00	11,786.00
	<u>\$20,886.00</u>	<u>\$20,886.00</u>

Whereas, a specific expenditure in the amount of Ten Thousand, Four Hundred Nineteen and 00/100 (\$10,419.00) Dollars was made to the Columbia Cascade Co. against Purchase Order No. 13302 and which was paid by City Warrant No. 2328, dated March 31, 1976; and

Whereas, said expenditures were within the budgetary allocations and will not require additional funds;

Now, Therefore, Be It Resolved, that the City Council of the City of Lansing approves the expenditure of funds made after the expiration date of the contract and as detailed above.

Resolved by the City Council of the City of Lansing:

#### RESOLUTION OF FINDINGS OF FACTS AND DETERMINATIONS

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing is interested in undertaking redevelopment and housing rehabilitation projects for the rehabilitation of blighted areas in cooperation with the Federal government for financial assistance all pursuant to Act 344, Public Acts of 1945, as amended, for a district area generally described as:

Citizen's District Area No. 1: Commencing at the intersection of the center lines of St. Joseph Street and West Street, in the City of Lansing, thence northerly on the center line of West Street to Lenawee Street, thence westerly on the center line of Lenawee Street to Everett Drive, thence northeasterly on the center line of Everett Drive to the center line of Kalamazoo Street, thence northwesterly on the center line of Kalamazoo Street to McPherson Avenue, thence northerly on the center line of McPherson Avenue to its intersection with the center line of Michigan Avenue, thence north along the center line of Spencer Street to its intersection with the north line extended on Lot No. 137 of Inverness Subdivision, thence east on said north line of the west line of Lot No. 136 of said subdivision, thence north 35 feet, thence easterly 353.6 feet along the rear lot lines of Lots 140 through 148, inclusive, of said subdivision, thence north to the southwest corner of Lot 127 of said subdivision, thence easterly along the south line of said Lot 127 to the west line of Jenison Street, thence northeasterly to the southwest corner of Lot 121 of said subdivision, thence east 120 feet to the east line of said Inverness Subdivision, thence north to the northwest corner of Lot 8 of Block 4, J. M. French's Subdivision, thence east along the north lines of Lots 8, 7 and 4 of said Block 4 to Lahoma Street, thence south on the center line of Lahoma Street to the north line of Michigan Avenue, thence southeasterly to the northeast corner of Lot 19 of Assessor's Plat No. 8, thence south on the east line of Lot 19, 139.42 feet, thence west to the northwest corner of Lot 25 and said Plat, thence south on the west line of said Lot 25 to the north line of Allegan Street; thence southerly to the northeast corner of Lot 18, Block 2 of Kempf's Addition, thence south to the southeast corner of said Lot 18, thence southeasterly to the northeast corner of Lot 19, Block 1 of Kempf's Addition, thence south to the southeast corner of said Lot 19, thence west to the northwest corner of Lot 15 of Taylor's Addition, thence south 148.5 feet on the west line of said Lot 15, thence south to the southeast corner of said Lot 29 of Assessor's Plat No. 9, thence south to the southeast corner of said Lot 29, thence east on the north line of Foster Court Addition to the northeast corner of Lot No. 1, thereof, thence south on the east line of said Lot No. 1 to Kingsley Court, thence east on the center line of Kingsley Court to Logan Street, thence south on the center line of Logan Street to Hillsdale Street, thence west on the center line of Hillsdale Street to its intersection with the east line extended of Lot 70 of Assessor's Plat No. 42, thence south on said east line to the southeast corner of said Lot 70, thence east to the northeast corner of Lot 85 of Assessor's Plat No. 42, thence south on the east line of said Lot 85 to St. Joseph Street, thence south to the center line of St. Joseph Street, thence west on the center line of St. Joseph Street to the place of beginning.

Whereas, the City of Lansing has, pursuant to Act 344, prepared and adopted a Master Plan which is sufficiently advanced as to indicate areas in need of rehabilita-

tion and also has addressed consideration of the District Area surrounding the below-described development area; and

Whereas, the City of Lansing has also prepared a physical Development Plan and a plan for Relocating Families and Individuals who are to be displaced by development of said area. Further, the City of Lansing, acting by and through its Planning and Redevelopment Departments, has had consultation with the Citizens' District Council for District Area No. 1 within which the proposed below-described development area is located; and

Whereas, the City of Lansing, on Monday, May 3, 1976, conducted a public hearing pursuant to 1945 PA 344, as amended, concerning:

- I. Whether said proposed project area is in fact blighted.
- II. Whether there is a feasible method or plan for relocating families and individuals to be displaced by the development of said project area.
- III. The adoption of the proposed physical Development Plan for said area.

Whereas, at the public hearing persons spoke in support and opposition to the proposed development plan and evidence was introduced in support of the determinations of blights, relocation, and development plan and said testimony, evidence, and plans and the proposed plans have been reviewed by the legislative body for the City of Lansing, the City Council.

Now Therefore Be It Resolved that the City Council makes the following findings of fact and determinations:

- I. The prerequisite plans, statements and actions for undertaking redevelopment projects under Act 344, Public Acts of 1945, as amended, to-wit: a master plan which has been properly prepared and adopted by the local legislative body.
- II. That the area generally described as:

Neighborhood Development Area No. 1: Commencing at a point on the south line of Michigan Avenue 90 feet west of the west line of Jenison Avenue (being the northwest corner of Lot 212 of McPherson's Heatherwood Subdivision No. 3), thence east on the south line of Michigan Avenue to the west line of Huron Street, thence south on the west line of Huron Street to the north line of Kalamazoo Street, thence east on said north line to the southeast corner of Lot 43 of Assessor's Plat No. 9, thence north to the northeast corner of said Lot 43, thence east to the northeast corner of Lot 51 of said Plat, thence south along the east line of said Lot 51, extended, to the south line of Kalamazoo Street, thence east on the south line of Kalamazoo Street to the west line of Logan Street, thence south on the west line of Logan Street to the south line of Lenawee Street, thence west 132 feet on the south line of Lenawee

Street, thence south 71 feet, thence west 16.5 feet, thence south 160 feet to the north line of Assessor's Plat No. 42, thence west on said plat line to the northwest corner of Lot 10 of Assessor's Plat No. 42, thence south along the west line of said Lot 10, extended, to the south line of Hillsdale Street, thence west to the northwest corner of Lot 63 of said Plat, thence south to the southwest corner of said Lot 63, thence east to the northeast corner of Lot 61 of said Plat, thence south to the southeast corner of Lot 93 of said Plat, thence west to the northeast corner of Lot 92 of said Assessor's Plat No. 42, thence south on the east line of said Lot 92 to the north line of St. Joseph Street, thence west on the north line of St. Joseph Street to a point 85 feet west of the west line of Jenison Avenue, thence north along the west lines of Lots 42, 41, 40 and 39 of McPherson's Heatherwood Subdivision No. 2 to the south line of Hillsdale Street, thence northerly to the southwest corner of Lot 81 of said subdivision, thence northerly on the west lines of Lots 81 and 80 to the northwest corner of Lot 80 of said subdivision, thence northwesterly to the west corner of Lot 79 of said subdivision, thence northeasterly to the southwest corner of Lot 76 of said subdivision, thence northwesterly to the northwest corner of said Lot 76, thence northerly to the southwest corner of Lot 150 of said subdivision, thence northerly to the northwest corner of said Lot 150, thence west to the southwest corner of Lot 151 of said McPherson's Heatherwood Subdivision No. 2, thence north to the southwest corner of Lot 161 of McPherson's Heatherwood Subdivision No. 3, thence north to the northwest corner of Lot 165 of said subdivision, thence east to the southwest corner of Lot 167, thence north to the northwest corner of Lot 167, thence northerly to the southwest corner of Lot 169 of said subdivision, thence north to the northwest corner of said Lot 169, thence west to the southwest corner of Lot 170 of said subdivision, thence north to the northwest corner of Lot 174 of said subdivision, thence east to the southwest corner of Lot 176 of said subdivision, thence north to the northwest corner of Lot 176, thence northerly to the southwest corner of Lot 204 of said McPherson's Heatherwood Subdivision No. 3, thence north to the northwest corner of said Lot 204, thence west to the west subdivision line of McPherson's Heatherwood Subdivision No. 3, thence north on said west subdivision line to the south line of Allegan Street, thence northeasterly to the southwest corner of Lot 210 of said subdivision, thence north 125.1 feet, thence northeasterly to the southwest corner of Lot 212 of said McPherson's Heatherwood Subdivision No. 3, thence northerly on the west line of said Lot 212 to the point of beginning, City of Lansing.

is blighted as evidenced by the presence of physical and environmental factors and deficiencies; including but not limited to, the following areas;

- A. The physical conditions of residential structures in Neighborhood Development Area No. 1 were derived from the housing inspections undertaken by teams of trained inspectors from the City Build-

ing Department, the Zoning Division of the Planning Department and the Fire Prevention Bureau in October and November 1975. The housing inspection teams checked the structural (foundation, walls, roof, stairs, chimneys, etc.), mechanical (plumbing, heating, ventilation, etc.) and electrical (electrical service, wiring, lighting, etc.) elements of each residential building and recorded code violations of the "Lansing Uniform Housing Code" and/or deficiencies in each of the elements. 255 of the 258 housing structures were inspected, of which 253 were found to contain deficient elements. The numbers and degrees of deficiencies were used to determine a housing condition rating for the structures.

The following criteria were used for rating conditions of the inspected structures:

1. Standard (good)—In order to qualify as a standard structure, the following conditions must apply:
    - a. No code violations of hazardous nature in the primary elements.
    - b. No code violations with limited deficiencies in the primary elements.
    - c. No code violations of hazardous nature in the mechanical or electrical elements.
    - d. One code violation of hazardous nature in the secondary element plus two minor deficiencies or any combination of deficiencies in the minor elements not to exceed 12 penalty points (as defined in Lansing's Code Compliance Survey, Housing Inspection Information Booklet, May, 1975).
  2. Deteriorating (fair)—The following conditions must apply:
    - a. No code violations of hazardous nature in the primary elements.
    - b. Not more than one code violation with limited deficiencies in the primary element plus a combination of minor deficiencies not to exceed 30 penalty points.
    - c. One code violation of hazardous nature in the mechanical and electrical elements plus other deficiencies in the other elements not to exceed 30 penalty points.
    - d. A combination of code violations and minor deficiencies in the secondary and minor elements not to exceed 30 penalty points.
  3. Substandard (poor)—The following conditions must apply for masonry or concrete structures:
    - a. One code violation of hazardous nature in the primary elements except foundation or load bearing wall plus code violations in the other elements.
    - b. Same criteria as frame structures for the structural elements except primary elements.
  4. Substandard (poor)—The following conditions must apply for frame structures:
    - a. One code violation of hazardous nature in the primary elements plus limited and minor deficiencies in the primary or other elements.
    - b. Not more than three code violations of hazardous nature in the mechanical or electrical elements plus limited or minor deficiencies in the other elements not to exceed 62 penalty points.
    - c. Any combination of code violations and deficiencies not to exceed 62 penalty points.
  5. Critical (very poor)—The following conditions must apply for masonry or concrete structures:
    - a. One code violation of hazardous nature in the foundation or load bearing wall (primary elements).
    - b. All other code violations and deficiencies with penalty points exceeding 63 points.
  6. Critical (very poor)—The following conditions must apply for frame structures:
    - a. Two code violations of hazardous nature in the primary elements.
    - b. All other code violations and deficiencies with penalty points exceeding 63 points.
- B. In addition, the housing inspectors checked the structure, the accessory buildings and their immediate surroundings to determine whether there were existing conditions which constitute fire or health hazards and if immediate corrections were necessary. The types of land uses whether single, multi-family residential or non-residential uses for each structure, accessory structure and parcel were verified to determine their conformance with the City Zoning Ordinance.
- The following criteria were used for rating environmental conditions (fire, health and land use):
1. Adequate—
    - a. Not to exceed 6 code violations with hazardous nature of 12 code violations with limited deficiencies.
    - b. Any combination of deficiencies not to exceed 24 penalty points (as defined in Lansing's Code Compliance Survey, Housing Inspection Information Booklet, May, 1975).
  2. Deficient—
    - a. Not to exceed 15 code violations with

hazardous nature or 30 code violations with limited deficiencies.

- b. Any combination of deficiencies not to exceed 60 penalty points.

3. Hazardous—

- a. All code violations and deficiencies with weights exceeding 60 penalty points.

C. Other information obtained by the housing inspectors included housing characteristics such as the total number of rooms, bedrooms and bathrooms, the number of floors and parking spaces for each residential structure. The housing inspectors also obtained data on the number of persons living in the structure, to determine overcrowding conditions. The kind of occupancy, whether owner, renter or vacant, was also recorded for each residential building.

D. The inspection information was evaluated by the Planning Department staff to determine the physical quality of the housing stock and the environmental conditions of the Neighborhood Development Area. All of the residential structures and parcels were evaluated based on assigned weights for every code violation or deficiency in each element. The code violations and deficiencies for each structure and parcel were analyzed to determine the type of activities needed to correct code violations and improve conditions in the Neighborhood Development Area.

III. The City Council further finds that the proposed physical Development Plan for said area will, through rehabilitation, acquisition, demolition, clearance, resale or replating, protect the health, safety, morals and general welfare of the municipality; and preserve existing values of other property within such areas and will improve the character of the project area, the surrounding area and the entire community by:

- A. Providing, through public and private efforts, improved housing conditions that are decent, safe and sanitary, as well as desirable for habitation, thereby encouraging investment and maintenance by homeowners.
- B. Providing community facilities, including open space and recreational facilities where necessary.
- C. Improving existing utilities, services, and offering additional public improvements as needed for the residents of the development area.
- D. Rehabilitating those residential structures which are economically feasible and improving the environment within the area by replanning, rezoning, enforcing zoning codes, and by closing and widening streets in the area where needed.
- E. Improvement of amenities and accommodations for family living.

F. Reducing parking problems.

G. Developing a convenient, efficient, and safe circulation system for pedestrians, automobiles and busses, separating pedestrian and motorized vehicles wherever possible.

H. Improving the tax base of the area by encouraging private investment on the broadest possible basis.

I. Eliminating substandard housing with particular emphasis on the elimination of overcrowding and unsuitable uses which caused the area to become blighted.

J. Encouraging active community participation throughout the renewal process.

IV. The Development Plan designates, among other things, the location and extent of all streets, and other public facilities within the area, and designates the location, character, and extent of the categories of public and private land uses proposed for and within the area, such as residential, recreational business, open spaces and others and includes a feasible method and plan for relocation of families who will be displaced from the area in decent, safe and sanitary dwelling accommodations and without undue hardship to such families. The plan further designates the location, extent, character and estimated cost of the improvements contemplated for the area, such as widening, opening, vacating or closing of streets, alleys, and walkways; location of water mains, sewers, and other public utilities; paving of streets; acquisition and construction of parks, green belts and other appropriate public improvements.

V. The plan further includes estimates of the number of persons residing in the development area and the number of families and individuals to be displaced; a survey of their income and racial composition; a statistical description of the housing supply in the community, including the number of private and public units in existence or under construction, the annual rate of turnover of the various types of housing, and the range of rents and sale prices; an estimate of the total demand of housing in the community; and the estimated capacity of private and public housing available to displaced families and individuals.

VI. The City Council further finds that the Planning Department of the City of Lansing has compiled the prerequisite statistics and data relating to families and individuals within the project area; racial composition, age, income, present tenancy and relocation preferences. Persons within the project area have been interviewed and a survey of available housing in the community has been made. The Plan for Relocation of Families and Individuals included within the Development Plan appears to be adequate for the relocation of the es-

timated 28 families and individuals within the proposed project area. Said plan further contains the data, statistics and estimates required by Act 344, Public Acts of 1945, as amended. The plan for relocation of displaced families and individuals demonstrates that standard housing units are and/or will be available to the displaced families and individuals and rents and prices within their financial means in reasonably convenient locations and no less desirable than the development area with respect to utilities and facilities.

VII. It is further found and recommended that the Redevelopment Department be designated the local agency to provide information concerning private and public housing available to displaced families and individuals and to advise and assist in their relocation.

VIII. The City Council further finds that the plans, statements and actions made by the City of Lansing with regard to rehabilitating the above-described area shall not have the effect of promoting or perpetuating racial segregation in housing.

Wherefore, it is hereby found and determined:

- I. That the above-described area is a blighted area.
- II. That there is a feasible method for relocating families and individuals who will be displaced from the area.
- III. That the Development Plan is sufficient for the rehabilitation of the blighted area and is in compliance with Act 344, Public Acts of 1945, as amended.

The findings and determinations herein above made are based upon the Master Plan of the City of Lansing; the proposed physical development plan for the area described; the testimony and evidence introduced and received at the public hearing held on Monday, May 3, 1976.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing is in receipt of a letter from C. F. Brown, the Division Manager of Consumers Power Company; and,

Whereas, this letter indicates that Consumers Power Company and the Parks and Recreation Department have for the past two months been attempting to resolve the question of the City of Lansing providing an easement at the southwest corner of Riverside Park (on Parks and Recreation property) for the purposes of installing a regulator pit required as a result of construction of M-99 (Logan Street); and,

Whereas, the Consumers Power Company additionally requests an easement (on Parks and Recreation property) to provide service to Central Advertising for three new signs at I-96; and,

Whereas, the foregoing two easements and all problems incidental thereto have been resolved by the Parks and Recreation Department and the Consumers Power Company; and,

Whereas, the Consumers Power Company will provide the City of Lansing easement rights to their property identified as 3301-23-106-001;

Now, Therefore, Be It Resolved that the City of Lansing grants the easements requested by Consumers Power subject to Consumers Power Company granting an easement to the property identified as 3301-23-106-001 for use as a bike route.

By Committees on Planning and Public Service and Highways—

Resolved by the City Council of the City of Lansing:

P-2-76

Provincial House Subdivision

Whereas the Preliminary Plat of Provincial House Subdivision has been submitted for tentative approval; and

Whereas the Planning Board, pursuant to Act 285, P.A. 1931, has approved and recommended that the City Council tentatively approve the Preliminary Plat subject to the following conditions:

- 1) That the final plat be developed with all public improvements required by the Lansing Subdivision Regulations and the Michigan State Plat Act.
- 2) That there be recorded on the face of the final plat a restriction prohibiting vehicular access to Aurelius Road from Lots 1 and 5.
- 3) That the street name be cleared with the Tri-County Regional Planning Commission.
- 4) That a blanket landscaping and buffering plan be submitted by the developer and approved by the Planning Board for each development within the subdivision.
- 5) That the developer utilize an underground electrical distribution system, as specified in Section 37-33 of the Lansing Subdivision Regulations.
- 6) That the necessary easements be provided for the installation of utilities.
- 7) That a storm drainage plan be approved by the Public Service Department.
- 8) That the requirements and recommendations of all other departments and public agencies be adhered to; and

Whereas the Planning Committee of Council reviewed the report of the Planning Board and concurred therewith;

Now, Therefore, Be It Resolved that the

Preliminary Plat of Provincial House Subdivision is hereby tentatively approved subject to conditions 1 through 8, as set forth above; and

Be It Further Resolved that the City Clerk be, and she is hereby directed to, attach this approval to the Plat and return it to the Proprietor.

Councilman Blair wanted it noted that Allan Tubbs had talked with Jerry Pulka, President of the Forest View Association and found that there will be no problem with the drainage.

## By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

The Council concurs with the Mayor's budget requiring a tax levy of \$13.23 per thousand dollars of assessed valuation. \$11.75 per thousand is required for carrying out normal City operations, and the remaining \$1.48 per thousand is for the retirement of debts incurred as the result of bond issues voted by the citizens. This represents a recommended increase of \$1.90 per thousand dollars of assessed valuation. Such an increase will represent a partial reinstatement of the \$2.01 per thousand decrease in the 1973-74 fiscal year and only a \$.43 per thousand increase over the 1971-72 rate.

The Council, through strenuous and long hours of work, made essential changes in the Mayor's budget in an attempt to give the Citizens of Lansing the most meaningful and essential services possible, and without increasing the Mayor's recommended tax levy.

Your Council expresses its heartfelt thanks to the Mayor and the Budget Review Committee, board and commission members, the department heads and other staff. It is through their diligent efforts that this well-developed budget is possible. It will ensure sensible and realistic progress for the City and serve the best interest of the citizens.

We recommend the adoption of the attached budget which became a public record on April 26, 1976, and upon which a public hearing was held on May 10, 1976.

Honorable Mayor and

Members of City Council

Lansing, Michigan

By Committee on PLANNING—

Re: Drafting of a new Zoning Ordinance for City of Lansing

On February 2, 1976, the Mayor Pro-Tem requested the Planning Committee to evaluate the existing zoning ordinance and to make recommendations to the City Council regarding a new zoning code no later than July 1, 1976.

In concurrence with the Mayor Pro-Tem's request, the Planning Committee met with the Planning Department and the Planning Board to explore both the necessity and feasibility of drafting a new zoning ordinance at this time. Based upon the reasons set forth below, the Planning Committee has reached the conclusion that redrawing a zoning ordinance at this time, the Planning Committee does not recommend that the zoning ordinance be rewritten at this time.

The reasons are:

1. The zoning code is an implementing tool utilized to implement a city's Master Plan and other ordinances regarding land use.
2. The present zoning ordinance, while over 30 years old, has been effectively modified and, while certainly not even approaching an ideal, is workable in the short term.
3. The city's Comprehensive Plan, which was adopted in 1958, is effectively 20 years old. It was only intended to serve for 20 years before being redrawn. That point in time has arrived.

4. During budget hearings, the City Council informally agreed that monies should be budgeted with the Community Development fund to hire a consultant to draw up a work plan for the development of a new Comprehensive Plan for the city.
5. Recent Community Development bulletins have indicated that the Federal government rather than fund comprehensive planning efforts under 701 program, will in the future expect cities to utilize Community Development funds for comprehensive planning efforts.

Based on the above, the Planning Committee recommends that in fact Community Development funds in an approximate amount of \$14,000 be budgeted to hire a consultant for developing a work plan for the development of a new 20-year Comprehensive Plan for the City of Lansing.

The Committee also recommends that time and resources not be expended to draw up a new zoning ordinance at this time but that the redrafting of the zoning ordinance be the first order of business after a new Comprehensive Plan.

This recommendation is concurred in by both the Planning Department and the Planning Board. If any additional information is needed, the Planning Committee stands ready to assist the Council and the Mayor in any way they are able.

Respectfully submitted,

RICHARD J. BAKER,  
Chairman,  
Committee on Planning.

Received and placed on file.

Councilman Lucile Belen  
Chairman  
City Affairs Committee  
Lansing City Council

Dear Councilman Belen:

Attached is an application for a parade permit for the Boy Scouts of America, scheduled for 10:00 A.M. on Saturday, June 5, 1976, which has been approved by all necessary department heads.

Our Traffic Bureau estimates this parade will cost the City a total of \$357.54, which represents six police officers, one sergeant and seven motorcycles, each for three hours.

This application is being forwarded to your committee for further action.

Respectfully yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee on Ordinance and Contracts and City Affairs.

#### REPORT OF COMMITTEE

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of Boy

Scouts of America for permission to parade on June 5, 1976, reports as follows:

The Committee recommends permission be granted inasmuch as the parade application has been approved by the necessary department heads and the committee recommends further that the parade be under supervision of the Lansing Police Department.

Re: Exchange of logs.

Gentlemen:

As part of our tree removal operations we select any logs that can be sawed for lumber. We have reviewed an offer from Johnson Lumber Company of Charlotte to exchange approximately 8,000 board feet of logs for a quantity of 4 x 4 treated posts at a cash equivalent of approximately \$600.00.

We have reviewed this with the Purchasing Agent and we concur in recommending this agreement of exchange with Johnson Lumber Company.

Sincerely,

THEODORE J. HASKELL,  
Director of Parks and  
Recreation.

Referred to Committee on Parks and Recreation.

#### REPORT OF COMMITTEE

The Committee on PARKS AND RECREATION, to whom was referred the recommendation of the Director of Parks and Recreation to exchange logs for treated fence posts from the Johnson Lumber Company, reports as follows:

That the committee concurs with the recommendation and that the Purchasing Director and Director of Parks and Recreation

work out the details with the cash equivalent being approximately \$600.00.

By Councilman Blair—

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

May 20, 1976

Honorable Mayor Gerald W. Graves,  
Mayor Pro-Tem Terry J. McKane and  
Members of the Lansing City Council  
Lansing City Hall  
Lansing, Michigan 48933  
Dear Mayor Graves, Mayor Pro-Tem  
McKane and Members of City Council:

I hereby certify that the Amendment of the Contract between the Tri-County Aging Consortium and the City of Lansing (PN-198), effective from November 16, 1975 through September 30, 1976, has been properly submitted to you in conformance with Section 2A-11 of the Community Development Ordinance.

This amendment not only changes the operating agency of the Northside Nutrition Program, to the Tri-County Aging Consortium but also reduces the total compensation from \$62,683 to \$43,160.

The contract amendment does meet with the requirements set forth for certification pursuant to the above sighted Section.

Respectfully submitted,

ORRIN E. SHARP,  
Executive Assistant to the  
Mayor for Community  
Development.

Referred to Committee on Community Development.

May 19, 1976

Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

As a result of a citizen complaint and request, the Traffic Department mailed 43 questionnaires to the residents of the 100-

400 blocks of E. Denver Street. The questionnaire requested residents' opinion relative to parking regulations on Denver Street. Of the 25 responses, 21 indicated a preference for resituated parking on one side. Thirteen of these felt parking should be removed from the north side; one person said either side.

Denver Street is 26 feet wide, and all day parkers park on both sides making access to homes difficult. Fire hydrants are located on the north side of Denver Street.

The Traffic Board recommended for Council consideration that parking be prohibited on the north side of Denver Street from Cedar Street to Everett Lane.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

May 17, 1976

Z-59-75—Corrected

3124 Forest Road

Honorable Mayor and Members of  
City Council

The Planning Board, at their meeting of May 4, 1976, recommended that the request by Geert Mulder to revise the approved Community Unit Plan for a parcel of land located in the 3100 block of Forest Road be approved. The Board found that the proposed change would modify Phase III of the Tammany Hills development which would allow twenty (20) fourplex units, totaling 80 units to be developed, in place of sixteen (16) fiveplex and two fourplex units, totaling 88 units.

The approval was based on the following:

- 1) That a landscape, screening and fencing plan be submitted to the Planning Board for approval with a schedule for installation prior to the issuance of Occupancy Permits.
- 2) That the entire area be subdivided in accord with the Subdivision Control Ordinance and the Michigan State Plat Act.
- 3) All improvements are to be built to City of Lansing standards, including drive openings.
- 4) All lots are to be graded so that surface water will drain therefrom so as not to affect adjacent properties.
- 5) That the development be served with underground utilities.
- 6) That the development be constructed in accordance with the approved plan.

The Board found, based on testimony and evidence, that the plan change would allow

each fourplex unit to be developed independently on its own lot with related parking and would better facilitate the sale of these units. It was also found that within the change there are four (4) parking spaces per unit proposed. The petitioner explained that since he was going to develop four bedroom units, that the four parking spaces per unit would provide for the needed parking in the case where any units were rented to unrelated individuals, such as MSU students.

The Board further recommended that all public agencies, to whom were referred this request and submitted their requirements for development, be complied with.

This recommendation is made by a 6 years, 1 nay vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Mayor Gerald W. Graves and  
Lansing City Council Members  
10th Floor, City Hall  
Lansing, Michigan 48933

Dear Mayor and City Council Members:

Members of the City Council Building and Properties Committee are planning a tour of the Kalamazoo Convention Center on Thursday, June 3, 1976. We would like to instruct the CATA bus driver to park in front of City Hall on Michigan Avenue between 8-8:40 a.m. and 3-3:40 p.m. for the purpose of loading and unloading passengers. We would like permission to have the CATA bus park in the above mentioned location.

Your permission in this regard will be greatly appreciated. Thank you.

Very truly yours,

ROBERT J. HULL,  
Councilman,  
Chairman,  
Building and Properties  
Committee.

By Councilman Blair—

That we concur in the request of the Committee on Buildings and Properties.

Carried.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan 48933

Dear Mayor Pro-Tem and  
Council Members:

In compliance with the City Charter provisions (Section 7.6c), I am herewith submitting my recommendations for filling upcoming vacancies on City Boards. Of the 45 nominations for appointments, attached herewith, 30 are re-appointments. Of the 15 new nominations, 10 are male and 5 are female, the net result is one additional minority being recommended and two additional females.

I am taking this opportunity to publicly express my appreciation to those persons who accepted my offer to be re-appointed, and for their contributions to the betterment of the City. Too, each has gained valuable experience in the past and each will be more knowledgeable in the functioning of the respective Boards in the future.

Trusting these nominations for appointment meet with your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

May 21, 1976

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

After reviewing the communications from Mrs. Warr and the Lansing Model Cities Federal Credit Union (attached), I strongly recommend that no further Community Development funds be allocated to the Lansing Model Cities Federal Credit Union (LMCFCU).

The Board and staff members of the LMCFCU have had ample opportunity to apply for a charter revision so that Community Development clients could be served by the Credit Union. No such action has been taken to date. The Model Cities Federal Credit Union has not been self-sufficient and has only been able to remain in operation because of the thousands upon thousands of Federal dollars pumped into it by Model Cities. This last year the shareholder enrollment has actually decreased and the amount of shareholders has made large car loans impossible. Shareholders at this point can do far better by investing in a bank savings program. It is time to see it go.

It is my recommendation that every attempt be given to implement alternative four of Mr. Chapman's letter, "Before all Credit Union resources are depleted, the Board would consider merger with another Credit Union and lose the Community Development identity," at the earliest possible date. That should be their prerogative and without our interference, or assistance.

It should be pointed out that the National Credit Union Association does not want the LMCFCU changing its charter each year to accommodate the Community Development target area clients. This then becomes incompatible with the Community Development Program as it expands to various new areas each year.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Community Development.

May 20, 1976

Honorable Mayor Pro-Tem and

Members of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and

Council Members:

The \$1.2 billion appropriated for CETA Title II with the adoption of the Swine Flu Bill signed into law on April 15, 1976, will extend Title II to December 31, 1976. Lansing's allocation is large enough to

allow for the transfer of most Title VI participants to Title II; however, since Title II requires that a participant be unemployed for at least thirty days, instead of the fifteen days required by Title VI, a few Title VI employees do not qualify for transfer to Title II. There is debate in Congress whether such participants still may not transfer to Title II.

Because of the legality of such transfers is in question, H. R. 12987, the "Emergency Jobs Program Extension," has been proposed. This Bill, which would extend Title VI funding to September 30, 1976, was passed 287-42 by the House on Friday, April 29, 1976.

Last week, the Senate Subcommittee on Employment, Poverty and Migratory Labor passed its version of the Bill to the full Committee on Labor and Public Welfare. Among other things, the Senate Bill extends Title VI for fifteen months (to September 30, 1977) and authorizes the waiver of the thirty-day rule for Title VI participants transferred to Title II, so that no lay-off period will be required. The Bill authorizes appropriations sufficient to maintain the current level of employment under CETA; it does not authorize an expansion of the program.

Since the Bill does not expand Public Service Employment and makes no radical changes to the regulations, there would seem to be a reasonable chance it will pass the Senate—provided no riders are attached.

Because of the importance of such programs to the City of Lansing and to people in need of employment, I am drawing your attention to this matter. I request that you formally approve a resolution in support of the overall program and the legislation specifically mentioned in paragraph three, and further, that copies of the resolution be forwarded as soon as possible to President Gerald Ford, Senators Philip Hart and Robert Griffin, and to the Michigan Delegation in the House of Representatives.

Sincerely,

GERALD W. GRAVES,  
Mayor.

By Councilman Belen—

That we concur in the Mayor's recommendation, and that the Mayor Pro-Tem be directed to send a letter in regard to same.

Carried.

## RESOLUTIONS

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That the City Assessor be, and he is hereby directed to spread on the December, 1976 tax rolls, the cost of correcting the hazardous and unsanitary conditions of properties, in the year 1976, as reported this date by the Building Commissioner, and as per attached list.

Adopted by the following vote:

Unanimously.

## APPLICATION TO WITHHOLD FROM SALE

By Committee on Buildings and Properties—

Whereas, the following described land(s) in Ingham County,

Lot 10 exc. W 20 ft., Jessop's Home Gardens Subd.—City of Lansing (3806 S. Cedar St.),

were deeded to the State of Michigan on the 4th day of May, 1976, through nonredemption from the county treasurer Oct. 7, 1975 tax sale.

Whereas, said lands are now under the jurisdiction of the Department of Natural Resources and may be withheld from the first sale at which they are scheduled to be offered for the purpose of redemption on behalf of the former owner as provided for in Section 131c of Act 206, Public Acts of 1893, as amended.

Now Therefore Be It Resolved by the City of Lansing that application is hereby made to the Department of Natural Resources to withhold said lands from sale, and

Be It Further resolved that said City of Lansing does hereby authorize the county treasurer to collect all delinquent taxes on said lands if application is made by the owner thereof during the period for which said lands are withheld from sale by this application.

## CERTIFICATION

I hereby certify that the above is a true and correct copy of a resolution offered and adopted by the City of Lansing on the 24th day of May, 1976.

THEO FULTON,  
Clerk of Lansing,  
9th floor, City Hall,  
Lansing, Michigan.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing owns property described as follows, to-wit:

Commencing 291 feet West and 33 feet South of the Northeast corner of Section 32, City of Lansing, thence South 200 feet, West 164 feet, North 200 feet, East 164 feet to beginning;

and

Whereas, Michigan Bell Telephone Company has requested that an easement be granted to place a buried cable south of Holmes Rd., four (4) feet West, parallel and adjacent to the East property line of the parcel described above; and

Whereas, requested easement is essential to enable Michigan Bell to provide service for the property adjacent to subject property on the South; and

Whereas, the proposed easement would not be detrimental to the City owned property;

Now, Therefore, Be It Resolved that upon approval of the drafted instrument (Easement) by the City Attorney, the Mayor and City Clerk will be authorized and directed to execute the easement for the City of Lansing, in favor of the Michigan Bell Telephone Co.

By Councilman Baker—

That we call a 5-minute recess for discussion.

Adopted by the following vote:

Unanimously.

The resolution was adopted by the following vote:

Unanimously.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas City Council approved on March 22, 1976, a Lansing Industrial Development District No. 3 with Cutler Plastics as petitioner, through a clerical oversight Industrial Development District No. 3 had been previously assigned to another district.

Now Therefore Be It Resolved, that Council redesignate the District described as:

Lot 9 exc com NW cor Lot 9, th E on N Lot line 332.82 ft, S 17 deg 10 min 15 sec E 151.88 ft, S 65 deg 56 min 20 sec W 285 ft to W ly Lot line, NW ly 288 ft to beg; Midway Industrial Center,

City of Lansing, Ingham County, Michigan,

commonly known as 5511 Enterprise Drive—Petitioner—Cutler Plastics Corporation, as Lansing Industrial District No. 4.

Adopted by the following vote:

Unanimously.

By Committee on Community Development—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing and the United States of America have entered into an Agreement to plan and implement a Community Development Program; and

Whereas, the City of Lansing, through the Human Resources Department, (H.R.D.) and the Tri-County Aging Consortium entered into a Contract effective from November 16, 1975 through September 30, 1976 in the amount of Sixty-Two Thousand, Six Hundred Eight-Three and 00/100 (\$62,683.-00) Dollars; and

Whereas, due to unforeseen difficulties and delay in implementing the program, the Tri-County Aging Consortium has requested certain changes in the Objectives and Scope of Services contained in said Contract; and

Whereas, the City of Lansing, through the Human Resources Department, and the Tri-County Aging Consortium, mutually desire to revise the budget of said Contract for the period from November 16, 1975, through September 30, 1976 to provide a maximum compensation in the amount of Forty-Three Thousand, One Hundred Sixty and 00/100 (\$43,160.00) Dollars; now, therefore, be it

Resolved, that the Mayor and City Clerk are hereby directed to sign said proposed Contract Amendment on behalf of the City of Lansing, after approval as to form by the City Attorney, and certification by the Finance Director as to availability of funds.

Adopted by the following vote:

Unanimously.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, a lease agreement was entered on April 26, 1976 between the City of Lansing and Harold B. Davenport for 600 sq. ft. of Parcel 12A & 13, Project No. 1, Mich. R-87, for \$120.00 per month, for the operation of a portable fast food concession stand; and

Whereas, said lease was for 30-days, from May 3, 1976 to June 3, 1976;

Now, Therefore, Be It Resolved that the City Attorney be directed to prepare another lease, all provisions to be identical with the original lease except the lease be changed from 30-day lease to automatic renewal each month with the same 10-day termination rights for both parties as outlined in paragraph 8 of the present lease, and

Be It Further Resolved that upon completion of a new lease, the Mayor and City Clerk be authorized to sign said lease on behalf of the City of Lansing.

Adopted by the following vote:

Yeas: Councilmen Adado, Baker, Gunther, Hull, McKane—5.

Nays: Councilmen Belen, Blair, Brenke—3.

By Councilman Hull—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has been informed that Federal Assistance through the Department of HUD is available for Innovative Projects; and,

Whereas, the criteria established by HUD for these Innovative Projects can be directly related to the Development Plan for North Lansing as established by the North Lansing Community Association; and,

Whereas, Federal Assistance under this type grant is 100% federally funded;

Now, Therefore, Be It Resolved that an Innovative Projects grant is to be prepared which will basically provide for selected rehabilitation of a number of commercial buildings in the North Lansing Commercial Historic District, the development of the park land and open spaces immediately adjacent to the North Lansing dam, construction of appropriate entrance and pathways along the river to the dam, selected street and street lighting modifications and the construction of fishing and observation decks at the dam and on the Grand River Bridge; and,

Be It Further Resolved that should the grant be approved, the implementation of the projects contained therein will be the responsibility of the North Lansing Community Association as a sub-grantee of the City of Lansing; and,

Be It Further Resolved that the Mayor is directed to sign this grant application and any subsequent grant contracts after approval by the City Attorney as to form; and,

Be It Finally Resolved that the Program Coordinator is authorized to submit the grant application to the appropriate authorities.

Adopted by the following vote:

Unanimously.

By Councilman Blair—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing has acquired the Dodge property and Mansion for public use; and,

Whereas, the Dodge Mansion has been placed on the National Register of Historic Places; and,

Whereas, having been placed on the National Register of Historic Places, it is necessary that determination of the restoration required to restore the mansion to circa 1900 condition be ascertained by thorough and complete research; and,

Whereas, it has been demonstrated that to facilitate and expedite the proper restoration and rehabilitation of the Dodge facility, an advisory committee needs to be established to oversee and coordinate all research and restoration activities;

Now, Therefore, Be It Resolved that an advisory committee of four members be established to coordinate and direct the research and restoration tasks incidental to the restoration of the Dodge Mansion; and,

Be It Further Resolved that the members of said committee shall be the Director of Parks and Recreation, to be chairman; the Director of the Community Design Center, a member of the Lansing Junior Chamber of Commerce, and a representative of the North Lansing Community Association.

Be It Further Resolved that this committee be immediately formed and is directed to develop a detailed plan with sketches, appropriate cost estimates and time phasing for all restoration work.

Be It Finally Resolved that the Advisory Committee will make a monthly written report to the Parks and Recreation Committee of the City Council.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, Consumers Power Company has requested a utility easement across the following described parcel of land in the City of Lansing, County of Ingham and State of Michigan, to wit:

The S  $\frac{3}{4}$  of the S  $\frac{1}{2}$  of the SE  $\frac{1}{4}$  of Section 2, T3N, R2W, lying north of L-96.

The route to be taken by utility lines being more specifically described as follows:

The centerline of the overhead line is to be located within the South 10

feet of the East 470 feet of the above described land according to Exhibit A. The Centerline of the underground line is to be located within the South 10 feet of the above described land according to Exhibit A.

Whereas, the City Council has approved that the easement be granted for utility lines and related maintenance in exchange for one dollar (\$1.00) and other considerations.

Now, Therefore be It Resolved that the City Council approve this utility easement and,

Be It Further Resolved that upon approval as to form by the City Attorney and City Engineer, the Mayor and City Clerk be authorized and directed to sign on behalf of the City.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, Consumer Power Company has requested a utility easement through Riverside Park property described as:

A parcel of land in Section 20, T4N, R2W,

more particularly described as:

Beginning at a point 606 feet West of the Northwest corner of Cadwell (Moores River Drive) and Birch Street in said City of Lansing, thence West 17 feet, thence North parallel with Birch Street 70 feet, thence East parallel with Cadwell (Moores River Dr.) 17 feet thence South 70 feet to the place of beginning except the road right-of-way as shown in Exhibit B (except that part shown that extends into the road right-of-way).

Whereas, the Park Board and City Council have approved that the easement be granted for underground utility and related maintenance in exchange for one dollar (\$1.00) and other considerations.

Now, Therefore Be It Resolved that the City Council approve this utility easement and,

Be It Further Resolved that upon approval as to form by the City Attorney and City Engineer, the Mayor and City Clerk be authorized and directed to sign on behalf of the City.

Adopted by the following vote:

Unanimously.

## By Committee on Personnel—

Resolved by the City Council of the City of Lansing:

That effective May 24, 1976, the City Personnel Director is authorized and directed to reclassify one Civil Engineer VIII position within the Public Service Department section of the Classification and Compensation Plan, to Design Engineer IX. All increased costs are funded within existing budgetary allocations and will be funded within the approved FY '76-'77 budget.

Adopted by the following vote:

Unanimously.

## By Committee on Personnel—

Members of City Council  
City Hall  
Lansing, Michigan

Re: John Bean Purchase

Fellow Council Members:

After receiving the Economic Development Corporation Project Plan, many questions have come up in my mind that I wish to be answered and clarified before the final vote will be taken on Monday, June 18, 1976. They are as follows:

1. Will this project have a termination date?
2. What will be the total cost to the City for this time period?
  - a. Closing costs
  - b. Maintenance
  - c. Insurance
  - d. Tax loss during period
  - e. Utilities
  - f. Possible demolition costs
  - g. Transfer costs
  - h. Total budget, if possible
3. From what account will the fund be appropriated and will EDC reimburse the City for these expenses?
4. When this property is eventually sold by EDC, will it be returned to the tax rolls?
5. Have any safeguards been provided in the proposed plan to guard against leasing space in the proposed project:
  1. below market value; 2. in competition with tax paying free enterprise.

I feel these are all valid questions which should be answered before this Council places an evaluation approval on this project.

Sincerely,

JAMES D. BLAIR,  
Councilman-at-Large.

Received and placed on file.

#### PUBLIC HEARING

June 1, 1976, at 7:30 o'clock being the time set as the time for holding a public hearing on the proposed Project Plan for the John Bean property as proposed by the Economic Development Corporation.

The Mayor announced that if there was anyone present who had any suggestions or objections to make to the proposed project plan for the John Bean property, he had the privilege of speaking at this time.

Ed. Vogt, Chairman of E.D.C., 1729

Cadillac Dr., Lansing, spoke and read a statement on the E.D.C. proposal.

Al Tubbs, Secretary of Planning Board, presented Planning Board comments and approval.

Mr. Don Hines, Attorney for owners of F.M.C. Corp., spoke.

Referred to Committee on Buildings and Properties.

May 27, 1976

**Honorable Mayor and Members  
of City Council:**

On May 25, 1976, pursuant to Section 9 of the Economic Development Corporations Act (P.A. 1974, No. 338), the Lansing Planning Board conducted a public hearing regarding the project plan submitted by the City of Lansing Economic Development Corporation for the land commonly known as the John Bean Property. This public hearing was held in accordance with the stipulations of Section 17 of the EDC Act.

It is the finding of the Lansing Planning Board that the Project Plan meets all the requirements set forth in Section 8 of the Act; that the land included within the project area to be acquired is reasonably necessary to carry out the purpose of the plan and the Act in an efficient and economically satisfactory manner; that the Project Plan is in reasonable accord with the Master Plan for the City; that the Project Plan and size is practicable and in the public interest; that public services are adequate to serve the project area; that no changes in zoning, streets, street-lends, intersections or utilities are necessary for the project.

Based on these findings and the fact that no one appeared to speak against the project at the public hearing, the Lansing Planning Board hereby certifies its approval of the Project Plan submitted by the Economic Development Corporation.

Sincerely,

DAVID L. PURVIS,  
for Alan E. Tubbs, Secretary,  
Lansing Planning Board.

**PUBLIC HEARING**

June 1, 1976, at 7:30 o'clock being the time set as the time for holding a public hearing on the proposed City Wide Goals and Developmental Objectives for the Capital Improvements Program.

The Mayor announced that if there was anyone present who had any suggestions or objections to make to the proposed city wide goals and developmental objectives for the Capital Improvements Program he had the privilege of speaking at this time.

(The Mayor introduced Mr. Tubbs.)

Mr. Tubbs—Thank you, Mayor Graves, Members of the City Council, Ladies and Gentlemen.

The City of Lansing, due to the complexity of local government, the increase in demand for public services and facilities and the limited resources available to meet that demand, has instituted a year round continuous planning and budgeting process for the City's Capital Improvements Program. In order to maximize the utilization of the City's limited resources and meet the needs of the community, the City must first establish City wide Goals and Developmental Objectives. These Goals and Developmental Objectives, once adopted by the Mayor and City Council, will provide a general definition of what our City should be, a long range direction the City should take to achieve those goals and a basic framework for decisions regarding the Capital Improvements Budget.

The City sent out for public comment approximately 140 copies of the Goals and Developmental Objectives to various groups, neighborhood organizations, agencies, associations, etc. We have received several written and verbal responses relative to the Goals and Developmental Objectives. Many of the comments have emphasized the fact that the Goals are too general and should be specific. I must point out that the intent is to be general in establishing Goals for the City, thus defining in a general way what the City should be and do. Once the Goals and Developmental Objectives have been adopted we can then begin defining in detail the who, what, when, where, how and why for each Goal and Developmental Objectives. In order to accomplish this we must first collect and analyze information relative to each goal. The results of this activity which will take place during the ensuing summer months will be the current status of each Goal and the establishment of Operational Objectives which will be specific projects, programs and policies relating to the achievement of the adopted Goals and Developmental Objectives.

Tonight we are here to review the proposed City Wide Goals and Developmental Objectives for Lansing's Capital Improvements Program.

Mr. Tubbs turns floor back to Mayor Graves.

Mayor Graves—In order to expedite the Public Hearing regarding these goals we will use the following procedures:

The first Goal Statement will be read by the Clerk and she will also refer to the titles of Developmental Objectives under that Goal Statement. The floor will then be open for public comment on that Goal and Objectives. After the public comments have been made we will go to the next goal statement and follow the same procedure.

There are copies of the Goals and Developmental Objectives available for your review. We will begin with Housing and proceed according to the Table of Contents of the Goals and Developmental Objectives document. We welcome your comments. Thank you for attending this public hearing.

City Clerk read the following:

#### HOUSING GOAL STATEMENT which says

"The City shall initiate and support housing programs, through both public and private actions, that establish sound, sanitary and more pleasing shelters and living areas for every family and individual within Lansing regardless of age, race or social and economic status."

Included as part of the Housing Goal Statement are Developmental Objectives which more specifically define the Housing Goal. They pertain to:

- (A) Existing Housing
  - (B) Redevelopment of Housing
  - (C) New Housing Construction
- (The Mayor asked for public comments.)

No persons spoke.

#### GROWTH GOAL STATEMENT which says

"The City shall selectively increase the land area of the City where it would economically benefit the City and/or provide for orderly development and to increase the population consistent with the City's ability to provide housing, public services and facilities and economic opportunities."

Included as part of the Growth Goal Statement are Developmental Objectives which more specifically define the Growth Goal. They pertain to:

- (A) Land Area
  - (B) Population
- (The Mayor asked for public comments.)

No persons spoke.

#### PARKS AND RECREATION GOAL STATEMENT which says

"The City shall provide and support recreation through both the private and public sectors which offers a broad range of efficient and effective recreation opportunities through the provision of land, facilities and programs both active and passive for all individuals and groups in order to gain the greatest and most constructive satisfaction and benefit from their leisure time."

Included as part of the Parks and Recreation Goal Statement are Developmental Objectives which more specifically define

the Parks and Recreation Goal. They pertain to:

- (A) Facilities and Programs
  - (B) Land
- (The Mayor asked for public comments.)

Maxine Parshall, 731 W. Genesee Street, spoke.

Theodore Haskell, Director of Parks and Recreation, spoke.

Chas. Jurasek, 3200 Reo Rd., spoke.

Anthony Shano, 2520 Wilson Ave., spoke.

#### ECONOMIC OPPORTUNITIES GOAL STATEMENT which says

"Through the joint efforts of the public and private sectors, the City of Lansing will retain and increase employment opportunities in the City by strengthening and stabilizing existing and establishing new business and industry."

Included as part of the Economic Opportunities Goal Statement are Developmental Objectives which more specifically define the Economic Opportunities Goal. They pertain to:

- (A) Industrial
  - (B) Commercial
  - (C) Employment
  - (D) Professional Services
  - (E) Government
- (The Mayor asked for public comments.)

Councilman Blair felt (F) should be added—Regional Conventional and Employment Facilities.

#### TRANSPORTATION GOAL STATEMENT which says

"Through the efforts of both the public and private sectors,

- A) provide an efficient and effective public transportation system which is convenient for all segments of the community, and
- B) minimize the necessity to expand currently existing publicly funded parking and transportation facilities utilized by private vehicles."

Included as part of the Transportation Goal Statement are Developmental Objectives which more specifically define the Transportation Goal. They pertain to:

- (A) Public Transportation
- (B) Non-Motorized Transportation
- (C) Private Transportation

(The Mayor asked for public comments.)

Leonard Sawisch, 2603 Risdale, spoke and presented comments relative to hand-capped.

Beth Shapiro, 2110 Raß Street, spoke.

#### PUBLIC SERVICES AND FACILITIES GOAL STATEMENT which says

"The City of Lansing shall continue to provide, maintain and improve all Public Services and Facilities which include the Sanitation System, the Utility System, the Circulation System and the Public Safety System that satisfy the needs of the community."

Included as part of the Public Services and Facilities Goal Statement are Developmental Objectives which more specifically define the Public Services and Facilities Goal. They pertain to:

- (A) Sanitation System
- (B) Utility System, which includes water, steam, street lighting and electric energy
- (C) Circulation System, which includes streets and highways, bridges, and vehicular and pedestrian control
- (D) Maintenance
- (E) Public Safety, which includes Police, Fire, and Emergency Operations

(The Mayor asked for public comments.)

Mike Husley, 823 N. Logan St., spoke.

Robert Backus, Director Public Service, said Storm Sewers should be added.

Referred to Committee on Planning.

Re: Claim of Mrs. Steven W. Woodard for damages of \$40.44 when city truck allegedly struck her mailbox

Dear Mayor and Council:

On April 26, 1976, Mrs. Steven Woodard filed a claim with the city regarding damage to the mailbox at her residence at 3901 Windemere Drive when a city truck allegedly struck the mailbox.

Pursuant to MCLA 691.1405; MSA 3.996 (105) a governmental unit is not immune from property damage resulting from the negligent operation by an employee of the governmental unit. It is the opinion of this office that the claim be paid in the amount of \$40.44.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney and the City Clerk be directed to draw a warrant on the City Treasurer in the amount of \$40.44 payable to Mrs. Steven Woodard.

Re: Alleged defect in title to a portion of Marscot Park

Dear Mayor and Council:

An alleged defect to a portion of our title to Miller-Marscot Park recently came to light when Mr. Warner proceeded to erect a fence upon the property line of his new development and our park. Unquestionably, this fence encroaches three feet upon the legal description which the City of Lansing purchased. After extended discussion with Mr. Warner's surveyor, the surveyor for the City of Lansing, and the two title insurance companies, I have reached the conclusion that the legal description purchased by the City of Lansing actually encroaches upon Mr. Warner's property by approximately 2.57 feet.

After further discussions, our title insurance company has offered to prepare a quit claim deed to Mr. Warner for the encroached property, conform our existing title insurance policy, conform our survey so that it is accurate. Additionally, the company will pay us \$500.00. I recommend the acceptance of these terms since the encroachment is insignificant, being approximately 1/98 of an acre and, if pro rated over the entire acreage, the cost would be less than \$100.00. Mr. Haskell has assured me that this will in no way affect the park value of the land.

I hereby request your authorization to settle this matter on the above terms.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Blair—

That we concur in the recommendation of the City Attorney.

May 27, 1976

Honorable Mayor and Members  
of the Lansing City Council

Dear Mayor and Council:

Recently, several requests have been forwarded to this office to commence civil actions on behalf of the City and individual police officers for injuries received at the hands of persons they are attempting to arrest. These requests have been prompted out of a belief that the suits would serve as a deterrent to such assaults, and that the officers and the City should be compensated for the damages incurred.

I too believe that injured officers should be fully compensated and all available legal remedies utilized to deter this reprehensible criminal conduct. While these suits will not deter this lawless conduct as effectively as the primary weapon, criminal prosecution, it is apparent from Chief Gleason's remarks at last Monday's Public

Safety Committee that this secondary tool must now be employed.

The institution of these suits will bolster sagging police morale and confirm the City's commitment to fully support the rank and file officers. Similarly, it will serve as notice to the criminal element that the full force of City government will be brought to bear on them when they assault a police officer. Therefore, I am submitting the following recommendations to you.

1. In any instance where an officer is physically injured the City should support civil actions brought by the officers. This support could include hiring outside independent counsel at the rate of \$30.00 per hour to represent the interests of the officer. The attorneys could be selected by the Department of Law on a bid proposal basis, and approved by City Council. This is necessary because the City is entitled to participate in any final judgment and the officer should be independently represented. If the officer so chooses he may, at his own expense, retain counsel, or after being fully advised of the potential conflict waive the same, in writing, in which case he will be represented by this office.\*

\*DR 5-105 Refusing to Accept or Continue Employment if the Interests of Another Client May Impair the Independent Professional Judgment of the Lawyer.

(A) A lawyer shall decline proffered employment if the exercise of his independent professional judgment in behalf of a client will be or is likely to be adversely affected by the acceptance of the proffered employment, except to the extent permitted under DR 5-105 (C).

(B) A lawyer shall not continue multiple employment if the exercise of his independent professional judgment in behalf of a client will be or is likely to be adversely affected by his representation of another client, except to the extent permitted under DR 5-105 (C).

(C) In the situations covered by DR 5-105(A) and (B), a lawyer may represent multiple clients if it is obvious that he can adequately represent the interest of each and if each consents to the representation after full disclosure of the possible effect of such representation on the exercise of his independent professional judgment on behalf of each.

(D) If a lawyer is required to decline employment or to withdraw from employment under DR 5-105, no partner or associate of his or his firm may accept or continue such employment.

DR 5-106 Settling Similar Claims of Clients.

(A) A lawyer who represents two or more clients shall not make or participate in the making of an aggregate settlement of the claims of or against his clients, unless each client has consented to the settlement after being advised of the existence and nature of all the claims involved in the proposed settlement, of the total amount of the settlement, and of the participation of each person in the settlement.

2. Whenever an officer independently brings suit and the City's interests have been adversely affected by such assaults, this office should be authorized to join, as an active participant, in the lawsuits instituted by the officers against such persons.

3. If, within one calendar year of the assaults, the officer has not commenced such actions or requested this office to commence such actions, this office will take appropriate action to protect the City's interest in recovering lost wages and medical expenses. This one-year delay is necessitated by the Worker's Compensation statute, being MCLA 418.827, which provides in pertinent part:

"If the injured employee of his dependents or personal representative does not commence the action within one year after the occurrence of the personal injury, then the employer or carrier, within the period of time for the commencement of actions prescribed by statute, may enforce the liability of such other person in the name of that person."

That sentence has been interpreted by the Michigan Supreme Court to mean:

"... that the employer or insurer may not start suit within one year, but may do so thereafter if the employee has not done so." (emphasis added) *Harrison v. Ford Motor Co., et al*, 370 Mich 683 (1963); 122 NW 2d 680.

That the Worker's Compensation statute is applicable to this problem is unquestionable in view of the pertinent sections of the Policemen's and Firemen's Retirement System. Lansing City Charter, ch 16, §16.29 provides:

"Any workmen's compensation paid or payable on account of the disability or death of a member or retirant shall be offset against any retirement allowance paid or payable by the retirement system on account of the same disability or death."

Further, the Worker's Compensation, MCLA 418.406, grants a special presumption to policemen who claim job related illness related to respiratory and heart disease. Also, I note that in the last three years, at least two Worker's Compensation claims have been processed by this office involving former police officers. Of course, if the officer is given counsel by the City,

waives the conflict, or employs private counsel the delay won't be necessary.

In summary I must stress that while these suits can not supplant a criminal prosecution for this type of behavior, they can serve a valid purpose and will be prosecuted to the fullest extent by this office, consistent with the Canons of Ethics and applicable statutory provisions. Absent your contrary instructions, I shall, If contacted by Officer McClain, institute a civil action forthwith.

If I may be of further assistance in this matter, please feel free to contact me.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Honorable Mayor and

Members of the City Council

Lansing, Michigan

Gentlemen:

The Building Department has received a written request to demolish a single family dwelling located at 231 N. Butler, from the legal owner, Mrs. Thelma Kirchen. The property is further described as:

The south thirty-eight (38) feet of the north five and one-third (5 1/3) Rods of the East five (5) Rods of Lot one (1), block eight (8) of Claypool's Subdivision.

Work performed shall include demolition and removal of the structure, filling and grading of the site, and shall be accomplished by the City of Lansing, with all costs applied to the property tax roll.

Therefore, it is requested that the City Council authorize the Building Commissioner to proceed with the demolition of this structure, and the Purchasing Agent be authorized to obtain quotations for this work.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

The following is a request for a 48-hour liquor license for the ethnic groups taking part in the Ethnic Festival on July 3 and 4, 1976, in conjunction with the "Spirit of 76" activities.

The event to be held at the Riverfront Park from 12:00 noon to 9:00 p.m., each day, is to have the participation of the following ethnic groups:

Black	German	Macedonian
Chicano	Indian	Polish
Cuban	Italian	Puerto Rican
Chinese	Japanese	
Finnish	Lebanese	

These groups will portray the rich diversities in cultures that make up this community by ethnic dancing, displays, foods and the selling of beer, wine and foreign alcoholic beverages or liqueurs.

Since not all the ethnic groups will be serving beer, wine and liqueurs, the Ethnic Festival Committee can substantiate which groups should have a liquor license, and these are the following:

Italian	German	Polish
Lebanese	Chicano	Finnish
Macedonian	Cuban	

Your direction will be appreciated in the procedure to be followed by these ethnic groups in their application of a 48-hour liquor license.

Thank you for your cooperation in making this event successful.

Sincerely,

LYNDA EGBERT,  
Bicentennial Director,

PAULINE L. SANDOVAL,  
Ethnic Festival Committee  
Assistant.

Gentlemen:

The Housing and Redevelopment Advisory Board, at its meeting held on May 25, 1976, unanimously recommended, in view of the concern expressed by the Citizens District Council No. 1 on the issue of street lights in the Physical Development Area No. 1, that the Lansing City Council adopt a policy providing that any new light fixtures installed in that neighborhood meet the approval of the residents that reside therein.

In making this recommendation, the Board expressed its concern that the City Council, to the maximum extent feasible, incorporate the desires of residents affected by street lighting policies, in the process of establishing those policies. Engineering efficiency should be balanced with citizens' desires.

Thank you for your consideration of this recommendation.

Honorable Mayor and Members

of City Council:

On May 25, 1976, pursuant to Section 9 of the Economic Development Corporations Act (P.A. 1974, No. 338), the Lansing Planning Board conducted a public hearing regarding the project plan submitted by the City of Lansing Economic Development Corporation for the land commonly known as the John Bean Property. This public hearing was held in accordance with the stipulations of Section 17 of the EDC Act.

It is the finding of the Lansing Planning Board that the Project Plan meets all the requirements set forth in Section 8 of the Act; that the land included within the project area to be acquired is reasonably necessary to carry out the purpose of the plan and the Act in an efficient and economically satisfactory manner; that the Project Plan is in reasonable accord with the Master Plan for the City; that the Project Plan and size is practicable and in the public interest; that public services are adequate to serve the project area; that no changes in zoning, streets, street-lends, intersections or utilities are necessary for the project.

Based on these findings and the fact that no one appeared to speak against the

project at the public hearing, the Lansing Planning Board hereby certifies its approval of the Project Plan submitted by the Economic Development Corporation.

Sincerely,

DAVID L. PURVIS,

Lansing Planning Board.

300 block East Greenlawn

Honorable Mayor and  
Members of City Council:

The Planning Board, at their meeting of May 25, 1976, recommended that the petition by Stanley Martin to rezone property in the 300 block of East Greenlawn from "B-1" Family Residential District to "F" Commercial District be approved.

The Board's recommendation of approval was subject to a landscape, screening, and fencing plan being submitted to and approved by the Planning Department, and that ingress and egress be reviewed and approved by the Traffic Engineer. The Board found that this lot would be assembled with the property to the east, which is zoned commercial and the overall development would then consist of a Quality Dairy Milk Store and offices.

The Board could not find where the proposed change would be inconsistent with existing zoning and development patterns along South Cedar Street, which are of a commercial nature, but did feel that adequate protection from adjacent residential development was necessary and that traffic controls, in terms of ingress and egress to the site, should be reviewed in the best interests of the community.

This recommendation was made by a unanimous vote.

Sincerely,

DAVID L. PURVIS,  
for Alan E. Tubbes, Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Z-20-76

531 East Ash

Honorable Mayor and Members  
of the City Council:

The Planning Board, at their meeting of May 25, 1976, recommended that the

petition by Arnoldo Martinez to rezone property at 531 East Ash Street from "C-2" Family Residential District to "D-1" Professional Office District be denied.

The Board found that the entire block in which the site was located was zoned "C-2" Family Residential and was developed in a residential nature. Because of this, the Board believes that the proposed change of zoning would constitute spot zoning, establishing precedent for other areas of the City and therefore would not be in the best interest of the community.

The Board further found that the site size was thirty-six feet by ninety-six feet (36 ft. x 96 ft.) and by changing the zoning to allow a more intense use would have the effect of promoting overdevelopment of the property.

This recommendation was by unanimous vote.

Sincerely,

DAVID L. PURVIS,

Lansing Planning Board.

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council  
Lansing, Michigan  
City Hall

Re: Request of Council Committee on  
Buildings and Properties

Dear Mayor Pro-Tem and  
Council Members:

On Thursday, May 20, you held a Joint Meeting with the membership of the Civic Center Board, one of the first of this kind in many years. The purpose was to discuss problems related to the Civic Center and a proposed ordinance to put the general operation of that facility under the direction of the Parks Board.

Just prior to the close of the Joint Meeting, I took it upon myself to:

- Commend the City Council for finally holding a meeting with the Civic Center Board;
- Point out that the present Code of Ordinances gives to the Civic Center Board the responsibility of managing the Civic Center, "subject at all times to the supervision of the city council";
- Advise that the City Council had, for all practical purposes abdicated the responsibility of supervising the management

of the Civic Center, based on a study of the Official Council Proceedings, which for several years shows no contact between the City Council and the Civic Center Board.

- Request, for the time being, that the proposed ordinance be held in abeyance until after the Charter Commission completes its work on a proposed new Charter and until after the voters have spoken on that proposal at the ballot box;
- Suggest that the City Council adopt an ordinance, in the meantime, to make the Civic Center Board responsible to the Mayor for administration and to the City Council for policy, this being consistent with Sections 7.15 and 7.16 (pages 22 and 23) of the City Charter, wherein the Fire and Police boards are responsible to the Mayor for administration and to the Council for putting into effect policies;
- Recommend that the performance bond, now permitted, be used to eliminate the constant problem for some caterers leaving a "messy" kitchen behind, and that this bond could be used to hire contract employees to "sparkle-up" the kitchen, at the expense of the caterer in question.

Further, I advised that my office would look into the problems of the Civic Center, and advise you, presumably in 60 to 90 days. Early the next morning, May 21, Robert Black, Executive Assistant, and William Lewis, Administrative Assistant, commenced an evaluation and study of the Civic Center. An Exit Interview was conducted with the retiring Civic Center Manager; a lengthy meeting was held with both the administrative and building maintenance personnel; and an inspection was made of the facility. Both men commenced, also, studying various consulting reports of the past years.

However, at 5:04 p.m. on May 25, the Council's Committee on Buildings and Properties advised of the need of my recommendations by early afternoon on Wednesday, June 2. Therefore, in deference to the City Council, our efforts continued through the Memorial Day Weekend, and I am now submitting the following:

#### GENERAL OBSERVATIONS FROM IN-DEPTH INSPECTIONS:

- Hallway floors were dull and in need of scrubbing and polishing; there were accumulations of dirt and grime in corners of door jams; walls were in need of cleaning and painting; strips of tape remained on walls in some areas; hallway ceiling light fixtures (glass plates), and other ceiling light fixtures, needed cleaning; marble walls in the lobby need to be cleaned with a dirt remover, polisher solution available on the market made specifically for marble; floor sweepings were left in a number of different areas; mezzanine windows to entrance foyer were covered with paper taped on, giving

a bad appearance; and steps needed cleaning.

—The ceiling of the Main Auditorium requires spray painting; the Conference Room section had dusty venetian blinds, drapes were off traverse rod hooks, and were shabby; some drapes were apparently missing; the folding doors in the conference room were in bad shape and need replacing; the Concessionaire's area was dirty; and the soft drink dispensers looked beat-up; the restroom cleanliness was marginal and light fixtures need cleaning; one kitchen store-room floor was dirty and littered with trash; the kitchen equipment cleanliness was marginal; and some storerooms in general are poorly kept; and padded chairs stacked on the stage are in need of repair and the American Ensign above the stage should be replaced by a new one; and, the balcony and mezzanine fixed seats have had to be cannibalized to repair broken ones, since the type of seats originally purchased are not replaceable on the open market.

—The northside porch was in need of sweeping; and the grass in some small areas needed cutting and edging.

—THE MECHANICAL AREA, WHERE WORKSHOPS ARE LOCATED, HAS BEEN KEPT IN AN EXCELLENT MANNER — THOSE RESPONSIBLE SHOULD BE COMPLIMENTED.

The major problem with the general housekeeping at the Civic Center is simply a matter of inadequate and proper supervision on the part of those responsible for work assignments, etc. In my opinion, management, as of late, has failed to provide the leadership on a day-to-day basis, which is required to attain the desired results. In the absence of proper scheduling and assigning of work orders, the custodial personnel have operated on a "gang" basis in the menial tasks, and have produced, at taxpayers' expense, at a level far below their capabilities, especially with the number of employees involved.

Regarding my recommendations to improve the Civic Center Operation and Use, I firstly submit the following to you from my Budget Recommendations for Fiscal Year 1976-77:

"It is generally agreed that the Lansing Civic Center can be modernized for \$2,000,000. This cost may be met through (a) Public Works Program, or (b) Full Faith Building Authority Bonds. In regard to proposal 'a', there is Public Works Legislation pending before the U.S. Congress, which could provide up to \$1.5 million to the City of Lansing for such projects as the Civic Center—if approved, these funds could be supplemented by the \$500,000 I recommended to you two years ago for the Civic Center. In regard to proposal 'b', the bonds in question could be subject to approval in early 1977, the

Debt Service to begin in Fiscal Year 1977-78. The annual Debt Service on 15 year bonds is estimated at \$206,000, which equates to 26 cents per thousand and on 10 year bonds at \$266,000, which equates to 33 cents per thousand—my Recommended Budget provides for final payments of Debt Service on the following General Obligation Bonds: Grade Separations at \$90,000; Police Building at \$25,000; Fire Station at \$25,000 and the Civic Center itself, at \$200,000. This will wipe out debt which equates to 43 cents per one thousand dollars, or 10 cents to 17 cents more than the obligation needed to update the Civic Center."

To date, I have heard nothing from you, or the Federal Program Coordinator, regarding the Public Works Program. In regard to the bonding program for improvements, this could be legally handled, I am advised, through the City's own Building Authority, with a time element of approximately 6 months, after your formal approval to proceed, for the funds to be on hand.

Involved would be air conditioning, and (a) structural revisions and/or expansion necessary to accommodate cooling tower and related equipment; (b) cooling tower(s) sized for entire project; (c) chillers, pumps, etc., sized for entire project; (d) air handling units for Auditorium; (e) air handling units for Exhibition Hall, plus separate systems for current offices, parlors, foyer, etc.; (f) 1,600 installed, padded permanent seats in the balcony; (g) 1,400 installed, padded permanent seats in the mezzanine; (h) painting of the main Auditorium and Exhibition Hall ceilings; (i) new sound system; (j) mechanical repairs—Veteran's Section; (k) 500 new chairs for the Terrace Room; (l) physical revisions for the parlors, restrooms and offices, and folding partitions and new doors for the Main Auditorium and Exhibition Hall (m) food services facilities improvements; (n) smoke detector system for the Main Auditorium; and miscellaneous painting, decorating, roof repairs, tuck pointing, etc.; (o) fees and provisions for one to three years of inflation.

Secondly, I am recommending that the Civic Center Board remain, BUT that Section 2-10 of the Code of Ordinances be amended to make the Board responsible to the Mayor for administrative matters, and to the City Council for policy, to be consistent with Sections 7.15 and 7.16 (pages 22 and 23) of the City Charter, wherein the Fire Board and the Police Board are now responsible to the Mayor for the conduct of administrative services and to the City Council for putting into effect the policies of the Council, which relate to the functions of the department concerned.

Too, I am recommending:

—That the Civic Center Board continue to seek a highly qualified person for the position of manager to be hired at the

present XI Level Classification, compensation ranging from \$22,397 to \$25,597. (The job specifications are attached.) His task is to lead, and to provide responsibility and accountability, and see that the rules are enforced.

- That the New Manager be required to do continuing studies of cost effectiveness, use of manpower, assist in bookings for the building and in encouraging local use, while having the authority to operate the facility.
- That the incumbent Assistant Manager be terminated once a new Manager is on-board, and that the Manager be entrusted to hire a new Assistant Manager, and at a Classification Level of VII, with a salary range of \$14,197 to \$15,803 (see specifications attached).
- That the Building Maintenance Supervisor position V-A, recently vacated, be filled as rapidly as possible, to ensure proper maintenance and operations of all basic power equipment and general repairs.
- That you establish a Foreman IV-B position with a beginning hourly rate of \$5.27, to ensure proper utilization of utility and custodian personnel services.
- That an internal audit procedure be established to review all financial transactions, to include accounting methods, cash collections, deposits, disbursements, etc., in cooperation with the New Manager and his Assistant.
- That a review by the Internal Auditor be made of the agreements with the concessionaire and caterers to assure that they are equitable.
- That a review by the Internal Auditor be made of all fees and charges for bookings, services and rent.
- That you recommend to the Civic Center Board that a meeting be held with all caterers, so that the New Manager can provide them with updated requirements and recommendations.
- That a brochure—a visual aid—be prepared, after the aforementioned are approved, for distribution to potential Civic Center users.
- That, in the years ahead, consideration should be given to expanding the Exhibition Hall under the present parking lot to the east of the Civic Center, and expanding present parking upward in conjunction with a modern motel, restricted to not providing additional meeting rooms.

The Civic Center is a well constructed building. It can be most flexible and alive the year around. It can result in millions of dollars being spent in our community by conventioners, while simultaneously providing use for local people. However, your attention is necessary. I trust you will provide it.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Buildings and Properties.

June 1, 1976

Honorable Mayor Pro-Tem and Members

of the Lansing City Council

City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

More than one year ago, my office became involved in attempts to secure a Loan Guarantee through the Economic Development Administration of the U. S. Commerce Department for the Olds Plaza Hotel. I am now pleased to advise that during the late afternoon of Thursday, May 27, John Eden, the Administrator, of the Economic Development Administration, telephoned to advise that a \$350,000 Loan Guarantee for the Olds Plaza Hotel was approved. The Loan Guarantee will be a mortgage on the stock and fixtures only, not on the land and building.

Thus far, the overall effort on behalf of the Olds Plaza Hotel has been time consuming and detailed. However, there is now the responsibility of the owners of that facility to come up with approximately \$1.3 million, the collateral for which would be a first mortgage on the land and building. The time granted by the Economic Development Administration for the owners of the Olds Plaza Hotel to locate the aforementioned financing is usually six months. I trust that they will be successful in their search for the additional funding.

Please accept my appreciation and thanks for your cooperation, especially for the formal support of endorsement by resolution, which is now part of the file of the Economic Development Administration.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Received and placed on file with copies to Economic Development Corp. and the Downtown Development Authority.

**THE PUBLIC MAY NOW ADDRESS  
THE CITY COUNCIL ON ANY OF THE  
FOLLOWING RESOLUTIONS. YOU MAY  
SPEAK ONLY FOR 3-MINUTES ON  
ANY ONE RESOLUTION. (1 through 11)**

No persons spoke.

By Committee on Public Service  
and Highways—

Resolved by the City Council of the City  
of Lansing:

That the proposed Amendment to the  
Engineering Agreement with Snell En-  
vironmental Group on the Kingsley Court  
and Washtenaw Street Regrading, as re-  
quested by the Community Development  
Department, be approved, and

BE IT FURTHER RESOLVED, that the  
Mayor and City Clerk be authorized to  
sign this Amendment to the Agreement  
upon certification of the City Controller  
as to the availability of funds, and after  
approval as to form by the City Attorney.

Adopted by the following vote:

Unanmously.

By Committee on Buildings and  
Properties—

Resolved by the City Council of the City  
of Lansing:

Whereas, it has been determined upon  
inspection that structural repairs and in-  
stallation of new lighting fixtures are  
necessary in the South Grand Avenue  
Parking Ramp,

Now, Therefore, Be It Resolved, that  
the Property Manager be instructed to  
obtain a proposal for the preparation of  
the necessary plans and specifications for  
certain repairs and lighting changes for  
the South Grand Avenue Parking Ramp, and

Be It Further Resolved, that the Pur-  
chasing Agent be authorized to advertise  
for bids for this work as soon as plans,  
specifications and estimates are available.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and  
Properties—

Resolved by the City Council of the City  
of Lansing:

Whereas, Mrs. Thelma Kirchen, the  
legal owner of 231 N. Butler, further de-  
scribed as:

The south thirty-eight (38) feet of  
the north five and one-third (5 1/3)  
Rods of the east five (5) Rods of Lot  
one (1), block eight (8) of Clay-  
pool's Subdivision,

did submit a written request to the Build-  
ing Commissioner to demolish and remove  
a condemned residence located at the

above address, and that all costs be ap-  
plied to the property tax roll.

Now, Therefore, Be It Resolved, that  
the Building Commissioner is authorized  
to proceed with the demolition and re-  
moval of the structure, grading and filling  
the site, and that the Purchasing Agent  
is authorized to proceed with obtaining  
quotations for this work.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties  
and Committee on Public Safety—

Resolved by the City Council of the City  
of Lansing:

Whereas, it appears that metered park-  
ing discourages and even penalizes res-  
idents who desire to shop, do business or  
come into the Central Business District for  
various other reasons; and

Whereas, your Council committees have  
reviewed the additional costs associated  
with attendant parking as provided in a  
letter from the Traffic Director and Park-  
ing Supervisor dated 5-13-76 (see attached);

Now, Therefore, Be It Resolved, that  
the South Grand Parking Ramp be con-  
verted from a meter operated to an at-  
tendant operated ramp, and

Be It Further Resolved, that funds in  
the amount of \$13,545 be transferred from  
the Depreciation, Extension and Reserve  
Fund of the Parking System to cover equip-  
ment and conversion costs outlined in the  
attached letter and that funds in the  
amount of \$27,576 be transferred from  
Estimated Revenues of the Parking System  
to cover the increased costs of operation.

By Councilman Hull—

That this be referred to the Committee  
on Public Safety and Committee on  
Finance.

Carried.

By Committee on Community  
Development—

Resolved by the City Council of the City  
of Lansing:

That the Carr for Congress Committee  
is hereby authorized to use an area of  
Riverfront Park for a fund-raising event  
on June 19, 1976, from 6:00 p.m. to dark,  
providing the following conditions are met  
by said Committee:

1. Proof of a public liability and property  
damage insurance policy insuring said  
Committee and the City of Lansing  
against any liability imposed on said

Committee and the City of Lansing arising out of said fund-raising event shall be filed with the Housing and Redevelopment Department. Such policy shall provide for payment up to three hundred thousand dollars (\$300,000) in the event of injury or death of any one (1) person and for payment up to five hundred thousand dollars (\$500,000) in the event of injury or death of more than one (1) person and for payment up to one hundred thousand dollars (\$100,000) for property damage. Such policy shall bear an endorsement to the effect that the insurance company shall notify the Housing and Redevelopment Department at least ten (10) days prior to the expiration of said policy.

2. A bond in the penal sum of one thousand dollars (\$1,000) indemnifying the City of Lansing against any and all violations of any ordinance, rule or regulation of the City of Lansing, and to indemnify the City of Lansing for any and all damages to public property of any kind or nature, shall be filed with the Housing and Redevelopment Department.
3. A request for a 24-hour liquor permit shall be filed with the City Clerk, and no alcoholic beverages shall be sold or served unless said permit is granted by the Lansing City Council.
4. A deposit in the amount of two hundred fifty dollars (\$250.00) shall be filed with the Housing and Redevelopment Department. Said deposit shall be promptly refunded to said Committee if the premises are left litter free after the event. The City of Lansing shall retain said deposit, to cover the cost of clean-up, if necessary.
5. The Committee shall allow the City of Lansing to install temporary snowfencing in the area to be used for crowd control purposes and to protect adjacent park areas.

Adopted by the following vote:

Unanimously.

By Committee on Community Development  
and Committee on Parks and Recreation—

Resolved by the City Council of the City  
of Lansing:

Whereas, the City Council of the City of Lansing, on December 15, 1975, authorized the submission of a grant application for Phase II of Riverfront Park to the Michigan Department of Natural Resources; and

Whereas, the City Council of the City of Lansing, on March 15, 1976, authorized and directed the Mayor and City Clerk to execute a grant agreement with the Michigan Department of Natural Resources for the construction of Phase II of Riverfront Park; and

Whereas, the Mayor and City Clerk, on March 18, 1976, did execute said grant agreement; and

Whereas, the Finance Director has certified the availability of the required matching funds within the Community Development Urgent Needs funds; and

Whereas, detailed working drawings and specifications for Phase II of Riverfront Park have now been prepared by Robert L. O'Boyle Associates, Inc., pursuant to a Contract for Professional Services authorized by the City Council of the City of Lansing on March 15, 1976, and executed by the Mayor and City Clerk on March 30, 1976; and

Whereas, said working drawings and specifications have been reviewed and approved by:

- a. The Building Department of the City of Lansing as to conformance with local building codes and barrier-free design requirements.
- b. The Public Service Department of the City of Lansing as to conformance with Soil Erosion and Sedimentation Control requirements.
- c. The Parks and Recreation Department of the City of Lansing as to the design of features to be constructed.
- d. The Engineering Division of the Michigan Department of Natural Resources.

Now, Therefore, Be It Resolved, that the Purchasing Director and the Housing and Redevelopment Director be and are hereby authorized and directed to solicit bids for the construction of Phase II of the Riverfront Park, based upon the working drawings and Specifications prepared by Robert L. O'Boyle Associates, Inc., and

Be It Further Resolved, that the Director of Parks and Recreation and the Housing and Redevelopment Director shall study the location and cost of providing six (6) parking spaces for users of the recreational facilities proposed herein and make recommendations to the Parks and Community Development Committees prior to opening of bids on this project.

Adopted by the following vote:

Unanimously.

The Committee on PUBLIC SERVICE AND HIGHWAYS, to whom was referred the request for permission to construct a temporary holding tank and sanitary pumping station to serve the proposed plat of Warwick Subdivision No. 3, reports as follows:

The Committee recommends the denial of this request for reasons as follows:

1. Because portion of Glenburne is undeveloped and the question of interceptor sewer to serve this area is unknown, and
2. because the parcel lying outside of the corporate limits of the City of Lansing would either have to be purchased or acquire an easement to allow the construction of the sewer to serve the area in question.

Chairman Lou Adado and Members

Public Safety Committee

Lansing City Council

Gentlemen:

We are in receipt of a letter of appreciation for services rendered by our Crime Prevention Unit from the Lansing Colonial Village Kiwanis Club, a copy of which is attached. You will note that organization included a check in the amount of \$100 to contribute towards the continuance of the Crime Prevention Unit program.

We have received approval from the Police Board to request from your body that this amount be placed in Account 101-316-000-729, which is for the Unit's crime prevention literature printing costs. This literature, they feel, is very beneficial to the program, and by placing the money in this account the wishes of the Kiwanis Club will be followed.

Any consideration you may give our request will be greatly appreciated.

Sincerely yours,

RICHARD A. GLEASON,  
Chief of Police.

Referred to Committee on Public Safety.

June 3, 1976

Honorable Mayor and City Council

City Hall

Lansing, Michigan

Gentlemen:

In order to provide greater reliability and pumping capacity at the Hayford Street sanitary pumping station, the Board of Public Service recommends that a new 10 inch pump be installed, and that a 125 KW trailer mounted generator be purchased for stand-by power. This modification is in accordance with a recommendation from our Consulting Engineer, and the estimated cost is \$66,000.00.

The Board further recommends that a 100 KW generator be purchased for use at the Tecumseh Pumping Station in the estimated amount of \$17,500.00. It should be noted that each of these generators would be available for use at any of our 28 pumping stations in the event of a power failure.

Funds for this work should be made available from sanitary sewer fund.

Respectfully submitted,

BARBARA GARLOCK,  
Secretary,  
Board of Public Service.

Referred to Committee on Public Service and Highways.

ACT-2-76

Opening Harding Avenue

Honorable Mayor and Members  
of City Council:

Re: Reasons for Tabling the Request  
to Open Harding Avenue

Following the public hearing on May 25, 1976, on Lansing General Hospital's re-

quest to open Harding Avenue onto the hospital property, the Planning Board voted unanimously to table the request until further study has been completed on circulation alternatives for the area. Citizen response to the request to open Harding was largely negative. A show of hands at the meeting produced 61 votes against the proposal, with only 4 supporting it.

Alternative circulation patterns were also discussed. Among these was the possibility of extending Alpha Street south to connect with Alden Square, and in turn to Pennsylvania. This possibility was proposed in 1972 but has never been fully researched. However, the need to explore this and other possibilities has become increasingly more evident.

The Planning Board hereby requests City Council to request the Public Service Department, the Traffic Engineer, the Fire Department, and the Board of Water and Light to work with the Planning Department to fully explore the circulation alternatives for the area surrounding Lansing General Hospital, particularly the extension of Alpha Street. The feasibility study for the extension of Alpha Street will also require a close working relationship with Consolidated Rail Corporation.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Mayor Gerald Graves and

Members of the Lansing City Council

Dear Mayor Graves and Councilmen:

On Thursday, June 3, a group of 31—representing the Mayor's Office, City Council and the business and professional community, toured the Battle Creek and Kalamazoo Malls and the Kalamazoo Convention Center. The purpose for the tour, as outlined by the Building and Properties Committee, was to capture the essence of developed malls and a convention center with a population similar to Lansing. Our goal was to view the existing malls and convention facility to determine if any of the principals of planning procedures and methods of operation could be applied to the Lansing area.

Assistant City Manager, Ronald Haas and Planning Director, Sam Steelrecht walked the Battle Creek Mall with us and informed us of various planning and development stages surrounding the mall. Supplemental fact sheets and brochures were provided. (Copies of all materials are on file in the office of the Program Coordinator.)

In Kalamazoo, we were greeted by Bruce Brown, City Manager, who presented us with a mass of information while touring the Mall and Convention Center. We were shown a slide presentation and was given a report on the Mall. The Mayor, Members of the Downtown Kalamazoo Association and other representatives of Kalamazoo were present and joined in the question and answer session.

Expenditures include:

Luncheon	\$239.21
Information Packets	9.72
Refreshments (coffee, juice, donuts)	21.08
	<hr/> \$270.01

Members of the Building and Properties Committee expressed confidence that the goals and objectives for the tour were well met. We received positive feedback from many participants. Our Committee shall continue to accumulate further data on Lansing's existing facilities, the parking system and the downtown mall. We will keep you informed of any plans for subsequent meetings relative to the subject matter contained herein.

Very truly yours,

ROBERT J. HULL,  
Chairman,  
Buildings and Properties  
Committee.

Received and placed on file.

Honorable Mayor Pro-Tem and Members

of the Lansing City Council

Tenth Floor—City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

On April 30, 1976, I was advised by Mone Anathan III of his resignation from the Downtown Development Authority to become effective May 15, 1976. I was further advised by Mr. Anathan that this action on his part was necessitated by his having accepted a business opportunity outside the State of Michigan.

To fill this vacancy, I am recommending his appointment to the Downtown Development Authority to Mr. Gordon Montgomery, Manager of the J. C. Penney Company's downtown store. He has held this position since August of 1968; formerly served as a Manager of a store in New Jersey and Assistant Manager of a store in Kalamazoo.

Mr. Montgomery was graduated from the University of Iowa. He resides with his wife at 3155 North Cambridge Drive, and

previously served on both the Mayor's Regional Transportation Authority Study Committee and as one of the City's representatives to the Capital Area Transportation Authority.

Additionally, Mr. Montgomery has been recommended to fill this vacancy by the Lansing Regional Chamber of Commerce as a result of his experience and participation as Chairman of the Chamber's Downtown Council which organization has worked closely with City government through the Downtown Development Authority.

Trusting this appointment will meet with your approval, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Planning.

June 4, 1976

Honorable Mayor Pro-Tem and Members

of the Lansing City Council

City Hall

Lansing, Michigan 48933

Dear Mayor Pro-Tem and  
Council Members:

As evidenced by the Proceedings of the City Council of March 30, 1970, I sent a communication to the Lansing City Council dated March 26, 1970, regarding the necessity of action being taken to eliminate the bottlenecks and traffic tie-ups caused by the system of railroad tracks which were once necessary to serve the industrial, business and passenger needs of the corporate area of Lansing.

As of this date, I have still not received any policy decision or direction from the Lansing City Council on this matter. In the meantime, citizen complaints continue to flood this office for a solution to this problem.

A typical complaint was received on May 26, 1976, which states as follows: "This morning I was delayed one-half hour between 7:45 a.m. and 8:15 a.m., while on my way to work. This resulted from a stopped train across Kalamazoo, Pennsylvania and Michigan Avenues. The train was still blocking traffic when I arrived to work at 8:15 a.m. During the time that I was stopped by the train, it did not move at all."

As previously reported to the Members of the Lansing City Council, "The Lansing Plan," a comprehensive planning report prepared in 1921, recommended that certain railroad tracks in this City be abandoned and others re-routed in order to eliminate future bottlenecks and expedite surface traffic flow.

Again, in 1965, the same general idea was revived and proposed in connection with eliminating the need for construction of two overpasses on the now completed I-496 crosstown connector.

This action, had it been adopted, would have saved the taxpayers at that time, approximately \$1.5 million. Too, it might have been possible to secure a considerable amount of Federal aid to help finance what was estimated to be \$2.4 to \$2.6 million in railroad relocation costs. I personally feel that it is unfortunate that a decision on this matter of major impact could not have been made in time for the taxpayers of this City to enjoy these savings.

My office has continued to study this matter over the past six years since my original recommendation to the Council and a vast collection of data over this period of time reveals that a solution to this problem is more acutely needed now more than ever before.

The situation, as I originally reported it to you, was that if the concept of railroad track abandonment and re-routing was researched in-depth, and found to be feasible, a daily reduction from 74 to 6 grade train crossings would be effected in the general central business district area. Train crossings at East Michigan Avenue and the Conrail (Penn Central) tracks would drop from 37 to 2; at the Kalamazoo crossing and C & O tracks from 21 to 9; from the Conrail (Penn Central) crossing at Kalamazoo from 16 to 2; with only two remaining at Shiawassee and the Conrail (Penn Central) track crossing.

In further analyzing the current situation, I find that the Penn Central Railroad handles the switching of all railroad traffic headed north through Lansing. Figures obtained from their office here in Lansing, show that in an average 24 hour day, approximately 200 cars are handled both in to and out of the General Motors plants. This amounts to approximately 1,400 cars per week and about 6,000 freight cars per month. However, not all of these cars originate in the south, some originate from the northwest and northeast area. Those cars coming from the south on the Penn Central tracks make no less than seven grade crossings and no more than thirteen once they have crossed the Grand Trunk Western Railroad.

These same statistics also hold true for the C & O Railroad. The cars which come into Lansing on the Grand Trunk Western heading north through Lansing, make no more than a total of fifteen grade crossings and no less than nine. However, not all of these cars are destined for the General Motors plants.

While there are numerous advantages to be realized from adopting the concept of track abandonment and re-routing, the major ones are:

1. Improved safety and welfare of the citizens of this community.

2. A tremendously decreased total number of traffic tie-ups.
3. Elimination of needless costs in time to individuals, business, industry, education and government.
4. Expedite the flow of automobile traffic in and throughout Lansing, with great savings of vehicle fuel.

In addition, tremendous savings in time and manpower would accrue to the various railroads involved, i.e., less trackage to maintain; better scheduling; improved service to the industrial plants in the area through better scheduling; and cost reductions in having other lines handle cars.

It must be recognized, as previously noted, transit problems are considered to be the fruits of progress, prosperity and personal freedom. However, our City streets and highways must be kept uncongested.

Private passenger vehicles must be allowed to freely move about with as few encumbrances as possible and the needs of our industrial and business complexes must be adequately and expeditiously serviced by modern railroad systems. We are all aware that adequate railroad service is a necessity. However, railroads, like any other transportation system, must meet the changing times.

When I originally brought this matter to your attention, the only action taken was one of referring the matter to a committee headed by a Councilman who no longer sits on the Council and the former City Traffic Engineer. The solution they subsequently recommended was not adopted by the City Council because it required the construction of several grade separations throughout the City at a cost in excess of twenty million dollars. Applying the inflationary factor to this amount over the years would escalate this figure to an astronomical and unattainable economic level.

I am, therefore, advising you, herein, that within the next two to three weeks I will be appointing a Study Committee comprised of selected individuals who are well versed in railway activities and services. Their charge will be to re-open the subject, make an in-depth study of the matter, and prepare a report for action similar to the one that was developed by the Mayor's Metropolitan Transportation Study Committee which resulted in the establishment of what we now know as the Capital Area Transportation Authority.

Possibly total success cannot be attained. However, I am of the opinion we should at least try.

Sincerely,

GERALD W. GRAVES,  
Mayor.

By Councilman Blair—

That this be referred to the Committee on Public Service and Highways.

Carried.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing Building Commissioner determined on October 16, 1975, that the building located at 924 Riverview, described as: 3301-20-134-101-1, Lansing, Michigan, was an unsafe or dangerous building as defined in Section 203 of the Uniform Building Code and the housing law of Michigan, and

Whereas, the Building Commissioner issued a notice to Mr. Joseph Hudson and Nellie P. Hudson, owners, as appears from the last local tax assessment records, re-

questing them to appear at a hearing to show cause why the building should not be demolished or otherwise made safe; and

Whereas, a hearing before the Hearing Board was held May 13, 1976, at which hearing Mr. Joseph Hudson did appear, and the Hearing Officers determined that the building did not meet minimum housing code standards and ordered the building demolished or otherwise made safe; and

Whereas, said Hearing Officers have filed a report of their findings and order with the Lansing City Council, and have requested the City Council to take appropriate action under Section 203 of the Uniform Building Code and the housing law of Michigan, to require that said building be demolished or otherwise made safe; now, therefore, be it

Resolved, that a hearing be scheduled for June 28, 1976, at 7:30 o'clock p.m., at the chambers of the Lansing City Council, to review the findings and order of the Hearing Officers, and to approve, disapprove, or modify said order, and that the owners shall have the opportunity to appear at the hearing and show cause why the aforesaid building should not be demolished or otherwise made safe; now, therefore, be it further

Resolved, that written notice of the time and place of said hearing shall be personally served or mailed by certified mail, return receipt requested, to said owners in whose names the property appears according to the last local tax assessment records; and that said notice shall be served or mailed at least ten (10) days prior to said hearing date.

#### By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing Building Commissioner determined on September 11, 1975, that the building located at 633 S. Francis, described as: Lot 67, Brown's Subd., a part of outlots A and B, of Snyder's Addition, Lansing, Michigan, was an unsafe or dangerous building as defined in Section 203 of the Uniform Building Code and the housing law of Michigan, and

Whereas, the Building Commissioner issued a notice to Mr. Frank Basel, owner, as appears from the last local tax assessment records, requesting him to appear at a hearing to show cause why the building should not be demolished or otherwise made safe; and

Whereas, a hearing before the Hearing Board was held May 13, 1976, at which hearing Mr. Frank Basel did appear, and the Hearing Officers determined that the

building did not meet minimum housing code standards and ordered the building demolished or otherwise made safe; and

Whereas, said Hearing Officers have filed a report of their findings and order with the Lansing City Council, and have requested the City Council to take appropriate action under Section 203 of the Uniform Building Code and the housing law of Michigan, to require that said building be demolished or otherwise made safe; now, therefore, be it

Resolved, that a hearing be scheduled for June 28, 1976, at 7:30 o'clock p.m., at the chambers of the Lansing City Council, to review the findings and order of the Hearing Officers, and to approve, disapprove, or modify said order, and that the owner shall have the opportunity to appear at the hearing and show cause why the aforesaid building should not be demolished or otherwise made safe; now, therefore, be it further

Resolved, that written notice of the time and place of said hearing shall be personally serviced or mailed by certified mail, return receipt requested, to said owner in whose name the property appears according to the last local tax assessment records; and that said notice shall be served or mailed at least ten (10) days prior to said hearing date.

#### By Committee on Planning—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing City Council has established a Lansing Industrial Development District No. 4 in the City of Lansing, pursuant to Act 198, 1974, and

Whereas, Cutler Plastics Corporation has submitted an application for an Industrial Facility Exemption Certificate in said Industrial Development District No. 4, and

Whereas, a hearing was held on Cutler Plastics' application for an exemption certificate on June 1, 1976, at which time all interested persons had an opportunity to be heard, and

Whereas, Cutler Plastic has met the requirements for said exemption certificate as required in Public Act 198,

Now, Therefore, Be It Resolved that the Council of the City of Lansing approve the application from Cutler Plastics Corporation for an exemption certificate in Lansing Industrial Development District No. 4.

By Committee on Public Safety—

Resolved by the City Council of the City of Lansing:

Whereas, certain monies are available to the City of Lansing under specified highway projects to provide funding for attendance of members of the Lansing Police Department at the Traffic Institute at Northwestern University; and

Whereas, attendance at this course will enhance the expertise of the individual attending and impact directly upon the future efficiency of the Lansing Police Department; and

Whereas, five officers have previously attended this course and subsequently achieved promotions to higher line or staff positions; and

Whereas, the funds to be provided by the State Department of Highway Safety Planning totals \$12,655 and the local share equals the normal salary and employee benefits that the officer will receive over the 39 weeks that he will be absent from his duty position; and

Whereas, the Board of Police Commissioners has granted permission for this application to be presented to Council; and

Whereas, the absence of this officer will not seriously affect the operational capabilities of the Police Department.

Now, Therefore, Be It Resolved that the Lansing City Council approves the submission of an application for one officer to attend the Traffic Institute at Northwestern University during the period September 9, 1976 through June 18, 1977; and

Be It Further Resolved that the Mayor and City Clerk be directed to sign the application for this grant and the subsequent contract upon approval by the City Attorney as to form; and

Be It Further Resolved that if within three years of the completion of the course the officer voluntarily leaves the City, he shall return a pro-rata share of his wages paid during the period of the course work (39 weeks) to the City;

Be It Finally Resolved that the Program Coordinator is authorized to submit this application and the subsequent contract to the Office of Highway Safety Planning, Department of State Police.

By Committee on Planning—

Resolved by the City Council of the City of Lansing:

ROW-2-76

1200 Block North Washington Avenue

Whereas, a request by Estes Furniture Company was made to vacate the alley running east in the 1200 block of Washington Avenue to the Grand River, lying to the rear of those properties located in the 100 block of East Grand River Avenue; and

Whereas, the Planning Board, to whom was referred the request, reviewed the requests and reports from other public agencies who indicated the need for easements for utility purposes for this area; and the Fire Marshal, who indicated the need to preserve this area for a fire lane so that he could provide service to the existing buildings.

Following this review, the Planning Board recommended that the vacation of the alley be denied and felt that it would be in the best interests of the City to retain public ownership of the alley; and

Whereas, the Planning Committee of Council, to whom was referred the report of the Planning Board, concurred therein;

Now, Therefore, Be It Resolved that the Council of the City of Lansing denies the request to vacate the above described alley.

By Buildings and Properties Committee—

Resolved by the City Council of the City of Lansing:

Whereas, upon the passage of 1974 PA 338, commonly known as the Economic Development Corporation Act, the City of Lansing possesses the ability to provide the means for the encouragement and retention of industrial and commercial enterprises locating or expanding in the City, which provide needed services and facilities for its residents; and

Whereas, the City Council finds that there exists in the City of Lansing a continuing need to implement projects under said Act 338 designed to alleviate and prevent conditions of unemployment and to assist local industries and commercial enterprises in their attempt to strengthen and revitalize the City's economy; and

Whereas, on February 5, 1976, FMC Corporation, a Delaware corporation, offered to donate to the City of Lansing the John Bean plant and premises located on South Cedar Street, Lansing, Michigan, more particularly described as:

PARCEL A. That part of the Southeast  $\frac{1}{4}$  of Section 21 and the Southwest  $\frac{1}{4}$  of Section 22, T4N, R2W, City of Lansing, Ingham County, commencing at the East  $\frac{1}{4}$  corner of said Section 21, thence along the  $\frac{1}{4}$  line West 678.81 feet to the Easterly right of way line of Cedar Street, thence along said Easterly line S 12° 12' W 14.98 feet to the point of beginning, said point being 8.5 feet Southerly of the centerline

All of the foregoing parcels are conveyed subject to any and all easements, restrictions and rights of way of record; and

Whereas, the acquisition of these premises will provide the City of Lansing with a valuable industrial asset which it may hold, sell, lease, transfer or otherwise utilize, subject to applicable City Charter provisions, either directly or through The City of Lansing Economic Development Corporation to encourage local industry and commerce; now, therefore, be it

Resolved, that the real property taxes on the subject premises be pro rated in accordance with MCLA 211.2; MSA 7.2 as amended; and be it

Further Resolved, that the City Attorney

or his representative is hereby authorized and directed to attend, within ten (10) days and not thereafter, a real estate closing with the representatives of FMC Corporation and to accept a quit claim deed donating and conveying the above described premises from FMC Corporation to the City of Lansing for the sum of one dollar (\$1.00) provided, however, that the City Attorney shall not accept the quit claim deed unless the commitment for title insurance demonstrates that FMC Corporation holds a marketable title in the above described premises; and be it

Further Resolved, that upon receipt of said quit claim deed by the City, the Finance Director is hereby directed to obtain the appropriate insurance coverage for the above described premises and building; and be it

Finally Resolved, that funds to carry out the provisions of this resolution in the amount of Eighty One Thousand Eight Hundred Eighty-Six and 80/100 Dollars (\$81,886.80) be hereby transferred from the Building Reserve Account (101-936-491-975) and appropriate accounts established by the Finance Director to meet closing and operational or holding costs for the John Bean Property during the period from June 8, 1976 through June 30, 1977, as stated below:

and that the owners of said above described lands be and are hereby required to build the same and in accordance with the specifications on file in the office of the City Engineer on or before the 9th day of July, 1976.

That the Director of Public Service is authorized and directed to proceed to construct such concrete walk in front of above described premises after the expiration of said date. Upon the failure of the owner or owners of the parcels herein described to construct the same as hereby required and that the expense of constructing the same shall be paid out of the contingent fund, and the City Assessor is hereby directed to assess the expenses of constructing the same against said described land as provided by Section 28-27, Chapter 28 of the Code of Ordinances.

The City Clerk is directed to give due notice hereof by publication of a notice of this resolution as provided by Section 28-41, Chapter 28 of the Code of Ordinances.

Adopted by the following vote:

Unanimously.

#### ORDINANCE NO. 28A

AN ORDINANCE OF THE CITY OF LANSING, MICHIGAN, PROVIDING THAT THE CODE OF ORDINANCES, CITY OF LANSING, MICHIGAN, BE AMENDED BY ADDING A NEW SECTION TO SAID CODE.

The City of Lansing Ordains:

Section 1. That the Code of Ordinances of the City of Lansing, Michigan, be amended by adding a new section to read as follows:

A. Notwithstanding anything to the contrary, beer, wine or other alcoholic liquor may be consumed in the Riverfront Park from July 2, 1976 through and including July 5, 1976 if such beer, wine, or alcoholic liquor is obtained from a person authorized to sell beer, wine, or alcoholic liquor pursuant to Section B.

B. Beer, wine, or alcoholic liquor may be sold for consumption in the Riverfront Park from July 2, 1976 through and including July 5, 1976 if a special license is obtained pursuant to the statutes of the State of Michigan, and if the City Council so approves. Approval by the City Council for the sale of beer, wine, or alcoholic liquor in the Riverfront Park from July 2, 1976 through and including July 5, 1976 shall be obtained only if the license is to be utilized in conjunction with an activity sponsored by the City of Lansing, and if the following conditions are met by the applicant:

1. Filing with the City Clerk proof of a public liability and property damage insurance policy insuring such applicant and the City of Lansing against any liability imposed on such applicant and the City of Lansing arising out of the operation of such sale of beer, wine, or alcoholic liquor. Such policy shall provide for payment of up to three hundred thousand dollars (\$300,000.00) in the event of injury to or death of any one (1) person and for payment of up to five hundred thousand dollars (\$500,000.00) in the event of injury to or death of more than one (1) person and for payment of up to one hundred thousand dollars (\$100,000.00) for property damage. Such policy shall bear an endorsement to the effect that the insurance company shall notify the City Clerk at least ten (10) days prior to the expiration of such policy.

2. Filing with the City Clerk a bond in the penal sum of one thousand dollars (\$1,000.00) indemnifying the City of Lansing against any and all violations of any ordinance, rule or regulation of the City of Lansing, and to indemnify the City of Lansing for any and all damages to public property of any kind or nature.

3. Shall pay to the City Clerk an application fee in the amount of ten dollars (\$10.00).

4. Shall serve beer, wine, or other alcoholic liquor only in plastic or paper containers.

C. It shall be unlawful for any person or his agent so authorized to sell beer, wine, or other alcoholic liquor pursuant to Section B to sell the beer, wine, or other alcoholic liquor in any container which is not plastic or paper.

Section 2. This ordinance being for the immediate preservation for the public peace, health or safety, shall take effect upon its passage.

Section 3. All ordinances or parts of ordinances inconsistent with the provisions hereof are hereby repealed.

**ORDINANCE NO. 427**

### REPORTS OF CITY OFFICERS AND BOARDS

June 8, 1976

Honorable Mayor and Members  
of the Lansing City Council  
10th Floor, City Hall  
Lansing, Michigan 48933

Re: Claim of Daniel Rutledge (\$12.00)

Dear Mayor and Council:

Mr. Rutledge seeks reimbursement for a \$12.00 bill incurred when his vehicle was towed by a private tow truck. An investigation reveals that Mr. Rutledge had parked his car on private property and it was the owner of that property who requested that Mr. Rutledge's car be towed from the premises. The sole involvement of the City was the placement of a parking ticket on the vehicle.

Since the request for towing was made by a private party and the vehicle was towed by another private party, the City of Lansing could not have incurred any liability whatever in this matter. Therefore, it is the recommendation of this office that the claim be denied.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Adado—

That we concur in the recommendation of the City Attorney and said claim be denied.

Carried.

June 7, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Lt. William Besley  
(\$139.11)

Dear Mayor and Council:

On April 14, 1976, a vehicle owned by Lt. William Besley of the Lansing Fire Department was damaged by a storm window which was blown off the second story east side of Fire Station No. 9. The vehicle, a 1976 Oldsmobile, suffered impact and glass damage estimated variously at \$139.11 and \$168.50.

Deputy Chief William Meaton has informed this office that another storm window on the same side of Fire Station No. 9 had blown off in a similar fashion within the preceding month. The condition of the storm windows on the east side of Fire Station No. 9 doubtlessly constituted a defective condition of a public building and the City had actual prior knowledge of that defect. Thus, the City is liable for any damage resulting from its failure to promptly repair the defect. MCLA 691.1406; MSA 3.996(106).

Therefore, it is the recommendation of this office that Lt. Besley's claim in the amount of \$139.11 be paid.

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman Gunther—

That we concur in the recommendation of the City Attorney and the City Clerk be and is hereby directed to draw a warrant on the City Treasurer in the amount of \$139.11 payable to William Besley.

Carried.

June 9, 1976

Honorable Mayor Gerald W. Graves and

Members of Lansing City Council

10th Floor, City Hall

Lansing, Michigan 48933

Dear Mayor Graves and

City Council Members:

Please be advised that the Contract services between the Human Resources Department, previously the Lansing City Demonstration Agency, and Building In Lansing's Development (B.I.L.D.) terminated on June 30, 1975. Within the provisions of the Lansing City Ordinance, Article IX, Section 2-92.3, we hereby provide notification that we intend to transfer these non-expendable property items (list attached) which were purchased with Department of Housing and Urban Developments funds as allocated within the budgetary provisions of several Contracts with Building in Lansing's Development.

The Agency with which we are currently contracting and to which the transfer will be made is Housing Assistance Foundation/Community Resources Center. The equipment shall be utilized by that Agency to provide the same or similar home improvement or home maintenance assistance within C.D. target areas.

It should be pointed out that the referrals for the use of these tools will be processed through the Human Resource Department (vis-a-vis, our Referral Specialists.)

Your concurrence in the transfer of this non-expendable property to the Housing Assistance Foundation/Community Resources Center should enable that Agency to provide even better, more effective, service to its clients.

Respectfully,

JACQUELINE WARR,  
Director.

Referred to Committee on Community Development and Community Development Director.

Re: Soil testing for Washington Park  
Ice/Tennis Complex

Gentlemen:

During construction of the Washington Park Ice Rink the contractor, Granger Construction, has encountered a soil compaction problem at a critical location. The architects Laitala, Freeman, Smith and Fowler advise us in light of this problem additional soil testing should be done as soon as possible.

I am requesting authorization to contract with Construction Testing and Inspection Company of Lansing for the excavating of test pits, and the study by a registered engineer of compaction problems. The cost of these studies will not exceed \$350.00. This amount is currently budgeted in the Washington Ice Rink Development account.

Thank you.

Sincerely,

DOUGLAS FINLEY,  
Assistant Director,  
Department of Parks and  
Recreation.

Referred to Committee on Parks and  
Recreation.

Honorable Mayor and  
Members of the City Council  
Lansing, MI  
Gentlemen:

The Board of Mechanical Construction Examiners, after careful and thorough

examination of the facts, sees fit to notify City Council and request the following: that the Heating, Air Conditioning and Refrigeration license issued to a Mr. Patrick Patino, d/b/a Aaron Heating and Cooling, be revoked.

This action of suspending the license and recommending license revocation was culminated at the June 8, 1976 official meeting, and is in accordance with Ordinance No. 371, Section 9B-7.

Sincerely,

B. WAYNE JACKSON,  
Secretary,  
Board of Mechanical  
Construction Examiners.

Referred to Committee on Ordinance and Contracts and City Affairs.

Letter (a)

Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

The Traffic Board at its June 9, 1976 meeting reviewed the petitioned request for a stop sign on Ingham St. at Herrick St. The Board's recommendation by a 5 - 0 vote is to deny this request.

There have been only two accidents at this intersection since 1971. Also sight distance at this intersection is not restricted.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

June 11, 1976

Letter (b)

Honorable Mayor Graves and  
Members of City Council  
Gentlemen:

The Traffic Board reviewed a petitioned request for a traffic signal at the intersection of Pleasant Grove and Jolly Rd. Traffic studies at this intersection show that warrants for a traffic signal are met in regard to accidents. Traffic volume at this intersection falls just below warrants for a traffic signal. In 1975, there were fifteen accidents at this intersection, eleven of which are of the type which may be prevented by installation of a traffic signal. Seven of these fifteen accidents were injury accidents. Thru the end of May 1976 there have been eight accidents at Pleasant Grove

and Jolly. Four of these accidents have been of the right angle type.

Most of the accidents at this intersection are the result of the poor sight distance caused by the building on the northeast corner. Removal of this building is essential to the safety of this intersection. Installation of a traffic signal will alleviate the situation to some degree, however the building should still be removed. Traffic volumes at this intersection will undoubtedly increase in the future increasing the accident potential.

In the interest of increasing the safety at this intersection in the interim period before the building is removed, the Traffic Board recommends for City Council consideration installation of a traffic signal at this intersection. This recommendation was by a 5 - 0 vote. The Board members agree that even with the traffic signal the building on the northeast corner should be removed as soon as possible.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Referred to Committee on Public Safety.

June 11, 1976

Letter (c)

Honorable Mayor Graves and  
Members of City Council

Gentlemen:

The Lansing Traffic Board recommends that the request of Lansing General Hospital to open Harding St. into hospital property be denied. The increased parking spaces can be served adequately by Devonshire St. The opening of Harding St. to serve these few parking spaces would do little to alleviate traffic problems on Devonshire and Alpha Street.

The Board was concerned about the possibility of the hospital opening Harding St. to their parking area south of the hospital. Should this happen, traffic on Harding St. would increase substantially. If this is the hospital's intention, they should so state in their request to the city. If this is not their intention there seems to be no necessity for opening Harding Street.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Referred to Committee on Planning.

of the Lansing City Council

City Hall

Lansing, Michigan 48933

Dear Mayor Pro-Tem and

Council Members:

In a communication dated May 20, 1976, and addressed to you, I complied with the City Charter provisions by submitting my nominations to you for board appointments. To date, no official action has been taken by you even though the City Charter requires that such action should have been taken as of June 7.

The following is a quote from Section 7.6(c):

"... the Mayor shall file with the City Council his appointments to the several boards during the month of May of each year and the Council shall act on each such appointment, respecting the confirmation thereof, at or prior to its meeting held in the second week in June..."

The aforementioned is forwarded to you for informational purposes with a request that you act promptly inasmuch as you are now one week beyond fulfilling the requirements of the City Charter.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee of the Whole.

### RESOLUTIONS

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

That the Lease Agreement between Vector Construction, Inc., and the City of Lansing, for a small hangar and office space located at 16647 Airport Road, Lansing, Michigan, for use by the Helicopter Unit, at a rental of \$333.34 per month, for one year beginning July 1, 1976 and ending June 30, 1977, be approved, and

That upon approval of the City Attorney of the lease agreement as to form, and the City Controller as to availability of funds, the Mayor and City Clerk be authorized to sign the document on behalf of the City of Lansing.

Adopted by the following vote:

Unanimously.

By Committee on Planning and the Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

Whereas, the Lansing Planning Board conducted a public hearing on May 25, 1976, concerning Lansing General Hospital's request to open Harding Avenue into the hospital property; and

Whereas, citizen response at that hearing generally called for the exploration of alternative circulation patterns for the area surrounding Lansing General Hospital; and

Whereas, the Lansing Planning Board voted unanimously to table Lansing General Hospital's request until further study has been completed on circulation alternatives for the area; now, therefore, be it

Resolved that the Public Service Department, the Traffic Engineer, the Fire Department, and the Board of Water and Light are directed to work with the Planning Department to fully explore the circulation alternatives for the area surrounding Lansing General Hospital, particularly the extension of Alpha Street.

By Committees on Planning and Public Service and Highways—

Resolved by the City Council of the City of Lansing:

P-2-76

Provincial House Subdivision Preliminary Plat

Whereas an application has been filed for final approval of the preliminary plat of Provincial House Subdivision; and

Whereas the Planning Department, in accordance with Section 37-38 of the Subdivision Control Ordinance, has reviewed this application and recommended approval thereof; and

Whereas the Planning Committee of City Council and the Public Service and Highways Committee of City Council have reviewed this application and the report of the Planning Department and concur therewith;

Now, Therefore, Be It Resolved that the preliminary plat of Provincial House Subdivision be approved subject, however, to all conditions as set forth by City Council at the time of tentative preliminary approval.

Councilman Blair wanted it noted that the Forest View Citizens Committee reluctantly favored the preliminary plat.

Adopted by the following vote:

Nays: Councilmen Baker, Hull—2.

By Committee of the Whole—

Resolved by the City Council of the City of Lansing:

Whereas, the Youth Development Corporation has prepared a grant application requesting funds to establish a Bureau for Youth; and,

Whereas, the Comprehensive Criminal Justice Plan for 1977 of Region VI indicates that youth through age 24 account for 81% of all Part I arrests; and,

Whereas, the Region VI Criminal Justice Coordinating Council has recommended that priority be given to the funding of a Regional Youth Service Bureau; and,

Whereas, the grant application submitted by the Youth Development Corporation indicates a funding request totalling \$129,400 of which 90% or \$116,460 is Federal funding, 5% or \$6,470 is State funding and 5% or \$6,470 is local cash funding from Community Development funds currently budgeted for YDC in FY77; and,

Whereas, the funding requested is for

the period October 1, 1976 through September 30, 1977; and,

Whereas, the City Council of the City of Lansing supports any and all efforts which attack the problem of juvenile crime within the city and the Tri-County region;

Now, Therefore, Be It Resolved that the Mayor of Lansing is directed to sign the grant application and all subsequent contractual documents relating to this grant request after approval by the City Attorney as to form; and,

Be It Finally Resolved that the Program Coordinator is authorized to transmit this application to the State Office of Criminal Justice Planning.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, upon the passage of 1974 PA 338, commonly known as the Economic Development Corporation Act, the City of Lansing possesses the ability to provide the means for the encouragement and retention of industrial and commercial enterprises locating or expanding in the City, which provide needed services and facilities for its residents; and

Whereas, the City Council finds that there exists in the City of Lansing a continuing need to implement projects under said Act 338 designed to alleviate and prevent conditions of unemployment and to assist local industries and commercial enterprises in their attempt to strengthen and revitalize the City's economy; and

Whereas, on February 5, 1976, FMC Corporation, a Delaware corporation, offered to donate to the City of Lansing the John Bean plant and premises located on South Cedar Street, Lansing, Michigan, more particularly described as:

**Parcel A.** That part of the Southeast  $\frac{1}{4}$  of Section 21 and the Southwest  $\frac{1}{4}$  of Section 22, T4N, R2W, City of Lansing, Ingham County, commencing at the East  $\frac{1}{4}$  corner of said Section 21, thence along the  $\frac{1}{4}$  line West 678.81 feet to the Easterly right of way line of Cedar Street, thence along said Easterly line S12°12'W 14.98 feet to the point of beginning, said point being 8.5 feet Southerly of the centerline of a Michigan Central Railroad Company side track, running thence on a line 8.5 feet Southerly of and parallel with the centerline of said side track the following three courses, N89°44'E 540.51 feet to a point of curvature, thence Southeasterly 30.88 feet on the

arc of a 1584.47 foot radius curve to the right whose chord bears S89°42' 30"E 30.88 feet to a point of compound curvature, thence Southeasterly 6.33 feet on the arc of a 480.62 foot radius curve to the right whose chord bears S88°46'21"E 6.33 feet to a point on the Northerly projection of a building wall line, thence S0°16'E 0.53 feet to a point on said wall line 9 feet Southerly of the centerline of said side track, thence on a line 9 feet Southwesterly of and parallel with the centerline of said side track the following three courses Southeasterly 176.89 feet on the arc of a 480.12 foot radius curve to the right whose chord bears S77°50' 17"E 175.89 feet to a point of compound curvature thence Southeasterly 122.35 feet on the arc of a 472.61 foot radius curve to the right whose chord bears S59°52'E 122.01 feet to a point of compound curvature thence Southeasterly 132.67 feet on the arc of a 337.86 foot radius curve to the right whose chord bears S41°12'03"E 131.82 feet to the Westerly right of way line of the Michigan Central Railroad Company right of way thence Southeasterly along said right of way line to the North line of Assessor's Plat No. 20, thence Westerly along the North line of Assessor's Plat No. 20 and Rollin H. Person Addition, to the Northeast corner of Lot 47 of Rollin H. Person Addition, thence Southerly along the East line of said Lot 47 to the North line of Christianity Street, thence Westerly along the North line of Christianity Street to the Easterly line of Cedar Street, thence Northerly along the Easterly line of Cedar Street to the point of beginning.

**Parcel B.** Lot Numbers 28 through 33, Block 1, Assessor's Plat No. 20, on the Southwest  $\frac{1}{4}$  of Section 22, T4N, R2W, City of Lansing, Ingham County, Michigan; and also, the entire vacated North 132 feet of Bailey Street, as platted, adjacent to the West side of Block 1, Assessor's Plat No. 20, on the Southwest  $\frac{1}{4}$  of Section 22, T4N, R2W, City of Lansing, Ingham County, Michigan.

All of the foregoing parcels are conveyed subject to any and all easements, restrictions and rights of way of record; and

Whereas, the acquisition of these premises has provided the City of Lansing with a valuable industrial asset to hold, assign sell, lease, transfer or otherwise utilize, subject to applicable City Charter provisions, either directly or through The City of Lansing Economic Development Corporation to encourage local industry and commerce; and

Whereas, the City of Lansing has received marketable title to the above described premises from the FMC Corporation, a Delaware corporation, on June 9, 1976, pursuant to the authorization expressed in the City Council resolution of June 7, 1976; and

Whereas, the present fair market value as

of this date for the above described premises has been established by the Lansing City Assessor to be approximately One Million One Hundred Seventy Thousand Two Hundred and 00/100 Dollars (\$1,170,200.00); and

Whereas, it is in the best interest of the City of Lansing to engage in the transfer of the John Bean property to The City of Lansing Economic Development Corporation, or any other public or private firm, corporation, or agency, because a public purpose will be effectuated pursuant to 1974 PA 338, through the implementation of a project plan, by alleviating and preventing conditions of unemployment, strengthening and retaining local industries and commercial enterprises, and revitalizing the economy of the City of Lansing; now, therefore, be it

Resolved, that the proposition to sell, deed, lease, assign, or transfer the John Bean property to The City of Lansing Economic Development Corporation or any other public or private firm, corporation, or agency to carry out the aforementioned purpose, and to execute a conveyance therefore, be submitted to the electors of the City of Lansing for approval pursuant to Section 14.3(d) of the Charter of the City of Lansing, and as required by the laws of the State of Michigan, at a special City election in conjunction with a regular City primary to be held August 3, 1976; and be it

Further Resolved, that said proposal be submitted to the electors of said City upon the voting devices in manner and form as follows:

#### FORM OF BALLOT

"Shall the City Council be authorized to sell, deed, lease, assign or transfer to The City of Lansing Economic Development Corporation, a non-profit corporation organized by the City of Lansing to retain and create jobs through industrial expansion and rehabilitation, or any other public or private firm, corporation, or agency to carry out the aforementioned purposes, the John Bean property located at 1305 South Cedar Street, together with certain adjacent lands and parking lots described as the north 132 feet of vacated Bailey Street and Lots 28-33, inclusive, Block 1, Assessor's Plat, City of Lansing."

YES ( ) NO ( )

and be it

Further Resolved, that the City Clerk be and she is hereby directed to prepare sufficient ballots to supply the demand for absent voters' ballots, as above set forth; and be it

Further Resolved, that this resolution containing the above proposition together with the full legal description of said property be posted in a conspicuous place in each polling place in the City of Lansing; and be it

Further Resolved, that the votes cast upon said question shall be counted, canvassed and returned, and the results thereof determined in like manner, and by the same officials as prescribed for in special City election in conjunction with a regular City primary; and be it

Finally Resolved, that the City Clerk give ten (10) days notice of the submission of said proposition to the electors, such notice to conform to the provisions of the City Charter relative to special City election in conjunction with a regular City primary, and further that she cause a true copy of this resolution to be published twice in a daily newspaper published and circulated in the City of Lansing and that such publication be at least ten (10) days prior to the date upon which said proposal is to be voted upon as herein provided.

Councilman Gunther abstained from voting.

By Committee on Buildings and Properties—

Resolved by the City Council of the City of Lansing:

Whereas, the City Council by resolutions dated June 16, 1975 and February 9, 1976, approved a request to the State legislature that legislative action be taken to allow construction of a fire station on a portion of Marshall Park and further it approved action to make improvements to the remaining ballfields and to light a field and to transfer three acres from the Fire Department to the Parks Department; and

Whereas, the State legislature has taken the necessary legislative action to allow construction of the fire station; and

Whereas, the construction and completion of the new fire station will render fire stations No. 6 and No. 8 of no further use to the City as fire stations, No. 6 being located at 839 N. Pennsylvania Avenue, Lot 4 Wiley's Subdivision, and No. 8 being located at 2300 E. Michigan Avenue, Lots 477 and 478 Leslie Park Subdivision; and

Whereas, it is in the best interest of the City of Lansing to sell fire stations No. 6 and No. 8; and

Whereas, a value of Sixteen thousand dollars and no/100 (\$16,000.00) dollars has been established as the current market value for fire station No. 6 which is presently zoned C-2 family and which, if rezoned to commercial, would have a current market value of Thirty one thousand and no/100 (\$31,000.00) dollars; and

Whereas, the Planning Board is hereby directed to investigate and prepare the rezoning of fire station No. 6 to commercial use; and

Whereas, a value of Fifty thousand and

no/100 (\$50,000.00) dollars has been established as the current market value for fire station No. 8; and

Whereas, it is the intent of the City Council that the improvements to the Marshall fields and the lighting of an additional field at Gier Park are to be funded through the proceeds of the sale of fire stations No. 6 and No. 8 or from the general funds, or from any other fund available for said purpose; and

Whereas, the best interests of the community for recreational services require prompt action; now, therefore, be it

Resolved, that the Purchasing Director and Director of Parks and Recreation be directed to proceed with and to let out to bid if necessary contracts and agreements to improve the remaining fields at Marshall Park and a field at Gier Park; and, be it

Further Resolved, that upon approval of the necessary contracts and agreements by the City Attorney that the Mayor and City Clerk be authorized and directed to sign on behalf of the City of Lansing; and be it

Further Resolved, that the proposition to sell fire stations No. 6 and No. 8 and to execute a conveyance therefore be submitted to the electors of the City of Lansing for approval pursuant to Section 14.3 (d) of the Charter of the City of Lansing, and as required by the laws of the State of Michigan, at a special city election in conjunction with a regular City primary to be held August 3, 1976; and, be it

Further Resolved, that said proposal be submitted to the electors of said City upon the voting devices in manner and form as follows:

#### FORM OF BALLOT

"Shall the City Council be authorized to sell fire station No. 6 located at 839 N. Pennsylvania and which is legally described as: Lot 4, Wiley's Subdivision, and which has an approximate current market value of Thirty one thousand and no/100 (\$31,000.00) dollars?"

YES ( ) NO ( )

"Shall the City Council be authorized to sell fire station No. 8 located at 2300 E. Michigan Avenue and which is legally described as: Lots 477 and 478 Leslie Park Subdivision, and which has an approximate current market value of Fifty thousand and no/100 (\$50,000.00) dollars?"

YES ( ) NO ( )

and be it

Further Resolved, that the City Clerk be and is hereby directed to prepare sufficient ballots to supply the demand for absent voters' ballots, as above set forth; and, be it

Further Resolved, that this resolution con-

taining the above proposition, together with the full legal description of said property be posted in a conspicuous place in each polling place in the City of Lansing; and, be it

Further Resolved, that the votes cast upon such question shall be counted, canvassed and returned, and the results thereof determined in like manner, and by the same officials as prescribed for in special city election in conjunction with a regular city primary; and, be it

Finally Resolved, that the City Clerk give ten (10) days notice of the submission of said proposition to the electors, such notice to conform to the provision of the City Charter relative to special city election in conjunction with a regular city primary, and further that she cause a true copy of this resolution to be published twice in a daily newspaper published and circulated in the City of Lansing and that such publication be at least ten (10) days prior to the date upon which said proposal is to be voted upon as herein provided.

Miss Theo Fulton

City Clerk

9th Floor, City Hall

Lansing, Michigan 48933

Dear Miss Fulton:

At the Monday evening Council Session of June 14, 1976, Councilman Richard Baker requested the following be included into the record of the Council Proceedings, which has been transcribed from the tape of said meeting:

"CLERK: By the Committee of the Whole, That the following appointments to Boards be confirmed: William Burrell, Jr., to the Air Pollution Board, term expiring June 30, 1978; David Pizana to the Human Relations Commission, term expiring June 30, 1979; Kay Nees to the Housing Commission, term expiring June 30, 1981; Donna Smieska as Lansing's representative to the Lansing Metropolitan Development Authority, term expiring June 30, 1978; Joseph R. MAYOR: Questions on the resolution? Clerk will call the roll.

Councilman Adado-Aye; Baker-No; Belen-Aye; Blair-No; Brenke-Aye; Gunther-Aye; Hull-Aye; McKane Aye. 6-Yeas and 2-Nays.

COUNCILMAN BAKER: I would like to explain my no vote. We have not received Committee reports on these or placed by the Committee of the Whole and I think it is appropriate to receive reports on these. There are some very excellent people on here, but to vote otherwise wouldn't be correct either. It

is my explanation. I wish it entered into the record if you please Miss Clerk."

Thanking you for your cooperation and assistance in this matter, I remain

Sincerely,

GERALD W. GRAVES,  
Mayor.

Councilman Adado explained to Councilman Baker that there was a meeting on Thursday, June 10, 1976, at which time names were discussed; at which you were not present.

Councilman Baker: That my no vote be changed to a Yea vote.

That the report of the Committee be adopted.

Adopted by the following vote:

Unanimously.

The Committee on ORDINANCE AND CONTRACTS AND CITY AFFAIRS, to whom was referred the request of Lansing Bicentennial Commission that permission be granted to close Grand Avenue between Shiawassee and Saginaw Streets from 6 p.m. to 11 p.m. on Friday, July 2, 1976, during Bicentennial Celebration and activities in Riverfront Park, reports as follows:

The Committee referred this request to the Traffic Engineer, Fire and Police Departments and Public Service Department as well as Lansing Community College and no objections received, therefore, the Committee recommends permission be granted for this temporary street closing and that Public Service Department be directed to provide the necessary barricades. Also, that a copy of this approval be forwarded to the three above-named city departments, Mr. Gannon % Lansing Community College and the Bicentennial Commission.

Signed:

LUCILE BELEN,  
R. J. BAKER,  
JACK D. GUNTHER,

## REPORTS OF CITY OFFICERS AND BOARDS

City Treasurer submits report on condition of funds in the treasury as of May 31, 1976.

Received and placed on file.

June 16, 1976

Honorable Mayor and Members

of the Lansing City Council

Dear Mayor and Council:

Pursuant to Council's request of May 3, 1976 to explore the possibility of removing the deed restrictions from Outlot B of the Plat of Frandora Hills No. 1, my office has investigated the removal of such deed restrictions.

The property is presently owned by the City. Under Lansing Charter, ch 14, §14.3 (d) the City may not dispose of real estate owned by it without the approval of the majority of the electors unless the property is not used for public purposes, and if it has an assessed valuation of less than \$5,000 or is so appraised by the Assessor, and if the resolution for the disposal thereof is approved by six members of the Council, which resolution must remain on file in the Clerk's office for thirty days prior to passage.

The Assessor's office has determined a market value of \$4,500 on the property as of June 11, 1976. Therefore, if the Council does wish to return the property, the City may do so without having the question placed on the ballot. A resolution should be passed pursuant to the above cited Charter section authorizing the Mayor and City Clerk to execute a warranty deed in accomplishing the conveyance of the property after the deed has been approved by this office. The resolution should be on file in the Clerk's office thirty days prior to final passage.

Respectfully submitted,

PETER HOUK,  
City Attorney.

Referred to Committee on Planning and  
Committee on Buildings and Properties.

June 16, 1976

Honorable Mayor and Members  
of the Lansing City Council

Re: Claim of Glenn Daiss for \$85.00 when  
he snagged his coat on a chair at  
the Civic Center

Dear Mayor and Council:

Recently the claim of Glenn Daiss for  
damages in the amount of \$85.00 was re-  
ferred to this office. On April 11, 1976 Mr.  
Daiss attended the Cabaret at the Civic  
Center. His suit coat caught on a folding  
chair and was ruined.

He reported the incident immediately  
thereafter to the office at the Civic Center  
which confirmed that a burr was on the  
chair.

It is the recommendation of this office  
that the claim be denied because of the  
City's immunity pursuant to MCLA 691-  
1407; MSA 3.996(107). The Civic Center  
constitutes a governmental function in that  
it does not generate a profit. See Smith  
v Board of Commissioners of Huron-Clinton  
Metropolitan Authority, 49 Mich App 280;  
212 NW 2d 32 (1973).

Respectfully submitted,

PETER HOUK,  
City Attorney.

By Councilman McKane—

That we concur in the recommendation of  
the City Attorney and said claim be denied.

Carried.

June 17, 1976

To the Honorable Mayor  
and Members of the Council  
Gentlemen:

I am hereby submitting special assessment  
Roll No. 16-B, actual cost, for the purpose  
of sidewalks built in various sections of  
the City of Lansing.

To Be Assessed—100% ————— \$3,904.80

Respectfully submitted,

PAUL S. CREEVY,  
City Assessor.

Received and placed on file.

Honorable Mayor and  
Members of the City Council

Lansing, MI

Gentlemen:

As directed, an inspection of the Wash-  
ington Square Annex was completed by the  
Building Department to determine the ex-  
tent of code violations which exist and to  
make additional recommendations concern-  
ing the safe and efficient use of the building.

To determine code requirements for the  
vacant portions of the building, the follow-  
ing assumptions were made:

- (1) That the fourth floor will be used for  
storage or general office.
- (2) That the first floor will be used for  
general office, retail, or restaurant/  
bar.
- (3) That the south half of the lower level  
will be used for general office or  
storage.

The below listed comments are a result  
of inspections made by the respective divi-  
sions of this Department.

#### Building Exterior

- (1) Exterior masonry surfaces appear to be  
sound with the exception of the south  
party wall which projects above our  
roof line. This wall requires repoint-  
ing, replacement of deteriorated ma-  
sonry, and the application of a sealing  
material such as silicone, which will  
reduce deterioration of mortar and ma-  
sonry, and will prevent water from  
getting behind flashings in this area.  
Mr. Clay indicated that this work is  
in progress and will be accomplished  
as a maintenance item by his personnel.
- (2) The north roof and flashing system  
have been repaired, however, the roof  
is old and should be carefully inspected  
at least twice a year to insure that all  
problems that may develop are cor-  
rected as soon as possible.
- (3) The upper south roof has been replaced  
under the restoration contract and is  
in good conditions. A roof sump, visi-  
ble from the fourth level, appears to  
have been leaking for a long time. As  
I understand, this item was corrected  
when the roof was replaced.

#### Fourth Level (unfinished area containing one toilet room and used for limited stor- age)

- (1) Requirements based on area being used  
as an office:
  - a) Barrier Free toilet facilities.
  - b) New lighting system and outlets as  
required to meet occupancy needs.

- c) Emergency lighting.
  - d) Adequate heating, ventilating, and air conditioning system.
- (2) Continued or expanded use as a storage area:
- a) Repair damaged incandescent light fixtures as required.
  - b) Repair and clean existing toilet fixtures. (Provide vacuum breaker on urinal.)
  - c) Insure that access panels in north wall are clear.

### Third Level (offices)

- (1) Replace several ballast in existing light fixtures. Insure that in-line fuses are maintained within each light fixture.
- (2) Provide additional outlets within respective areas of floor to meet use requirements.

### Second Level (offices)

- (1) Replace several ballast in existing light fixtures. Insure that in-line fuses are maintained within each light fixture.
- (2) Adjust door closer on door at first stairway.

### First Level (vacant—south half of this floor is sprinkled)

- (1) Requirements based on two occupancies (offices and bar/restaurant) with east-west separation wall in center of floor:
  - a) Separation wall shall be of one hour fire resistive construction.
  - b) Maintain two means of egress from each area.
  - c) Provide adequate heating, air conditioning, and ventilation to respective areas. We believe that there is presently adequate make-up air within the present system to handle a bar or restaurant operation. This would have to be confirmed based on specific design requirements of equipment to be installed.
  - d) If gas is not available to operate cooking and other equipment associated with a restaurant/bar, then additional electrical power may be required.
  - e) Barrier Free toilets will be required for the respective occupancies.
  - f) Provide new lighting, electrical outlets as required, and emergency lighting.
  - g) Cover exposed steel with material suitable for one hour fire protection.

- h) Remodeling existing east wall to provide separate entrances.

- (2) Requirements based on the entire floor being used as an office without a one hour separation wall as described above:

- a) North half of area will require sprinkling or a one-hour separation must be provided around stairway.
- b) Barrier Free toilet facilities required.
- c) See (b), (c), and (g) above.

### Lower Level (north half offices, south half vacant)

- (1) Requirements based on office use (south half):

- a) Replace existing light fixtures. Code would only require that they be safely maintained, however, based on experience in this building, it is recommended that they be replaced.

- b) Provide emergency lighting.

- c) Provide electrical outlets based on anticipated need.

- d) If first floor is separated from the lower level by enclosing stairway as described in first floor remodeling, then existing exhaust system will have to be modified to provide exhaust for the south half of the lower level. Two air changes per hour would be required.

- e) If stairway is not separated from the first level, then a smoke curtain must be provided.

- (2) Requirements based on use as a storage area (south half):

- a) Maintain all existing light fixtures in a safe condition. Insure that in-line fuses are provided. Replacement of fixtures in this area, in our opinion, is not necessary because present lighting exceeds requirements for a storage area. Therefore, inoperative fixtures can be removed without effecting use of this area.

- (3) Existing offices (north half):

- a) Replace defective ballast.
- b) Install vacuum breakers on janitor's service sink.
- c) Adjust/alter present ventilating system to provide additional air within this area.
- d) Repair broken toilet seats, repair or replace defective flash valves.

### General Comments

- (1) **Electrical System:** An electrical load check should be made starting at the

service equipment to insure that we have a balanced system and to determine the exact load that is presently being placed on the existing system. This information will be helpful in determining if a problem exists concerning providing adequate power for the restaurant/bar if gas is not available.

- (2) **Heating, Ventilating, and Air Conditioning Systems:** Based on information available to this office, there is adequate capacities within these systems to meet comfort requirements within the building. There is, however, a need to balance the air distribution system. Work will include adjusting, replacing, and calibrating controls, and altering and adding to distribution system as required.

There has been significant progress made; however, there are still some problems that need to be corrected. I would add that this is not an unusual situation when considering the change in use that has taken place in this building. Should additional information be required concerning this matter, please advise.

Respectfully submitted,

JAMES W. KZESKI,  
Building Commissioner,  
City of Lansing.

Referred to Committee on Buildings and Properties.

Honorable Mayor Gerald W. Graves and  
Members of Lansing City Council  
Tenth Floor, City Hall  
Lansing, Michigan 48933  
Dear Mayor and Council Members:

Reference is made to the eight (8) 1976-77 Fiscal Year contracts for the Human Resources Department that appear on the City Council agenda for Monday, June 21, 1976. At a special meeting held on Monday, May 24, 1976, the Human Resources Advisory Board approved for forwarding to City Council the following contracts:

- PN 118—Comprehensive Substance Abuse Program
- PN 121—Northside Athletic and Recreation Club
- PN 131—Youth Development Corporation
- PN 182—Girl Scouts Programs
- PN 183—American Red Cross (Emergency Shelter)
- PN 184—Child Abuse and Neglect
- PN 186—Alternative Education
- PN 217—Community Health Services

In addition to the above second-year contracts, also, in that meeting the Board approved forwarding a contract amendment to PN 118—Comprehensive Substance Abuse Program which appears on this same agenda.

A contract amendment appearing on Monday's agenda for the Youth Development Corporation was approved for forwarding to City Council in the regular meeting held on June 2, 1976.

We hope this will assist you in your decision making on these contracts. If there are any questions regarding these items

please do not hesitate to call the Human Resources Department.

Sincerely,

(Mrs.) JACQUELINE WARR,  
Director,  
Human Resources Department.

Referred to Community Development Committee.

Development.

Referred to Committee on Community Development.

June 16, 1976

Honorable Mayor Graves and  
Members of City Council

Gentlemen:

The Traffic Board at their June meeting elected the following officers for the 1976-1977 fiscal year. Chairman, Mr. Robert A. Rigotti; Vice-Chairman, Mr. James E. Person. Both were elected by unanimous ballot.

Respectfully submitted,

LANSING TRAFFIC BOARD,  
Raymond O. Severy,  
Secretary.

Received and placed on file.

Lancan Village No. 2 and No. 3

Preliminary Plat

Honorable Mayor and

Members of City Council:

The Planning Board will hold a public hearing on July 6, 1976 at 7:30 p.m. at the Harry Hill High School Auditorium, 5815 Wise Road on a proposed subdivision known as Lancan Village No. 2 and No. 3. This is not a matter of rezoning.

The property under consideration consists of approximately 13.72 acres and is located east of South Washington Avenue (west of Village Drive) and north of Northrup Street, City of Lansing. The subdivision proposed by Geert D. Mulder and Sons, Incorporated consists of forty-nine (49) lots, average size being approximately 8,146 square feet. The proposed use of these lots is for single family homes. Present zoning of the site is "A-1" Family Residential District. Access to the proposed subdivision will be from Village Drive, Northrup Street and Sunrose Avenue.

This notification is in accord with Section 37-8 of the Lansing Subdivision Regulations. Plans are on file in the Planning Office for your review.

You are cordially invited to attend this hearing.

Sincerely,

ALAN E. TUBBS,  
Planning Director.

Received and placed on file.

Z-33-72B

Honorable Mayor and

Members of City Council:

The Planning Board will hold a public hearing on July 6, 1976 at 7:30 p.m. in the auditorium of Harry Hill High School, 5815 Wise Road, Lansing for a proposed amend-

ment to a Community Unit Plan known as Oak Park Village.

The Community Unit Plan as approved calls for the development of 197 townhouses north and west of Long Boulevard. The proposed amendment by Gordon Long calls for:

- 28 Townhouses
- 88 One-bedroom apartments
- 88 Two-bedroom apartments
- 1 Maintenance building
- 1 Play lot

a total of 204 units. The property in question contains approximately twenty-one (21) acres, having public street access from South Cedar Street and Willoughby Road.

This request is made in accordance with Section 36-7 of the Zoning Ordinance. Plans are available for review in the Planning Office.

You are cordially invited to attend this hearing.

Sincerely,

ALAN E. TUBBS,  
Planning Director.

Received and placed on file.

BP-1-76

Frاندora Hills No. 1—Outlot B

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the request by Frاندorson Properties, represented by Donald A. Hines, to convey back to it the parcel of land described as Outlot B of the Plat of Frاندora Hills No. 1, City of Lansing, Ingham County, Michigan, be approved providing that the property is used for single family use, in accord with the Zoning Code.

The Board found, based on testimony and evidence, that the parcel of land which was one set aside for street purposes for the further development of Frاندora Hills to the north was no longer valid. It was found that the land to the north, with the exception of two long, narrow strips has now been developed with residential dwellings.

Based on the changing land use conditions and the existing development in the vicinity, the Board does not believe that it is necessary to retain this property for future extension of public or private streets.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

SUP-4-76

3408-3410 Davidson Drive

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the request by John and Barbara Haslem for a Special Use Permit which would allow the operation of an Adult Foster Care facility for the mentally retarded at 3408 and 3410 Davidson Drive be denied.

The Board found, based on testimony and evidence, that the Community Mental Health Department had not made any attempts to work directly with this area of the community with the idea of providing information beforehand which could possibly influence the general attitudes of residents within the area. Additional discussion revolved around the limited off-street parking spaces and the possibility of parking being inadequate if any of the residents were to have their own vehicles.

The Board did not have time to table this Special Use Permit to attempt to work out these problems because of the forty-five (45) day time period established by City Ordinance for Board action.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

By Councilman Baker (Belen)—

That this be referred back to the Planning Board for a public hearing to be held on July 20, 1976.

Carried.

Charles Trombly of 3418 Davidson asked if the residences could be notified about the public hearing.

Woodglen Subdivision No. 1

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the peti-

tion by Bert L. Smokler Company to re-zone property in Woodglen Subdivision No. 1 from "CUP" Community Unit Plan to "A-1" Family Residential District be approved.

This approval was subject to the land being subdivided in accord with the Michigan State Plat Act and the Lansing Subdivision Regulations and that the subdivision of land exclude lots which would have direct access to Edgewood Boulevard and eliminate any further public street access to Edgewood Boulevard other than Longmeadow Boulevard.

The Board believes that this would retain the intent for which Edgewood Boulevard was designed. The Board found that this proposed change of zoning was in keeping with the intent of the Master Land Use Plan and would promote land development compatible with development existing in the vicinity.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Z-22-76

3621 Duncel Road

Honorable Mayor and  
Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the request by Joe D. Pentecost to change the zoning at 3621 Duncel Road from "A-1" Family Residential District, "E-2" Drive In Shop District, and "D-1" Professional Office District to "F" Commercial District be approved.

This approval was given providing that; (1) A landscape and screening plan be submitted for approval to the Planning Department. Said plan should reflect fencing along the north line of this property that would be in keeping with the permanent open space. The Board suggested the possibility of a split rail fence, and (2) The trash bins be located to the northwest corner of the site.

The Board believes that the proposed use is in keeping with the Forest View Master Plan and with proper review of the site plan, the change should not adversely affect adjacent properties.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

116 Horton Street

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the request by the Medical Credit Union, represented by Janice Williams, Manager, to rezone property at 116 Horton Street from "B-1" Family Residential District to "J" Parking District be approved.

This approval was based on the site plan submitted and designed by the Community Design Center dated April 1, 1976. It was further recommended that the open spaces indicated in the plan be landscaped in such a manner that it provides a screen for the adjacent residential homes. Said screening plan shall be subject to the approval of the Planning Department.

The Board believes that this change will promote development in keeping with the overall strip commercial development along East Michigan Avenue and will alleviate much of the congestion on the adjacent streets, which results from on-street parking.

This recommendation was by unanimous (7 yeas, 0 nays) vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Z-24-76

1100 Ramada Drive

Honorable Mayor and

Members of City Council:

The Planning Board, at their meeting of June 15, 1976, recommended that the request by the Bradford Scott Corporation, represented by Robert T. Elliott, to rezone property in the 1100 block of Ramada Drive from "A-1" Family Residential District to "G-2" Wholesale District be approved.

Approval was given subject to the land being subdivided in accord with the Michigan State Plat Act and the Lansing Subdivision Ordinance; and that an overall site plan is submitted to and approved by the Planning Department prior to the issuance of Building Permits. Said site plan shall reflect the necessary off-street parking circulations, location of buildings, and a detailed landscape, screening and fencing plan. Said site plan shall also be subject to review and approval by the Traffic Engineer and the Fire Marshal.

The Board found that the change of zoning was not in accord with the Miller Marscot Plan, which shows this area being set aside for medium density residential ranging from seven to twelve (7-12) dwelling units per acre. The Board, however, believes that the change of zoning and the use proposed can be developed so as not to adversely affect the existing development in the vicinity or jeopardize the validity of the overall plan.

The Board found, based on testimony and evidence, that the Mudd Lake Drain borders on the easterly edge of the subject property and provides for an eighty feet (80') strip of open space by way of a sewer easement and, therefore, physically separates the proposed development from the existing residential development lying to the east. Also along the east line of the property there is as fifty feet (50') wide Consumers Power right-of-way that further adds to this physical barrier between the two unrelated uses.

In terms of access to the property, the extension of Ramada Drive as proposed would not link up with any of the existing residential streets to the east. If the area had developed in a residential nature, there was proposed in the Master Plan the extension of Waycross in a northwesterly direction to Miller Road which would integrate the entire residential community. With the proposed warehouse development, this would not be encouraged.

This recommendation was by a 6 yeas, 1 nay vote.

Sincerely,

ALAN E. TUBBS,  
Secretary,  
Lansing Planning Board.

Referred to Committee on Planning.

Honorable Mayor Pro-Tem and Members  
of the Lansing City Council

Tenth Floor, City Hall

Lansing, Michigan

Dear Mayor Pro-Tem and  
Council Members:

Presently, you are considering altering the present street lighting policy of the City. Attached please find a copy of the Street Lighting Policy adopted by the Board of Water and Light on December 10, 1973. Inasmuch as my Executive Assistant, Robert B. Black, presented you with a visual aid and statistical presentation of this policy on Monday, June 14, 1976, following the regular afternoon Committee of the Whole Session, I feel it is unnecessary to belabor the point further in this communication.

So that you might be better informed as to the activity of the Board of Water and

Light as it affects the Street Lighting Program to date, the following information is submitted for your evaluation.

#### A. Number of Street Lights In Operation:

1. Incandescent Series Boulevard (Residential Area)	1,566
2. Incandescent Multiple Boulevard (Residential Area)	3,461
3. 175 Watt Mercury Vapor Post Top (Residential Area)	1,470
4. 175 Watt Mercury Vapor-Mast Arms attached to existing wood poles (Residential Area)	4,986
5. 400 to 1000 Watt Mercury Vapor on 27 to 32 foot concrete standards (Major and Collector Streets in Commercial and Industrial Areas)	2,452
6. 400 Watt Mercury Vapor-Mast Arms attached to existing wood poles (Major and Collector Streets in Commercial and Industrial Areas)	2,079
	<hr/> 16,014

You will further note in the last paragraph of the Board adopted Street Lighting Policy, it is stated that luminaries will be mounted on existing wood poles wherever possible as compared to indiscriminately utilizing concrete or metal poles. This was an extremely wise decision on the part of the Board of Water and Light, as the cost of installing Mercury Vapor lights on existing wood poles is approximately \$200 as compared to a cost of approximately \$1,000 for installation of this same type of lighting on concrete Post or High Profile type standards. This means that the Board of Water and Light saved its ratepayers 2.5 million dollars between 1969 and the present, by utilizing existing wood poles rather than installing new concrete standards. This figure can be easily computed by taking the \$800 differential times the number of installations made on existing wood poles.

I would further point out that using this same formula, the number of 175 watt Mercury Vapor lights installed in previously unlighted or underlighted residential areas, would have cost the Board's ratepayers an additional 1.5 million dollars for installation of these lights on 14 to 15 ft. concrete standards.

In the area of the Incandescent Series Boulevard and Incandescent Multiple Boulevard residential lighting, there are only 1,644 remaining in residential areas scheduled for replacement with 175 watt Mercury Vapor lights. It is my recommendation that this be accomplished over the next five year period by following the present procedure of affixing them to existing wood poles with a Mast Arm.

In addition to the foregoing I would point out to you that the annual cost to the City for operating and maintaining the existing street lighting system amount to \$1,050,000

and Board of Water and Light's Annual Capital Budget for additions and/or modernization of Lansing's street lighting system is \$400,000.

Finally, to clarify the Board's present inventory of light types, please be advised that there are only three being carried in stock. Specifically they are the Post type-Mercury Vapor (low profile), Mast Arm-Mercury Vapor and High Profile. All of these types can be adapted to installation on either existing wood poles or concrete poles. An adequate selection of approved light styles is also available.

I would remind you that the Charter of the City of Lansing, Section 7.18, page 24, clearly assigns the complete and full responsibility to the Board of Water and Light for all electric services and the supply and distribution of electric light and power for the City of Lansing. It would, therefore, be my recommendation that any contemplated changes, in or alterations to, the City's present lighting policy or services be discussed with the appropriate members of the Board of Water and Light and the Administrative Staff, of the Board.

Sincerely,

GERALD W. GRAVES,  
Mayor.

Referred to Committee on Planning.

Honorable Mayor Pro-Tem and  
Members of the Lansing City Council  
City Hall  
Lansing, Michigan  
Dear Mayor Pro-Tem and  
Council Members:

On Monday, June 14, 1976, Councilman Robert Hull led off discussion which pertained to the problems prostitutes were creating for the East Side residents. Each of you agreed that "something" has to be done. Therefore, I offer for your study, and hopefully your adoption, the following from the New York Vagrancy Statute (C.C.P., Sec. 887, subd. 4):

"A person (a) who offers to commit prostitution, or (b) who offers to secure another for the purpose of prostitution, or for any other lewd or indecent act; or (c) who loiters in or near any thoroughfare or public or private place for the purpose of inducing, enticing or procuring another to commit lewdness, fornication, unlawful sexual intercourse or any other indecent act; or (d) who in any manner induces, entices or procures a person who is in any thoroughfare or public or private place, to commit any such acts; or (e) who receives or offers or agrees to receive any person into any place, structure, house, building or con-

veyance for the purpose of prostitution, lewdness or assignation or knowingly permits any person to therefor for such purposes; or (f) who in any way, aids or abets or participates in the doing of any of the acts, or things enumerated in subdivision four of section eight hundred and eighty-seven of the code of criminal procedures; or (g) who is a common prostitute, who has no lawful employment whereby to maintain herself . . . is a vagrant."

In the past, "crackdowns" by the Lansing Police Department against prostitution have taken place, only to see it spring up in another area until the pressures hit again. It is almost a never ending process, but I am of the opinion that the aforementioned could provide to the Police Department another law enforcement tool with which to work. As in the past, I also recommend that a meeting be held involving the City Council, members of the Lansing Police Department and the members of the District Court for the purpose of discussing the overall matter, including the levying of maximum fines and penalties.

During the discussion at last Monday's Council Session, Councilman Richard Baker stated that "I think it is about time that we dealt with the males in the situation . . ." I wish to advise at this time that we have had female police officers active on the streets and in one evening alone 16 males were arrested. There have been others.

Sincerely,

GERALD W. GRAVES,  
Mayor.

## RESOLUTIONS

By Committee on Ordinance and Contracts and City Affairs—

Resolved by the City Council of the City of Lansing:

That the attached contract between the City of Lansing and Zambelli Bros. Fireworks Company for display of fireworks on July 2, 1976, be approved, subject to the required bonds and the permit from the City Clerk's office upon authorization of the Chief of the Fire Prevention Bureau, and further

That upon certification by the City Controller as to availability of funds and the approval of the contract by the City At-

torney, the Mayor and City Clerk be directed to sign the contract on behalf of the City of Lansing.

Adopted by the following vote:

Unanimously.

By Committee on Buildings and Properties—

#### APPLICATION TO WITHHOLD FROM SALE

Whereas, the following described land(s) in Ingham County,

E. 33.65 ft. Lot 5, Block 157, City of Lansing — 115 E. St. Joe,

were deeded to the State of Michigan on the 4th day of May 1976 through nonredemption from the county treasurer Oct. 7, 1975 tax sale.

Whereas, said lands are now under the jurisdiction of the Department of Natural Resources and may be withheld from the first sale at which they are scheduled to be offered for the purpose of redemption on behalf of the former owner as provided for in Section 131c of Act 206, Public Acts of 1893, as amended.

Now Therefore Be It Resolved by the City of Lansing that application is hereby made to the Department of Natural Resources to withhold said lands from sale, and,

Be It Further Resolved that said City of Lansing does hereby authorize the county treasurer to collect all delinquent taxes on said lands if application is made by the owner thereof during the period for which said lands are withheld from sale by this application.

#### CERTIFICATION

I hereby certify that the above is a true and correct copy of a resolution offered and adopted by the City of Lansing on the 21st day of June, 1976.

THEO FULTON,

Clerk of Lansing,  
9th Floor, City Hall,  
Lansing, Michigan.

Adopted by the following vote:  
Unanimously.

By Committee on Buildings and Properties—

#### APPLICATION TO WITHHOLD FROM SALE

Whereas, the following described land(s) in Ingham County,

Lot 69 & W. 10 ft. Lot 70; also Com. NW cor. Lot 69, th N. 10 ft.,

E. 40 ft., S. 10 ft., W. 40 ft., to beg;  
(1142 Hyland) Charles Kudner's Subd.,

were deeded to the State of Michigan on the 4th day of May, 1976 through nonredemption from the county treasurer Oct. 7, 1975 tax sale.

Whereas, said lands are now under the jurisdiction of the Department of Natural Resources and may be withheld from the first sale at which they are scheduled to be offered for the purpose of redemption on behalf of the former owner as provided for in Section 131c of Act 296, Public Acts of 1893, as amended.

Now Therefore Be It Resolved by the City of Lansing that application is hereby made to the Department of Natural Resources to withhold said lands from sale, and,

Be It Further Resolved that said City of Lansing does hereby authorize the county treasurer to collect all delinquent taxes on said lands if application is made by the owner thereof during the period for which said lands are withheld from sale by this application.

#### CERTIFICATION

I hereby certify that the above is a true and correct copy of a resolution offered and adopted by the City of Lansing on the 21st day of June, 1976.

THEO FULTON,

Clerk of Lansing,  
9th Floor, City Hall,  
Lansing, Michigan.

Adopted by the following vote:

Unanimously.

By Committee on Public Service and Highways—

Resolved by the City Council of the City of Lansing:

Whereas, the Public Service and Highway Committee, have requested that the amount of \$432.00 be removed from Roll No. 7-K (Demolition Charge).

Whereas, the property involved is described as:

Permanent Parcel No. 3301-10-126-071-5 Lot 78 & Com. SW cor. Lot 78 th W. 10 ft., N. 33 ft., E. 10 ft., S. 33 ft., to beg; Highland Park, City of Lansing.

Whereas, this property belongs to Natural Resources as of 1976 and they are not obligated to pay special assessments.

Now, Therefore, Be It Resolved that the amount of \$432.00 be removed from Roll No. 7-K.

Adopted by the following vote:

Unanimously.

By Committee on Ordinance and Contracts and City Affairs—

Resolved by the City Council of the City of Lansing:

Whereas, unleased tables at the City Market were auctioned on May 6, 1976; and

Whereas, two persons, Roger Kropf and Dean Sova, bid on one table, table No. 74, that table being the last to be auctioned; and

Whereas, immediately after Mr. Kropf's bid of \$1,425.00 for a yearly lease had been accepted by the City and a contract entered into, two additional tables suddenly came up for bid; and

Whereas, the two additional tables went to Dean Sova for \$485.00 each for summer seasonal leases; and

Whereas, Mr. Kropf has offered \$950.00 as a more equitable amount for table No. 74; and

Whereas, Wesley Dunham, Market Master, believes it just and equitable for the contract price on table No. 74 be reduced to \$950.00 because of the circumstances surrounding the auction of that table; now, therefore, be it

Resolved, that the price on table No. 74 be reduced to \$950.00.

Adopted by the following vote:

Unanimously.

By Committee on Parks and Recreation—

Resolved by the City Council of the City of Lansing:

Whereas, the Program Coordinator's Office has been advised that certain monies are available from the Federal Department of Interior through the State of Michigan History Division of the Department of State; and,

Whereas, receipt of these monies will permit the City of Lansing to further the restoration and rehabilitation of the North Lansing Historic Commercial District; and,

Whereas, cost for the City match share of these funds could be provided by Community Development Innovative Grant funds;

Now, Therefore, Be It Resolved that the Program Coordinator be authorized to submit two grant applications to the Michigan History Division, Department of State; one for assistance in rehabilitation and restoration of Commercial Buildings and the second one for improvement of the streets, sidewalks and street lighting; and,

Be It Further Resolved that the Mayor be directed to sign all necessary application forms and subsequent contractual documents relating to these grants upon approval by the City Attorney as to form.

Adopted by the following vote:

Unanimously.

By Committee on Public Safety—

Resolved by the City Council of the City of Lansing:

Whereas, the City of Lansing receives Gas Tax monies for construction and maintenance of city streets, and considerably more money is received for major streets than for local streets; and

Whereas, Act 51 of the Public Acts of 1951, as amended, (Section 6, etc.) provides that the State Highway Commission "shall approve such part of (the) system of major streets as complies with uniform standards and specifications adopted and established . . . and shall reject and delete any part that does not so comply . . ."; and

Whereas, in the interest of providing a major street network throughout the state that will serve as those city or village streets of the greatest general importance to the municipality and effectively and safely serve the traveling public, Major Street Criteria, which set forth minimum standards for both existing and future major streets, have been adopted and established by the State Highway Commission; and

Whereas, streets in the major street system in the City of Lansing must be brought into conformance with these criteria within a five-year period or be deleted from the system;

Now, Therefore, be it resolved that the attached plan to revise parking restrictions on various major streets be implemented in stages with complete implementation to occur by March 1, 1981.

By Councilman Baker—

The resolution be amended by: deleting streets on attached list 11-13-14-18.

By Councilman Hull—

That the resolution be further amended by deleting streets on the attached list 5-6 and 20.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Gunther, Hull—4.

Nays: Councilmen Adado, Belen, Brenke, McKane—4.

By Councilman Baker (Blair)—

That this be referred back to the Committee on Public Safety.

Lost by the following vote:

Yeas: Councilmen Baker, Blair, Gunther, Hull—4.

Nays: Councilmen Adado, Belen, Brenke, McKane—4.

The resolution was adopted by the following vote:

Yeas: Councilmen Adado, Belen, Brenke, Gunther, McKane—5.

Nays: Councilmen Baker, Blair, Hull—3.
